

METEOROLOGICAL REPORT.

Table with columns: Pacific Coast Time, BAR., HUM., Relat. Hum., D. of W., WIND, DIR., State of Weather.

Maximum temperature, 67; minimum temperature, 60. River—Risen 4 1-10 and rising.

WEATHER PROBABILITIES.

THE DALLES, June 17, 1891. Weather forecast till 12 m., Thursday; light rains. Nearly stationary temperature.

The Chronicle is the Only Paper in The Dalles that Receives the Associated Press Dispatches.

LOCAL BREVITIES.

Mr. Henry Steers, of Antelope, is in the city.

Messrs Leon Rondean, Charles Payette and Ezra Henson of Kingsley are in the city.

A letter has been received from Mr. Geo. Blakeley conveying the information that his father is a little better and may possibly recover.

Miss Etta French of San Francisco, came to the city yesterday and is the guest of her uncle, D. M. French, Esq. She will remain during the summer.

Mr. D. Farrington, from lower Fifteen Mile Creek, came into the city this morning. He says they had a fine shower in his neighborhood. He also informs the CHRONICLE that he learned from Mr. Holder that they had enjoyed a huge rainfall on the ridge of the Deschutes six miles above Mr. Farrington's place.

Fine rains have fallen throughout this section in the last 48 hours, and the late spring grain is vastly benefitted. The early sown, likewise the volunteer was too far gone to be restored. The high altitudes have not suffered for want of moisture as rain has visited those localities while lower lands were passed over. The timely rain has rendered the crops certain.

There came very near being a runaway this morning, but the gentleness and good sense of the horse concerned spoiled a newspaper item. The horse of Mr. Vanbibber, while standing in front of Mr. George Ruch's store, on Washington street, got one shaft of the wagon around a post which supported the awning, and the post giving way, the horse started to run with one end of it between the shaft and his breast. He was caught before he had got any distance away and was easily quieted.

The Dalles can feel pleased that Portland succeeded in electing Mr. W. S. Mason as mayor. That gentleman is a friend to an open river. A short time ago he told one of our prominent business men that he was thoroughly in favor of opening the Columbia at the earliest possible moment, and would do all that lay in his power to bring it about. As we can expect no help from the big Portland paper it is a good thing to have as prominent an official as Mr. Mason to aid us in obtaining that long desired object—an open river to the sea.

It is practically of little moment what the organ of the defunct reminiscence says about anything but we cannot allow the statement, twice repeated in its issue of yesterday evening to go uncontradicted. It is charged that we have "attempted to besmirch every candidate with mud, filth and lies." The statement is without a grain of truth in it. On the contrary this journal has gone out of its way to speak a good word for the candidates on the defeated ticket and not a line was ever written that threw the shadow of a reflection on the character of one of them.

Last night, a little after nine o'clock the third regiment band started on a trip around the city for the purpose of serenading the candidates elected last Monday to city offices. The boys first gathered in front of the CHRONICLE office and made the welkin ring with happy joyous music. From here the band proceeded to the residence of mayor-elect, the Hon. Robt. Mays. After two pieces of music had been played and Mr. Mays had briefly thanked the serenaders, three cheers were called for our next mayor. They were given with a will, and "one cheer more." The band then proceeded to the residence of Mr. Frank Menefee, the successful candidate for city recorder. Here the same programme was enacted, after which they proceeded to the house of Mr. I. C. Nielson who, however, was not at home, and thence to the dwelling of treasurer-elect Kinersley. A piece of music having been played Mr. Kinersley came to the gate and announced that he was not built to make speeches but invited the boys to a refection of lemonade and ice cream and cake. Before separating three cheers and "one more" were given for our next treasurer, and given with hearty good will. Meanwhile a crowd of citizens had gathered in front of the Monogram cigar store and sent up into the night a number of fire balloons accompanied by the bursting of bombs and the firing of rockets and darts and "double-headed" Dutchmen, and the glare of Roman candles and Bengal lights. And thus the people's victory was celebrated.

