METEOROLOGICAL REPORT.

Table with columns: Pacific Coast Time, BAR., Temp., Rel. Hum., D. r. Wind, State of Weather. Includes data for 8 A. M., 3 P. M., and daily averages.

Maximum temperature, 61; minimum temperature, 35. Total precipitation from July up to date, 6.59; average precipitation from July to date, 12.13; average deficiency from July 1st to date, 5.45.

WEATHER PROBABILITIES.

THE DALLES, April 11, 1891. Weather forecast till 12 m., Monday; fair weather, followed by light rain.

The Chronicle is the Only Paper in The Dalles that Receives the Associated Press Dispatches.

LOCAL BREVITIES.

Meeks of Mosier is in town. S. G. Roberts has returned to the city. T. M. Thompson of Dufur and S. M. Meeks of Mosier are in the city. Dr. Logan returned from a professional visit to beyond Shearer's bridge today. The dining room of the New Columbia hotel is being newly painted and calso-mined. Surveyor Norton has got as far as Tygh Valley and continues to report an excellent and easy grade. The committee authorized to let the contract for the new boat after fulfilling their mission returned to The Dalles this morning. The druggists of this city have unanimously agreed to close their stores on Sundays from one to 5 o'clock p. m. unless called upon for medicine prescribed by a physician. School district No. 8 at Mosier is having some trouble over the question of a division of the district. Superintendent Shelly is trying to adjudicate on the equities of the case. Henry Van Asslet, late of Hood River now of Seattle, has given a bond for a deed for his property in Hood River, to James Christian Nestergard in the sum of \$2300. The committee of The Dalles, Portland and Astoria Navigation Company which was authorized to let the contract for the new boat returned from Portland this morning. It is already well-known that the contract has been let and that the boat will be finished in one hundred days. The Portland Catholic Sentinel is pleased to say: Whoever it is doing editorial work on The Dalles Chronicle is all right when it comes down to splendid diction. Were it not immodest we would say "there are no flies on the Chronicle." At Mrs. Booth's funeral, yesterday, O. C. Stevens lost his cane. It is of man-sinita wood, polished ivory handle with silver band, marked O. C. S. The old gentleman sadly misses the help the cane afforded him and will feel deeply grateful to the finder if he return it to this office, or to himself. Next Monday the tax payers of The Dalles will decide the question of bonding the city for a further indebtedness sufficient to complete the water system now in progress of construction. The necessity for voting in favor of the measure requires no argument here and the election can have but one result; the measure will pass. C. E. Bayard brought into this office today an egg which he vows was laid by a hen belonging to the "bald-headed" Cochon variety, the property of C. W. Dietzel. It measures 7 3/4 by 9 3/4 inches. The foreman of the Chronicle says it looks like the "lay of the last minstrel." The agricultural editor thinks it is a goose egg. Charley Bayard says it is a hen's egg. The horse editor thinks it is an egg and knows that the measurements given above are eggs-actly correct. If any "bald-headed" rooster in Oregon can beat it let him now crow. A meeting of the directors of The Dalles, Portland & Astoria Navigation Co., was held in this city today. The committee which was charged with the duty of letting the contract for the building of the new boat reported that they had let the contract to Paquet & Smith, of Portland, for \$25,000, to be finished on or before the first of August next. The boat must have a speed of not less than fifteen miles an hour and shall give proof of this capacity before being approved by the company. The boat is to be built on the Columbia river at any point from the Cascades to The Dalles inclusive. Four beautiful bicycles of the "New Mail" variety arrived at the express office this morning for the following persons: one for E. B. McFarland, one for Vard McFarland, one for Dr. Tucker, and one for Carl Tucker. Willie Crossen the enterprising young agent of the Portland Telegram has one en route from the east of the "Ideal Rambler" persuasion. The next thing in order will be bicycle clubs and bicycle races and "bucking bicycles, and broken shins and scratched cuticles," but the new bicycles are beauties, nevertheless, and will afford lots of fun and healthy enjoyment for their owners. To the Public. Notice is hereby given that all the barber shops of The Dalles will be closed in future on Sundays.

THE PRESIDENT COMING.

He Will be at The Dalles May 7th at 11 O'Clock.

WHAT WE HAVE TO SHOW HIM.

President Harrison and party will pass through The Dalles going east on Thursday, May 7th, at the hour of 11 o'clock a. m. It will be in order for our civic and military organizations to take measures to give the party a fitting reception. An effort will be made to have the party stop over a few hours to view some of our natural curiosities. It will be well worth a trip to the Pacific coast to see the only person now living who, according to Barney Goldsmith, crossed the Columbia bar with Sir Francis Drake in the year 1576. Or the man who used to walk across the Columbia river on the backs of the salmon. Or the man who remembers the year when the river froze to the bottom, and when the thaw came in the spring the water ran for three months on top of the ice. Or the handsome lads of the O. N. G. and the gorgeous apparel of the drum major. Or the handsomest set of young ladies on the American continent. Or the signal service bureau at the corner of Second and Washington foretelling correctly eighty times out of every hundred what the weather is going to be. Or the Chronicle staff receiving the associated press dispatches and grinding out, on its new steam power Coitrell press, at the rate of thirty to the minute, the best newspaper in Eastern Oregon.

