WASHINGTON, May 27 .- The treasury department is still struggling to prevent the sale of lottery tickets in the United States. The law passed by congress prevented the use of the United States mails in distributing them, and then the lot-tery people went to Mexico and sought, the custom law, to import them into this country as reading matter, at a light duty. Assistant Secretary Spaulding put a stop to this by assessing duty on the face value of the tickets, the duty being placed at \$2.50 on a ten dollar ticket. This was thought to be a final stoppage on their importation. The lot-tery people, fertile in resource, have had the tickets printed in the United States, exported into Mexico and reimported into the United States, and now claim that they are exempt from duty, American manufacture, returned without being advanced in value or improved in condition. Assistant Secretary Spaulding, however, has instructed collectors of customs along the Mexican border to assume that all lottery tickets entered are of foreign manufacture, and to assess duty accordingly.

When the vessel tailed to touch at Panama within the time expected, the department said it was very probable it had been decided to keep straight on down the coast, and that the Charleston would be heard from at some Peruvian port. Washington, May 27.—When Chinatown was raided here last night Californians in Washington were vividly reminded of scenes on the Pacific coast. Appliances About the Guns Crude, and It is not generally known, but it is a fact that Washington city itself, the Athens of America, has a Chinese quarter that exists under the very shadow of the capitol. Until a mandate from the United States supreme court is handed down he does not see how the company can be buying its stock. Vice-President Williams says it will be time enough when the com-pany has a land fund in hand for it to buy stock, and when it is in such posi-tion it will not be necessary to announce
