CHILIAN ATROCITIES.

The Officers and Crew of the Launch Gualdo Butchered by Balmaceda's Orders.

NEW YORK, June 30.—A correspondent at Santiago writing May 30th, says: "In this city today the shooting of the officers and sailors of the torpedo launch Gualdo was a special feature of wholesale execution. The men were shot down by a company of sharpshooters. The dead sailors and officers were in charge of the steam torpedo launch Gualdo in Valparaiso bay. One night the commander proposed to his crew to desert and go over to the Constitutional party. All acquiesced except one. He notified the authorities at once and the men were captured and taken to Valparaiso and thrown into prison.

The tortures to which the prisoners were subjected by Balmaceda's agents were almost past belief. The correspondent relates other horrible atrocities committed by adherents to Balmaceda. It is stated all negotiations for peace have ended.

WHY THE WEATHER CHANGED.

The Fellows Who Have Been Furnishing It Let Out.

WASHINGTON, June 30.—Acting secretary Grant today signed an order discharging 162 employees of the signal service, engaged in weather bureau work. Under the law the secretary of agriculture is bound to give preference to those men in making appointments for a new weather bureau, with the exception of a few men who have elected to remain in what will hereafter be the purely military branch of the signal service. All employees are likely to be re-appointed.

THEY FELL FROM GRACE.

Two Young Theological Students Sent to Jail in New Orleans.

NEW ORLEANS, June 28.—Exciting criminal careers have been temporarily suspended by the sentencing to a term in the parish prison of William Martin and Edward Dixey. The first is 17 years of age, and is from Parkville, Mo. Dixey is 21, and is from England. About two years ago both youths were studying for the ministry in a theological institute in Missouri. They were learned to drink and gamble. Their escapades culminated in their running away from school. They first went to San Francisco, then to Galveston, in each place committing numerous larcenies, and finally landed in New Orleans. In the last few months they have robbed over 100 stores and offices, taking anything they could realize a few dollars on. They confined their operations to the day time, and at night lived a fast and gay life with dissolute women. It was one of this class who eventually disclosed their doings to the police and caused their arrest. With compassion for the youth of the offenders, Judge Baker did not consign them to the penitentiary, but gave Dixey six months in the parish prison, and Martin one year.

A CHICAGO SENSATION.

Thirty Skeletons Found in an Old Ice House in That City.

CHICAGO, June 28.—Thirty skeletons were found yesterday in an old ice house, at the corner of Archer and Hough place. For several days numerous complaints have been made to the health office and to the Deering street police, by residents in the vicinity of Archer avenue and Hough place, who asserted a nuisance of the most aggravated form made life unbearable. An investigation was made, but without locating the trouble. Yesterday the mystery was solved. Several boys found near the corner a human skull and several human thigh bones bleached white. The lads told the police of their discovery, and an investigation was made. A bad odor was detected from Schineman's old ice house on the corner. The searchers ripped up a part of the floor and were horrified to find rows of skeletons to some of which shreds of flesh still clung. Who placed them there is not known, but a determined effort is being made to find the guilty persons. The theory advanced is that some attaches of a medical college brought the subjects there to bleach.

Dr. Spurgeon's Condition.

LONDON, June 28.—Frequent bulletins are issued from Dr. Spurgeon's sick room. The latest indicate a slight improvement in the condition of the great preacher. At the tabernacle today there were prayers lasting all day for his recovery. It was an impressive meeting, and perhaps without precedent.

AT THE GERMAN CAPITAL.

The Breach Between the Kaiser and Bismarck Growing Wider.

BERLIN, June 28.—Much indignation exists in government circles at the renewed bitterness of Bismarck's organs toward the kaiser and his policy, and especially the covert assaults upon the triple alliance. The belief that the articles are inspired by Bismarck widens the breach between the ex-chancellor and the emperor, and there is yet a possibility that Bismarck may find himself called to account, not in the way of judicial prosecution, but as an officer of the imperial army.

