PINKERTON ASSASSINS

Disguised as Deputies Shoot Down Defenceless Men in the Coke Regions--Trouble Ahead.

President Harrison Headed This Way--A Woman Burned to Death in Portland.

SIMONSTOWN, Penn., May 4.—Last night superintendent Gray and a pit boss of Leisingring No. 3, went to rescue two men who had been working and were being held as prisoners by strikers.

UNIONTOWN, May 4.—Labor people are in a state of excitement over what they term the cold-blooded murder of one of their number at Leisingring No. 3, last night.

John McSloy, a member of the executive board, has just arrived from Dunbar where he swore out warrants for the arrest of Superintendent Gray, yard boss and pit boss Callaghan and two Pinkerton guards, charging them with the murder of a man named Mahan.

Arrests will be made this afternoon. McSloy said that the shooting was entirely uncalculated. Strikers were only jeering Superintendent Gray and party over their failure to get the men to return to work, when the Pinkerton guards opened fire on the strikers with Winchester rifles, killing Mahan and wounding another man.

Labor people are swearing vengeance and more trouble may follow within the next few hours.

The coke company and people charged with shooting, refuse to talk on the matter.

The coroner has been notified and will investigate at Bradford.

Sheriff McCormick made twenty-eight evictions this morning. He reported that there was trouble and that a number of deputies were roughly handled.

At Leisingring No 8, the men are better armed than at any point in the region. They have been drilled for three weeks. Such preparations look warlike and further trouble is feared in the neighborhood.

Coke operators report an increased number of men work at the various works in the region.

A dispatch from Dunbar tells a different story about last night's shooting. It is in effect that Gray, Callaghan and Agrew, all bosses, escorted Mahan to work and the deputies mistaking them for rioters opened fire upon them, killing Mahan instantly.

The Seal Fisheries Muddle.

CHICAGO, May 4.—A Washington special says: "The outlook now is that the close season will be declared by the United States government and the North American Co. won't have any catch this year. If it shuts out its own lessees, the government may be counted to make short work of the poachers regardless of the feelings of the Canadians, but there is no ground on which the British government could refuse help in this work and its co-operation will be offered with a view to showing that the United States is really in earnest."

A New York Assignment.

NEW YORK, May 4.—Jesse H. Lippen-cott sole lessee of the American graphophone and president of the North American Stenographer Co. assigned today with preference amounting to \$25,000. Liabilities are estimated at \$500,000, Assets \$100,000. The American Graphophone Co. and American Phonograph Co. is not, it is said affected by the failure.

Burned to Death From Cigarette Smoking.

PORTLAND, May 4.—Harriet Halprunner who was severely burned last night by fire communicated to her clothing from a lighted cigarette which she was smoking at the time of going to sleep, died this morning from her burns.

Coming This Way.

RED BLUFF, Calif., May 4.—The president arrived here at 8:30 this morning. He met with a warm reception. After brief addresses and handshaking the party left for the north at 9 o'clock.

Chicago Wheat Market.

CHICAGO, Ill., May 4.—Close; wheat easy; cash 1.01 1/2 @ 1.01 3/4; July, 1.00 1/2.

San Francisco Wheat Market.

SAN FRANCISCO, May 4, 1891.—Wheat, buyer '81, 1.75 1/2.

POPE LEO'S VIEWS.

Cardinal Manning Says it is a Masterly Treatise.

LONDON, May 2.—Cardinal Manning granted an interview to your correspondent on the subject of the forthcoming papal encyclical on the labor question. His eminence stated that the promulgation of the encyclical had been delayed by the condition of the pope's health and other impediments, and would probably not be made before the end of the present month.

PARNELL RETICENT.

His Friends Think a Fresh Surprise is Contemplated.

LONDON, May 2.—Mr. Parnell, who was at one time particularly frank as to his views and plans, has of late become extremely reticent, even in dealing with his friends. He will give no information, either as to his future action on the Irish land bill, or as to the campaign in Ireland. The change in his demeanor is so marked that it has caused an impression that he is contemplating some fresh surprise. It is said Mr. Parnell will only continue in anything like constant attendance in parliament until one or two of the more important amendments to the land bill have been disposed of, and will then leave the measure to his friends in the house, and personally re-commence his agitation in Ireland, possibly to contest Cork against Maurice Healy.

Not Afraid of the Tariff.

LONDON, May 2.—One of the largest makers of tin plate in Wales has refused to join the proposed movement for a general stoppage of production. He alleges that the proposition is a foolhardy one and declares that the recent democratic victories in the United States have shown that the new tariff is an unstable thing. This being so, it is not likely he thinks that capitalists will put much money in American tin-plate manufacture. Even should the Americans go into the business, he says they would find it impossible to make 60,000 tons per annum, as had been claimed, and would be doing well if they succeeded in producing 60,000 boxes yearly. The Welsh newspapers generally are opposed to the shutting down.

Robert Ray Hamilton Again.