New Railroad Agent at This Station.

Mr. William R. Mackenzie, traveling auditor of the Union Pacific Co., has been in the city for the past day or two checking over the accounts of Mr. Alloway, preparatory to the transfer to Mr. E. E. Lytle, who succeeds Mr. Alloway here as agent.

Mr. Mackenzie says that the company is very sorry to lose the services of Mr. Alloway who has served them faithfully for many years, and regret that he has seen fit to sever the very pleasant relations existing between them.

Mr. Alloway is not going to leave our city, however, but will be associated with Messrs. McFarland & French.

Mr. Lytle comes well recommended, having been agent for the company at Hood River and is a very pleasant little gentleman.

Advertised Letters.

Following is a list of unclaimed letters remaining in the postoffice at The Dalles Oregon, April 10, 1891. Persons calling for same will please say "Advertised." Carder, Miss Clara Clark, James W. Carl, Dr A W Davidson, Bill Dyer, George Fisher, Chas Manett, Cuthbert McCown, A C O'Dell, J W Plaster, George Robinson, Mr M Vestig & Multun White, T W (3). M. T. NOLAN, P. M.

Miss Grubbs Will Recite.

In response to a general request Miss Grubbs has kindly consented to give a recitation at the entertainment tonight. It will occur between the operetta of Bo Peep and the posturing by the young and will surely be a drawing card. The calcium lights have arrived in full and Mr. Hollister is here to manage them and thus atone for his blundering in not sending them so they could be used at the last entertainment. We are assured that nothing will be lacking in any respect to make the entertainment a success.

Congregational Church Services.

At 11:00 a. m. tomorrow the pastor W. C. Curtis, will take as his subject "The mote in our brother's eye and the beam in our own." At the evening's service "Manhood's profit and Manhood's loss." Sunday School after the morning service. Christian Endeavor meeting at 6:30 p. m.

Forfeited Railroad Lands.

We are now ready to prepare papers for the filing and entry of Railroad Lands. We also attend to business before the U. S. Land Office and Secretary of the Interior. Persons for whom we have prepared papers and who are required to renew their applications, will not be charged additional for such papers. THORNBURY & HUDSON, Rooms 8 and 9, Land Office building, The Dalles, Oregon.

Real Estate Transactions.

Joel C. Johnson to Ellen S. Johnson, the west 1/2 of the northwest 1/4 of section 26 in township 1 north of range 15 east, 160 acres. Consideration \$1.

In conversation with Assessor Henrichs of this county, we learn that he is assessing real estate at 60 1/2 per cent, range cattle at \$9 per head; milk cows, \$15; range horses, \$25; machinery, 5% value; notes and accounts at their reasonable value, to be judged by the financial standing of the debtor. Mr. Henrichs will assess mortgages at their face or under.—Wasco Observer.

"Chicago has annexed so much territory that her citizens can go and shoot wild turkeys in the city limits." Same here as regards bigger game. Astorians can shoot bears without going outside the municipality that yesterday gave 639 majority for a sea-wall.—Astorian.

No truer, purer or safer association for farmers was ever organized than the Grange. Its principles and work have stood the test of time.

The total indebtedness of the United States, including both the interest bearing and non-interest bearing, is \$1,017,985,785.98.

Robt Rand, of Hood River, is registered at the Umatilla House.

The G. A. R. Encampment.

The annual encampment of the G. A. R., department of Oregon has met and adjourned. A new set of officers has been appointed and the department headquarters held in The Dalles for the past year is now removed to Portland with O. Summers of "Geo. Wright" Post No. 1, department commander. The past year has been the most prosperous of any in the history of this department. Seven new posts were organized and there was net increase of nearly 450 members as against 238 of the previous year. The order now numbers in this state 2300 members. It is very flattering to Ex-Department Commander James A. Varney and Ex-Department Quarter Master Gen. A. G. Johnson to note that during the year of their incumbency the G. A. R. experienced the largest increase hitherto, and that they were complimented by having organized the best encampment and produced the best reports of any previous year. Astoria did handsomely and nobly. At the banquet on Thursday evening a programme was arranged that would have lasted a week. As it was the proceeding did not end till a few minutes before their departure. At the parade Thursday the beautiful sight of 400 school children joined in the procession, together with five companies of O. N. G. Two government steamers were placed at their disposal and carried the happy crowd out to the end of the new jetty, one of them going outside the bar. Then they were placed on cars on the jetty and literally run "out to the sea" on a railroad. The encampment meets at Salem next year, and Salem will have to hustle to equal Astoria. The delegation from this post consisted of Department Commander J. A. Varney, Assistant Adgt. Gen. Myers and Mrs Myers, Assistant Quarter Master Gen. A. G. Johnson, C. of A. J. M. Patterson and Mrs Patterson and delegate J. R. Warner, of White Salmon.

