## CLEVELAND TALKS.

He Airs his Views on Silver but will not Make them Public Until he can Revise Them.

President Harrison and Party Reach California—Baron Fava Will Now Make Rome Howl.

New York, April 22.—Ex-President Cleveland, who has had an opportunity to read his views yesterday on the silver question, said to the reporters on the subject this morning: "I have just read the report and it seems to me it has been generally embellished and expressions put into my mouth that were never uttered by me. While some opinions may be regarded as partly my views upon the subject of silver coinage, yet there are so many other expressions credited to me that it would require considerable weeding out before the supposed conversation could be strictly termed an accurate report."

### IN CALIFORNIA.

President Harrison and Party Enter that State.

INDIO, Cal., April 22.—The Presidential party entered the state of California at 4:50 o'clock this morning. The party was met here by governor Markham and staff, accompanied by an influential delegation. Governor Markham made an address of welcome, which was briefly responded to by president Harrison.

After a short stay governor Markham and party left in company with the president for Los Angeles.

### Parnell's Strengh Ridiculous.

LONDON, April 22.—The amendment by Nolan (Parnellite) to the Irish land bill was defeated, 202 to 5. Of the five, two voted yea by mistake. This exposure of Parnell's boast that his help would enable the government to pass the bill, created much merriment.

### DIED BY THEIR OWN HANDS.

A Young German Couple Found Locked in Each Other's Arms.

New York, April 20.—A young couple registered at the Grand Union hotel Sunday morning, as R. Behrt and wife, and were assigned a large room on the third floor. Tonight they were found dead locked in each others arms. They had employed the old familiar method of inhaling gas through rubber tubes held in the mouth. On the woman's breast was a large and beautiful bouquet, evidently purchased by the young man for the occasion. No one about the hotel knew who the couple were, but they were evidently Germans. They left four letters, two to Mrs. Muller, of 210 East Ninth street, and one to the coroner and the other to a woman in Williamsburgh. Mrs. Muller, to whom one of the letters was addressed, was seen tonight, but she refused to talk of the affair. She said she knew the couple and that the young man had registered his name correctly, but she gave the impression that the woman was not his wife.

### ANXIOUS TO COME.

Italians Will be Helped to Emigrate—Senseless Threats.

LONDON, April 20.—A Rome dispatch says that the government has agreed to give free passage to America to any of the informers and other witnesses in the Mala Vita prosecution that may desire it, and it is believed the offer will be gladly taken advantage of by all of them. Several witnesses who testified in the case have already reached Naples under police protection, and are undoubtedly awaiting the first chance to emigrate to the United States.

### THE VENDETTA INEVITABLE.

A Roman gentleman informed a London correspondent Friday that while he hated and despised the Mafia, he recognized that the vendetta was inevitable, and that the leaders in the American tragedy would die by violence sooner or later, though perhaps not for two or three years. He said that this was the chief reason in Italy for punishing murder with imprisonment instead of death, as vendetta had always followed the capital penalty.

### MISSING LINK FOUND.

The Contest of the Fremont Heirs for the Island of Alcatraz.

FINDLAY, O., April 20.—The missing link in the chain of title establishing General Fremont's claim to the island of Alcatraz, in San Francisco bay, was received today by W. R. Covert, of this city, who is one of the claimants under Fremont, he having furnished a part of the purchase money. This missing part of the title is in the form of a grant from the Mexican government to Plinio Temple, a man from whom General Fremont made the purchase. The United States government now has possession of this island and Fremont's heirs are suing for its value, which is estimated at about \$10,000,000.

### MATTERS POLITICAL.

#### Will Stick to Their Colors.

TOPEKA, April 20.—Levy Dumbauld, chairman of the farmers' alliance state central committee, in an address to the people, denies the assertion of President McGrath "that unless the farmers of the South deserted the democratic party, the farmers of the North would return to republican party." He said:

The people's party in Kansas is in the field to stay, and has no intention, under any circumstances, of abandoning the third party movement and returning to the old party lines. Its delegates will go to the Cincinnati convention for the purpose of assisting to organize the third party national campaign of 1892.

Corbett Thinks Jackson is Trying to Avoid a Meeting With Him.

SAN FRANCISCO, April 20.—James J. Corbett, who is matched to meet Peter Jackson before the California Athletic club May 21, has sent a communication to the press stating that he was given to understand that Jackson's forfeit of \$500 would be deposited, as was his (Corbett's) and he will claim the same from the directors if Jackson does not appear. He charges his opponent with carelessness in taking proper precautions to be in readiness for the match, and regrets very much that a likelihood exists for its postponement.

### He Drew His Father's Pension.

DES MOINES, Ia., April 20.—George S. Boone, the only remaining lineal descendant of Daniel Boone, was arrested by United States authorities and brought to this city for trial today. He is charged with pension frauds. Boone served in the confederate army, while his father was a Union soldier. The father is dead, and the son has for some time been drawing the pension allowed to the former. Boone has been living in a cave on the Des Moines river, about forty miles below this city.

