H. Glenn has removed his office and the office of the Electric Light Co. to 72 Washington St.

## WANT "FIAT" MONEY.

Senator Pfeffer Promises the Farmers Lots of Cheap Money--His Party to Elect the Next President.

A Man Kills Himself in the Interest of Science--Fifty Thousand Dollar Express Package Stolen.

SULPHUR SPRING, July 29.—Senator Pfeffer was the orator at the farmers' encampment last night. More than 4000 people were present to hear the Kansas senator. He wanted the government to loan the people money at one per cent. to lift nine million dollars of mortgages, and to pull the teeth and close the mouth of the great red dragon in Wall street. He proposed to do this with fiat money issued directly to the people who had mortgaged their homes. His speech lasted two hours and he closed by saying that the people's party would finally elect a president, congress and senate and if the supreme court was not with them they would make another.

#### DIED FOR SCIENCE.

WEBB CITY, Mo., July 29.—John Thomas, an eccentric old man who had devoted some time to the study of electricity has been found dead in his work shop, having killed himself in order to test the correctness of his theory of electrocution. His theory was to place an electrode over the pit of his stomach and another at his back, passing the current through the great ganglion or pneumogastric nerve causing instant paralysis of the heart and lungs. When found, he had constructed an ingenious apparatus and the strength of the current was shown to be only 1200 volts. There was no burn or blister on the body.

Meeting of National Republican Central Committee.

WASHINGTON, July 29.—The National Republican Executive committee met this afternoon. As far as can be gathered from the utterance of members the principal business will be the determination of the time and place for the meeting of the National Republican committee which is to fix the time and place for holding the National convention. Every effort is being made by Chairman Quay's fellow members to induce him to refrain from presenting his resignation today.

#### Collector Earhardt Resigns.

NEW YORK, July 29.—Collector Joel B. Earhardt this morning announced that he had tendered his resignation as collector of the port of New York. The collector refused to give any reasons for his action. The resignation will take effect on the 1st of August. The resignation has been in the hands of the president for several weeks but he has taken no official action on it.

#### The Omaha Bridge Struggle.

OMAHA, Neb., July 29.—Justice Brewer this morning refused to grant the application of the Union Pacific for superseides in the bridge case. This afternoon he will pass upon the application of the Rock Island to run its trains across the bridge under the present rules of the Union Pacific and will enter a decree which will probably demand immediate compliance with the terms of the contract.

#### A Monster Funeral Procession.

PARIS, July 29.—Crowds of people, estimated at 25,000, gathered this afternoon at St. Maude to witness the funeral of the victims of the railroad disaster of Sunday. There were twenty-four hearses in line. The air was filled with the wailing and crying of relatives and friends of the dead. Many women reached such a pitch of excitement that they went into hysterics, while others fainted.

#### A \$50,000 Package Missing.

HOUSTON, Tex., July 29.—The officials of Wells & Fargo's Express Co., admit that a money package is missing at Kauntz, but decline to give the amount of the loss. It is believed to be \$50,000 or more.

#### The Great Herald Man Indicted.

NEW YORK, July 29.—James Gordon Bennett has been indicted for publishing an account of the Sing Sing electrocution.

#### San Francisco Market.

SAN FRANCISCO, July 29.—Wheat, buyer '91, 1.63 1/2.

#### The Weather.

SAN FRANCISCO, July 29.—Forecast for Oregon and Washington, light rains except in South-western Oregon.

#### Chicago Wheat Market.

CHICAGO, Ill., July 29.—Wheat, weak, cash 88 3/4; September, 87 3/4.

#### A Disastrous Collapse.

PITTSBURG, July 29.—The pudding department of the Frankston mill on Second avenue collapsed this morning, killing four men and injuring eight others. The men were engaged in erecting a building when the supports gave way and the entire structure came down with a crash.

#### Two Thousand Men Thrown out of Employment.

QUINCY, Mass., July 29.—By a strike of the treers in the boot and shoe factory of John E. Drake, two thousand hands have been thrown out of employment.

