THE WAR IN TENNESSEE.

No Fighting as Yet but the Situation is a Grave One--The Attorney General Complicates Matters.

A Race War Probable between Lumbermen and Italian Subjects--The Bruisers Will Fight.

KNOXVILLE, Tenn., July 24.—There is scarcely doubt but the troops will move from Cool Creek before noon today.

Two gatling guns will be mounted on flat cars and thus enter Cool Creek. But there is not much danger of bloodshed as the miners say that not a gun will be fired.

SIMPLY A POSSE.

The Tennessee Militia Much Disgusted at the Attorney General's Decision.

KNOXVILLE, July 24.—There is no change in the situation this afternoon. The troops still remain in Knoxville and all is quiet at Coal Creek and Briceville. Another and final conference will probably be held this afternoon between the governor and representatives of the miners. The opinion of Attorney General Pickle, rendered this morning with regard to the right of the governor under the law to call out the state militia is to the effect that the governor cannot call out the militia, but they may be used as a posse. This complicates the situation, as the militia feel they are under no more obligations to serve as a posse than other citizens of the state, and that it is lowering to the dignity of the military branch of the state service. So far there can be seen no danger of a serious trouble any where today.

BUYING WINCHESTERS.

Knoxville Hardware Stores Selling Immense Lots of Arms.

KNOXVILLE, Tenn., July 24.—An investigation shows that in the past twenty-four hours there has been an unusually large number of calls at the Knoxville hardware stores for Winchester rifles. It is said that there are 500 men in the vicinity of Williamsburg, Ky., ready to come to the aid of the miners at Coal Creek. It is known that a telegram was received from Appena, a mining town, proposing contributions of money and also men if necessary. At no time has the situation appeared more serious, though there will be no conflict until the governor moves the convicts.

TO IMPORT SKILLED LABOR.

The Superintendent of Immigration Says It Can be Done.

WASHINGTON, July 24.—The superintendent of Immigration has rendered a decision on the application of the stamping company of St. Louis to be permitted to import skilled labor for their tin plate mills, to the effect that the immigration law plainly intends that skilled labor may be imported into the United States to do work in an industry not yet established, provided skilled workmen in that industry cannot be found among our own people. Therefore the importation will be permitted as such cannot be found in the United States.

Investigating a Murder.

BRIDGEPORT, Calif., July 24.—S. B. Hopkins, formerly deputy United States marshal, arrived here last evening and this morning commenced taking testimony in regard to the murder of Ah Quong Tia, the Chinaman who was killed and brutally chopped to pieces by Indians on the 9th day of June last. The Chinaman had murdered an Indian by the name of Poker Tom, and had cut his body into pieces, salted it down, cooked it, and had fed the Indians a portion of it, which so exasperated them that they cut and murdered his body in the same manner.

A Railroad Collision.

DENVER, July 24.—The Narrow Gauge east bound express from Salida on the Denver & Rio Grande railway collided with the broad Sait Lake Express going west a few miles from Carlisle early this morning. The trains were running at full speed with heavily loaded engines and front coaches. Both trains were completely wrecked and four persons killed.

Want Duces Removed.

OTTAWA, July 24.—A petition signed by 35,000 members of the order of patrons of industry was presented the day of the removal of import duty on bladder twine, salt and sugar, and setting these articles on the free list.

San Francisco Market.

SAN FRANCISCO, July 24.—Wheat, buyer '91, after August first 1.58%, season 1.63%.

RACE WAR IN PROSPECT.

Pennsylvania Lumbermen and Italian Laborers Will Probably Fight.

GLEN HAZEL, Penn., July 24.—A race war which threatens the diplomatic complications similar to those growing out of the New Orleans affair, exist here. Some days ago in a drunken row between some lumbermen and a gang of Italian railroad laborers, Horace Fisher, a lumberman, was stabbed and killed by Paolo Passuzzi who escaped to the Italian camp where he has since been protected.

