### IN DEATH'S VALLEY.

Short Descriptions of the Horrors in That Region.

**KEELER, Aug. 7.**—E. H. Williams, assistant observer at the Death Valley weather station, arrived last night from Furnace creek, for medical treatment, having been prostrated by the intense heat. In letters received from Mr. Clery, he tells of some of the horrors of summer in that region. Here are his figures:

In June the hottest was 122, coldest 60, and mean temperature for the month, 91 degrees. In July the hottest was 122, the lowest 72, and monthly mean, 101 degrees. In June there was .05 of an inch of rain, and in July, with a thundering storm every day during the last week of the month, there was but .37, July 22, the temperature was above the hundred mark for a few moments only in the morning, when it went down to 99.

Mr. Williams says the greatest drawback is cooking. Sausit baked in the morning are as hard as a stone in two hours, and it is impossible to keep them soft unless damp cloths are spread over them all the time. It is impossible to cook except in the early morning. Potatoes dry up in two days and are useless. Eggs, Mr. Williams says, dry up in the shell in two days, and become worthless unless eaten the same day they are laid. The two men drink daily from two to three and a half gallons of water each, which they keep in stone jars to cool by evaporation. Clothing is an aggravation, and they wear little else than a sort of a gown or a night shirt. There are a few big trees there, but the fruit invariably dries up on the trees while ripening. Mr. Williams says one is compelled to drink so much water and breathe so freely that he becomes very weak, and if not very cautious prostration results. He will return again in a few days after recruiting his strength.

### BOUND AND LOCKED UP.

Sullivan Gets Unprovisionally Drunk and Is Confined to His Room.

**SAN FRANCISCO, Aug. 7.**—The steamer Alameda, from Australia this morning, brings news of another escapade of John L. Sullivan. One day when the steamer was between Honolulu and Samoa, Sullivan arose at 11 a. m. and commenced to imbibe freely. By supper time he had disposed of thirty-eight bottles of porter and was uproariously drunk. Captain Hayward ordered the bar shut down. While the eighty or more passengers were at supper, Sullivan made his appearance and strongly protested against Captain Hayward depriving him of liquor. He made a scene and squared off to strike the captain, when there was a roll of the ship and John L. went down in a heap. He was seized, bound, taken to his state room and locked up. He obtained no more liquor during the passage.

### FRUIT AND GRAIN.

California Orchardists to Prevent Distribution of Infected Orange Trees.

**SAN FRANCISCO, Aug. 7.**—Southern orchardists have evidently awakened to the danger from the infected orange trees now in quarantine at San Pedro, and will prevent their distribution at all hazards. Secretary Lelong, of the state board of horticulture, has received letters from prominent fruit-growers in the San Gabriel valley, Redlands, National City, San Diego and Riverside, assuring him that if the state needed money to prosecute the case, the orange-growers of that section of California are ready to subscribe any sum needed. One fruit-grower of Riverside stands ready to telegraph at a moment's notice any money necessary.

### The Situation in India.

**MADRAS, Aug. 6.**—Though the monsoon set in some time ago, in some parts of India, dispelling all fears of a failure of the crops in that portion of the country where rains have fallen, there has been no rainfall in the Chingle Put and North Arcot districts, in this presidency, and all hopes of averting a famine have been abandoned. The heat is unprecedented. The standing grain and other crops have succumbed to the long drought and all are withered and burned. Already the effects of the scarcity of food are being felt and there is great suffering among the inhabitants of the districts. Many deaths from starvation have been reported. It is also impossible to get food for cattle, horses, cows, donkeys and other live stock. As a consequence, they are dying in large numbers everywhere in the districts.

### A Corner on Kansas Wheat.

**TOPEKA, Aug. 7.**—J. B. French, secretary of the state alliance, states that the alliance has completed arrangements by which it will handle three-quarters of the Kansas wheat crop of 50,000,000 bushels. Arrangements have been made to store at least half of the crop in the elevators in Kansas City, Chicago, St. Louis, Cincinnati and Baltimore, and other large cities, for an indefinite period, or until the owners desire to sell. Arrangements have also been made in the east to secure an advance on wheat stored, at 75 per cent. of the present value of wheat. This new move has practically cornered the Kansas crop.

