PLENTY OF SHIPS.

Have Plenty of Tonnage for all Wheat That is Offered.

The Canadian Premier Nearing His End--- A New Orleans-Editor Does Some Poor Shooting.

San Francisco, June 6 .- "There will be no difficulty about moving our large wheat crop this ye r," says George W. McNear. There is plenty of tonnage here and plenty to arrive. The number of ships on the way here is larger than is usual at this time of the year. By October there will be plenty of them. Crop reports from Sacramento Valley are very good, but reports from San Joa quine Valley are not very encouraging. There is a general feeling that wheat will bring a good price this year.

William Gordon-Cumming Has a Brother in This Country.

A BROTHER IN MARYLAND.

Baltimore, Md., June 4.-Alestar family and demanded something to eat.

Brannon refused the request telling of the past twelve years in Carrol county, forty miles from Baltimore. He has received letters from Sir William, in which angered the tramps and they assaulted Penrose Gordon-Cumming, brother of the absence of the family. The refusal angered the tramps and they assaulted the lad throwing him to the ground and horribly mutilating him. The wretches will undoubtedly be lynched if they are captured.

An Editor's Poor Markmanship.

New Orleans, June 6.—About 3 o'clock this afternoon a shooting affray occurred between Oliphant, president of the state board of health, and Geo. W. Dupree, editor of the Daily States. Dupree, it is stated, fired five shots and Oliphant one. The former was shot through the face while the latter was unhurt.

Placed Under English Protection.

Washington, June 6.—The bureau of American Republics has furnished the leaters and they assaulted the latter from Sir William, in which the lieutenant-colonel of the Scot's guard declared his innocence of the alleged baccarat cheating, and says he, Sir William, will fight the matter to the bitter end, and Mr. George Cumming, referring to his brother's alleged mode of play, says Sir William has since early youth been affected with a slight touch of St. Vitus' dance, inherited from his mother, which caused Sir William to exhibit a nervousness of hands when playing at cards. Sir William would invariably toy with the chips. He thinks those who accuse his brother of cheating, thus deceived themselves. He speaks of the Wilsons as extremely common people, and of Berkely Lovett as a "cad." Concerning the signing of the famous contract by Sir William, his brother says it was done solely that there would be no expose of the Prince of Wales' exorbitant gambling.

presumed to be simulated as a sale to the English company pending pacification to the country.

Bayron, Wash., June 4.—Louis Mayer, arrested some few weeks ago for burglary confessed his guilt yesterday before the superior court, and was to be sentenced today. This morning, when Jailer McCauley took Mayer's breakfast to him in Cauley took Mayer's breakfast to him in Morrison Pennsylvania's Noble Son.

a mystery. The most plausibly theory, and one generally credited now is that when McCauley went to gather up the supper dishes, Mayer slipped out of the cell and went into hiding, then, under cover of night, filed his way out to her a story which is about as above nar-He called on his wife and told

Modeled on the American Act. London, June 4.—In an interview 'o-day Louis J. Jennings, M. P. for Stock-port (formerly of the New York Times) stated that he had framed a bill for in troduction in parliament, intended to exclude destitute foreigners from Great Britain on the same lines as followed by the United States. Mr. Jennings, while in America, studied the legislation on the subject carefully, and thinks that England cannot do better than to adopt the principles of the measures made neces-sary in the United States by the experience of that country with pauper and criminal aliens. He anticipates a great deal of opposition to this measure. Ireland except Clare and portions of radicals will not assist him and the government will not take action in the premises. The tories will not antagonize the attitude of the government. Never-theless, Mr. Jennings believes that public feeling on the subject has reached such a point that he is justified in pro-ceeding independently in the advocacy of the bill, in the hope that the discussion it will arouse may lead to pressure upon the government, so that they will eventually lend their countenance, more or less directly, to the proposed

The minister of the in-terior has forbidden any reference to the famine by the newspapers.

Will Destroy a Lucrative Business.

