GONE TO WASHINGTON.

President Harrison is the Guest of Tacoma and Seattle—The Receptions Being Held in the Rain.

Captain Verney Sentenced to One Year's Imprisonment—A Burglar Burgles at Corvallis.

TACOMA, May 6.—The president and party entered the state of Washington at an early hour this morning in a driving rainstorm. This interfered materially with the arrangements for his reception at the various places visited but did not suppress the cordiality and enthusiasm of the people.

It was 8 o'clock when the presidential special reached Tacoma and rain seemed to be coming down harder than ever. Notwithstanding this fact the chief magistrate of the nation and his advisers were given a royal reception.

They were met at the station by the governor of the state, and a committee of citizens who escorted the party to the Gross block where formal addresses of welcome were delivered.

The line of march and the reviewing stand were handsomely and appropriately decorated.

There were four grand arches on Pacific avenue, one made of fir block, another of coal, another of iron and a fourth of grain, all of native production.

In his response to the address of welcome the president said:

"I would like to see some great steamship lines carrying the American flag entering the ports of Puget sound. I believe we have come to the time in our development as a people when we must step forward with bold progress, or we will lose the advantage we have already attained. We have within ourselves resources and a market of which the world is envious. We have been content in years gone by to allow other nations to do the carrying trade of the world. We have been content to see the markets of the American republics lying south of us, controlled by European nations. I think a period of discontent with these things has come to our people. The time is auspicious for the enlargement of our commerce with these friendly republics. The time is propitious for the re-establishing on the seas of an American merchant marine that shall do its share of the carrying trade of the world."

Arrived in Seattle

SEATTLE, May 6.—The president and party arrived here at noon coming from Tacoma by boat.

Hughitt presided, Leeds, of the Missouri Pacific, was at the hotel but did not attend the meeting. He expects to be heard by the board. Jay Gould was present for the Missouri Pacific.

FROM WALLA WALLA.

An Order Issued to the Army Post Regarding the Lynching.

WALLA WALLA, May 4.—The official order promulgated at Fort Walla Walla is as follows:

"Soldiers: Your commanding officer is assured that the great crime against the law committed recently by a few men of this command is deprecated and condemned by you. Public opinion, however, guided by the press, will hold all of us implicated until we ascertain and secure for punishment by law the guilty parties. Our honor, the honor of our regiment, the honor of the army and our duty demand this. Until the guilty are found suspicion rests upon all. Every innocent man will therefore recognize the necessity of clearing his good name of the stigma resting upon it.

The board of officers to investigate the occurrences affecting this command on the evenings of the 23d and 24th of April, 1891, is hereby ordered to meet at this post today. The detail for the board is: Major M. Cooney, Captain T. J. Wint, Captain C. A. P. Hatfield, Fourth cavalry. The board is authorized to summon before it any person connected with the command.

WOLF'S PERIODIC COMET.

The Celestial Visitor Reappears as Predicted by Astronomers.

MOUNT HAMILTON, Cal., May 4.—Wolf's periodic comet was rediscovered this morning by Mr. Barnard at the Lick observatory. It is extremely faint and small, and is following closely the path predicted for it. This is the first return of the comet to the perihelion, and its reappearance has been looked forward to with great interest. Its position this morning was right ascension, 22 hours, 33 minutes, 17 seconds north, declination 13 degrees, 11 minutes, 28 seconds, at 3 hours, 24 minutes Mount Hamilton mean time. This comet was originally discovered by Dr. Max Wolf, of Heidelberg, Germany, on the 17th of September, 1884. Its period is between six and seven years. This is the sixteenth comet discovered by Mr. Barnard.

San Francisco Strikers Win.

SAN FRANCISCO, May 4.—The strikers at the Union Iron Works have all gone back to work. President Scott refused to arbitrate with them or receive their committees, while the men were out of his employ, and promised to investigate the complaint if they went back. The men therefore resumed work. The strike was a sort of protest against being fined for taking a holiday on May 1. The painters have won their eight hour demand. This morning all the shops have fallen into line. Some discharged certain of the men who were most active in the strike, but these at once obtained jobs in other places.

It is Bigamy.

BOSTON, May 3.—C. H. Pattie, who was Marion Manola's counsel in her divorce suit from Mr. Mould, when shown the report of marriage to Jack Mason, said:

"The marriage will not hold good under the American law. She cannot be divorced at all now. If she applies for her final papers six months from now she will have to sign them in the same name with which she entered suit, Marion E. Mould. If she is now Marion E. Mason the court will not recognize her for a moment. It is bigamy, and if either of them come to this state they can be punished."

Blethen Again Takes Hold.

ST. PAUL, Minn., May 3.—It is stated that the Minneapolis Tribune, which two months ago was sold to William Murphy, of Grand Forks, N. D., and ex-Senator Gilbert A. Pierce, is to be reconveyed to Alden J. Blethen, its former owner, and Thomas Lowry, the Twin City railway magnate. Mr. Blethen will resume the business control of the paper, but Senator Price will remain as editor. The paper has leaned toward Harrison under the Murphy regime, but will come out now strongly for Blaine.