### The Weather.

**SAN FRANCISCO, Aug. 8.**—Forecast for Oregon and Washington, fair weather. **San Francisco Market.** **SAN FRANCISCO, Aug. 8.**—Wheat, buyer '91, 1.62½.

## A SECOND JESSE JAMES

Cashier Maple of the Exchange Bank at Columbus, O., Shot and \$1,500 in Greenbacks Stolen.

The Desperado in Leaving the Bank Shouted: "I am a Second Jesse James."

**COLUMBUS, O., Aug. 8.**—A special to the Evening Dispatch from Lima, Ohio, says: "One of the boldest bank robberies and murders ever perpetrated in this section of the country occurred this morning at Columbus Grove, a town of about 2,000 people twelve miles north of here. Cashier Maple had just opened the Exchange bank and laid out \$3,000 near the cashier's window when a man appeared in the door with a revolver in each hand and immediately began shooting. Cashier Maple was struck twice, once in the arm and once in the right side. As he fell to the floor an old farmer, Wm. Standebrande aged 60 years, entered the door and the robber turned and shot him dead. Another man sat in the lobby of the bank paralyzed with fear. He was not molested. The desperado then grabbed \$1,500 in greenbacks, shoved them into the pocket of his coat and darted out the door shouting 'I'm a second Jesse James.' The crowd had been attracted by the shooting but there was a scattering when the wild-eyed murderer appeared on the street having a gun in each hand and shooting indiscriminately. One bystander, Henry Hack, was shot down by a bullet from his revolver. The fellow ran to the outskirts of the town and disappeared. The desperado appeared to be about thirty or thirty-five years old. A posse was quickly organized and started in pursuit. It is thought the wounds of Maple and Hack are not fatal. Vanderbark, who was killed, was a prosperous farmer in Union township. He leaves a large family. A special from Wapakoneta, Ohio, says word reached here that the robber was overtaken in the woods and shot to death."

### BANKER MARSH.

He Is Believed to Be Sojourning in Honduras.

**PHILADELPHIA, Aug. 7.**—A neighbor of Gideon W. Marsh, the absconding president of the defunct Keystone National bank, says he has good reason to believe that Marsh is now at Tegucigalpa, the capital of old Spanish Honduras, in Central America. The town is located near the western end of Spanish Honduras and is without railway communication. It takes five or six days to reach the place from the coast and then one has to travel by mules over a very rough country. This is also the abiding place of the messenger of the New York Bank who was sent to the office of Adams' Express Company to ship a package containing \$60,000. The fellow stole the money. Not long ago several Pinkerton men went there and arrested him, but he escaped with the aid of the natives, who welcome American defaulters because they spend their money freely.

### TO STRAIGHTEN MATTERS.

Manager Hoag of the O. P. Railway Makes a Statement.

**SAN FRANCISCO, Aug. 8.**—Manager William M. Hoag, of the Oregon Pacific railway is getting ready to go to Corvallis, Oregon, headquarters of his company. Regarding the statement that the employees of the road were anxious for their money and were solicitous as to when he would arrive, Manager Hoag said the matter was greatly exaggerated and the indebtedness was not near so great as claimed. The total operating expenses were less than \$10,000 per month. The affairs of the road, he added, will soon be straightened out all right.

### Nellie Boise's Body Found.

**PORTLAND, Aug. 8.**—A private letter from Seaview this morning says the body of Nellie Boise, who was drowned while bathing in the surf last Wednesday was found this morning at low tide some distance below the point where the drowning occurred.

### Two Cases of Sunstroke.

**MINNEAPOLIS, Aug. 8.**—The heat today was excessive there being two cases of sunstroke reported, one of which will probably result fatally.

### Severe Storms in Austria and Hungary.

**VIENNA, Aug. 7.**—Severe storms are spoiling the crops in many districts of Austria and Hungary. Several persons have been killed by falling trees and houses.

### The Hottest Day of the Year.

**CHICAGO, Aug. 8.**—This has been the hottest day of the year. The signal service thermometer registered 93 degrees at noon. There were several prostrations from the effects of heat.

### Chicago Wheat Market.

**CHICAGO, Ill., Aug. 8.**—Close, wheat firm; cash, 89½ September, 89½.

### TARRED AND FEATHERED.

Snohomish's Priest Is Roughly Handled by the Citizens.

