The bridge was an iron skeleton structure, which was considered well built and substantial. The only apparent reason for the collapse of the bridge is that the train left the rails and threw its entire weight on the side of the bridge.

Dr. Smith said the church authorities had not persecuted him in the least. New York "Recorder" Republican.

NEW YORK, June 14.-The Recorder, in its issue today, says that the paper has passed into the hands of a new management, and will be published as a republican journal, advocating the principles of that party. "Principles, not men," is the legend on its banner. It would be folly, the paper says, to pin the faith and hope of a grand organization to the life of an individual, yet it expresses a ferveut hope for the restoration of Mr. Blaine to perfect health and asserts that if he were nominated and an election held at once he would un-

doubtedly be elected.

Rooms 8 and 9, Land Office building, The Dalles, Oregon.

There are some funny mistakes in the session laws of 1891 as printed. The law creating the new corporation of McMinn-ville makes the western boundary of that city a point forty-five miles west of where it ought to be, in the Pacific ocean; then it runs the city lines south thirteen and one-half miles from that point, and the McMinnvillians don't

know just what to do about it. A young man who boasts of expanded ideas only has a swollen head.
