FARMERS IN COUNCIL.

Hundreds of Delegates Gathering at Cincinnati to Form Plans for Improving their Condition.
 President Harrison Now at Routine Work—Emma Juch's Opera Company Ceases to Operate.
 CINCINNATI, May 18.—Three or four hundred delegates are in attendance upon the national conference which begins in this city tomorrow. They were reinforced this morning by the arrival of a special train bearing ten carloads of delegates from the western states.
 There is a division of sentiment on the third party question but the drift seems to be favorable to such action as will insure the nomination of a national ticket in 1892.
 This conference will not undertake to make any nomination but an effort will be made to get things in such a shape that it will be an easy matter to take action in that regard next year.

THEY WON'T FIGHT.

The War Department Concludes that all Will be Peace.
 CITY OF MEXICO, May 18.—The war department received a dispatch from Acapulco which says there is no probability of a fight between the Charleston and Esmeralda.
 The Itata has not yet been sighted. Unless she has been captured by some other United States cruiser, she is possibly off Central America by this time with fuel furnished by the Esmeralda.
 General Pedro Hinojos, secretary of war, said this morning: "Mexico only insists that her neutrality be perpetuated and she will not interfere with the Esmeralda beyond refusing her coal or arms."
 An officer of the Esmeralda told her correspondent at Acapulco yesterday that his vessel would try and get coal here but if it was refused she could get it elsewhere within a few hours. He said: "We are not afraid of a conflict with the Charleston but our orders are to be prudent and not provoke a conflict."

THE CHILIAN WAR.

Probably that it will Soon End—The Insurgents in a Bad Way.
 NEW YORK, May 18.—Letters and papers received by the last mail from South America contain interesting facts concerning the troubles in Chili. There seems to be a probability of the immediate ending of the war. Balmaceda's army is said to consist at present of 30,000 men. The Chilean soldiers are being driven into foreign territory.
IT BOTHERS THE BRITISH.
 The London Papers Fear Blaine's Reciprocity Ideas.
 LONDON, May 18.—The state of Blaine's health continues to attract great attention in the newspaper press of Great Britain. The Daily Chronicle today, in discussing the presidency says: "Harrison as a protectionist pure and simple, opposes Blaine's policy of reciprocity, and that while on his tour he endeavored to take credit for the first fruits of this policy is most significant."

REALIZES HIS MISTAKE.
 The Kaiser Is Trying to Cover Up His Injudicious Speech.
 LONDON, May 18.—[Copyrighted, 1891, by the United Press.]—A Berlin dispatch says that the kaiser, in his tour of the provinces, discovered serious misdirection of military administration, which caused him grave anxiety and which he has directed the war office to remedy. The commanding officers were surprised at the thoroughness which the kaiser showed in investigating the most minute details of the condition of the men, their treatment and their armament. In several instances it was found their contractor had failed to provide supplies as agreed upon. In all such cases the kaiser directed a prompt investigation, and, if not satisfied, a portion of the responsible parties will be reprimanded. The kaiser has caused to be printed and distributed among the sovereign provinces of Germany official copies of his speech at Dusseldorf, in which the words, "I alone am master in Germany," are omitted, and an almost meaningless sentence substituted. The members of the diplomatic corps have also been favored with copies of the amended address. This is taken as showing that for the first time since mounting the throne the kaiser appreciates and virtually admits that he has made a political blunder in his rash assertions of autocracy and authority. It is significant in this connection that Prince Bismarck has been personally congratulated on his election for Goettemunde by the prime ministers of Lippe and of Mecklenburg-Schwerin. The kaiser has also given it to be understood through one of his semi-official mouthpieces, that his recent speech must be taken with the qualification that while he desired peace he means to be prepared for war and that he is watching the attitude of both Russia and France. Still more significant is the utterance attributed to Dr. Boettcher and perhaps reflecting the view of his master that through this (Rothschilds) quarrel may be a pretext on the part of Russia for the accumulation of funds in Russia preparatory to a warlike move in the direction of the Dobrukscha. Certain it is that Russia now has a total of nearly 40,000 men within easy reach of that Roumanian province across which is the road to Stamboul and Bulgaria.

THE CRIMINAL RECORD.

Startling Revelations Made at the Examination of the Keystone Bank Officials.
 PHILADELPHIA, Pa., May 16.—The hearing of ex-president Marsh and ex-assistant cashier Lawrence, of the Keystone National bank, was resumed today. Bank examiner Drew told how he found that whole pages had been abstracted from the ledger before the time of the examination and afterwards replaced. Cashier John Hayes testified he never assisted in making up the bank accounts for submission to the controller, but signed it when presented to him by Marsh. He never knew until after the run of the bank that an examiner was expected, Marsh would borrow about \$75,000 cash from the Spring Garden National bank, and place it among the assets to keep the reserve up. No entry was ever made of these loans, and when the examiner concluded, the money would be returned to the Spring Garden bank. Several directors testified they knew but little of the bank's real condition; that they were never allowed an examination of the bank, as a special committee appointed by Marsh used to govern them.