State lecturer of the grange Mr. William Holder of Grass Valley is in the city.

The feed-yards in the East End are crowded with freight teams from the interior.

The Wasco ware-house received over 400 sacks of wool on Monday and 200 yesterday.

The divorce case of Tieman vs. Tieman of Hood River, was yesterday argued and submitted.

The case of Egan, administrator of estate of the late Leslie James is continued during the term.

Two common drunks and one tramp were arrested last night and in default of the means of paying the fine of \$10 each are today working the streets.

In the circuit court today Judge Fee of Pendleton is presiding while some cases are being tried in which Judge Bradshaw was interested before his promotion to the bench.

Mr. J. B. Huntington, a brother of Messrs. B. S. and J. M. Huntington, register of the U. S. land office at Burns, Oregon, is visiting his father and brothers in this city.

The election is over, and as if the heavens sympathized with the earth a refreshing shower of rain has fallen. It is a coincidence worth mentioning that the same thing happened after the postage railway bill passed the legislature.

The case of Casey vs. the railroad company is on trial. Mrs. Casey sues the company for damages on account of her husband's death near the Lower Cascades more than a year ago. At three o'clock this afternoon a jury had not been secured.

Word has come to this city that a man in the employ of the railroad company as one of the steel gang was killed this morning as he was riding on a hand car on a bridge near Viento, the No. 1 passenger running into the car. This is the third man killed on this line inside the past month and all under one conductor who, however, is in no way to blame.

There is trouble among the brakemen on the Union Pacific. Some time ago Superintendent O'Brien issued a bulletin to the effect that the brakemen would not be allowed to ride on the locomotive and must not come nearer the engine than five cars. The consequence was the brakemen refused to work. Yesterday, word came to Albina to suspend for the present the operation of the bulletin.

While the band was serenading the CHRONICLE office last night Mr. Stacy Shown passed through the crowd driving a wheel-borrow decorated with American flags and bunting. In the barrow was Mr. Bert Phelps, whom Stacy was wheeling around a city block to pay the forfeit on a bet he made with Bert on the result of the election, as regards the candidates for the office of city recorder.

A Plank for the New Party.

There is one plank the alliance men could put in their platform that if persistently carried out would do more to abolish the mortgage indebtedness of the agricultural classes and place them in a prosperous condition than all their remedies for an extension of the currency and for cheap loans from the government, and that is getting out of debt and keeping out. It is the most singular thing in all this "reform" movement that the chief effort of the reformers concerns itself with schemes for increasing the mortgage indebtedness of the agricultural classes instead of diminishing it. A plank that would read after this fashion, ought to draw under the banner of the party that would adopt it every farmer in the United States. "We believe it is a crime for a farmer to go in debt." We commend this plank to the new party and if they adopt it we promise to help them make converts.

School Report of School District No. 42.

The following is a summary of the Wamic school term, commencing March 23d, and ending June 12, 1891:

Names of those who have been regular in attendance, and perfect in deportment: Willis Driver, Lelah Driver, John End and Valney Driver.

Cases of corporal punishment, none. Average daily attendance, sixteen. Total number enrolled, nineteen. Number of visitors during term, twenty-two. ASA STOODILL, Teacher.

The Company Disbanded.

It now appears that the Pendleton militia company is defunct for good and all. The company was disbanded this morning by Colonel Houghton, who came up from The Dalles for that purpose, having come to the conclusion that the effort to have a company at this place was a failure, since so little interest was taken by the members. Uniforms and equipments which arrived last week have been shipped back to The Dalles.—East Oregonian, 16th.

The following statement from Mr. W. B. Denny, a well known dairyman of New Lexington, Ohio, will be of interest to persons troubled with Rheumatism. He says: "I have used Chamberlain's Pain Balm for nearly two years, four bottles in all, and there is nothing I have ever used that gave me as much relief for rheumatism. We always keep a bottle of it in the house." For sale by Snipes & Kinersley.