CHEYENNE, Wyo., May 2.—Thos. Cooper, a guide just in from Jackson's Hole, revives the story of the suspicious circumstances in connection with Robert Ray Hamilton's death. He says no identification of the body has ever been attempted, and that many people of that vicinity believe a body from some medical college was shipped there, dressed in Hamilton's clothes and dumped in the river, with the circumstantial evidence carefully planned to make it apparently a reliable story of Hamilton's death.

Left Oakland in a Huff.

OAKLAND, Cal., May 2.—President Harrison left town in a huff. When he got off the train at West Berkeley he grumblingly remarked that he "didn't" propose to be hawked around through every little one-horse town in the country. Later, when he arrived at Lincoln square and saw the path to the platform blocked, he declared that if he was chief or police he would see that the streets were clear. Then turning to the driver he commanded him to drive to the pier as fast as possible, so that he could catch the boat for San Francisco.

He Will Probably Die.

OAKLAND, Cal., May 2.—Rev. George W. Bothwell, of Brooklyn, N. Y., who is likely to die with the cork of a medicine bottle in his lungs, was for some time pastor of the Second Congregational church, of West Oakland. Mr. Bothwell came to Oakland a little over two years ago from New Orleans. About a year ago, and after over a year's service in Oakland, he resigned and went east, and about the first of this year was called to the position he now occupies.

The Work of a Misanthrope.

WHEELING, W. Va., May 2.—At Martin's ferry today, an unknown misanthrope gave three boys, James and Milton Twiney and Charles Wilson, a dynamite cartridge. The boys played with it until it exploded, frightfully mangling them. Two of them will die, and the third will be blind.

Quick Retribution.

RENO, Nev., May 2.—News is received of a fatal shooting affair at Long valley, seventeen miles north of Ophir, resulting in the instant death of Charles Davis who was shot by Hugh Miller. Miller made improper overtures to Mrs. Davis, who informed her husband, and the quarrel resulted in the latter's death.

Freight business along the Union Pacific is slack, and the railroad boys have little work to do at present. Passenger traffic is not diminishing, however.

Colored Man Banned.

CHATTANOOGA, Tenn., May 4.—Information has reached here this morning of a horrible holocaust which occurred last night at Duck Creek on the Chattanooga Southern road ten miles out of this city.

The kitchen construction train used in building the new road, caught fire in some unknown manner. Four colored men, King Meadows, John Harvey, Will Brooder and Elder Miles were burned to death. The theory is, that the men were murdered and then burned.

The Forest Fires Subdued.

MAY'S LANDING, N. J. The heavy rains have quenched the forest fires around here and in the vicinity of Pleasant Valley. In addition to the great loss sustained by the burning of valuable timber, much small game was destroyed and wild berries are ruined.

Bringing in Contract Labor.

NEW YORK, May 4.—Fifty Hungarian immigrants were detained yesterday and seventy-five more today. The large office authorities are suspicious that immigrants are coming here under contract as they possessed little or no money.

Burned to Death.

ROCHESTER, N. Y., May 4.—Early this morning a two story frame building burned and Herman Stephanski and wife perished in the flames. Other inmates had a narrow escape from death. The fire originated from a lamp explosion.

A Blighting Frost.

BOONE, Ia., May 1.—A sharp frost this morning did much damage to the fruit in this section.

Associated Press Weather.

SAN FRANCISCO, May 4.—Forecast for Oregon and Washington light rains.

He is Their Friend.

Prineville News.

It is a wretchedly mistaken notion with some people that the local merchants sit down and calculate about how many times the local merchant has befriended them when they were in straitened circumstances; how many times they have asked said merchant to sell them goods that they almost had to have on time, and then ask themselves if they paid for those goods strictly according to promise.

Jay Gould's Prayer.

We have it from the best authority that the wizard of Wall street prays, and when he prays at all, it is as follows: Our Father, who art in England, Rothschild be thy name, thy financial kingdom come to America. Thy will be done in the United States as it is done in England, give us this day our bonds in gold, but no silver; give us plenty of men's votes to keep a monopoly in power and their friends in office. We know, our father, we have done wrong; we have robbed the honest poor, and brought distress to many a door. We know it was wrong to refund the bonds, and make them payable in coin, we know it was wrong to water our railroad stock, but then knowing, we made money by that. Thou knowest our father, that we are above politics. It is the same to us whether democrats or republicans rule, for thou knowest we are able to sway all political lobs in our favor. Lead us not in the way of strikers but deliver us from the hand of the insane Knight of Labor and the farmers' alliance. Thus we shall have the kingdom, bonds, interest, power and gold, until the Republic shall end. Amen.

Now comes the Portland Telegram with an appeal that the new cruiser be named Portland. It won't do. The Oregon and Maine cities would always be disputing over the honor, and nobody imagines for a moment that the secretary of the navy would allow the vessel to be dubbed the "Portland, Oregon." In the name of euphony, and peace, The Review repeats its suggestion that the cruiser be named after this city. The Spokane is a swift and beautiful river; the racer Spokane was a fleet and noble horse; the city of Spokane is always at the front, and it would be beautifully appropriate to name that swift cruiser the Spokane.—Review.
