GOOD RETURNS REPORTED.

Harvesting and Mining Flourishing at Central Point.

CENTRAL POINT, Aug. 14.—Harvesting is progressing rapidly and headers are at work on all sides. Five threshing machines are running in this vicinity. The returns show good yields with a big average. The damage from rust and smut is very small. Peaches are being shipped to northern points at a lively rate. The watermelon season was inaugurated by the shipment of one car on the 7th by George A. Jackson. Mr. Olwell made a small shipment on the 10th. The former has sixty acres in melons and Mr. Olwell about fifteen. A big enterprise is nearing completion whereby the Rogue river will be turned into a new channel for a distance of several miles and the bed mined. The ground has been thoroughly prospected and shows up in good shape. All the mines of this section have taken a new lease of life since Dr. Breden's stamp mill has been turning out so rich. A number of new locations have been made and development work is the order of the day.

The third annual district fair, to be held here the week beginning September 21, promises to surpass all previous efforts. The fine crops of all kinds will greatly aid the directors. The races are to be the main feature and some horses of note are being trained.

REUNION OF MISSOURIANS.

North Yakima Will Again Entertain Them This Year.

NORTH YAKIMA, Wash., Aug. 14.—Arrangements are being perfected for the second annual reunion of Missourians, which will take place in this city Monday and Tuesday, October 5th and 6th. From the success of the reunion and famous barbecue last year, the committee is of the opinion that fully 5000 veterans and adopted sons and daughters of the old state now residing in Washington, will be present. Reduced rates of transportation have been promised and the local committee is actively at work arranging for the accommodation of a large crowd. Trustin P. Dyer of Seattle, is in communication with Missourians throughout the various sections of the state, and he writes to prepare for a big attendance. Large property holders of North Yakima have enjoined the city from selling property for delinquent taxes owing to irregularities.

A petition is in circulation and being numerously signed, requesting Alfred B. Weed to accept the nomination for mayor. Mr. Weed is looked upon as having the qualifications peculiarly fitting him for that office.

THE SAFE WOULD NOT OPEN.

A Salem Bank Had Trouble in Getting at Their Funds.

SALEM, Or., Aug. 14.—Two and a half weeks ago the safe in Ladd & Bush's bank here refused to open, and since that time experts have been laboring with it. Both the time lock and combination refused to operate. After sixteen days' steady drilling the safe was opened today, over 100 drills having been broken and a dozen worn out in the operation. In the safe was over \$125,000.

When today moved up to seventy-five cents, the best price paid here for some time. The new crop is beginning to come in lively and the second big mill will be in operation next week.

This evening, at Turner, Ira Adams started out on a short hunting expedition, and as he was getting over a fence, set his gun down on the ground, barrel up. His foot slipped and struck the hammer, discharging the weapon. He received the lead in his left wrist, which will have to be amputated.

The German Grain Market.

BERLIN, Aug. 15.—The grain market here is very excited. Rye for August delivery which closed at 240 marks, is quoted at 260 marks. August wheat advanced 14 marks and 50 pfennings from yesterday's closing price, now being 244 marks. The North German Gazette, the official organ of the government today, says, the government will resolutely adhere to its decision to make no reduction in the duties levied upon grain imported into Germany. The government is now held responsible for the advance in prices in the grain market.

Worse Than at First Reported.

St. Cloud, Minn., Aug. 15.—The storm proves to have been more serious than at first supposed. All corn and standing grain in its path is utterly ruined. In some places hail is fifteen to twenty inches deep on a level. No conservative estimate can be made of the damage but it is heavy.

The Report Favorable.

St. Paul, Aug. 15.—George Muller, who issued the alliance wheat circular says: "We received replies from the secretaries of the alliance in southern Minnesota, South Dakota, Wisconsin and Kansas all telling us the alliance voted favorably on the suggestion. Not an unfavorable answer was received."

A Well Known Divine Dead.

Troy, N. Y., Aug. 15.—Rev. Dr. Hopkins one of the most distinguished clergymen of the Protestant Episcopal church is dead, aged 91 years.