Forfeited Railroad Lands. We are now ready to prepare papers for the filing and entry of Railroad Lands. We also attend to business before the U. S. Land Office and Secretary of the Interior. Persons for whom we have prepared papers and who are required to renew their applications, will not be charged additional for such papers. THOMAS B. HUBSON, Rooms 8 and 9, Land Office building, The Dalles, Oregon.

CHRONICLE SHORT STOPS.

For coughs and colds use 2379. Use Dufur flour. It is the best. Fresh strawberries, fresh butter on ice, fresh eggs, at J. H. Cross' Feed Store. Ask your grocer for Dufur flour. 2379 is the cough syrup for children. Those who try it, always buy it. S. B. Chopped corn for young chickens at Joles Bros. Berry boxes for sale at Joles Bros. \$1.25 per 100. Strawberries by the box, crate or ton at Joles Bros. Pure maple sugar at Joles Bros., eight pounds for \$1.00. Those who use the S. B. headache cure don't have a gripe. Get me a cigar from that fine case at Snipes & Kinersley's. For the blood in one-half teaspoonful doses S. B. beats Sarsaparilla. A. M. Williams & Co., have on hand a fine lot of tennis and bicycle shoes. Centerville hotel, on the Goidendale stage road, furnishes first class accommodation for travelers. The drug store of C. E. Dunham, deceased, is now open and will be so continued until further notice. The celebrated Walter H. Tenny Boston-made mens' and boys' fine boots and shoes in all styles, carried by The Dalles Mercantile company at Brooks & Beers old stand. Don't wear your life out scrubbing your kitchen floor when you can buy such beautiful linoleum, the best for kitchen and dining-room, for 75 cents a yard, and oil-cloth at 35 cents a yard at the store of Prinz & Nitsche. For a troublesome cough there is nothing better than Chamberlain's Cough Remedy. It strengthens the pulmonary organs, allays any irritation and effectually cures the cough. It is especially valuable for the cough which so often follows an attack of the grip. For sale by Snipes & Kinersley. Long Ward offers for sale one of the best farms of its size in Sherman county. It consists of 240 acres of deeded land at Erskenville. There is a never-failing spring of living water capable of watering five hundred head of stock daily. The house, which is a large store building with ten rooms attached alone cost \$1700. A blacksmith shop and other buildings and the whole surrounded by a good wire fence. Will be sold cheap and on easy terms. Apply by letter or otherwise to the editor of the CHRONICLE or to the owner, W. L. Ward, Boyd, Wasco county, Oregon. In almost every neighborhood there is some one or more persons whose lives have been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who have been cured of chronic diarrhoea by it. Such persons take special pleasure in recommending the remedy to others. The praise that follows the introduction and use makes it very popular. 25 and 50 cent bottles for sale by Snipes & Kinersley.

Making Light of a Burden. The period of putting on spectacles is often long deferred by middle aged people, who "hate to seem old," or dislike confessing to themselves that they have reached one of the significant turning points of life. People have, however, different ways of accepting the inevitable. One charming woman, who has passed this vital limit, declares that her comfort is thereby daily increased. "I was always so lazy!" she says. "Nevertheless, I had to do a thousand things I hated. Now when I go out for an afternoon I can leave my glasses at home, and so, when I am asked to look at photographs, try a new crochet stitch, or read 'dear Mary Ann's last letter,' I can refuse with a clear conscience. And it is such a rest of mind and saving of tissue."

Another woman, and a very pretty one, owns to a bit of tacit deception in wearing her cross. "I try to put my glasses on with the air of having always worn them," she confesses. "I can't help hoping that people will think me near sighted from childhood."