The Italians flung the flag of Italy to the breeze and defied the lumbermen to interfere with Passuzzi. The lumbermen are thoroughly aroused and threaten to kill every Italian in the neighborhood. They have notified the Italians that unless Passuzzi is delivered to the jail for trial inside of five days, they will come prepared to take him at the point of Winchester rifles. The Italians have appealed to the Italian consul at Philadelphia, who has demanded protection for Italy's subjects.

Whisky Trust to Concentrate Manufactories.

CHICAGO, July 24.—It is stated at the International Revenue office that the whisky trust has decided to concentrate all the whisky manufactories at Peoria by sale from time to time to outside houses. The object of concentration is economy in operation and reduction in the working force.

A Chance for Hall and Fitz.

GRAND RAPIDS, Mich., July 24.—The Pokegama Athletic association of Grand Rapids has decided to offer \$10,000 for the Hall-Fitzsimmons fight with or without gloves, the club to furnish a guarantee that the fight will not be interfered with.

The Italian Consul's Views.

PHILADELPHIA, July 24.—The Italian consul here says the story of a threatened race war at Glen Hazel is exaggerated but he admits that there has been correspondence about the matter passed between him and the district attorney.

The Sports in Court.

ST. PAUL, July 24.—Hall and Fitzsimmons and their trainers, Barney Smith and Jim Carroll, were arraigned in the municipal court this morning but the cases were continued.

Chicago Wheat Market.

CHICAGO, Ill., July 24.—Close—wheat steady, cash 88 3/4; September, 86 3/4; December, 88 3/4 @ 88 1/2.

The Weather.

SAN FRANCISCO, July 24.—Forecast for Northeastern Oregon and Southeastern Washington: Light rains.

FIGHTING IN THE MOUNTAINS.

A Bloody Mexican War Carried on Unknown to the Outside World.

CHICAGO, July 22.—According to the statements of two young Mexicans, now in the mountains of Mexico, unknown to the outside world. It has been supposed that with the death of the great leader of the Yaqui Indians, Chief Cajeme, the Indian wars in Mexico had closed. According to the story told this has not been the case. Thousands of Yaquis are strongly entrenched in the mountains, and troops, which are stationed at all towns along the Yaqui river, are powerless to reach them to protect the lives and property of citizens. In bands of fifty or more the Yaquis make raids on the towns and have fierce fights with the troops. The condition of affairs is said to be daily growing most alarming.

LOOKING FOR INFECTED FRUIT.

Officers of the State Horticultural Board Keeping a Sharp Lookout.

Inspector Varney and Secretary Allen, of the State Board of Horticulture, visit the commission houses every two or three days to see if infected fruit is offered for sale. Since they ordered 100 boxes of bad California fruit returned, they have had no trouble. They find that the commission men are in sympathy with them and aid them in their efforts to keep infected fruit out of Oregon. Fruit dealers are also anxious to have the law enforced. While they suffer a hardship at present, Secretary Allen is confident that they will be benefited in the long run. Under the law the board has authority to condemn infected fruit and to prosecute dealers who persist in selling it.

The Behring Sea Matter.

CARLE MAY, July 22.—S. V. White, more familiarly known as "Deacon White," of Wall street, has arrived here by appointment with the president, and will call upon him tomorrow. It is understood that White's appointment is relative to the contract that the government has with the North American commercial company for the privilege of catching seals in Behring sea.

Wanted to Elope With His Step-Daughter.

BEXTON, Tex., July 22.—Last night B. Williamson shot and killed his wife and W. Hamilton. He is being pursued by a large posse. A short time ago Williamson eloped with his 14-year-old step-daughter, but was brought back. He tried to get away with the child again last night. The wife interfered. He killed her and also Hamilton. All concerned are negroes.

CONCERNING THE RAILWAYS.

Jay Gould Traveling West. This Time in Search of Health.

CHICAGO, July 22.—Jay Gould and party arrived at 4:50 o'clock this afternoon, on the North Shore limited, and departed for the Rocky mountains on the Omaha limited, over the Rock Island, at 7 p. m. Mr. Gould is very much under the weather, and thin, pale and haggard. He is not in nearly as good health as when he was West in March, and seems to feel the effects of the heat very much. Mr. Gould's visit West is solely in search of health. He was accompanied by younger children, his private physician (Dr. Munn) and S. H. Clark, first vice-president and general manager of the Missouri Pacific and Union Pacific railways.

