A WILD SCHEME.

Those who advocate the purchase and operation, by the general government, of railroads, steamboats, telegraph and telephone lines may well pause at the magnitude of the undertaking. The property, if obtained at all, must be obtained by purchase. As Senator Carlisle said the other day "In order to buy them, the people must pay for them, and to do that they must tax themselves. The railroads, telegraph and telephone lines and steamboats of the United States represent an invested capital of about ten thousand million dollars. Four thousand millions is bonded indebtedness and must be paid."

But this is not all. As Mr. Carlisle says: "After you have got these properties are you ready to tax yourselves to operate them? For the government never yet succeeded in doing business at a profit. Then again this plan would perhaps add one million two hundred thousand men and women to the roll of government employes. How would you ever succeed in turning out of power an administration with such resources at its command? The more corrupt it was the more difficult it must be to displace it."

LIBERALISM ILLIBERAL.

A so-called liberal union society at Woodburn, Marion county, has lately refused to allow Col. Bain, the temperance lecturer, the use of their hall on the ground there "has been enough of them blanked fools around here—we are going to stop it." This is quite in keeping with liberalism. The most illiberal men on earth are to be found among those who are calling themselves liberals.

ENTERPRISE.

The Pendleton East Oregonian announces that in the near future it intends to increase its telegraphic service in order to give its readers "more and fresher news." We congratulate the East Oregonian on its enterprise.

The fact that Washington never told a lie has been satisfactorily accounted for. He never went fishing.

A ROYAL ROUE.

An exchange says "the Prince of Wales is a direct descendant of King Alfred, by the thirty-third great-grandson." We don't care if he is. If the brood of all the great men that ever trod the earth coursed through his veins he is nothing but a gambler and a scapegrace. He is no longer a youthful prince Hal with a long life of better deeds before him but a grandfather and arrived at that period of life when men seldom change their former habits for good or evil.

LATEST FROM CHILI.

Another Effort to Be Made by Balma-ceda to Bring Iquique to Surrender. LONDON, June 4.—A Valparaiso cable says that the president is about to make another effort to bring Iquique to surrender. The rebel general, Urrutia, the only Chilean general who proved unfaithful to the established government, is scouring the provinces held by the rebels for recruits, and in many instances men have been shot for refusing to enlist.

SHU Hunting for Hanchette. CHICAGO, June 4.—Mrs. Hanchette, of Los Angeles, telegraphed Lieutenant Kipley, of the central station, this morning, that she would pay a reward of \$300 for the location of her husband alive. A dispatch was immediately sent to Sheriff Cogley, at Flandreau, S. D., who believes he has located the missing man selling organs. Mrs. Hanchette says her husband is a skillful organist, and the fact that his brother, C. D. Hanchette, of Hancock, Mich., once sold organs, lends a significant appearance to the theory entertained by the South Dakota officers.

THE PORTAGE ROAD.

Satisfactory Progress Being Made.—Mr. Farley to go East.

Mr. G. J. Farley, superintendent of portage construction of the Cascades portage railroad, is in the city. He has just let a contract to the Columbia River Lumber and Fuel company for 600,000 feet of lumber to be delivered within thirty-five days on pain of a forfeit, free on board the cars at the Cascades for \$9.87 1/2 a thousand. This price is 62 1/2 cents lower than the Union Pacific company has to pay for the same class of lumber delivered free on the cars at Portland.

Mr. Farley will go east on the 17th inst., and visit the principal car and locomotive works, for the purpose of selecting and purchasing the rolling stock. Fifteen men are now employed grading the road bed. After the material arrives it will be a short job to finish the work, and Mr. Farley hopes to have everything ready by the time the boat is finished.

Wasco Independent Academy. The annual entertainment given by the students of the academy will occur Tuesday, June 9th, at 8 o'clock p. m. in the opera house. All are very cordially invited to be present, as a thoroughly enjoyable evening is assured. The exercises will be varied, comprising recitations, declamations, songs, etc. One of the features will be a very pleasing tambourine duet by a company of young ladies in costume.

Don't forget the hour as the exercises will begin promptly, and those who come at 8:05 will lose the opening selection. The types, yesterday, made us say that J. C. Murphy, of Antelope, was going to Portland with twenty-one head of Knox "cattle." We, of course wrote "horses," but we suppose the compositor who set up the paragraph has been studying etymology and has made the discovery that the term cattle generically means domestic quadrupeds and is only provincially limited to animals of the equine species. Be that as it may we have since received notice by Messrs. Murphy and Dickerson that after they have disposed of their "Knox cattle" they are going to ship to this city a carload of Percheron hogs and another of Clydesdale roosters.

Fishing is still a poor business with many of the owners of fish wheels. Charley Hall's wheel caught only 225 pounds last night and only 150 pounds all day yesterday. Winans Brothers on the Washington side did a little better. Their three wheels caught, last night, nearly two tons.

F. C. Sexton, of Dufur, has just returned from the valley whither he had taken a number of fine horses to sell, a few weeks ago. He says there are ten horses to one buyer, and that horses are on an average cheaper there than here. Tomlinson, the well-known horse buyer, of Portland, says that horses are thirty-five per cent cheaper now than they were sixty days ago. Mr. Sexton saw a good fair span of mules, with wagon and har-

ness, sell for \$160. One of the smaller horses Mr. Sexton took with him, he sold to a Dalles man. Notwithstanding all this, Mr. Sexton was lucky enough to obtain fair prices. He sold one horse for \$250 and the cheapest brought him \$75.