**SNOHOMISH, Wash., Aug. 7.**—A crowd of about sixty men went to the residence of Father Guay last night, took him from the house, administered a liberal coat of tar and feathers, and gave him twenty-four hours to leave town. The party consisted of many prominent citizens, both Protestants and Catholics. Guay's crimes have thoroughly demoralized the town, and the feeling against him is so strong that with difficulty the crowd was prevented from lynching him. He evidently had been expecting a visit from hostile quarters, as it is said his body was thoroughly greased, which in a measure foiled the good effect of his decorators. When the party arrived the priest ran out the back door, but was captured. Being a very large, powerful man he made a desperate fight, but was quickly overpowered, stripped and thoroughly coated. His bellowing could be heard for five blocks, but a friendly pocket-handkerchief stopped it. This morning he expressed an intention of staying in town, but a message from the bishop ordered him to leave immediately, which he did tonight, taking the train for Seattle. It is reported he denies the accusations and blames the Sisters of Charity here for originating them. This, of course, is false and was the immediate cause of the tar and feathers.

### AMERICANS IN CHINA.

Letter From an American at Hankow Says They Are Prepared for Trouble.

**NEW YORK, Aug. 6.**—A letter from an American gentleman at Hankow, dated June 23, says:

At present we have two gunboats here. There are at all points below here two or three gunboats of different nations, so that for the present the matter is quelled in the Yangtze-Kiang river valley. With the withdrawal of the gunboats, I think, unless there is some radical change, there will be trouble up and down the river. We have organized a defence committee here, put arms in the hands of all male members of the community, and are pretty well prepared for any trouble that may arise. We can muster over a hundred breechloading guns and most of the men are experts in handling them. We have a commander-in-chief, our collector of customs, who is an old soldier, and two division commanders, a Russian and myself. We have signals arranged to alarm the community in case of a rising against us, and have two rendezvous on the river front, to which all women and children will be taken in case of necessity, and where they will be guarded, or placed on steamers, should there be any in port. Once the women and children are safely disposed of, the men will do what they can to defend the settlement. We will make it hot for any one who comes up our way, and don't make any mistake about it.

### A DUEL WITH KNIVES.

It Is Fought by Italians in the Presence of a Small Boy.

**ST. LOUIS, Aug. 7.**—Antonio Jentles and Marento Kieto fought a duel with knives in East St. Louis today, Jentles' body now lies in the morgue. Both the killed and slayer were Italians. They were brothers-in-law and both lived in St. Louis. They went to East St. Louis this morning, each with a basket of lemons, and during the day quarreled over the sales. After a few words the men went to a secluded and vacant lot and fought it out with knives, a little son of the dead man, who accompanied his father, being the only witness of the duel. Kieto escaped.

### Large Crops in Kansas.

**NEW YORK, Aug. 7.**—Martin Mohler, of Topeka, secretary of the Kansas board of agriculture, said to a reporter today: "Give the Kansas farmers two more crops as good as the present one and they will be out of debt. On the farms of Kansas are products now growing worth \$30,000,000 over and above the amount the farmers require for their own use. If the owners of those farms pay, say \$25,000,000 for their groceries and clothing, they will have \$5,000,000 with which to pay their debts, and the largest estimate ever made of farm indebtedness was \$160,000,000. These figures are not guesswork but are based on reports of our agents in the several counties of Kansas."

### Heavy Rains in Minnesota.

**CROOKSTON, Minn., Aug. 7.**—A terrible rain and hail storm passed over a part of this country this morning, accompanied by considerable wind. The rain was the heaviest known in this section. In the southern part of the county a strip of country a mile wide and twelve miles long was devastated by hail. Three to four thousand acres of standing grain was damaged. In other parts of the county much of the heavier grain has been badly beaten down.

### Tallahassee Not to Certify to His Election.

**TALLAHASSEE, Aug. 8.**—The governor this morning announced that in as much as a quorum of the Florida senate did not participate with the house in joint assembly, May 26, it is his opinion that Call was not elected United States senator and that therefore he cannot certify that he was elected.

### Held Captives for Twelve Years.

**BOSTON, Aug. 8.**—Calvin Page arrived here with his two daughters whom he recovered from the Piute Indians in Dakota, who held them captives for twelve years.
