Demented Minnesota Mother Eats Her Babes to Keep from Starving ----A Horrible Story.

To make room for new goods, we offer Killed by Nitro-Glycerine---A Califor-Earthquake .-- Hanged by a Mob ... Who Killed Brown?

> MINNEAPOLIS, July 17 .- About 100 hundred people. The other day a fish-

ing party from that place returned from the woods bringing with them a wild woman and her sixteen-year-old daughter. The daughter tells the story to her listeners of horrible suffering and privation. She says that the husband and father of the family was eaten by wolves while intoxicated last March. Since that time they have had no food. The young children died of starvation and were cooked and eaten, one by one, by the mother and the oldest daughter. The mother's mind finally gave away and she is now a raving maniac. They were taken to the county jail where they will be taken care of pending an investigation, as it is thought that in all probabilities one or more of the children

were murdered by the demented mother.

SAN DIEGO, July 17 .- This is the third day of the inquest in the Brown case, and more than a dozen witnesses have testified that Breedlove and Coates were the men who dealt the blows which killed Brown. Marshal Gard testified that he did not deputize the men who tried to arrest the sailors, and they had no legal authority for the assault. The injured men and men on board the Charleston are recovering.

Hanged by a Mob.

MIDDLESBURY, Ky., June 17 .- Early this morning Frank Rossimus was taken from the county jail and lynched by a posse of armed citizens. Yesterday afternoon Rossimus and Lilies Johnson fired upon the police who were attempting to arrest them, and wounded patrolmen Tucker and Williams. They escaped but were recaptured last night. Johnson escaped lynching through being jailed at Painesville.

Connecticut to the Substitution of Electrocution for Hanging.

HARTFORD. July 15 .- One of the mat HARTFORD. July 15.—One of the mat-ters which may engage the attention of the Connecticut legislature is the ques-tion of substituting electricity for hang-ing in the infliction of the desth penalty. In this state. The report of the recent electrocution of four murderers at Sing Sing has led different parts of the state to the consideration of the subject. Rep-resentative Stevens, of Bridgeport, will probably introduce the bill. He will be careful, however, to omit the clause recareful, however, to omit the clause re-garding secrecy, as he regards that very un-American idea prejudicial to the in-terest of society and a direct violation of the constitution of the United States, so miles miles southwest of this city on the outskirts of a thick pine forest on Snake visar is a fine place where lives a few

A Religious Blot.

SAN ANTONIO, Tex., July 15.-A letter from Durango, Mexico, says that Sun-day, July 5, while the Methodists were laying the corner-stone of a new church, a riot occurred between the citizens of that faith and the Catholics. The Rev. Gilmore, who officiated, said : "My friends, for the sake of that gen-

tle Christian in whom we all believe, let

us proceed in peace." Scarcely had he finished when he was knocked senseless by a stone, which struck him on the head. Policemen dispersed the crowd before further injury was done. The letter further says American residents of Durango have called on their government for protec-tion, and that the more ignorant among the Catholic residents declare services shall never be held in the new church.

He Lived a Double Life.

CINCINNATI, July 15.—John Roberts passed as a single man. He was rich and courted, but to all appearances lived a bachelor life. A year or so ago he died. Then came forward Miss Alice Nickert, who claime for ward miss Ance estate, worth something like \$100,000, setting up the claim that she had for years lived with Roberts as his wife un-der an assumed name. The Roberts family started in to fight the case, and it has dragged some months through the courts. Today Miss Nickert accepted \$14,000 cash to drop the suit She had secured about \$20,000 from Roberts during his life, which had been judiciously invested in realty, and she has a lot of valuable jewelry.

Republicans Make no Nomination.

LOUISVILLE, July 15 .- At Paducah yesterday the republican convention decided not to nominate a candidate for the state senate, but to support Graham, the people's party candidate. In an in-terview, Jesse Harper, the people's party leader, said the purpose is to get a strong vote in Kentucky to show that the people's party will receive the sup-port of the farmers' alliance in the south. What Kentucky does, he believes, will largely determine the success

The Church Bell Fell.

BERLIN, July 15.-While a Catholic wedding was in progress at Schwem-dinitz, Prussian Silesia, today, the old church bell fell from its tower, striking the altar, before which the ceremony was being performed. Both the bell and the altar were smashed into fragments, and the flying debris struck and injured a number of witnesses. The bride fainted from fright, and a panic was nar-rough a wasted rowly averted.

Oliver Wendell Holmes was a class mate of Dr. Clarke at Harvard, and as cording to the reminiscences of the latter, the "Autocrat of the Breakfast Ta-ble" was as witty then as now. One day the two were talking of metaphysics, when the bright tongued little great man exclaimed: "I'll tell you, James, what I think metaphysics is like. It is like a man splitting a log. When it is done he has two more to split!"-San Francisco Argonaut.

How Leap Year Started.

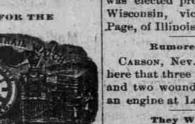

Hampson, in his "Medii (EVI, Kalandarium." quotes the following quaint tradition from an old Saxon treatise: Some assert that the bissextus or leap day comes through this, that Joshna prayed to God that the sun might stand still for one day's length. that he might sweep the heathen from the land that God had granted him and his followers. It is true that the sun did stand still for one day's length over the city of Gebaon. but the day went forward in the same manner as other days. And the bissextus is not through that, as some do think." In France and some parts of Spain and Portugal there exists a tradition known as "the ghost of leap yeur." Believers in this say that a marvellous monster annually appears on leap day and disarranges human affairs for the remainder of the year.-St. Louis Republic.

A Tanuer's Strange Infatuation.

The incident in reference to the wheelwright's infatuation for Miss Gabrielle Greeley. even after she decided to marry, led to the publication of a similar story in Hahlax, N. S. When Professor Schurman was dean of the Dalhousie college a Picton county tanner conceived the idea that Mrs. Schurman was in love with him, and would desert her husband to become his wife. When Dr. Schurman became dean of Cornell university the tanner visited New York state every few months to fondly gaze upon the lady on the street or in her pew. The tanner even went to the fa-ther of the lady. George Munro, the New York publisher, and declared his conviction that his passion was reciprocated, and asked him to interfere in his behalf .-- Cor. Chicago Tribune.

No Tyro at the Beins.

I saw a big three horse dray in Fourteenth street the other day, the driver of which I admired very much. He was backing the truck down, and before him was the trio of powerful, gray, half-bred Percherons. He used his reins merely to give the direction of the desired swing to his horses, and for this a touch sufficed. Then he would speak to them, and they would move as he wished, most intelligently. When they backed the reins lay idle and loose, a mere "Come back here!" being sufficient! Any man who has the sense to manage horses in this fashion is a man worth knowing .--
