THE CINCINNATI CONFERENCE.

Fourteen Hundred and Seventeen Delegates in Attendance—Music Ahead.

CINCINNATI, May 20.—The National conference resumed session this morning.

After the opening exercises reports of the committee on arrangements and credentials helped to kill time pending the exciting developments that many looked for when the platform committee would be ready to report.

The committee on credentials announced that any delegate representing several organizations could only cast one vote. This created quite a sensation.

The total number of delegates reported was 1417. Report unanimously adopted.

A terrific uproar was suddenly caused at this point by Grover, of Wisconsin, starting a harrangue in opposition to organizing a new party.

When order was restored report of committee on permanent organization was heard and then Mrs. Helen Gougar of Indiana was given an opportunity to express her sympathy with the movement and plead for a prohibition plank in the convention platform.

United States Senator Pfeiffer was introduced as permanent chairman of the assemblage before him, which he proclaimed was one of the most important ever convened on American soil.

THE LONG EXPECTED REPORT.

The Revision Committee of the Presbyterian Assembly Report at Last.

DETROIT, May 20.—A full report of the committee on revision appointed by the last Presbyterian assembly was made public this morning.

The greatest change is in the book as was expected has taken place on the third chapter which treats of eternal decrees. This has been recast rather than rewritten and the expressions considered objectionable by so many have disappeared.

One of the changes which will meet general approval is the confessional statement regarding the Roman Catholic church. They are no longer called "Papists" and "Idolators" but they are included among adherents to a false religion.

THE ESMERALDA A PRISONER.

The Mexican Government Refuses her Coal or Telegraph Privileges.

SAN FRANCISCO, May 20.—A Washington special to the Evening Post says: "The United States government has instructed Admiral Brown to demand the surrender of the Itata when she arrives at any port in Chilean hands. The Mexican government has refused to allow the commander of the Esmeralda at Acapulco to use the telegraph lines at that point, so the Esmeralda is held there practically a prisoner. She has no coal and cannot get any communication with the insurgents in Chile. The Esmeralda would bombard Acapulco immediately if her officers and the insurgents were not afraid of interference of the United States."

NO FEAR FROM PENSIONS.

General Raum Says the Appropriation Will not be Consumed by \$10,000,000.

WASHINGTON, May 18.—Pension attorneys believe the Gazette's statement that the payment of pensions or certificates in cases which have been completed is withheld at the order of Secretary Foster, who fears that there will be a large deficiency in the treasury at the end of the fiscal year.

Commissioner Raum says that this statement consists of a juggling of figures for the purpose of misrepresentation. Since coming into office General Raum says he has established a system of daily reports by means of which he is able to tell at the close of each day's business exactly what has been done.

A copy of this daily report is sent to the president, the secretary of the treasury, the secretary of the interior and Judge Veasey, the commander of the Grand Army of the Republic. General Raum, to verify this point, produced his monthly report for April last. It states that instead of 3000 claims under the act of June, but a comparatively few of the others having been issued in that month, there was in reality 11,167 of law claims allowed, and 20,378 under the act of June 27, 1890.

This makes a total of 31,546, and General Raum said 16,000 more than during the same month last year. These claims allowed last month, he further stated, carried with them a first payment of \$3,874,815, for the last week in April and including two days in May. Gen. Raum produced the reports, which show that his office allowed 3,535 old law claims, for which certificates had been issued and \$479 for that short period, and carrying a first payment of \$776,486. Instead of there being a deficiency in the treasury by reason of the work of the pension office, the commissioner asserts that the appropriation will not be consumed by fully \$10,000,000.

NEW YORK, May 18.—Nella R. Goodwin, the actor, has been awarded \$75 alimony pending an action for a limited divorce from her husband on the grounds of desertion. The judge also allows her a counsel fee of \$250. Counsel on behalf of the actor agreed in court to pay her that amount of alimony and a reasonable counsel fee. Mrs. Goodwin is at the Sanitarium in Brooklyn, recovering from a nervous attack, resulting from a runaway accident last September in Central Park.

Today Kilrain commenced active training for his contest with Slavin, which takes place June 16. Kilrain is in poor condition, and will be obliged to work hard in order to get in shape, but Muldoon expects to bring him to the scratch in good shape. He will train under the same system as Sullivan did.

UNINTENTIONAL SLIGHT.