Lady Brooke to be Ostracized.

LONDON, May 4.—A coterie of swells have formed a cabal to ostracize Lady Brooke, the American lady whose gossip led to the exposure of the Gordon-Cummings curi scandal. The lady is intimate with the prince of Wales, and jealousy is one of the motives actuating some of her present antagonists. Lady Salisbury espoused the fair American's cause, and gives a dinner in her honor next week, an event which will probably smash the cabal.

WHY BEN BUCKED.

Explanation of the President's Conduct at Oakland, Cal.

John S. Shriver, the Washington correspondent of the New York Mail and Express, who is traveling ahead of the president across the continent, arrived here today and said to a Telegram reporter: "The only hitch or trouble on the trip was at Oakland, and that was caused by the chief of police, who cared more for his own appearance than the carrying out of the programme. About four squares from the stand the police allowed the crowd to rush in and so block the street with carriages and people that the president's carriage was stopped at that point. He waited fully fifteen minutes for the police to clear the way, and finally was obliged to get up in his carriage and make his speech. It was utterly impossible for the president to get to the stand and rather than disappoint all, he preferred to make his speech to those about his carriage than not at all. The people of Oakland did not understand the situation, and hence the report that the president left the town in anger. The truth was that the president regretted the affair, as it was the only break in the programme since he left Washington.

The best way to hit a sinner fair in the head is to aim at his heart.

THE NEW ORLEANS AFFAIR.

The Report of the Grand Jury Has Reached Washington.

WASHINGTON, May 6.—The report of the New Orleans grand jury excited no surprise here. The attempt to palliate the infraction of the law by off-setting the alleged attempts at jury-fixing is deprecated by the legal department but there is a well defined opinion on the whole outcome that the case will be beneficial in its efforts upon the turbulent foreign elements of the United States.

The report will, it is expected reach Secretary Blaine in due course of time and make quite a figure in the official correspondence between the United States and Italy. The report finds eight of them to have been naturalized American citizens and that one of them had declared his intentions to become naturalized.

A Mixed up Affair.

SAN DIEGO, May 6.—Early this morning the vessel Robert and Minnie was sighted laying off San Diego harbor in Mexican waters, seizing a party who went out last night and returned without making an attempt to seize her, and now is awaiting orders from the attorney general at Washington. The Itata still lies in the stream ready for sailing.

The Italians Are Not Pleased.

NEW YORK, May 6.—Speaking of the result of the deliberations of the New Orleans grand jury, the *Il Progresso* today remarked: "It is an outrage that these men should escape for what they have done." Among the Italian residents the same sentiment is expressed.

A Destructive Fire.

PITTSBURGH, May 6.—The Seventh street fire is still burning, but the flames are under control, and no further damage is apprehended. Over half a million dollars worth of property has been destroyed.

Fifty Thousand Men Out.

BRUSSELS, May 4.—The miners and iron workers' strike in the Liege and Charlevoix districts is complete, and is spreading to the Broinage district, in the province of Hainaut. Fifty thousand men are out of work in Central Belgium. There has been more rioting at Liege. Seven more people were injured.

ADDITIONAL LOCAL NEWS.

From the way it is raining wherever Mr. Harrison goes, it would seem that all the good things comes with the republican president.

The fine rain of the last two days seems to have been quite general as well as abundant. From all points yet heard from comes the news that the ground is thoroughly soaked and the promise for good crops was never brighter. If we should have moderately cold weather when the grain comes to fill and mature, we can depend on a fair crop without a drop of rain more.

A CHRONICLE subscriber said to us today: "The market reports of the CHRONICLE are worth four times the cost of the paper." Another said: "Your market reports are the best of any county paper I ever saw in my life." The editor can say this without vanity as these reports are carefully compiled, week by week by Mr. S. L. Brooks.

The third regiment band boys are puzzled over the programme for the presidential reception at Portland which appeared in the *Oregonian* and *Telegram* of last Saturday. At the very head of the list was the third regiment band from The Dalles. Now the boys here had never been consulted about going to Portland and supposing that The Dalles board of trade had made arrangements to that effect several members of the board were consulted only to find that they too knew nothing of the matter. At last a telegram was sent to Portland when the boys were informed that their services were not needed as arrangements had been made to procure bands from nearer points. What the boys are wondering at is who placed their band at the head of the Portland programme.

Colonel Sinnott is the happiest man in town. The many friends of the colonel, who often cast a faint shadow of doubt on his salmon story, have been at last assured by no less a person than the private secretary of George Francis Train and over the signature of that distinguished functionary that the colonel never told a lie in his life, or which amounts to the same thing, that somebody did actually walk across the Columbia river on the backs of salmon. The following entry appears on the hotel register of yesterday's date: "George Francis Train, John N. Klench, private secretary. Salmon fishing July 1869, when I rode over the Columbia on their backs." This seems to settle it, and yet it would perhaps have been still more satisfactory if the colonel had secured the corroboration of a less vigorous previcator than George Francis.