The Weather.

SAN FRANCISCO, Aug. 15.—Forecast for Oregon and Washington, fair weather.

BIG PRICES FOR WHEAT

A Wild Scene on the Chicago 'Change.

—All Sorts of Prices are Offered and Accepted.

An Extensive Operator of St. Louis

Fails.—Had too Many Contracts on Hand.—Other News.

CHICAGO, Aug. 15.—December wheat opened with a continuance of yesterday's wild scenes. Strong cables continue to effect the market. Those who sold wheat around to 6 yesterday thinking the culmination was reached, rushed into the pit to cover at any terms. Orders from New York and St. Louis for shorts came pouring in, and altogether there was a wild scene and all sorts of prices bid and accepted. In different parts of the pit at the same time, within two minutes after the bell tapped all the way between 1.01½@1.02½ with some trades possibly at 1.03 paid. A flood of selling orders caused a break to 1.01½. There was a rally to 1.02, another break to 1.01½ and an advance to 1.02½. When at about 1.01½ another bull wave swept over the wheat pit, and amid indescribable scenes of excitement the price was put up by halves and quarters to 1.05½ within three minutes. This bulge was understood as the result of buying in for account on shorts who failed to respond to margin calls.

When these wants were satisfied there was a quick reaction to 1.03½ and at 10:30 the price was 1.04½. After 10:30 the furor subsided somewhat, at least for a time, and fluctuations were narrow. Then another advance set in and prices rose to 1.09 about 11 o'clock. Ten minutes later it dropped to 1.08. Other markets were lost sight of in the excitement in wheat.

The excitement today in wheat cannot be ascribed to any one thing. It sympathizes with a world wide agitation on the question of breadstuffs. Including rye and wheat all foreign markets are excitedly higher and America is the only country which has full crops and counts on profiting by European and Asiatic scarcity. This in brief seems to be the sentiment prevalent on the board here. As the session drew toward a close, traders were desirous of evening up their trades and the consequence was that from the extreme high point of \$1.09 the market broke off to \$1.05½. There was afterwards a slight rally and wheat closed unsettled; cash \$1.07½@ \$1.07½; Sept., \$1.04½@ \$1.05; Dec., \$1.06½.

GONE TO THE WALL.

An Extensive Exchange Operator of St. Louis Fails.

ST. LOUIS, Aug. 15.—The failure of John Thyson an extensive operator on the exchange was announced after the close of the exchange today. "I do not know how I stand," said Thyson, "the trouble with me was I had too many contracts on hand and I fell in the gap. When I find out how I stand the matter will be straightened out." Thyson is one of the most prominent traders on the exchange and his failure and big bulge in prices may pull down a few others.

The Nebraska Eight-Hour Law.

DENVER, Colo., Aug.—District assembly No. 83, Knights of Labor, which took in all the employees of the Union Pacific system, has taken action regarding the Nebraska eight-hour law, which at present is causing trouble in Omaha and other cities. The following telegram has been sent to Omaha, Grand Island, and North Platte:

"Section 15 of the agreement is a contract as to working time. It is still in force, having been made prior to the eight-hour law, which, under the constitution, it cannot abrogate. The law is thus inoperative on Union Pacific shop employees, because of the contract. In honor we are bound to recognize the contract, unfortunate as it appears, until it can be modified by the parties to it. The good faith of the organization should be considered in this matter."

Damaging Evidence Given.

BUTTE, Mont., Aug. 13.—In the preliminary examination in the Penrose murder case today Officer Waters said the spike in the club found in Harper's yard the day after the murder belonged to the kit of tools used in the late Acquisition mine, worked by Deeny and Kelly, two of the prisoners. He identified it as a peculiar tool only used by miners from a certain part of Cornwall. The mine had been worked by three Cornishmen before it was leased to Deeny & Co., and the tools were left in it by the Cornishmen. It had a "W" marked on it, and three picks and a steel gouger were produced in court that the witness had found in the late Acquisition mine, which showed the same mark partly obliterated.

San Francisco Market.

