LOCAL BREVITIES.

Miss Annie, daughter of Colonel Fulton of Deschutes is in the city.

Hon. H. P. Isenberg of Hood River is registered at the Umatilla house.

A late census bulletin gives the total population of Oregon at 313,767.

Messrs. J. H. Mosier and Louis Devenport, of Mosier, were in the city today.

Mr. Leon Rondeau, of Kingsley, who came in town yesterday, left for home this morning.

Camping parties had an elegant opportunity to play freeze out during the recent cool spell.

The rod and reel cranks will now have an opportunity to get in their deadly work with the seductive fly.

A fool editor, in a small town, can make more real fun for the people, than the clown in Barnum's circus.

The gentle sephyrs zepthed vigorously up the Columbia yesterday. They also "zepthed" a flat-boat, loaded with wood, on the sandy beach on the Oregon shore.

Mrs. J. L. Story and daughters have returned from camping out at the Cascade Locks. We regret to hear that the health of Miss Auburn is not improved.

Mrs. R. A. Roscoe and daughter Miss Emma left yesterday for Victoria, B. C., to remain with Mrs. McClelland, Mrs. Roscoe's sister, for a month or six weeks.

Ben Southwell of Eight-mile creek brought into town today some fine samples of Gravenstein apples and peach plums, but could not so much as sell a box or get an offer for one.

Mr. W. H. Dunn desired through the CHRONICLE to express his thanks and gratitude to his friends and neighbors for the kind attention they paid him during his severe and tedious illness.

The company has a force of six or eight men at work on the bridge on the main track over Mill Creek. They are putting in new timbers and otherwise making repairs which are greatly needed.

Isaac Joles came into town last night with the freight wagon that was used to take out Tom Joles. It stood the trip we are pleased to know but Tom had to leave two bales of hay at Pete Ruffners for fear of breaking it down.

Dame rumor has it that two civil engineers and twelve men will start from The Dalles in the next ten days to survey a new line of railroad which will run through this city. The party will be absent about two months.

Isaac Joles brought into town last night two fine pair of elk horns which were found in the mountains near the Joles Camp, one pair by Senator Watkins and another by R. W. Crandall. Mr. Crandall's are a specially fine pair of seven pointers.

The Spokane Review says of the weather up that way: "A little too cool Uncle Jerry. In future please stir your weather a little more and give us a better mixture—less heated one week and not quite so chill the next."

As the west-bound passenger train came in sight last night, there also appeared a freight train bound east, just rounding the curve at the west end of the trestle, which was signalled down by one of the yard men, who happened to be on the scene. It appears that the freight had the right of way, as it was running on passenger time, having on a private car containing U. P. officials.

An accident was avoided, however, by the stoppage of both trains, and switching the passenger on the side track, thus letting the other train by. Had the passenger train been ten minutes earlier, a collision would surely have occurred, as the freight was under very strong headway.

Mr. W. H. Dunn was able to be on the street to-day. He is, we are pleased to know, very much improved in health since his trip to White Salmon.

The rear coach of the west-bound U. P. passenger, last evening contained about fifty pig-tailed Mongolians bound for Portland. They had "heep much talker" with The Dalles contingent from the flowery kingdom.

Last Saturday night while Taylor Green and his wife, who reside near Union, were attending a lecture in that city, some miscreant put poison among Mr. Taylor's fine heard of merino bucks which resulted in the death of forty-nine head, valued at \$25 each—a loss of \$1225. Hanging is too good for a man who would commit a crime like that.

A correspondent of the Eugene Guard who has a ranch on the Sinslaw, in describing his big hay crop, says: "I cut some red clover the other day that was 75 feet long, in fact I looked for the end of it for a'out two hours and then did not get there: so I am guessing under rather than over." The Guard vouches that the writer used to be a truthful man.

There is not a doubt in the world that when Portland wants an open river we will get it and not before. So long as that city is more enamored of the chains of the Union Pacific than of the millions of dollars worth of trade that naturally belongs to her but which will go to the cities on the Sound unless there are lower rates on the river, so long the river will remain closed.

Mr. R. W. Crandall returned to town last evening from a three week's camping on the west fork of Hood River. He says the Joles camp are putting up their winter supply of dried trout. Isaac Joles had caught 1350 trout, up to date. Senator Watkins comes next with something like a thousand and the rest of the camp in proportion. The fish are, in size, all the way from eight to thirteen inches.

Governor Pennoyer has appointed thirty delegates from Eastern Oregon to represent the state at a convention to be held at Salt Lake, on the 15th to the 17th of September. The convention is called to consider matters pertaining to the reclamation of the arid lands of the west and petition congress to cede to each state and territory all such lands for the purpose of reclamation and for the support of the public schools. The appointees from this section are Hugh Goutray and George P. Morgan, The Dalles; J. H. Cradlebaugh, Hood River; V. H. Brock, Wasco; C. M. Cartwright, and George Barnes, Prineville; H. H. Hendricks, Fossil; and H. C. Ondon, Arlington.

A True Bear Story.