Something Like a Suit of Clothes.

Henry Zang, of Toledo, was in Detroit a day or two ago, carrying concealed about his person one of the largest stories of the season. "I have just had a great load taken off my mind," he said. "Our firm has just completed what is probably the most extensive suit of clothes ever made. The suit was for John Craig, a farmer living near Millville, Ind., who claims to be the largest and heaviest man in the world. He is not a museum freak, but a quiet, law abiding citizen. His weight is 607 pounds, and forty-one single yards of cloth were required for his suit. The pantaloons took five yards. Mr. Craig's hip measures 8 feet 8 inches; waist measure 84 inches. He weighed only thirteen pounds at birth, but when 4 months old his weight had increased to 200 pounds. He is 35 years old and married, his wife weighing only 130 pounds.—Detroit Free Press.

Crossed Trousers Not Fashionable.

The crossed trousers have had their day. The lesser swells have just begun to emulate this fashion as it goes out of favor with the tip-toppers. The fact that various plebeian devices were resorted to to secure an imitation of the correctly crossed effect, as for instance by pressing the nether garments over night between the mattresses, bereft the fad of its exclusiveness to the minds of the swagger set, and when it latterly became noised about that one object of the cross fold was that the trousers would hold their shape longer, this was the final straw—for a true swell can never be at comfort when abroad with a badge of economy in his make-up. It is a curious fact that this peculiar tangent of fashion never was made manifest in the trousers of full dress—Clothier and Furnisher.

Successful Home Surgery.

The little 3-year-old daughter of Mr. Macon Gilliam, of Farmville, got a grain of corn lodged in the nose, and physicians, after fruitless endeavors to dislodge it, despaired and gave up further attempts. The anxious parents were preparing to take her abroad for treatment, but while the little sufferer was asleep the mother succeeded in getting the corn out after eight attempts by blowing through the child's mouth, as suggested recently by a correspondent from Amelia.—Richmond Dispatch.

Heart Beats After Decapitation.

In a criminal lately beheaded in France the beats of the heart were noted during more than six minutes, and experiments were made to demonstrate the independence of the ventricular and articular contractions. This is the first time such observations were ever made on man.—Current Literature.

The Calls of Society.

"Charles," said a Boston business man to his office boy recently, "you act today as if you were asleep. What is the matter with you?"

"Well, the fact is, Mr. Blank, I went to a full dress ball last night, and it tires a man awfully," answered the blase youth, over whose head the fifteenth winter is passing.—Boston Transcript.

Doctors Investigating Envelopes.

Doctors have investigated against the flap envelope which is used on some envelopes, and mishaps have been frequent as the result of dumping the gun on envelopes with the tongue. All possibility of such accidents is removed by the automatic lock envelopes which have been patented. On the flap of the envelope are two projecting flanges, and all that is necessary to do to close the envelope is to fold these flanges by ready stamped lines, and insert the flap through a slot provided, whereupon the folded flanges automatically lock themselves in the slot, and the envelope cannot be opened without tearing it. The operation sounds much more complicated than it really is in practice, for one of these new envelopes can be closed as readily as the better known gummed envelopes.—New York Telegram

Is Disease a Punishment?

The following advertisement, published by a prominent western patent medicine house would indicate that they regard disease as a punishment for sin: "Do you wish to know the quickest way to cure a severe cold? We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the system. This can always be done if you choose to, as nature in her kindness to man gives timely warning and plainly tells you in nature's way, that as a punishment for some indiscretion, you are to be afflicted with a cold unless you choose to ward it off by prompt action. The first symptoms of a cold, in most cases, is a dry, loud cough and sneezing. The cough is soon followed by a profuse watery expectation and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double doses every hour. That will greatly lessen the severity of the cold and in most cases will effectually counteract it, and cure what would have been a severe cold within one or two days time. Try it and be convinced." Fifty cent bottles for sale by Snipes & Kinersley, druggists.

The Best Cough Medicine.

"One of my customers came in today and asked me for the best cough medicine I had," says Lew Young, a prominent druggist of Newman Grove, Neb. "Of course I showed him Chamberlain's Cough Remedy and he did not ask to see any other. I have never yet sold a medicine that would loosen and relieve a severe cold so quickly as that does. I have sold four dozen of it within the last sixty days, and do not know of a single case where it failed to give the most perfect satisfaction." 50 cent bottles for sale by Snipes & Kinersley, druggists.

Notice to Tax Payers.

All state and county taxes, become delinquent April 1st. Taxpayers are hereby requested to pay the same before that date in order to avoid going on the delinquent list.