But a dear old gentleman, who can't see without glasses, actually goes to the length of declaring that he doesn't need them at all. He proves the case by standing at a distance from print and reading it without difficulty. "There's nothing the matter with my eyes," he then explains humorously. "The only trouble is, my arms aren't long enough.—Youth's Companion.

An Owl Is the Farmer's Friend.

Of all birds, from the farmers' standpoint, owls are the most useful. They hunt silently and in the night, and are nothing short of lynx eyed cats with wings. The benefit they confer upon agriculturists is most incalculable, and is susceptible of proof. It is well known that owls hunt by night; but it may be less a matter of common knowledge that, like other birds of prey, they return by the month hard indigestible parts of the food in the form of elongated pellets. These are found in considerable quantities about the birds' haunts, and an examination of them reveals the fact that owls prey upon a number of predaceous creatures, the destruction of which is directly beneficial to man. Of course the evidence gained in this way is infallible, and to show to what extent owls assist in preserving the balance of nature it may be mentioned that 700 pellets examined yielded the remains of 6 bats, 13 rats, 237 mice, 693 voles, 1,590 shrews and 93 birds. These truly remarkable results were obtained from the common barn owl, and the remains of the 23 birds were those of 19 sparrows, 1 greenfinch and 2 swifts. The tawny and long eared owls of our woodlands are also mighty hunters, and an examination of their pellets shows equally interesting evidence.—Cornhill Magazine.

Greek and Roman Stoves. Warm as Greece and Rome and Egypt are, stoves were made there in the dim and misty vistas of the past. It was not just the pattern used in Chicago at present, but was a metal basin in which charcoal was burned. It sat in the middle of the room, and as the resulting smoke was of the slightest no opening in the roof or elsewhere was necessary. The same implement, still called by its old Greek name of brazier, is still employed in many portions of continental Europe, where it is utilized for heating as well as cooking. But the progressive Romans improved on that and made a hypococaust. It was the germ of the present furnace. It was made under the house in a little cellar prepared for it, and the heat was conducted to the rooms and baths through crevices left in the floor and lower portions of the wall. Later furnaces were provided, conducting heat to any portion of the house. In some of the old Roman villas in England the remains of these old time furnaces are still found.—Chicago Herald.

A Remarkable Phenomenon.

On Thursday, March 19, 1719, there appeared at London, about 8 o'clock at night, a "sudden great light moving after the manner but more slowly than a falling star. It started from a point below Orion's belt, then lying in the southwest, and went upward instead of downward like a falling star. Its size, according to the testimony of numerous observers in Spain, France, Ireland, Holland and some parts of Germany, as well as those who saw it in London and all over England, was about that of the full moon. It was of whitish color, with an eye in the center as blue as the most azure portion of a June sky after a thunder storm. It went straight upward in its course until out of sight, leaving a track of fiery red sparks in its wake."—St. Louis Republic.

Reason for Gratitude.

"I even once read a grateful defence of Captain Kidd, the pirate." "But you don't know the circumstances under which it was written?" "No." "He boarded a vessel where everybody was seasick. He gave the usual order, 'Your money or your life.' Everybody felt so thankful at the prospect of being put out of their misery that they one and all refused the money. He accordingly hung them, and the captain, who was spared, was so thankful to be spared their complaints that when he got on shore he wrote the article."—St. Paul Globe.

That Point of Difference.

Kate—Such an owl as you are! Why can't you be talkative, like Tom Batteford? Such a difference as there is between men! Fred—There's only this difference, my dear girl: I think and say nothing; Tom talks and says nothing.—Pittsburg Bulletin.

Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

The Dalles Mercantile Co., are now prepared to furnish outfits to the teamsters and farmers and all others who desire to purchase anything in general merchandise. Their line is new, full and complete. Call and see them. Prices guaranteed.

Notice.

One fresh milk cow for sale, (good milker). Apply at this office.

Lost, Strayed or Stolen.

A small red milk cow without marks, 3 years old. Any information that will lead to her recovery will be suitably rewarded by Mays & Crowe.
