THE SUGAR BEET.

The efforts now being made by the state Agricultural College to test the capacity of Oregon soils for the producthis section. We have an impression equal the demand during the lifetime of might be so. any person now living. In the year 1889 this country imported 2,762,202,967 pounds of sugar at an average cost per pounds of sugar at an average cost per by a prominent western patent medicine pound, in the countries from whence it house would indicate that they regard was imported of 3.21 cents a pound.
The entire production of Louisiana amounted to 324,526,781 pounds. The duty alone on the imported sugar amounted to 324,526,781 pounds. The duty alone on the imported sugar amounted to 324,526,781 pounds. The duty alone on the imported sugar amounted to 324,626,781 pounds. The duty alone on the imported sugar amounted to 324,626,781 pounds. ted to \$54,896,437. During the same ted to the cold has become settled in the system. This can always be done if you choose to, as nature in her kindness, while the domestic product and plainly tells you in nature's way, mollasses, while the domestic product was 5,347,960 gallons. In 1890 this country sent to Germany in round numbers 16 million dollars for sugar produced from beets which might just as well have been raised here and the money kept at home. The last session of congress took special action to encourage the beet sugar industry by passing a law to pay a bounty of two cents a pound to the sugar manufacturers for an indefinite period of time. This bounty is estimated and plainly tells you in nature's way, that as a punishment for some indiscretion, you are to be afflicted with a cold unless you choose to ward it off by prompt action. The first symptoms of a cold, in most cases, is a dry, loud cough by a profuse watery expectoration and the sneezing by a prosuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double doses every hour. That will greatly nite period of time. This bounty is estimated to insure at least \$4 an acre. In view of these facts the remarks of and cure what would have been a severe Consul H. F. Merrit, writing from Che- cold within one or two days time. Try it mnitz, under date of October 1890 are very pertinent. It does not seem proper nor consistent that an agricultural country like the United States should be deor any article of a purely agricultural character on foreign countries, especially when the United States has fully one hundred times as much land adapted to the production of that article as is available in the country from whence the article comes. As a closing remark we would again remind our readers that the Chronicle office has received a fresh supply of sugar beet seed which it will be pleased to hand to all who may apply, as long as it lasts.

THE CHRONICLE "RAISES" THE GOVERNOR.

A Telegram reporter interviewed Governor Pennoyer about the contemplated appropriation for the world's fair and received the following answer:

He was not in favor of any appropria-tion, and he would not contribute one cent for an exhibit at Chicago; but if the people who wanted to do something for Oregon would raise \$50,000 for the aid of poor and struggling emigrants, who come here seeking homes, he would contribute \$1000 for that purpose.

The answer is a sample of genuine mossbackism and inadulterated demagogry. The governor is consistent how-What he would not allow the state to do he would not do himself. He would spend \$90,000 for a useless ornamentation of the capitol that will never benefit the state a quarter of a dollar but not a penny for advertising our resources where every dollar judiciously spent would give a thousand fold return. His offer to give a thousand dollars to "poor struggling emigrants" is a very safe one. The Chronicle, will go him "five thousand better" and be dead certain the amount will never be called for. Oregon emigrants don't come here a begging. Many of them may be poor but they are not posing as subjects of charity, and the governor's offer to head a subscription list on their behalf is an extravagant and prodigal waste of gubernatorial sympathy.

A union meeting of the grangers and farmers' alliance will be held at Shiloh church on next Friday, May first. The meeting is one of a series that have been held from time to time. Their purpose is mutual discussion and exchange of ideas regarding the best interests of the laboring and producing classes. All farmers and laborers are welcome. Meeting opens at 11 o'clock a. m. A backet dinner will be served.

WILL BE PAID FOR ANY INFORMATION leading to the conviction of parties cutting the ropes or in any way interfering with the wires, poles or lamps of The Execution Light Co.

H. GLIENN.

PREPARE FOR HIS RECEPTION.

Now that it is an assured fact that president Harrison is going to stop 15 minutes in The Dalles on the 7th of May next let us relegate all local matters, to the rear and unite in giving him a hearty reception. The CHRONILE "extends the olive branch" and will go hand in glove with-anybody for this purpose. The presidential arrangements, measured by time, have honored us five minutes more than any town in easern Oregon, except Huntington and we must show our appreciation of this mark of distinction by exhibiting The Dalles in her best bib and tucker.

DON'T LET HIM SEE THEM.

If the telegrams are correct the presidential schedule does not allow a minute of time for the examination of one of the most important sights for the eyes of the ruler of this nation on the whole American continent today. We refer to the Cascade Locks. It is perfectly safe to say that much as we would like to see the face of the president there is not a man in eastern Oregon but would gladly forego that pleasure if he were assured that the time was occupied in examintion of the sugar beet should meet with ing the progress of a work of so much a hearty response from the farmers of vital interest to the people of the Inland Empire. While the president is makthat some parts of Eastern Oregon are ing himself personally acquainted with specially adapted for the growth of this the country and its resources much plant, and if this impression should re- might be expected from an inspection of ceive confirmation after proper tests the greatest barrier that lies in the way have been made there is no telling the of our prosperity. The time is not far benefits that might accrue to the people. distant when prominent officials, influ-The very highest authority declares that ential in the concils of the nation, were the growing of beets is "decidedly bene- hustled past the locks with blinds ficial to the soil and improves it for drawn on the north side of the cars or cereals." A beet crop would therefore assiduously pointed to the scenic beauties be an excellent substitute for a summer of the mountains on the south side of fallow, with all the advantage of having the river as the train passed the Cascade a crop of one kind or other each year in. Locks. Is it possible the same influence stead allowing the land to lie fallow and still prevails? We hope not. And yet unprofitable every alternate one. The the feeling creeps over us like the recolsupply of domestic sugar will never ection of a distempered dream that it

\$20 REWARD.

