Prof. E. L. Shuey, Dayton, Ohio. DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 56 years, I took out a Ten-Payment Life Policy in the Equitable upon their Ten-Year Tontine Plan, for \$4,000. My premiums during the period amounted to \$87,512.00. The Tontine period expired early in January of the present year, and the Company then offered me the following terms of settlement:

FIRST—A paid up policy for \$40,000.00. And cash 9,751.60. SECOND—A paid up policy for 54,000.00. THIRD—Surrender my policy, and receive in cash 36,000.00. I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipt for the amount, \$36,000.00, to their State manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement. I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were \$1,015.20 less than my total investment renders further comment unnecessary. During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment. In marked contrast with this has been my experience with the Northwestern, in which in 1882, I took a Ten-Year Endowment Policy, Ten-Year Tontine, for \$10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have the satisfaction of knowing that it will net me from \$1,000 to \$5,000 more than the face of the policy calls for. Very truly yours, ROSS MITCHELL.
