Collections made at all points on favorable terms.

STORMS IN GERMANY.

Great Damage Has Been Done by the Weather—Water Spouts and Their Fearful Ravage.
Idaho Has Double the Population of Nevada.—Presidential Nomination. California Forest Fires.

BERLIN, July 2.—A terrible storm of thunder, hail and rain passed over a large part of Germany last night causing immense damage to property and loss of life in the villages of Suchtelona near Dusseldorf and Sittard. In the Crefeld district thirteen bodies have been taken from the ruins of houses. It is too soon now to estimate the total number of lives lost.
At Sanet Ruprecht near Gratz the capital of Stigeria in Austria a water-spout burst over the town with fearful force sweeping away the cabins of two peasants and drowning nine of them. Every hour adding to the story of disaster.

BARDSLEY SENTENCED.
He Receives Fifteen Years in Solitary Confinement.
PHILADELPHIA, July 2.—Ex-city treasurer John Bardsley was sentenced this morning by Judge Wilson to 15 years solitary confinement in an eastern penitentiary and to pay a fine equal to the sum to which he pleaded guilty.

The fact that Bardsley was to be sentenced today was not generally known and there were not more than fifty people in the court room. District Attorney Graham spoke briefly. In the course of remarks he showed that according to Bardsley's sworn statement he must have at least appropriated \$220,000. Although not able as yet to specifically state where the money had gone to, Graham said Bardsley's embezzlement would amount to between \$400,000 and \$500,000.
Alexander, counsel for Bardsley, appealed to the court for mercy on the ground of Bardsley's plea of guilty and his services to the city. Alexander said Bardsley did not get a dollar of the money he put into the Keystone bank and that within six months it would be shown who did.

Appointments by the President.
WASHINGTON, July 2.—The president today made the following appointments: William E. Simonds, of Connecticut, commissioner of patents, vice Charles Mitchell, resigned. Byron M. Cutcherson, of Michigan, to be a member of the board of ordinance and fortifications. A. Lounen, Snowden, Penn., was appointed minister to Greece, Roumania and Servia. Romaladado, Apache, county Cal., minister to Guatemala and Honduras. Richard Lambert, California, consul at Mazatlan. At a cabinet meeting today it was decided to extend the 4 1/2 per cent. bonds at 2 per cent.

Holding Down a Sweet Job.
WASHINGTON, July 2.—The commissioner of internal revenue has appointed the following sugar inspectors, under the provisions of the tariff bill in regard to the bounty to be paid on domestic sugar: Henry C. Morton, District of Columbia; Harvey N. Stasser, Ohio; George E. Fletcher, New Hampshire; Evert H. Norton, Maine; Raymond Loranz, Iowa. The law limits the number of these inspectors to twelve.

Hop Growers in Council.
SALEM, Or., July 2.—The Willamette valley hop growers' association is in annual session here this afternoon. The growers report the crop in good condition and the outlook bright. Despite the prevalence of lice as yet they have not done any damage but no doubt will commence when the berry forms. In the Butteville country only half a crop is expected.

Minnesota and Dakota Wheat Crops.
ST. PAUL, Minn., July 2.—Crop reports from Minnesota, Dakota and Montana continue most favorable. Owing to increased acreage and fine prospects it is feared that the crops cannot be properly harvested, particularly in the Red River valley, owing to scarcity of hands.

A California Forest Fire.
SAN RAFAEL, July 2.—The forest fire which has been raging in this vicinity, are now under control. It is estimated that the path of the fire covers about eight thousand acres.

Relative Populations.
WASHINGTON, July 2.—According to a census bulletin issued today Nevada's population is 45,764. Idaho has 84,385.
Weather Forecast.
SAN FRANCISCO, July 2.—Forecast for Oregon and Washington, nearly stationary temper ature.

A CYCLONE FOLLOWS

The Close of the Republican Convention in Iowa.
BOONE, Ia., July 2.—Dispatches received here report a cyclone at Gray, Andabon county, last evening. A large number of horses in the track of the cyclone were destroyed and a number of people injured. One man is reported killed. At Halbur there was a heavy storm which did much damage to crops of all kinds. Andabon also reports a heavy hail storm with stones as large as hen's eggs. Arcadia and the west side also report great damage.