SAN FRANCISCO, June 4.—Some time ago Collector Phelps secured a list of the whalers who secured large quantities of whisky at Honolulu and then sailed for Alaska. The revenue cutters Rush and Bear have been instructed to overhand all these whalers. All whisky, except a small quantity for medical purposes, will be seized wherever found in order to keep the liquor away from the natives. CALLING ON THE NATIONAL BANKS.

Secretary Foster Uses This Method to Replenish the Treasury Surplus.

Washington, June 4.—The net surplus Washington, June 4.—The net surplus in the treasury today is \$5,000,000, a smaller surplus than has been in the treasury in the memory of the oldest officials. To increase this surplus, Secretary Foster has called in \$3,000,000 of depositories from national banks. The call reads: "The secretary of the treasury has this day called upon a number of national bank depositories to transfer to the sub-treasury a portion of the The loss is estimated at \$100,000; insurance, \$32,000.

Among the buildings destroyed by the flames was one occurred to the sub-treasury a portion of the amount of public moneys held by them and not needed for the transaction of public business." These banks, which are mostly what is known as "surplus" banks, had been notified by the late Secretary Windom and had previously transferred the amount of two calls made by him. The amount to be transferred on him. The amount to be transferred on or before June 30, 1861, under this call is about \$3,000,000. It is probable that other calls will be made from time to time on these national bank depositories until their holdings shall have been re duced to about the amount needed to be kept therein for the proper transaction of

BERLIN, June 4.-The Prussian minister of justice, Dr. Schelling is interested in the new American method of execution by electricity, and has caused instructions to be sent for full reports as to its methods of working so far as obtainable. Many Russians are inclined to consider decapitation as too barbarious a method of execution, and the consequence of this sentiment is favorable to the criminal classes. Reindel, the headsman, has been making personal the headsman, has been making personal inquiries on the subject of electrical death; whether for official reasons or to satisfy his own curiosity is not known. The conservative feeling in Germany is very strong, and there is little probability of such a serious change in the crimiity of such a serious change in the criminal laws as to do away with the existing form of death penalty.

General Schofield to Marry. CHICAGO, June 4.- The news of a social event of the first magnitude was privately discussed tonight among many officers. Although not yet formally made public, the announcement is said to be authoritative that Major-General John M. Schofold field, senior officer of the United States army, who is a widower, and who is now in the West, will soon be married to Miss Georgia N. Kilbourne, of Keokuk, Iowa. The date has been fixed, but is not given out. The bride is quite youthful, being a schoolmate of General Schofield's daughter. The Kilbourne family is a prominent one in Iowa, and is also well-known in the East.

Admiral McCann's Report. Washington, June 4.—Rear-Admiral McCann, commanding the naval forces of the South Atlantic and South Pacific stations, sent a report to the secretary of the navy in regard to affairs in Chili. The report is dated Valparaiso, April 29, and says a German naval force of five ships was ordered to Chilian waters, and Baltimore at Valparaiso attracted much attention and had a good effect.

En-route to the Coast. Chicago, June 4.—General Russell A. Alger left Chicago last night for the west. He will visit the Pacific coast, spending most of his time in Washington. The trip, he says, is one purely for health, and has nothing to do with the scheme by which, as rumor had it, he would be connected with Leigh Hunt and Mr. Clarkson in planning to establish a gigantic line of steamers from Washing-

ton seaports to China.

The Grippe in Alaska. San Francisco, June 4.—The schooner C. T. Hill arrived here from Kodiak, Alaska, today. She brings news that the grippe is creating great havoc among the natives. Hundreds have died at the rate of a doxen per day. There are no doctors on the island and no medical The natives are also suffering hardships on account of the poor catch of seal otters, on which they depend for their living.

Keeping Lamp Burners Clean. The other day a lady noted for her attainments in housekeeping showed me some lamp burners that had been used for many months, yet were as bright as if just purchased. In response to my inquiries as to the means used for keeping them so bright, she told me that when she baked beans she saved the water in which they were boiled, and put the burners in that, boiling them until clean; then they were rinsed in boiling water and dried.