#### Treaty With San Domingo.

WASHINGTON, July 29.—An important reciprocity treaty under the terms of the McKinley law has been concluded with the republic of San Domingo. The terms of the treaty are very similar to those in connection with Brazil.

#### Death of a Pioneer.

PORTLAND, July 29.—John Lemuel Scott, an Oregon pioneer died at his home in East Portland this morning, aged 89. He formerly lived in Yamhill county.

#### The Cholera's Deadly Work.

LONDON, July 29.—A dispatch from Mecca states that the death rate from Cholera is 140 per day at that place and thirty daily at D'Jeddah.

#### THE GERMAN EMBARGO.

ARMOUR'S EFFORTS TO HAVE AMERICAN HOG PRODUCTS RECEIVED IN GERMANY.

CHICAGO, July 28.—The Journal, speaking of the incorporation of the Tolleston Stock Yards company says that while Mr. Armour has been in Europe, ostensibly on a vacation, he has been in constant communication with German officials relative to raising the embargo on the American hog. Armour has substantially agreed in case the embargo is raised, to establish a plant at Tolleston, Ind., which in point of cleanliness cannot be surpassed. He will pay the salary of an inspector to be appointed by the German government, and in order to avoid any danger of contamination, will ship the products to Germany in a special line of steamers. In order to do this it will be necessary to widen the Welland canal or some other communication with the seaboard. The Journal's informant asserts that the money for such a project would be forthcoming immediately upon the raising of the embargo. It is understood the report of the inspector lately sent over by Germany was against the possibility of perfect cleanliness from a German standpoint, so long as the stock-yards remain as they are.

#### POLITICS AND POLITICIANS.

EX-PRESIDENT CLEVELAND SAYS HE WILL NOT TAKE THE STAMP IN OHIO OR ELSEWHERE.

BOSTON, July 27.—To a representative of the Herald at Buzzard bay, Ex-President Cleveland said today in reply to inquiries concerning the report that he was to go soon on a speech making trip in Ohio: "I do not expect to take part in the campaign there, nor in any other state, and I have never given the slightest intimation of an intention to do so. I am convinced that Governor Campbell and all other fair minded political friends will decline to go upon the stump. There are perfectly good and valid reasons for my action, entirely consistent with the most earnest desire for the success of all the democratic candidates in Ohio and elsewhere. Of course I anticipate a cry will be raised in certain quarters, if such a request is made and declined, that I am selfish and indifferent to the success of the nominees of my party, but such ill-natured accusations I do not expect to escape in any event."

#### THEY WERE FROM OREGON.

THREE STRANGERS FIRED UPON WHILE ASLEEP IN A CALIFORNIA TOWN.

FRESNO, Cal., July 27.—Last Saturday evening three men from Oregon registered at the Hotel de France, in Sanger, and requested rooms. They retired, but finding the rooms close and warm, removed their beds to the roof of the veranda in front of the building. About 1 o'clock Sunday morning parties sitting on a porch across the way saw an unknown man with a shotgun creep along the veranda roof and fire two loads of buckshot at the strangers. One man was dangerously wounded, one seriously and the other slightly injured. No cause is assigned for the deed. M. Rogallo, proprietor of the hotel, is under arrest charged with the attempted murder. He is out on \$3000 bail.

#### The Effect of Mrs. Searles' Death.

MENLO PARK, July 27.—Senator Stanford said tonight that the death of Mrs. Hopkins-Searles would have no effect upon the existing status of Pacific coast railroad affairs. He further said: "Mrs. Searles certainly owned a very large interest in the Southern Pacific, but her death will have no more effect on the management of the road than the death of any other stockholder would have. She did not have and her estate will not have a controlling interest in the Southern Pacific. Of course nobody without a controlling interest could expect to make any changes in the management. I know there has been some talk about the removal of Mr. Towne and other changes, but it was only newspaper talk. There was nothing more in it so far as I know.

Persons leaving the city for a summer outing can have the CHRONICLE sent to them without extra charge.

