DEMOCRATS CONVENE.

Germany Sends a Scientist to Examine American Pork--A Fatal Railway Accident.

CLEVELAND, O., July 13.—Delegates to the democratic state convention are arriving here and the indications are that tomorrow will witness the largest gathering ever assembled in the Buckeye state.

Although the preliminary meetings of the committees will be held tomorrow the convention will not be held until Wednesday.

That Allen A. Thurman, son of the "Old Roman," is to be temporary chairman is apparent to all except friends of other candidates, and also that Governor Campbell will be renominated on the first ballot, although the friends of Lawrence Neal insist that their candidate has a good fighting chance.

Governor Campbell's friends are complaining of the circulation of a story to the effect that he contemplates declining the nomination after winning the fight and that the Campbell men are then to throw the nomination to McMahon of Dayton. The story has received no general credence.

Mallison, as ruler commands the respect of foreigners, but the fact that Mallison is a Protestant, while a large majority of Samoans are Catholics, tells against the king. The native Samoan army at Apia consists of seventeen men who are trained in military tactics by a young German lieutenant.

DEATH BY ELECTRICITY.

A St. Louis Lineman Who Received a Shock of 3000 Volts.

ST. LOUIS, July 11.—William Murphy, an electric light lineman of this city, who about two months ago received an electric shock of 1400 volts more than used in the Sing Sing execution, suffered indescribable tortures and was pronounced dead, has sufficiently recovered today to tell the story of his agony. He said this morning:

"I know this, that in the shock I received I suffered a thousand deaths. I would rather die this minute than to undergo the agony again. Every organ in my body felt as if it was being torn by hundreds of pointed instruments. I suppose the shock lasted less than a second, but it seemed to me that I was praying for death to come for hours before the pain left me. When I recovered consciousness I thought I was in another world.

"In view of your experience with 3000 volts of electricity, what do you think of the execution of the four men at Sing Sing?"

"Why it was simply damnable. Every one of those men suffered as I did. Each went through the same, and perhaps greater torment. It was the perfection of cruelty. All the assertions of witnesses to the contrary will not make me believe that those men had a painless death. Why, common sense is all against it. I received a severe shock of 3000 volts. The register at the time showed it beyond a doubt. I only felt the shock for a fractional part of a second and then I was unconscious, practically dead. Suppose another 3000 volts had been sent into my body and kept surging through it for half a minute, as was the case at Sing Sing? Of course it would have killed me, but in the meantime, in the intervals between my first contact with the wire, I suffered an agony which no one but a fiend would compel the worst villain to undergo. It was the same with Smiler, Slocum, Wood and Jurgio. It probably took longer for the current to render them unconscious because the voltage was but little over half as much as I received. Yet during that time they suffered enough to atone for all the sins that have been committed since the creation of the world. I am one of the few living men who can speak with authority on the subject, because to all intents and purposes I suffered death by electricity and know what it is.

Dom Pedro's Pension.

RIO JANEIRO, July 11.—There is a growing public desire to renew the allowance to Dom Pedro, the ex-emperor, on the same terms and for the same amount as when he abdicated the throne. This allowance has been withheld on the ground that Dom Pedro had not abandoned his claim to the throne, and was still at work in a quiet way, trying to renew his power in Brazil. For some time past it has been evident that Dom Pedro had altogether surrendered any idea of the restoration of a monarchy in Brazil, and therefore the movement to renew his pension is rapidly gaining strength.

Kansas Farm Mortgages.

TORONTO, July 11.—The Kansas farmers' alliance today appointed a committee of three farmers to ascertain the amount of farm mortgage indebtedness in Kansas, and then go east and negotiate with one or more companies of capitalists for their payment or renewal at a reduced rate of interest. The object is to do away with the middlemen, who have been getting exorbitant commissions from both borrower and lender.

NEWS OF THE NORTHWEST.

The Allen quartz mine, on the Klamaath, over in California, lately cleaned up \$7,000 worth of glittering dust, and the owners were thus enabled to whoop it up on the Fourth.

Grant's Pass is well provided against conflagration. The water-works has a full head continually and the fire company can throw a stream of water over the highest house in town.

The captain of the Lakeview Examiner is now Wm. M. Townsend, who succeeds S. C. Beach as editor and proprietor. Townsend is a writer of taste and judgment, and will prove to be a heavy worker in the development of our "upper" country. The Examiner will say something, and say it well.

Persons from La Grande say that there was no end of thievery on the night of the fire. The next morning seventeen warrants were out for persons charged with theft. Wagons were loaded with goods and started on the way to Umatilla county, but were overhauled and the men in charge arrested. People living in the town had goods concealed in their houses.

The Dagoo brothers, riding good horses and evidently journeying to some distant clime, were seen to pass R. W. Kenney's place, in Umatilla county, Monday night at 5 o'clock. It is supposed they have gone into Grant county, and intend never to return to Umatilla, which has been made too hot to hold them.

A ton of baron was destroyed in the smoking house of McCrow & Williams, at Salem, on the 10th.

D. R. French, of Centralia, has received news that his claim for a pension has been allowed from August, 1864, at the rate of \$6 p. r. month. He will get about \$2000 back pay.
