SHOT HIS SWEETHEART

A Lovely Young Lady Killed by a Rejected Lover—A Miner Killed by his Mine Caving in on Him.

Fifty Men at Indianapolis Lynch a Prisoner in his Cell—Deadwood Prisoners Break Jail.

HANOVER, July 18.—As Miss Christie Warden, accompanied by her mother and her sister Fanny and Louise Goodell, were returning from their home one mile from the village at a late hour last night, Frank Alms shot and killed Miss Christie. Alms fled. Miss Warden is the daughter of a wealthy farmer and was a beautiful and estimable young woman. Alms was a former employe of her father and his attention to Miss Christie had been repulsed.

OREGON CROP REPORT.

The Fall Wheat Now Being Cut Gives a Huge Yield.
PORTLAND, July 18.—The bulletin of the Oregon weather bureau issued today says: "Fall wheat is being cut in many sections of Western Oregon and the yield is heavier than anticipated. Careful estimates show at least thirteen million bushels of wheat for export in Oregon and Washington. The total yield will be increased two million bushels."

HOPS AND FRUITS.

PORTLAND, July 18.—The codlin moth has made its appearance in many sections. Hops are doing fairly well. The output of peaches will be greater than last year and apples are not an average. Prunes and pears will show an average crop.

Released From Custody.

PORTLAND, Or., July 18.—J. F. Steffen, yesterday brought suit against the steamer Victorian owned by the Union Pacific Co., to recover the sum of forty-three thousand dollars, a balance which he claims due on construction of the steamer. The vessel was placed in custody of Sheriff Kelly until today when a bond of one hundred thousand dollars was given. The steamer was chartered by a church of this city for an excursion today, and was held several hours pending procurement of the bond.

The Murderer Found.

CLIFTON, Ariz., July 18.—The body of an American was found in the river at Fort Thomas one week ago who had evidently been murdered, the face being mutilated to prevent identification. A Mexican named Cesaro Luzaro was arrested yesterday in Wilcox, charged with committing the murder, there being strong convicting evidence against him.

Suspended Payment.

LONDON, July 18.—The English bank of River (Limited) of which Smithers is managing director, has suspended payment. The capital of the bank is \$7,500,000, with a reserve fund of \$2,100,000. The cause of the difficulty is the impossibility of collecting debts due it in the Argentine Republic.

They All Broke Jail.

DEADWOOD, So. Dak., July 18.—A general break was made today from the jail at this place. Five prisoners, all charged with felonies escaped. None of whom have been so far captured. Although the country has been scoured in every direction by men on horse back to search of them.

Eleven Killed—Many Wounded.

LIVERPOOL, July 18.—A train passing along the railroad running near the Manchester ship canal fell over the embankment near this city, killing eleven men who were working underneath. Many others were wounded.

He is Seriously Ill.

BALTIMORE, July 18.—A Sun's special from Lynchburg, Va., says: News has been received here of the critical illness of Thomas Bocock, ex-speaker of the Confederate congress at his home in Appomattox county.

Lynched in His Cell.

INDIANAPOLIS, Ind., July 18.—At 1 o'clock this morning, fifty unknown men entered the jail at Spencer and lynched Frank Dice, awaiting trial for murder. He was hanged to the cell door.

The Weather.

SAN FRANCISCO, July 18.—Forecast for Oregon and Washington: Light rains near Washington coast and in northeastern Oregon.

San Francisco Market.

SAN FRANCISCO, July 18.—Wheat, buyer '91, 1.55 1/4, season, 1.60.

Chicago Wheat Market.

CHICAGO, Ill., July 18.—Close—wheat steady, cash 86; September 87 1/2.

Badly Mixed Up.

NEWBERRY, Mass., July 18.—The Boston Boot and Shoe company has assigned. The company controls fine retail stores located in the state of Connecticut. Manager Carroll who had entire control of the stores has disappeared and all sorts of ugly rumors are prevalent about him but the firm has no definite idea of the condition of its affairs.

Badly Broken up.

SENORA, Cal., July 18.—Joe Hampton was buried beneath the covering of earth at his mine on Jackass hill yesterday afternoon and when rescued three hours later by a passer by, every rib, his left collar bone and breast bone were found to be broken, besides internal injuries. There are little hope of his recovery.