### A Steamfitter Killed.

ST. PAUL, April 20.—The electric system of this city was paralyzed today by an explosion of an oil tank adjoining the St. Paul electric railway power house. A steamfitter who descended into the tank with a lighted candle was killed by an explosion of gas and set the tank on fire. One of the armatures in the power house at once burned out, thus stopping the system. The power house will probably be saved.

### Murdered by Treacherous Natives.

MARSHFIELD, April 20.—The latest mails from Madagascar bring the report that the Sakalavas, of Morrombo, massacred the governor of Tubear and fifty-seven Nova soldiers after the Sakalava king had promised the governor an audience. Thirteen Nova customs officials were also murdered. French gunboats are cruising along the Madagascar coast, waiting for Nova reinforcements.

### THE LEAGUE CONVENTION.

Tin Plate Samples Shown—A Letter from Harrison.

CINCINNATI, O., April 22.—At the League convention this morning a big box of American tin plate, forwarded by Congressman Neidringhaus of St. Louis, was placed on the stage and a lively scramble for possession of the brilliant souvenir followed. The secretary read several letters.

When a letter was announced from the president of the United States, the delegates cheered again and again and finally arose en masse, waving handkerchiefs and papers and cheering until the great hall reverberated with the enthusiastic outburst.

President Harrison regretted his inability to be present and said: "Conventions of the republican party and legislation of the last congress very clearly defined and very courageously presented the issues upon which the next contest must be waged. To these conventions and declarations I gave my assent and deep conviction and to the important legislation of the last congress my earnest support."

Hon. J. S. Clarkson, of Iowa, wrote: "The party at large looks to this convention today with eager interest. It will set up the standard of victory for 1892." John S. Clarkson was elected president, Andrew B. Humphrey, present secretary was re-elected.

### The Rebels are Winning.

BALTIMORE, Md., April 22.—Captain Pratt of the bark Onaway, which arrived from Galeta, Buenos Ayres says the rebels had everything their own way when he left there.

### San Francisco Market.

SAN FRANCISCO, April 22.—Wheat, buyer '91, 1.80.

### Whales and Barnacles.

Lighthouse Keeper Israel, who was in town a few days ago, says that the best exhibition of whales occurred right in front of the lighthouse the other day. Half a dozen whales of from thirty-five to forty feet in length were playing for an hour, or breaching, as whalers call it. This is running out of the water exactly as a fish does and falling back heavily on the ocean, so as to thrash off the barnacles that cover their under side. It is a flat barnacle, rayed in the gray and white streaks from a small central hole.

The variety of barnacle coming from colder northern waters "gets sick," in nautical phrase, in the warm southern waters where the whales come to breed, and are easily shaken off by a little effort. The captain said that the right whale never ventured into these waters unless heavily loaded with barnacles, when they would be shaken off by breaching. In the old whaling camp opposite Ballast Point, on North Island, whales have been found so thickly encrusted with barnacles that they have had to be skinned on the underside before a knife or spade could safely be used to cut up the blubber.—San Diego (Cal.) Union.

### Pussy's Way of Catching Birds.

A lady in Cincinnati has a wonderful cat named Dick, well known for its sagacity. She has been in the habit of taking crumbs from the table and shaking them on the ground outside, so that the birds could feast therefrom. The cat, meanwhile, would amuse itself, and at the opportune moment, pounce upon the bird and secure a seasonable meal. The good lady tried to break the cat of the habit, but her efforts were of no avail. She then resorted to other means, but with no success. At last she discontinued the practice of throwing out the crumbs for the birds. The cat, seeing that its daily meal was not forthcoming, entered the house, purloined a piece of bread from the table, scattered it over the ground at the accustomed feeding place, and awaited results behind a tree. Soon the birds appeared and the cat secured one of the sparrows.—Cincinnati Enquirer.

### Gray Hair Honorable.

Next to baldness the loss of color in the hair is dreaded, but of late years gray hair has become so fashionable that this is not considered a detriment. The fact is many put poison on their hair to make it change in color, and then when gray hair goes out of fashion they have to resort to hair dress to give it any other color. If the hair once gets gray it always remains so, and if this occurs through the natural process of nature there is no reason to regret it, or anything to be ashamed of. A fine head of gray hair is always a crown not to be despised. If it is obtained through hard work, mental study and thinking, it is not to be regretted; but if caused by premature decay, disease or carelessness, the owner may well regret it.—Yankee Blade.

clearly evinced by the fact that they elected Mrs. W. D. House as city superintendent of their public schools. Thereupon some of the gentleman professors resigned. It is said, however, to the honor of Mrs. House, that she fills the position in a highly satisfactory manner, and reflects credit upon the action of the board whose judgment placed her in this official position. All who have taught under her regime regard her as an efficient superintendent, kind and helpful to the teachers, by whom she is greatly beloved.—Woman's Chronicle.