The President Apologizes But Does Not Return the Fish.

WASHINGTON, May 18.—The president in an interview with representative Hermann today dwelt quite lengthily upon the reception extended to him by the people of Oregon, wherever he had an opportunity of greeting them, and especially made mention in glowing terms of the magnificent ovation on the part of the citizens of Portland. He pronounced the ceremony at the grand exposition hall there one of the most pleasant, as well as the most unexpected, of the many surprises of the entire journey.

The concourse of people, the admirable display and perfect system observed throughout, and this on a very rainy day, made a lasting impression on his mind. The advancement everywhere seen, as to the material progress of the state and its towns and cities, was a continuous revelation. He expressed his painful regret as to his failure to meet the citizens of Eugene. He says he had no intimation that he was approaching so important a point in the state, nor had any notice that the citizens there were waiting to greet him.

Hearing the music as the train approached the depot, he hurriedly arose and prepared to appear, when the train moved on. Though it was an early hour, yet he says that would not have deterred him. This mishap and that at Oakland, in California, he says were the only exceptions to the perfect success and excellent management during the long journey.

THE COLUMBIA RIVER IMPROVEMENTS.

Mr. Hermann thanked him for the cordial sympathy and the very much appreciated remarks expressed by him at Portland and The Dalles, with respect to the obligation of the government to extend aid towards the improvement of the Columbia river and other waterway improvements of Oregon. He repeated his well known advocacy as to this class of national works. Mr. Hermann is of the opinion that the visit to Oregon by the president and his two cabinet officers, will yield excellent results, not only as to general matters in which Oregon is interested in federal aid, but especially in the way of postal relief, with a better knowledge of Oregon's wonderful and diversified agricultural resources, as well as its mineral, fishing, lumbering and wool-growing industries.

Postmaster General Wanamaker says that the great music hall in Portland was a marvel to him, and he was astonished to see the signs of progress on every side. He says he also came back with enlarged ideas as to the necessity of better mail facilities on the coast, and in Oregon and Washington especially. Secretary Rusk says that he was out with the Villard party, but the march of progress since that time was almost beyond his comprehension. So far as Portland was concerned it had every mark of a great and thriving metropolis.

Admiral Brain on the Retired List.

NEW YORK, May 18.—Captain Erbene, United States navy today succeeded Rear Admiral Daniel L. Brain in command of the Brooklyn navy yard, the admiral going upon the retired list for age. Admiral Brain's retirement was made the occasion of great ceremony. The marine battalion paraded at noon, a salute of thirteen guns was fired and all the officers were in full uniform. The retiring officer was third in rank in the navy; he entered the navy as midshipman in 1846, was in seven engagements in the Mexican war and served with great distinction during the civil war. He is a native of New York city.

Things Silver Will Go Up.

NEW YORK, May 18.—A broker in silver is quoted as saying: "I do not know when it will come, but I have made some bets that silver will sell above \$1.05 before the close of the year. There has certainly been considerable absorption of silver in this market for the past two months. I know of at least 1,000,000 ounces having been bought in that time, I think for shipment abroad."

How to be a Happy Old Maid.

Ladies' Home Journal. To have so much to do that there is no time for morbid thoughts. To never think for a moment that you are not attractive, and to make yourself look as charming as possible.

To be so considerate of the happiness of others that it will be reflected back to you as from a looking-glass. To never permit yourself to grow old, for by cultivating all the graces of heart and body, age will not come upon you.

To believe that a life work has been mapped out for you, that it is near you, and to do that which your hands find to do.

To remember that the happy old maid is the one member of a family who, not having any other claims on her, can be God's own sunshine to those in sorrow or in joy.

A Forgotten Fortune.

Home Journal. Matching the stories of valuable and unappreciated oil paintings sold for a song, is one concerning a miraculous transaction in Serris china. Early in the past century a gentleman presented a reverend friend with two vases as a wedding present. These vases stood for more than forty years on a cabinet in a Somersetshire rectory, without attracting any particular notice until a sale took place after their owner's death, at which they were bought for 2 guineas by a tradesman in Bath. Within a few weeks they resold for 600 guineas to a Bond-street dealer, who speedily disposed of them to the late Lord Derby for 4000 guineas.

Charles Dickens was a greater benefactor to the world than was Napoleon.
