LOCAL BREVITIES.

Mr. B. C. McAtee of Tygh Valley is in the city.

The new steel safe that arrived today for French & Co.'s bank weighs 14,000 pounds.

President Orborn is reported to have said that he likes the position of the new portage company better than that of the Columbia Railway and Navigation company.

From Mr. W. B. Rodman of Wamic we learn that crops in his neighborhood promise to be good, fully up to an average.

Con Howe arrested, last night, the Indian woman Caroline. Under the stimulating influence of the white man's fire water she was vigorously engaged till after midnight in painting the East End red.

An attempt was made last night to enter the cigar store of W. H. Jones on First street. The panels of the back door were forced in at the bottom but the would-be thief evidently got scared.

A visitor from the Cascade Locks informs us that the water is nearly all pumped out of the canal and that a force of laborers have been put to work on the sand pit, preparatory to commencing the laying of the concrete in the bottom of the canal.

Ex-governor Moody has published a couple of letters in our evening contemplable which, if they mean anything at this particular time, seem designed to present his ex-Excellency as a devoted friend of the Cascade portage railway and therefore of the new opposition line of boats and the opening of the Columbia river.

Warning to Owners of Live Stock. The following state law was approved by Governor Pennoye, February 20th, 1891:

"An act to prevent and punish the driving or herding live-stock along or near public highways (not toll roads) and causing the same to be obstructed," and is as follows:

Be it enacted by the legislative assembly of the State of Oregon. Sec. 1. That any person or persons driving or herding or causing to be driven or herded, cattle, horses, sheep or any kind of live stock along or near a public highway and causing such highway to be obstructed thereby with stones, earth or other debris, and leaving the same to so remain for more than twenty-four hours, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not exceeding two hundred dollars, such fine to be enforced as other fines in criminal cases, and justices of the peace of the county where the offense is committed shall have original jurisdiction of all violations thereof.

Jerry Simpson, the Kansas congressman, says he is going into Ohio the first of October and will go for John Sherman's scalp from that time until election day with all the force he can muster. He says his presence there will not do Major McKinley any good either.

WILL BENEFIT THE DALLES.

A Synopsis of the Latest Proposition to Build a Portage Railway.

A dispatch from Portland, published in the CHRONICLE last evening, informed its readers that a proposition had been submitted to the Portland chamber of commerce relating to the building of a portage railway around the dalles of the Columbia. The telegram had reference to the proposition of Lieutenant Norton, acting for The Dalles & DesChutes Portage Railway & Navigation company.

This company, in consideration of Portland taking up \$250,000 first mortgage, six per cent., fifty year bonds, bind themselves to complete within six months of the date on which they receive notice that the proposition is accepted and are satisfied as to the financial standing of the subscribers to the bonds, a thoroughly equipped narrow-gauge railroad on the south side of the Columbia river, between The Dalles and the east end of the island opposite the mouth of the DesChutes river.

At least one first class steamer and sufficient barges are to be put on the middle river, all the steamers and barges needed below the Cascades and two steamers with accompanying barges on the upper Columbia and Snake river.

Freight charges on grain are guaranteed to be thirty per cent. lower than the Union Pacific may make for the same class of freight between the same points, provided that the company shall not be required to carry grain at less than one cent per ton per mile.

Freight is to be carried from the city of Portland to all interior points on the basis of a rate not exceeding \$2.40 per ton for fourth class freight from Portland to The Dalles.

Portland is to be the western terminus. One half of the paid up capital stock is to be assigned to the Portland chamber of commerce on the following condition, viz: The stock shall be placed in escrow and represented in the board of directors by a board of trustees chosen by the chamber of commerce, who shall also be directors on its behalf.

The subscription to the bonds is to be paid as follows: Twenty per cent. on the completion of the subscription, 20 per cent. on the completion of ten miles of track; 20 per cent. on completion of portage railway; 20 per cent. when the wharves etc. are completed and the road in operation; and 20 per cent. when all is complete and in operation.

The signers to the proposition are Geo. A. Liebe, E. B. Dufur, T. H. Johnston and R. H. Norton.

It is expected that the proposition will be considered by the chamber of commerce next week and should it, or some other of like import be accepted we shall soon see the dawn of a brighter day for the Inland Empire.

A Subject for Consideration. No subject has ever presented itself for man's consideration, having the attractions for man at all equal to the subject of self.

A consideration for self is a cardinal principal of natural law, so much so at least that selfishness and high self esteem are universally regarded as virtue and the greatest philosophers and professional writers on subjects deep, have generally agreed that selfishness is an attribute of the Deity Himself.

The God of Moses the god of Mohammed and all the gods of Greece were selfish gods. Then man, existing as he does, under the law of human disposition, cannot well do otherwise than say to himself and all the world, "Behold me, I am immortal."

From San Antonio. Aug. Hornung, a well known manufacturer of boots and shoes at 820 Nolan St., San Antonio, Texas, will not soon forget his experience with an attack of the cramps which he relates as follows:

"I was taken with a violent cramp in the stomach, which I believe would have caused my death, had it not been for the prompt use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose did me so much good that I followed it up in twenty minutes with the second dose, and before the doctor could get to where I was, I did not need him. This remedy shall always be one of the main stays of my family."

LAGONDA HEIGHTS, SPRINGFIELD, O., June 15, 1891. Prof. E. L. Shroy, Dayton, Ohio.

DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 36 years, I took out a Ten-Payment Life Policy in the Equitable upon their Ten-Year Endowment Plan, for \$4000. My premiums during the period amounted to \$37,312.00. The Ten-Payment period expired early in January of the present year, and the Company then offered me the following terms of settlement:

FIRST—A paid up policy for \$40,000 00 And cash 9,731 60 SECOND—A paid up policy for 54,600 00 And cash 56,496 80 THIRD—Surrender my policy, and receive in cash 54,600 00

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipt for the amount, \$36,496.80, to their State manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were \$1,015.20 less than my total investment renders further comment unnecessary.

During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment. In marked contrast with this has been my experience with the Northwestern, in which in 1882, I took a Ten-Year Endowment Policy, Ten-Year Endowment, for \$10,000, that company having from the time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have the satisfaction of knowing that at maturity it will net me from \$4,000 to \$5,000 more than the face of the policy calls for.
