Only eleven more days and the lordly salmon may, unmolested, plough the waters of the Columbia from the British possessions to Astoria, without fear of the horrid gill net or the deadly wheel. Even now, the fishing season is practically ended up this way. Nearly all the wheels have stopped and the nets are catching next to nothing.

The proposition to Portland to open the Columbia river, an outline of which was published in yesterday's issue, is of surpassing importance to Astoria, and as a business proposition is worthy of endorsement and practical aid. It is in order for Astoria to subscribe to the stock and do all in its power to further the scheme. In this, as in all other large projects, co-operation is essential on the part of every community likely to be benefited directly or indirectly.

A lawn party was given by the lady bicycle riders of this city to the gentlemen of the club last evening at the spacious grounds of Mrs. A. M. Williams. The occasion was a pleasant one. Ice cream was served and from the amount consumed it might be judged that bicycling gave good appetites. A few such parties by the lovers of the "silent steed" will make the wheel decidedly popular in The Dalles.

As Chas. Sandox was peddling garden truck this morning, his team, which was standing in front of the Jackson house, while he was on the opposite side of the street, took fright at something and started on a run down Second street till it came to Nielsen's corner where it collided with the telegraph pole and was brought to a dead stop. The horses were uninjured, but the wagon pole snapped off short, near the horns and one of the hind springs was broken, while the harness was somewhat demoralized.

A little over one and a half persons in each thousand in the United States are insane; so say the statisticians; but there is many a man, not a statistician, who thinks the proportion of fools larger than that.

Mr. Stanley, in his "Darkest Africa," gives Emin Pasha as authority for the statement that the chimpanzees, which visit the plantations of Mswa station at night to steal the fruit, use torches to light the way. Colonel Sinnott got off his fish story again this morning in good style on an innocent tourist. The gentleman in question is from Ohio, and is traveling in the far west on his bridal tour. The couple arrived on the noon train and at once consulted the Colonel about the location of the famous Dalles of the Columbia. The Col. truthfully told him that this great freak of nature was located four or five miles up the river and then the ruling passion asserted itself and forced him to tell the story about George Francis Train's attempting to cross the river, forty years ago, on the backs of the salmon. The gentleman took it all in and pronounced it "wonderful" but his wife took an unaccountable fit of laughing that was not over when the reporter left the hotel.

LAGONDA HEIGHTS, SPRINGFIELD, O., June 15, 1891.

Prof. E. L. Shuey, Dayton, Ohio. DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1891, my age being 56 years, I took out a Ten-Payment Life Policy in the Equitable upon their Ten-Year Tontine Plan, for \$40,000. My premiums during the period amounted to \$7,512.00. The Tontine period expired early in January of the present year, and the Company then offered me the following terms of settlement:

FIRST—A paid up policy for \$40,000.00 and cash \$7,512.00. SECOND—A paid up policy for \$40,000.00 and cash \$6,496.90.

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipt for the amount, \$36,496.80, to their State manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were \$1,015.20 less than my total investment renders further comment unnecessary.

During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment. In marked contrast with this has been my experience with the Northwestern, in which in 1882, I took a Ten-Year Endowment Policy, Ten-Year Tontine, for \$10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have the satisfaction of knowing that at maturity it will net me from \$4,000 to \$5,000 more than the face of the policy calls for. Very truly yours, ROSS MITCHELL.