THE WOMAN EXPLORED.

Mrs. Sheldon Returns From Africa Completely Broken Down in Health.

LONDON, July 16.—Mrs. Frank Sheldon, the American lady who attempted to penetrate the wilds of the Killimangaro district of Africa, arrived in London today, returning from the perilous expedition. A crowd of friends, among whom was Hon. W. Simmons, of Boston, met her at the station, together with a number of reporters. All who had seen Mrs. Sheldon when she started on the trip were shocked at her appearance today. Six months ago she was the picture of health, with a plump figure, clear, fresh complexion and bright eyes. As she was assisted from the train today she seemed twenty years older. The eyes were deep-sunken, the forehead drawn and wrinkled, the complexion a dark and sickly yellow, the cheeks thin and pinched, and the body painfully emaciated. She walked with the aid of a stout stick and with several rests the short distance to the carriage which was awaiting her. Her husband assisted her into the carriage, and she was unable to answer any questions. Mr. Sheldon did the talking, and through him the lady declared she was in robust health during her journey in Africa. In returning, when at a point nearly a week from the coast, she had a bad fall on some rocks while crossing a stream and injured herself. It was impossible to secure the necessary surgical aid till the coast was reached. The accident had a serious effect upon her health, but all that was needed was rest and good care, and she would soon be well. Though the general impression has been that the expedition was a total failure, Mrs. Sheldon claims that she did everything that she sought to do, and made the trip going and returning in the exact time scheduled in advance. She admits she did not go beyond Mount Killimanjaro, and says the letters to the newspapers which have been attributed to her were not written by her. After resting at her villa on the Thames and spending some time in recuperating her health in Jersey, she will write a book describing her travels, and will also deliver a series of lectures.

DAMAGE FOR TRESPASS

The Heirs of a Rich Mexican Claim a Large Slice of Texas Land.

CHICAGO, July 16.—Ernest Dale Owen, of Chicago claims, damages in a suit being today against John T. Boyd, of the Nevada bank of San Francisco, John O. Steinberg and L. Osborn. The plaintiff asks \$2,300,000 for trespass. Owen is trustee of the estate of the heirs of Jose Ygnacio Ronquilla, who was once a rich Mexican grantee. Ronquilla secured a large grant of land in Presidio county, Tex., on which, it is claimed, the defendants, who are all citizens of San Francisco, settled a large force of men and mined silver ore to the value of \$1,000,000. This occurred since June 16, 1889, and it is alleged that previous to that date the defendants took out another \$1,000,000 worth of ore and 50,000 cords of wood, valued at \$150,000. Since the alleged trespass, the plaintiff acquired trusteeship of the property. The defendants claim to hold title by purchase and dispute Owen's claim.

ABOUT THE CROPS.

Advised to Hold Their Wheat.

NEW YORK, July 17.—H. W. Aver, secretary to the president of the farmers' alliance, signs the following circular, advising the farmers of the West to hold the product of their wheat fields as long as possible, in which event a substantial reward is sure to follow. The circular points out the fact that European crops are worse than ever before, and that the reserves are exhausted. All the European governments are alarmed, and are now taking steps to ward off famine. Under such circumstances, it is certain that the true value of wheat is greater than ever before, and farmers are advised not to market their wheat, unless they get the benefit of the rise that is certain to come.

Russia Cannot Compete With Chicago.

CHICAGO, July 16.—The leading pork packers here, scout the idea that Russia will be able to keep the American hog entirely out of the foreign markets. The proposed plant to be erected near Moscow, at a cost of \$150,000, they say would be utterly incapable of competing with Chicago packers, that sum not being sufficient to furnish facilities for doing economic work. They also claim there are not enough hogs raised in all Russia to keep one Chicago house running one month.

Tennessee's Convict Lease Law.

COAL CREEK, Tenn., July 16.—Governor Buchanan arrived here this noon with two companies of militia, and in a speech to the mob said he was here, not to discuss the convict lease law, but to see that the law was not overridden. The discharged miners are well armed, and the outcome is doubtful.

NEWS OF THE NORTHWEST.

The tramp is getting to be a nuisance in the vicinity of Pendleton.

There are about seventy-five men engaged in the tanbark business on Rogue river.