A Defaulting Sheriff.
ARKANSAS CITY, July 2.—Developments fully confirm the report of the defalcation of sheriff Warfield, whose shortage will be in the neighborhood of \$25,000. It will be a total loss to his bondsmen. In addition to this, a dispatch from Little Rock says that the sheriff was short \$30,000 on his settlement last year. It is stated that Warfield lost heavily in cotton speculations during the past few months.

Chicago Wheat Market.
CHICAGO, Ill., July 2.—Close, wheat steady cash 93 1/2 @ 94 1/2; December, 91 1/2 @ 92.

San Francisco Market.
SAN FRANCISCO, July 2.—Wheat, buyer '91, after August first 1.50.

PUSHING FORWARD.
The Y. M. C. A. Makes a Good Showing in the Northwest.

TACOMA, June 30.—The quarterly meeting of the Young Men's Christian Association of the states of Washington, Oregon and Idaho, and British Columbia was held in the parlors of the Grand Pacific hotel tonight. Traveling Secretary J. A. Dummel presented his quarterly report. The annual convention, which is to meet at Spokane, was set for September 24 to the 27th inclusive. From 150 to 200 delegates are expected. Secretary Dummel has just been spending a month in British Columbia, which is included in his district. Y. M. C. A. affairs are prosperous across the line, he reports. A building is being put up at Port Townsend, and a conference to be held in Olympia the last Saturday and Sunday in July, which, it is confidently expected, will result in the establishment of a flourishing branch there.
Alluding to the Sunday liquor sellers, Mr. Corell, of the firm of attorneys for the A. S. S. A., said that the cases would be prosecuted without delay, as the parties had violated their pledges to the association to refrain from selling pending the decision in the Pollock appeal.

ANOTHER SURPRISE.
Jim Daley Knocked Out Unexpectedly in the Twelfth Round.

MINNEAPOLIS, Minn., June 20.—The fight between Johnny Van Heest, of this city, and Dan Daley, of Bangor, Me., for a purse of \$700, came off tonight at the Twin City Athletic club before a good crowd. Both men weighed in under 122 pounds and was in good condition. Van Heest won the fight in the twelfth round. During the first of the fight the Minneapolis man rushed and clinched, but Daley stopped his rushes in fine shape. He had Van Heest groggy in the fifth round and would have probably finished him, but for the call of time. From that time until the twelfth round it looked as though Daley, who was playing a waiting game would win. Van Heest's left eye was badly swollen and the blood flowed profusely. In the twelfth round Van Heest landed three body blows, and following this with a rush, got in a righthander on the point of Daley's jaw. Daley reeled and fell, and before he could rise was counted out.

The Prince has Tumbled.
LONDON, June 30.—As an evidence of the popularity of the Prince of Wales, it may be stated that the levee held by the prince on Saturday was one of the most brilliant ever held in Queen Victoria's reign, and was attended by more than the usual number of the better class of nobility. The prince appeared in the best of spirits and had evidently made up his mind to be more democratic in the future. He smiled in a winning way and there was an utter absence of the stolid hauteur which the prince used to wear to such effect.

More Hot Weather Coming.
SAN FRANCISCO, June 30.—Lieutenant Finley, of the weather bureau, said this morning that it was owing to a fall of ten degrees in barometric pressure at Winnemucca that the weather is cooler here today than yesterday. He stated, however, that at 5 o'clock this morning the local temperature was 67 or five degrees higher than at the same hour yesterday. Furthermore that hot weather is coming up from the south, and may be here tomorrow or next day. Lieutenant Finley will remain in charge of the local weather bureau, which passes under the control of the department of agriculture tomorrow.

Accident to a Boy at Lake Washington.
SEATTLE, Wash., June 30.—Herman Petty Guernsey, a boy 13 years old, was drowned in Lake Washington this afternoon, a quarter of a mile north of Yeeler avenue at about 2 o'clock. Guernsey in company with a boy of his own age, were bathing from a raft. The raft drifted out in deep water unknown to the boys, who were both unable to swim. Guernsey, unsuspecting the depth of the water, jumped in and sank. Before help could be obtained life was extinct.

GEORGE FRANCIS TRAIN IN LONDON, ENGLAND.