SHAKESPEARE IS RILED.

He Summons the Provezanos Before Him and Reads the Riot Act in Great Shape.
 NEW ORLEANS, May 16.—Yesterday Henry Peters, a stevedore, went to the city hall and complained to mayor Shakespeare that the Provezanos were interfering with him, and intimidating his laborers. He made an affidavit and the Provezanos brothers were arrested and held under \$20,000 bonds. The mayor sent for the Provezanos this morning and said:
 "I have sent for you because this city has grown tired of intimidation and the lawlessness you have carried on. I want to give you fair notice and warning that this must stop at once and forever. I know well enough that you have long been at the head of a disturbing element here that has been a menace to the peace of this community. You know as well as I do the means by which you seek to frighten people. You may not do your work openly, but you find another and perhaps a more effectual way. You have sought to foment trouble here and again. Matragas comes to me and tells me he cannot pass a Provezano on the street without the latter spitting on him. Now, there must be at once and forever an end to this. I am sick and tired of it, I tell you, you must take your hands off. I have issued orders to the chief of police that he must use his entire force to prevent the execution of your designs. I am sorry now that I am obliged to go to Denver. If I could remain here I would personally take command of the police force and use every means at my command to wipe from the face of the earth every member of your gang who tries to raise his hand against persons of this community. But my representative will act for me. This reign of terror must stop, and if there is a way possible to do it, will stop."
 The Provezanos left the hall without saying more than to protest their innocence.

SMUGGLER HALCYON SIGHTED OFF VANCOUVER ISLAND.

Her Cargo Said to Be Valuable.
 PORT TOWNSEND, B. C.—Collector Bradshaw received a telegram yesterday from Deputy Collector Bickford at Port Angeles, saying that the notorious smuggling schooner Halcyon, supposed to be attempting to land a cargo of opium on the California coast, is now off the west coast of Vancouver island. The Halcyon is supposed to have on board a cargo of the drug valued at not less than \$100,000. She has been in the smuggling business for the last two years, and has thus far escaped the clutches of the custom-house officers, having been caught only once, when she escaped. She speeds at the rate of fourteen knots an hour, and recently left the Japan coast with her hold full of opium. A few days ago the steamer Australia, which put into San Francisco, reported the Halcyon making for the California coast, but it is likely the wily smuggler steered out of her course in order to put the Puget sound custom-officers off their guard.

RESUMED OFFICIAL DUTY.

Many Important Questions Waiting for Consideration.
 WASHINGTON, May 16.—The president resumed official duty at the White house today. There are a number of important questions pending in each of the executive departments, and it is the president's purpose to dispose of them as rapidly as possible. The Behring sea question requires immediate consideration, and the president will devote his attention to that first, with the view of having the government's policy in regard to the seal fisheries, so far as the present season is concerned, clearly defined, pending final settlement of the controversy by arbitration. It is probable the sailing orders of the revenue cutters assigned to duty in Behring sea will be issued next week. The illness of Secretary Blaine may necessitate a slight delay in the preparations of instructions, but it will be only temporary.

A Husband's Crime.

TYICA, N. Y., May 10.—Louis Layez, a Frenchman living on a farm near Lee Centre, last evening told his wife he was going to kill her and their three children and then hang himself. At 3 o'clock this morning his wife woke the oldest child, aged 13 years, and together they went to the outhouse. So soon as they left the house Layez followed them and attacked his wife with an ax. The child ran to the house and woke her little brother and sister, aged 8 and 3 years, respectively, and ran out into the field. She succeeded in reaching the house of a neighbor and gave the alarm. Mrs. Layez was found lying in the path fatally wounded. Layez had disappeared. Men are scouring the woods for him.

Esmeralda Ordered Out of Port.

CITY OF MEXICO, May 16.—The government denies the truth of the published rumors of the Esmeralda succeeding in buying even a limited amount of coal at Acapulco, but says, on the contrary, she was ordered out of port, and is now lying off the coast in neutral waters. The general opinion at Acapulco is that the steamer Itata has passed that place and gone south, and that the Esmeralda has been waiting for the United States steamer Charleston. At 5 o'clock this afternoon unusual commotion was observed on the Esmeralda, but a thorough search of the water failed to show any sign of an approaching vessel.
