LOCAL BREVITIES.

Tom Fargher returned today at noon from a two weeks trip to Portland.

Otto Kohler of Bake Oven gave the Chronical office a pleasant call today.

Four cars of beef cattle were shipped today from the stock yards by Charles Butler, to Port Townsend.

Born—in this city, Saturday night last, to the wife of Mr. Thomas Smith of Grant county, a son. Mother and child both well.

Colonel Nevius left last evening for Goldendale, where he will appear as attorney in a land contest case that is to be tried today.

Elder Sicksafoose, presiding elder of the U. B. Church held quarterly meeting at Wamie, yesterday, and will preach at Dufur tonight.

Mr. and Mrs. N. M. Eastwood have just returned from a two-weeks camping-out trip to the Soda Springs near the base of Mount Adams.

A car load of pumps has arrived at the store of Mays & Crowe. They are of every kind you could think of—force pumps, spray pumps, pitcher spout pumps, cistern pumps, and etc.

At a meeting of the stockholders of The Dalles Fruit Growers Shipping Co., held Saturday, August 1st, W. H. Taylor, A. G. Anderson, G. R. Snipes, W. H. Wilson and F. C. Creighton were elected directors.

Elder Richardson of Goldendale gave us a pleasant call today on his way from Wapinitia and Dufur. The elder held a protracted meeting in Wapinitia during the week and preached at 11 a. m. and 3 p. m. at Dufur yesterday.

The town council of Prineville have ordered the residents of that town to disinfect their dwellings, outhouses and premises generally so as to ward off the scourge of diphtheria which has carried off a number of children in that neighborhood.

Mrs. Durbin, wife of the late C. B. Durbin of Billings, Mont., arrived in this city, in company with his father, Mr. G. A. Young of Bake Oven, last Saturday. She has gone out to the home of her parents, where she intends to reside for the present.

A private letter from Port Townsend informs Colonel Sinnott that Dr. Scott, the father of Mrs. President Harrison, and his son, will pay the Colonel a visit in the near future, and remain over a day at The Dalles, while on their way to Washington. The Doctor is now at Port Townsend.

At the sale of the H. Solomon stock of dry goods, today, twenty ladies (so S. B. Adams says) all at one time, wanted a piece of black silk lace that had been reduced in price, from \$1.50 a yard to 35 cents. To get out of the dilemma Mr. Adams proposed that they cast lots for it, so procuring twenty tooth picks, with one longer than the rest the drawing began when it finally fell to the lot of Mrs. Brittan to get the lace.

Andrew St. Martin was brought up from the Cascades yesterday to be sent to the county poorhouse. He is so very low that the doctor in charge recommended that he remain at the Umatilla house till the cool of the morning tomorrow. The poor fellow has a large, fungus-like abscess on his right thigh, as large as a man's head. He stayed in the Portland hospital till his money gave

out when he was discharged. The doctors there apparently experimented with the abscess by digging into it, as there is an open sore fully three inches in diameter. The man is in a horrible condition and cannot possibly, it would seem, last long.

The Happy Family.

On the line of ditch for Dalles City water works, opposite Mr. Denton's orchard, a few yards east of the flume, in the sheltering branches of an oak tree, a family of three resides. They are apparently happy regardless of the intrusion of the workmen employed on the ditch. A few days ago the Oregon Bridge Co., of Portland decided to construct a temporary blacksmith shop at the base of this tree. A portable forge, vise and anvil were soon in place. Some of the limbs had to be sawed off to afford working room. While engaged at this work one of the employes discovered the happy family encoined in a branch of the tree, about four feet from the ground. Too much work had already been done to vacate the premises now, yet it was self-evident that a trespass had been made. Every one conceded the prior right of the feathered family, yet it was noticeable that the encroachment on their rights did not concern them. The blacksmith commenced to blow his bellows, and soon began to hammer his steel upon the anvil. The music he made seemed to charm, rather than disturb them. "As gentle as a dove" is a familiar comparison and any one visiting the temporary abode of this little turtle dove with her fledglings will appreciate the fitness of the above quotation. She sits there nearly all day, the very picture of gentleness. One can almost stroke her plumage and not feel that he was annoying her. It is a special pleasure to observe her devotion to her little family and those having seen her brave the sparks and stand the din of the anvil in this rural blacksmith shop, without flinching, or attempting to desert her young ones, will be slow to boast of the so-called courage and devotion of the human family hereafter. We be to the small by who would attempt to rob that nest, as the blacksmith's strong arm has been won over by that little turtle dove through her brave and gentle disposition. Young ladies, no doubt, could win strong arms in the same way, but it will be very hard to make turtle-doves out of some of them.