Senator Watkins has beaten all his previous records as a hunter. After shooting a pine stump which he mistook for a wild cat, the same stump, by the way that Isaac Joles shot dead last year under the same circumstances, a few days ago the Senator met a real live cinnamon bear, sure enough, and gallantly let her have the best his Winchester had got. That it was a bear and not a stump was proved by the fact that after the shot the animal set up a most unearthly howl as she disappeared in an adjoining clump of brush. As the racket continued and the Senator every moment expected to see the bear emerge from the thicket and go for him, he hurriedly threw back the lever of his rifle, but the empty shell stuck in the barrel! It was an interesting moment. The bear continued to howl as the senator tugged at the empty shell and his hair would have begun to stand on end if he had any. To lighten the interest, four good sized cubs dashed up a tree within a few yards of him. Then it dawned upon the Senator that he had not lost any bear, particularly as it appeared "the woods were full of them," and as fast as his heels could carry him, he struck for camp. Next morning George Anderson, Isaac Joles and the Senator went back to the scene of action where they found a fine large female bear stiff in death. Her unearthly howls were her death agony; but the cubs of course had escaped.

Wanted Cows to Herd.

A thoroughly reliable young man can undertake to herd city cows, if he can procure enough to make it an object. Reference is permitted to the editor of the CHRONICLE, who will receive the names of parties who want cows herded.

REVIEW OF THE LOCAL MARKET

There has been a light trade throughout the past week. The absence of the wool hauler and the farmer on our streets has been noticeable, and the business that was done was merely local.

The warehouses are quite bare, as there are only about 800 bales of wool in store, which is an unusual thing for this season of the year. Prices have been maintained without material change during the wool period. In Eastern markets a slight advance has taken place, and the week closes with a stiffness of prices.

WHEAT.

The coast wheat market is very quiet. The former reports from abroad are unchanged, but all concede that the world has never known such a general deficiency in breadstuffs as the year 1891. Prominent persons in the East comprehending the condition and situation of current events in the wheat producing portions of the continents and are very energetic in advising the producers to hold on to their wheat for two reasons; firstly, to break up the great trusts, and secondly, to assure the farmers a good price for their grain, which if they will adhere to the advice, may accomplish the object. Whether this is wise under the present condition of things, is for them to decide, but one thing is sure, wheat will command better prices this year than for any previous seasons for the past ten or twelve years.

In all probability the tonnage will be quite sufficient for moving the wheat for export, as it is reported that there is a large fleet of vessels in ballast destined for the Pacific coast, and the opinion prevails that there will be no lack of ships this season.

Grain sacks have felt the pulsations of an abundant harvest, and the probable advance in prices, consequently dealers in that staple have been stimulated in putting up prices on a corner.

MISCELLANEOUS.

The market is well supplied with all kinds of vegetables and fruits, water-melons sell at \$1 to 1.25 per dozen. Canteloupes are brought in in quantities and find rapid sale at 3 cents per pound. Both small and large fruits are in great abundance. Peaches sell from 30 to 40 cents per box of 20 pounds. Apricots sold yesterday at 2 1/2 to 3 cents per lb. Good apples sell at 40 to 60 cents per box of 45 lbs. Plums are quoted at 1 1/2 to 2 cents and summer pears at 3 cents per lb. Cabbage sells a 2 cents per pound.

The egg market is stiffer than last week.

Butter is in good supply and steady. In smoked meats the market is firmer in tone. Lard is steady at quotations.

Beef cattle are in fair supply and the demand is good at former prices.

Aug. Hornung, a well known manufacturer of boots and shoes at 820 Nolan St., San Antonio, Texas, will not soon forget his experience with an attack of the cramps which he relates as follows: "I was taken with a violent cramp in the stomach, which I believe would have caused my death, had it not been for the prompt use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose did me so much good that I followed it up in twenty minutes with the second dose, and before the doctor could get to where I was, I did not need him. This remedy shall always be one of the main stays of my family." For sale by Snipes & Kinersly, druggists.

NOTICE.

R. E. French has for sale a number of improved ranches and unimproved lands in the Grass Valley neighborhood in Sherman county. They will be sold very cheap and on reasonable terms. LAWSON: HEIGHTS, SPRINGFIELD, O., June 15, 1891.

Prof. E. L. Shauey, Dayton, Ohio.

DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 56 years, I took out a Ten-Year Life Policy in the Equitable upon their Ten-Year Tontine plan, for \$40,000. My premiums during the period amounted to \$37,512.00. The Tontine period expired early in January of the present year, and the Company then offered me the following terms of settlement:

FIRST—A paid up policy for \$40,000.00
And cash \$751.00

SECOND—A paid up policy for \$40,000.00
THIRD—Surrender my policy, and receive in cash \$3,498.80

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipt for the amount, \$3,498.80, to their State manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were \$1,015.20 less than my total investment renders further comment unnecessary.

During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment.

In marked contrast with this has been my experience with the Northwestern, in which in 1882, I took a Ten-Year Endowment Policy, Ten-Year Tontine, for \$10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have the satisfaction of knowing that at maturity it will net me from \$4,000 to \$5,000 more than the face of the policy calls for.

Very truly yours,
ROSS MITCHELL.