The Great Globe Trotter, is Once Again on the Homestretch.
LONDON, June 30.—George Francis Train arrived at the hotel Victoria this morning, and was astonished not to find a crowd of reporters there to greet him, in response to his telegram from France, inviting the press club to a repast, in which tea newly brought from the Orient by himself was to figure as a beverage. It seems that the proprietor of the hotel had failed to enter into the spirit of the occasion and the invitations had not been extended as desired. Train appealed to Heaven to verify his opinion of British stupidity and rushed to the Turkish bath across the road and ordered the shampooer to remove the dirt of two hemispheres. The bizarre ways of the American traveler are the source of much wonderment to such Londoners as he came in contact with.

Affairs in the Balkan.
LONDON, June 30.—Affairs in the Balkan wear a threatening appearance, owing to the readiness of M. Stamkoff to accept any challenge that Serbia or Greece may throw down. At present the Greeks have what they consider an ample provocation for a fight, but they have a wholesome dread of the Bulgarians who have proved themselves at least equal to any of their troops in other Balkan states, especially when thoroughly disciplined.

The Tacoma-Portland Line.
TACOMA, June 30.—The rumor is again on the streets that the Union Pacific is preparing to put a force of men at work all along the Tacoma-Portland line within sixty days. A construction company has been formed at Portland which will let the big contract when President Dillon gives the word, and the right of way is practically all secured. Nothing more definite could be learned today.

A Peaceable Revolution.
BUENOS AYRES, June 30.—Advices from Santiago are that the recent peaceable revolution in that province is supported by all its influential citizens. Troops have been dispatched to the scene by the government, and a commission has also been sent to the province to arrange the difficulty.

A Stove That Cost \$16,000.
"Some twenty-five or thirty years ago," remarked G. S. Hubbard, Jr., "Mr. Harrison owned eighty acres of land which is now on the line of the Burlington railway, between Chicago and Riverside. I saw that the property was bound to increase in value, and so I made up my mind to offer Mr. Harrison \$300 an acre for it. I found him in his office, seated on a rickety old sofa beside a dilapidated desk and warning himself before the fire contained in a disreputable looking, rusty, begrimed old stove. Well, I made my offer and he promptly rejected it. He said he wanted \$250. I saw that he meant what he said, and the conversation soon drifted to other topics. Presently I remarked the ancient and hardly creditable appearance of the stove.
"Yes, Carter," said he, "it is pretty tough, but it holds the coal, and that's all that's necessary."
"You ought to be ashamed of yourself," I returned. "I'll tell you what I'll do. I'll just go out and buy you a stove as I present."
"You will be eagerly asked, 'Howest.' Well, then, if you'll do that, I'll tell you what I'll do. I'll let you have those eighty acres at \$200."
"So I went out and bought a stove and had it put up in Carter's office. The whole thing cost me \$14.25. As soon as the fire was burning brightly in it I demanded the deed to the land, paid the money and walked out of the office the absolute owner of those eighty acres.
"Within a twelve-month I was offered \$400 an acre for the land and refused it. The next time I saw Carter after this offer had been made I told him about it.
"You don't say!" he exclaimed. "Come down to my office."
"We went. Carter took down his books and in my presence made the entry:
"To one office stove—\$16,000."
"And he carried it right through his books too. Afterward I sold the land for \$300,000."—Chicago Post.

A Girl's Dressing Table.
A girl's dressing table is the pride of her room. She may have pretty pictures, a collection of photographs of her best fellows, far exceeding in number that of her previous girl friends; she may have a gun board of real rosewood, five dozen satchet bags and a nightgown case of real Japanese silk; yet with all these glories to outshine it, the dressing table is the pride and the piece de resistance, so to speak, of the room. The sweetest dressing table is all of glass and is provided with two shelves, an upper shelf and a lower shelf. These are of beveled glass and are held in place by beautiful gold legs. Another kind of a dressing table, less expensive, has simply a beveled glass cover on top, and is just a plain table elsewhere.

On top of the table go the silver manuring implements, the celluloid brush and comb and the ivory backed glasses and brushes. Besides this there must be the dozens of little fancy boxes, powder and puffs and bottle of cologne and perfume. To make these bottles more ornamental manufacturers have supplied cut glass pitchers and odd shaped things filled with perfumery of all colors. One can thus, if she be a dainty miss, and particular as to the appointments of her room, have her perfumery to match the general color of the boudoir.—New York World