A Rough Vallet de Chambre.

Mr. R. W. Crandall tells a story of a man he knew many years ago in Portland whose clothes got tangled on a line shaft, and who, after having been carried around the shaft ever so many times, found himself standing on the floor of the engine room, without a wound or scratch, clothed in a necktie and one boot.

We are reminded of this story by an event which occurred the other day on the stock ranch of Mayor Mays, near Salt Springs. In this case only a stocking and skirt of a dress were stripped off but the neat way it was done, when one takes into account the instrument that did it, gives it place among accidents, where a singular good fortune saved the victim from great danger. The wife of the foreman of Mr. Mays' ranch, referred to, for the sake of a little variety, more than necessity, thought she would drive the horse rake for a while, while the men were engaged cutting hay. By some means one of the shafts became detached from the rake and dropping to the ground frightened the horse so that he became unmanageable and made a straight run for a four-strand barbed-wire fence, which he dashed through, bringing Mrs. Moore, who still clung to the seat, and the rake with him. The dash against the wire threw Mrs. Moore to the ground. When the horse became disentangled from the wire he continued on the run till the rake was completely ruined but himself received only a few trifling scratches. When Mrs. Moore picked herself up she found herself minus the skirt of her dress, one shoe and a stocking which was taken off as neatly as if she had done it herself, leaving her with only a few scratches on the naked foot. A barbed-wire fence is the last instrument one would think of for taking off a lady's stocking, but in this case it did its work well.

A Store Burglarized.

Garrick's store and tailor-shop at Ashland was burglarized Friday night and several suits of clothes, some jewelry, and various trinkets, amounting in all to about \$100, taken. There is no clue to the burglars yet.

Offers 30 cents on the Dollar.

ATLANTA, Ga., Aug. 10.—Stephen A. Ryan an Atlanta dry goods merchant who recently failed for \$500,000 offered 30 cents on the dollar to all his creditors.

John Savage lost another child with diphtheria on Tuesday. This makes four out of a family of seven that have died in little more than a week.—Prineville News.

Mr. and Mrs. M. M. Sayre desire to express their deep gratitude to the many friends and neighbors for their kindly sympathy during the sickness and death of their infant daughter.

Henry Coleman, the South American millionaire, who is soon expected in New York with his million-dollar yacht, the Southern Cross, is only twenty-eight years of age and has an income of \$500,000 a year. He is the only son of ex-President Coleman, of the Argentine Republic.

AN AUSTRALIAN FLOOD.

Thousands of People Rendered Homeless and Much Damage Done.

SAN FRANCISCO, Aug. 9.—The steamer Alameda arrived from Australia this morning, bringing particulars of the overflowing of the banks of the river Yarra at Melbourne. Over 1000 people were rendered homeless, and there is much sickness and destitution among them. The damage caused by the flood amounted to over \$2,000,000.

The bark Compadre, from Chili, with a cargo of bags, was totally wrecked on Auckland island. The crew was saved. Fire broke out in her hold, and two days later a terrific gale arose, which sent her ashore on the rocks.

The Auckland Star of July 17th says the tidal flood which prevailed at Melbourne July 14th has subsided. The flood was the most severe since 1862, and a number of schooners were wrecked and lives lost. The steamer Bancora went ashore and was badly damaged, with little prospect of getting her off. The corpse of the Yarra river presented scenes of desolation for miles, factories being submerged, farms washed out, and much other property destroyed and damaged. In the suburb of South Richmond whole streets were submerged and over two thousand people rendered homeless. The latest estimate of the losses was \$2,500,000. Much sickness is attributable to the exposure and deposits of filth from floods at Melbourne and vicinity.

Advices from Samoa stated that Chief Justice Cederkrantz had opened the supreme court at Samoa July 15th.

The naval court of inquiry into the causes of the bursting of the six-inch breechloading rifle on board of H. M. S. Cordelia at Sydney, June 29, whereby Lieutenants Hilyer and Gordon and three seamen were killed, has forwarded a report to the admiral. It is understood that pieces of the gun, which were not lost in the explosion, were put together and examined, but nothing was discovered which leads to any conclusion regarding the cause. Thirteen men were wounded at the time, and of these Private Darvill has since died, making the loss of life six.