#### ENGLISH SOCIAL SCANDALS.

#### Printed Interview With the President of the Wesleyan Conference.

LONDON, July 27.—The president of the Wesleyan conference today made an authoritative statement of the views of the church on the recent social scandals. He condemned the doctrine that, while cheating was wrong, gambling was right. The Wesleyans, he said, held the wrong began with gambling in aristocratic houses, on the stock exchange or in commercial circles. The churches ought to unite and obtain legislation to check the evil. The president also suggested among the means to be taken to prevent gambling is that of preventing the newspapers from printing advertisements directly tending to promote gambling. In conclusion the president said many thousands of Christian voters who are determined at the coming general election to put moral questions above party considerations would return the man free from a moral stain.

#### Gold Shipments Abroad.

NEW YORK, July 27.—A broker is quoted as saying: "The banks of England, France and Germany have increased their stock of gold since April, over \$50,000,000. These banks were able to supply the demands of their customers there, hence it seems reasonable to suppose they could allow something like \$50,000,000 in gold to come back to the United States without seriously disturbing the foreign money markets. A large proportion of the gold we have sent abroad has gone to the bank of France, and from \$10,000,000 to \$20,000,000 of the amount, we know, has gone under an agreement to be returned when wanted."

#### Died Saving Her Children.

BERKSHIRE, Cal., July 27.—Mrs. Jonathan Curdell, who was so fearfully burned, but put out the fire in the house where her little ones were, died in great agony, having inhaled flame as well as being literally roasted.

#### Querer Superstitious About Stones.

The most wonderful properties were ascribed to the numerical stones, which many creatures were supposed to carry in their heads. Most readers have no doubt heard of the precious jewel which the toad carries in his brain box, and so called toad stones, which were in reality the teeth of fossil fish, were formerly worn in finger rings as a protection against poisons, at the presence of which they were supposed to change color. It was thought that the best stones were those voluntarily ejected by the living toads, but as the latter were not addicted to freely giving up their treasures in that way, it was necessary to procure the coveted articles by other means, and the recognized method was to decapitate the hapless batrachian at the instant he swallowed his breath.

The feat naturally demanded considerable celebrity, such as could only have been acquired by constant practice; and it is not unreasonable, therefore, to assume that although the endeavors to gain possession of the jewels were per haps numerous, they must invariably have been unsuccessfull, especially to toads. The eagle stone was considered an excellent thing to wear during pregnancy, and the swallow carried in its stomach stores of great medicinal value. —Chambers' Journal.

#### The Editor's Hope.

We hope this is true. We should like it to be true; to put it on record among the wonderful doings of Northampton citizens. This is the story: W. H. Pratt was fishing in the old bed in about three feet of water when he noticed a fine pound and a half pickerel chewing his hook. Slowly, carefully he began to haul him in, when around the captured fish the waters rolled in wild commotion and a huge fish about three feet long was seen making frantic efforts to swallow the pickerel. Mr. Pratt waded out to catch a closer glimpse of the monster, who, with a wicked roll of the eye, turned tail and made off, leaving a track as large as the wake of a steamer.—Hampshire Gazette.

#### Set a Woman to Catch a Woman.

The chief of Paris detectives says: Men, as a rule, are not as close observers and do not give what I call detective descriptions of people. I remember trying to catch a woman counterfeiter once who had been described to me by several men. I found half a dozen women who would answer to her description. Finally a woman who had seen her gave me a description of her with one strong detective point—the way she did up her hair—and on that description I very soon arrested the right woman.—Boston Herald.

#### Definition of a Bore.

"You call So-and-so a bore." What is a "bore?" asks Bishop Selwyn. "It is a man who will persist in talking about himself when you want to talk about yourself"—or, we may add, in telling stories when you want to be telling them. Coleridge says he used to be much amused with Tobin and Godwin. "Tobin would pester me with stories of Godwin's dullness, and upon his departure Godwin would drop in just to say that Tobin was more dull than ever." —Exchange.

The law connecting temperature and maximum amount of water vapor is such that a hot and a cold body of air, neither of which is saturated, or contains all the water it is capable of holding in a state of vapor, may, when mixed, become more than saturated, so that some of the vapor is condensed and rain falls.