Raising gooseberries pays. A Polk county man has netted \$300 from one acre of these berries.

There is great indignation through the Sound country about the way in which the game laws are being openly broken, and young grouse served up in Seattle every day. It will spoil the legitimate season altogether.

A sensational story comes from Astoria, Oregon, about the running away of a man named Derwin Norris, who fled to South America, leaving \$40,000 worth of property. It is claimed he was frightened off by enemies who knew of his complicity in a murder committed near Oysterville several years ago.

The Albany Herald tells of a new venture that two men have engaged in that city. G. B. Conley and John Schloser went up on the North Santiam some time ago to take up claims of timber, and succeeded in locating only a bear's nest. They are now busily engaged in tanning bear, rattlesnake and cougar, to put on exhibition at the Portland exposition.

The official chart of the mouth of the river showing twenty-seven feet in the shallowest place at the average of lowest low tides, was viewed with satisfaction by a large number yesterday, and more than one expressed intention to get a chart and hang it up, and when one of those infernal liars showed up he could be confronted with the exact truth, certified to by the United States government.

Mr. D. P. McDaniel who has recently been appointed stock inspector of this county struck a job before he had gotten fairly installed in office. A band of hogs that were to be shipped to the Sound market were attacked by what the state Veterinary Surgeon after analysis pronounced malignant influenza and many of them had to be killed. Mr. McDaniel will in all probability be found to be the right man for this important trust.

IDLE CARPENTERS.

San Francisco is Overrun With Members of That Craft Without Work.

SAN FRANCISCO, July 16.—The carpenters' trade is said to be overdone in the city at present. Owing to the dullness in building operations at Denver, Salt Lake and other points near by, a number of idle carpenters have drifted to this city, and about 200 members of that craft are thought to be out of employment here now. The carpenters of this city, as well as the rest of the union, are contributing to the national strike fund, which is rapidly growing, and will be used for the general strike. The eight-hour rule is in force here, so it will not affect San Francisco, but outside of Denver and Seattle the building operations in all other western cities will be tied up.

The Choicest Fruit Is Shipped.

SAN FRANCISCO, July 16.—Market men complain that they are unable to get the best fruit for their stalls at this time. "I inquired into this," said a large fruit and produce dealer this forenoon, "and I found that the complaint is justified by facts. Especially is this true in such as it refers to apricots and peaches. I demonstrated this to my own satisfaction by intercepting a lot of fruit packed for shipment to Seattle. I found that the apricots were a choice article and that they were carefully packed in layers with sheets of white paper between the layers. Every one of the apricots was prime. The same was true of a lot of peaches. I find that our choicest California fruit at this time is going east and also largely to Oregon and Washington. We cannot get much fruit here, although of course it will come a little later, when there is a larger quantity ready to pick."

Mr. Spurgeon's Condition.

LONDON, July 16.—Rev. Mr. Spurgeon still lingers. His physicians regard the prolongation of his life as marvelous. Nothing but his extraordinary constitution could have withstood such attacks as those of last night, when death was momentarily expected. His congregation as the his vitality to the efficacy of prayer. The tabernacle is open all day and prayer meetings are continually going on. Today paroxysms of pain and fits of delirium succeeded each other, and the end may come at any moment.

Remembered It Against Him.

In looking over the La Grande Gazette of the 10th inst. we noticed among many other losses by the fire of July 14th, that of Bill Snowgrass' printing material, and in our great sympathy for the unfortunate everywhere, our minds naturally ran back to a few years since, when the aforementioned Bill Snowgrass got from a then wayward boy of ours, several hundred dollars worth of this same material for \$50. But such is life in the far west, and time makes all things even.

Stuff for Lead Pencils.

A two-foot vein of graphite was discovered in the Trail creek district last week. It has not been examined sufficiently to prove its merits, but it promises to be of good quality.

Since the festivities of the Fourth of July have passed and the people who went away have returned to the city, business starts up quite brisk. Our merchants and mechanics are doing a pretty good business. With few exceptions everybody is up and at it early. With the prospects of good crops our farmers wear smiling countenances, and those who have dropped in to see "the new man" at the Sentinel office, shake hands as though they mean it—something we like, by the way—and "swap yarns" with us quite socially.