The captain and crew of the bark Compadre, bound from Calcutta to Talchano, which burned at sea in March, has been brought to Auckland by a sealing vessel from the Auckland Islands after spending 103 days on the islands. They suffered greatly from lack of food. One of the castaways was lost in the brush.

RAINDROPS THEIR ONLY DRINK.

Frightful Experience of Two Sailors Lost at Sea.

BOSTON, Aug. 9.—July 31 the British schooner George and Mary rescued James Chisholm and Thomas Mackay, who were lost from their fishing schooner, the Willie M. Stevens, off Sable island, and landed them at Caraqueeta. Consul Benedict forwarded them to Gloucester. The men arrived here yesterday and related their experience during the six days they were floating about in the sea. They were without food or water except raindrops that fell during the six days. They had abandoned all hope of being saved and were suffering terribly from want of food and water, and were completely exhausted when they sighted the George and Mary and were rescued.

Died.

Last Friday evening the infant daughter of Mr. and Mrs. M. M. Sayre of this city, aged 9 months and 2 days. The child has been suffering from a cold contracted about eight months ago, and the late hot weather brought on cholera infantum which the weak condition of its body was unable to overcome. It was buried on Sunday in the city graveyard. Services were held at Mr. Sayre's residence by Rev. H. Brown.

The Woman Escaped Injury.

LONDON, Aug. 9.—A parachutist named Higgins made a balloon ascension today at Leeds. He was accompanied by Miss Devos. In ascending the balloon struck a telegraph pole. The car was upset and both the occupants fell to the ground. The woman escaped injury, but the man struck a fence, in his descent and was instantly killed.

Not Seriously Hurt.

HAYWARDS, Cal., Aug. 9.—At San Lorenzo this afternoon, Professor Joseph E. Martin, an aeronaut, made a balloon ascension. When nearly sixty-five feet from the ground, the balloon struck a limb of a tree, which struck him on the head and he fell to the ground. It is thought he is not seriously hurt.

Our Vaulting Prosperity.

We are scarcely aware of our own prosperity. From statistics lately compiled by one of the great commercial journals of the country, it appears that the total wealth of the United States is now more than \$71,000,000,000, or about \$1000 for each man, woman and child in the entire country. This is an increase of \$18,000,000,000, or about 42 per cent. within the last ten years. According to the last accredited statement this gross amount exceeds England's wealth by about twice the total wealth of the republic of France. In the matter of taxes, England exacts an average of \$20 per head from each of her entire population, while the average tax per individual paid in the United States (where the farmer and mechanic are better paid, better clothed and better fed than their European neighbors) is but \$12.50.

The price paid at Sherer's bridge for Crook county range beef is 2 1/2 cents per pound, gross weight.—Prineville News.

From San Antonio.

Ang. Hornung, a well known manufacturer of boots and shoes at 820 Nolan St., San Antonio, Texas, will not soon forget his experience with an attack of the cramps which he relates as follows: "I was taken with a violent cramp in the stomach, which I believe would have caused my death, had it not been for the prompt use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose did me so much good that I followed it up in twenty minutes with the second dose, and before the doctor could get to where I was, I did not need him. This remedy shall always be one of the main stays of my family." For sale by Snipes & Kinersey, druggists.

Preparing For Hot Weather.

The following telegram from White-wright, Texas, indicates that the people in that vicinity do not intend to be caught unprepared:

LARGESDA HEIGHTS, SPRINGFIELD, O., June 15, 1891.

Prof. E. L. Shuey, Dayton, Ohio.

DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 36 years, I took out a Ten-Payment Life Policy in the Equitable upon their Ten-Year Tontine Plan, for \$40,000. My premiums during the period amounted to \$37,323.00. The Tontine period expired early in January of the present year, and the Company then offered me the following terms of settlement:

FIRST—A paid up policy for \$40,000.00. And cash \$9,751.60.

SECOND—A paid up policy for \$40,000.00. And cash \$8,499.80.

THIRD—Surrender my policy, and receive in cash \$38,499.80.

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipts for the amount, \$38,499.80, to their state manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the state manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my return was \$1,005.20 less than my total investment renders further comment unnecessary.

During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment.

In marked contrast with this has been my experience with the Northwestern, in which in 1882, I took a Ten-Year Endowment Policy, Ten-Year Tontine, for \$10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have the satisfaction of knowing that at maturity it will net me from \$4,000 to \$5,000 more than the face of the policy calls for. Very truly yours, ROSS MITCHELL.