A SERVANT'S REVENGE.

Society is agog over the disgrace that has fallen upon the Baroness Bodenthat, whose family is one of the very highest in West Prussia. She has been sentenced to two months' imprisonment in a fortress for lese majeste. The offense consisted in vulgar and insulting language in reference to the emperor, spoken during a discussion with a servant, which degenerated into a quarrel. The servant seized the opportunity to obtain revenge by reporting the occurrence to the authorities, and the persecution of the baroness followed.

PRINCE HENRY IN CHARGE.

The kaiser leaves Prince Henry in charge of the empire during his absence. Prince Henry has been well trained to occupy the post of regent, either in war or in peace. He is credited with having all the kaiser's energy without his eccentricity.

THE TROUBLE OCCURS.

There is a Scrimmage and One Person is Killed and Several Wounded.

SEATTLE, June 28.—A special bulletin to the Post-Intelligencer from Franklin says that the white strikers, angered at the action of the Oregon Improvement company in taking negroes to Newcastle, started to clean out the negro camp tonight. In the scrimmage one person was killed and several wounded. Deputy sheriff Ben Stretch, who has been at the scene for the past four weeks, has called for the militia.

THE MILITIA LEAVES FOR THE MINES.

Companies B and D, First regiment, left for Franklin on a special train at one o'clock. The only news received so far is that one white miner was killed, three wounded, and one black guard wounded. Over a hundred shots were fired in the riot this evening.

LARGEST IN THE WORLD.

Company Organized to Cultivate a Farm of one Hundred and Twelve Thousand Acres.

NEW YORK, June 28.—A company composed of New York and Southern capitalists has just been organized, with a capital of \$1,000,000, for cultivating a farm of 112,000 acres in Florida. This will be the largest farm in the world, and upon it enough could be raised to supply the city of New York with food. The name of the company is the San Sebastian Land, Improvement, Sugar and Investment company. The farm lies between the Indian, San Sebastian and St. Johns rivers. The farm has a muck soil, similar to that in the valley of the Nile. The company does not propose to raise cereals or garden stuff, but sugar cane and coconuts, especially coconuts. This will be in the nature of an experiment, as coconuts are not indigenous to Florida.

Strike and Labor Notes.

The bakers' strike in Paris has collapsed.

The trainmen of Paris Saturday evening resolved to strike, and Sunday tried to prevent the cars from running, but without success.

All but one of the fourteen flint and window glass factories of Findlay, O., shut down at midnight Saturday until September 1, and probably longer. This gives over 2000 employes two months' vacation.

The Welsh Tinplate Workers.

LONDON, June 28.—The Welsh tinplate workers are angry over the stoppage of the works. They argue that a cessation of a week per month would answer the same purpose and avert distress. Sixty delegates are going to America to inquire into the prospect of profitable employment. The American agents here, besides buying the latest machinery, are offering over double the wages.

The Jewish Persecution.

LONDON, June 28.—It is reported the czar is angry at the Danish crown prince for sending out pamphlets protesting against the prosecution of the Jews in Russia. It is not likely, however, that this will interfere with the czar's visit to the Danish court.

Mr. D. D. Rogers has a thousand fine tobacco plants which he informs us he will gladly divide with the people of the valley who desire to raise them. It is a crop that should be thoroughly tested in this neighborhood for who knows but that we can discount Virginia or the balance of the world in fine flavored tobacco as well as strawberries. Besides this they are said to be an excellent thing to plant among the cabbages and in the garden, as the worms for all the world like a man prefer the nasty weed to the substantial and more necessary garden ones.—Glacier.

Carlyle's cynicism that there are "a thousand million persons in the world—mostly fools," will have to be amended. It is estimated that the earth's population is nearly half as many more or 1,450,000,000.

The funeral of the infant child of Mr. and Mrs. Frank Menefee will take place from the residence at 10 o'clock tomorrow morning.