A PLAGUE OF UNBELIEF.

THE MOVING CAUSE OF ALL THE PLAGUES OF CITIES.

Dr. Talmage's Masterly Contrast of the Effects of Christianity and Agnosticism The Glorious Results of a Living Faith. What Has Infidelity Done?

New York, April 5. - Continuing his course of sermons on "The Ten Plagues of the Cities," Rev. Dr. Talmage today took for his subject "The Plague of Infidelity." The discourse was delivered to large and appreciative audiences at the Brooklyn Academy of Music in the forenoon and the New York Academy of Music in the even ing. The text was Romans iii, 4, "Let God be true, but every man a liar."

That is if God says one thing and the whole human race says the opposite, Paul would accept the Divine veracity. But there are many in our time who have dared arraign the Almighty for falsehood. In-fidelity is not only a plague, but it is the

mother of plagues.

It seems from what we hear on all sides that the Christian religion is a huge blunder; that the Mosaic account of the creation is an absurdity large enough to throw all nations into rollicking guffaw; that Adam and Eve never existed; that the ancient flood and Noah's ark were impossibilities; that there never was a miracle; that the Bible is the friend of cruelty, of murder, of polygamy, of all forms of base crime; that the Christian religion is woman's tyrant and man's stultification; that the Bible from lid to lid is a fable, a cruelty, a humbug, a sham, a lie; that the martyrs who died for its truth were miserable dupes; that the church of Jesus Christ is properly gazetted as a fool; that when Thomas Carlyle, the skeptic, said, "The Bible is a noble book," he was dropping into imbecility; that when Theodore Parker declared in Music hall, Boston, "Never a boy or girl in all Christendom but was profited by that great book," he was be coming very weak minded; that it is some-thing to bring a blush to the cheek of every patriot that John Adams, the father of American independence, declared, "The Bible is the best book in all the world;" and that lion hearted Andrew Jackson turned into a sniveling coward when he said, "That book, sir, is the rock on which our republic rests;" and that Daniel Webster abdicated the throne of his intellectual power and resigned his logic, and from being the great expounder of the constitution and the great lawyer of his age turned into an idiot when he said, "My heart as-sures and reassures me that the gospel of Jesus Christ must be a divine reality. From the time that at my mother's feet or on my father's knee I first learned to lisp verses from the sacred writings they have been my daily study and vigilant con-templation, and if there is anything in my style or thought to be commended the credit is due to my kind parents in instill ing into my mind an early love of the Scriptures:" and that William H. Seward, the diplomatist of the century, only showed his puerility when he declared, "The whole hope of human progress is suspended on the ever growing influences of the Bible;" and that it is wisest for us to take that book from the throne in the affections of uncounted multitudes and put it under our feet, to be trampled upon by ha-tred and hissing contempt; and that your old father was hoodwinked and cajoled and cheated and befooled when he leaned on this as a staff after his hair grew gray, and his hands were tremulous, and his steps shortened as he came up to the verge of the grave; and that your mother sat with a pack of lies on her

country meeting house where they sleep today waiting for a resurrection that will This book, having deceived them, and having deceived the mighty intellects of the past, must not be allowed to deceive our larger, mightier, vaster, more stupen-dous intellects. And so out with the book from the court room, where it is used in the solemnization of testimony. Out with it from under the foundation of church and asylum. Out with it from the domes-tic circle. Gather together all the Bibles— the children's Bibles, the family Bibles, those newly bound, and those with lid nearly worn out and pages almost obliter-ated by the fingers long ago turned to dust—bring them all together, and let us make a bonfire of them, and by it warm our cold criticism, and after that turn un-der with the plowshare of public indigna-tion the polluted ashes of that loathsome, adulterous, obscene, cruel and deathful book which is so antagonistic to man's liberty, and woman's honor, and the world's happiness.

AGNOSTICS ATTACK THE VERY LIFE. Now that is the substance of what infi-delity proposes and declares, and the at-tack on the Bible is accompanied by great jocosity, and there is hardly any subject about which more mirth is kindled than about the Bible. I like fun; no man was ever built with a keener appreciation of it. There is health in laughter instead of harm —physical health, mental health, moral health, spiritual health — provided you laugh at the right thing. The morning is jocund. The Indian with its own mist baptizes the cataract Minnehaha, or Laughing Water. You have not kept your eyes open or your ears alert if you have not seen the sea smile, or heard the forests clap their hands, or the orchards in blessom week agles with redolence. But there is a laugh. aglee with redolence. But there is a laugh-ter which is deathful, there is a laughter which has the rebound of despair. It is not healthy to giggle about God or chuckle about eternity or smirk about the things

of the immortal soul.

You know what caused the abcident years ago on the Hudson River railroad. It was an intoxicated man who for a joke pulled the string of the air brake and pulsed the string of the air brake and stopped the train at the most dangerous point of the journey. But the lightning train, not knowing there was any impediment in the way, came down, crushing out of the mangled victims the immortal souls that went speeding instantly to God and judgment. It was only a joke. He thought the world be such fur to stort the train. it would be such fun to stop the train. He stopped it. And so infidelity is chiefly anxious to stop the long train of the Bible, and the long train of the churches, and the long train of Christian influences, while coming down upon us are death, judgment and eternity, coming a thousand miles a minute, coming with more force than all the avalanches that ever slipped from the Alps, coming with more strength than all (Concluded on Fourth Page.)