Kansas' Alliance Judge.

TOPEKA, Kan., July 22.—Judge McKay the alliance judge who has been summoned before the supreme court to answer a charge of contempt of court, arrived here this morning. To a reporter this afternoon McKay said: "The stories about the Hunnywell case have been all one-sided. It is not an alliance fight. The statement that the alliance in secret session is dictating to my court is false. Hunnywell is of unsound mind, and is not competent to manage his affairs. I think the supreme court will uphold my action when it has heard the other side of the case."

Secretary Blaine Still Improving.

WASHINGTON, July 22.—It is learned through reliable sources that Secretary Blaine is gradually preparing to resume charge of the state department affairs. He now has his private secretary with him, and is getting together the loose ends of his work. It can hardly be said that he is actually at work yet, and the most he will undertake for some time, if his health continues to improve, will be merely in an advisory capacity. The awakening of interest in his work has not, it is said, retarded his recovery, but it seems to be beneficial to him. This being the case, it is believed he will be able to resume his position in the administration in the fall.

Peffer Will Head the Alliance Ticket.

TOPEKA, Kan., July 22.—The rumor that Senator Peffer was figuring for the nomination for president by the people's party in 1892 was confirmed today. The Alliance Advocate, the people's party organ in Kansas, raises his name, and in an editorial states that Kansas took the initiatory step in the new movement, and was entitled to the honor. Until it was known that Senator Peffer desired the nomination, the preference among the alliance men seemed to be for President Polk of North Carolina. Senator Peffer's friends say that the man who was big enough to beat Ingalls is big enough for a presidential candidate.

San Foin.

Last Thursday Mr. H. A. Ritchie showed us a bunch of grass which is commonly known by the name of San Foin. It was a specimen of some which he had raised on his place about 11 miles southeast of town. He has been experimenting with San Foin for three years. He first obtained some of the seed from the government experimental station at Berkeley, California. Judging from the specimen before us it is a very valuable grass and should be raised extensively in Sherman county, especially by those who have stock to feed. San Foin does not require any moisture. It thrives best on dry, sandy, gravelly soil. This is a grand feature connected with it. Many people are under the impression that moisture is necessary for its growth but that is a mistake. We would urge the farmers and stockmen to try it. Mr. Ritchie is one of the few who have tested it and he is very much pleased with the results so far. Others should supplement his efforts in such a direction, as it is a matter that should be of special interest to the people of this county. San Foin makes excellent feed for cattle, sheep and horses. It remains green both winter and summer. One seed of San Foin will produce from 70 to 100 stems. The bunch which Mr. Ritchie showed us was nearly two feet long and consisted of over 70 of these stems which were covered with good green feed. Stock will readily eat San Foin and in that fact lies its chief value. Some persons place the seed on the surface of the ground and think it will grow better in that way, while others put in the seed with a press drill and consider it necessary to press the seed deep into the ground. Some prefer to mulch the ground when sowing the seed and others are of opinion that mulching is not necessary. The only plan is for all who are interested to experiment and make the results known.

Recently, before the royal commission on labor, evidence was given in regard to the condition and lives of the dock laborers in London, England, and other large seaports. The testimony summarized was to the effect that the average weekly pay was 15s., that only 52 per cent. obtained regular employment, a large proportion not having work for four months out of the twelve; that two rooms cost 4s. per week; that the staple food was bread, butter, tea and milk, with "sometimes meat at two-pence or three-pence per pound." The witness who had worked as a docker said that the meat in question was sold at Dutch auctions, and it was an uncommon spectacle to see hundreds of women fighting for the pieces.

According to the New York World, Henry Villard, in an interview a week ago, said: "I hold that the growing danger of the silver standard is the blackest cloud that has hung over this country since the outbreak of the civil war, and I am convinced that if the threatened calamity should really set in, it will result in the worst and longest financial strife this country has ever seen."