SAN FRANCISCO, Aug. 15.—Wheat, buyer '91, 1.71½; season, 1.77½.

BAIRD IS BOUND OVER.

Conclusion of the Hearing of an Official Who Was Too Handy With a Gun.

SEATTLE, Wash., Aug. 13.—The hearing of Inspector Baird, which has been in progress before United States Commissioner Kiefer for a week, was concluded yesterday, and resulted in the binding over of Baird for trial before the grand jury. Baird failed to get bonds and Deputy United States Marshal Bigelow took the prisoner to Tacoma at once and turned him over to Marshal Brown, who will take him to McNeil's island tomorrow. The whole day's hearing was spent in arguments by the counsel. L. C. Gilman and John T. Miller made arguments for the government, and Attorney Allen for the defense. Commissioner Kiefer, in his decision, found that Baird was guilty as charged in the complaint of using a weapon on Holden while Holden was handcuffed. He thought it a very significant fact that Baird had disguised himself before he went out in the wood to intercept the Chinamen and their white captors. If Baird had seen Holden, or thought he saw him with the Chinamen at the time of the shooting, then Baird was more culpable than ever, for Holden was a United States customs officer and was entitled to have the Chinamen in charge. The court found that Baird had his revolver out ready to shoot before the shooting commenced, if he did not begin it himself. He was blameable in being so ready and anxious to use his gun. The attorney for Baird at once gave notice that he was going to apply for a writ of habeas corpus.

WILL OWN THE WATER WORKS.

La Grande Will Not Depend on Individuals for Its Water Supply.

LA GRANDE, Or., Aug. 14.—At a meeting of the city council last evening the company which had been granted the franchise to provide a system of water works asked that they be allowed to relinquish their contract with the city, and that their bondsmen be relieved from the payment of their bond. This action had been anticipated by the council, as the date on which a supply of water was to be furnished was rapidly approaching, with no apparent means in sight of furnishing the supply. A committee was appointed with power to take the necessary steps looking to the establishment of water works by the city, and with instructions to call a special election upon the question of bonding the city for an additional \$20,000.

The citizens of the town unanimously realize the necessity of water for fire protection, and now that the city itself has taken hold of the matter, there is every reason to suppose that a supply will be speedily secured. At the same meeting steps were taken looking to the purchase of a steam fire engine and a hook and ladder truck.

The Work of Fends.

SARATOGA, Aug. 13.—While driving near Wilton last evening Mrs. Cook and her daughter were assaulted by two negroes. Their carriage collided with that in which the negroes were. The latter immediately assaulted the ladies, and beat and choked them in a shocking manner. Their cries attracted Mrs. Cook's husband and two young men. They started in pursuit of the fends. They had not gone far when Mr. Cook suddenly threw up his hands, and exclaiming, "Boys, I cannot see," fell over dead. Heart disease was the cause of his death. Mrs. Cook is now insane as the result of her injuries and from grief at the death of her husband. Today detectives arrested the two negroes near Sandy Hill. They claimed to be from New Hampshire and to be peddling soap. They will be examined tomorrow.

A Strike Inaugurated.

SAN FRANCISCO, Aug. 15.—A strike of the Union Steamship stevedores was inaugurated this morning by seventy men on the Oregon Dock, quitting work after the departure of the Oregon steamer and a partial suspension of work at the Broadway street wharf of the Pacific Mail Steamship Co. The Union men demanded an increase in wages from 30 to 40 cents an hour for regular time with an increase of 20 cents per hour for night on Sunday work.

The People Greatly Excited.

ARKANSAS CITY, Kan., Aug. 13.—Mrs. J. A. Wyckline, who was brutally assaulted and nearly murdered three weeks ago, this morning found a skull and cross-bones letter nailed to her door, warning her to leave the country or she would fill a coffin. It is the same neighborhood where Mr. and Mrs. S. A. Donnelly were mysteriously murdered a week ago. The people are greatly excited.

An Old Man's Crime.

GAYLORD, Mich., Aug. 30.—A. W. Wilcox, living two miles east of here, aged 70, this afternoon split open the skull of his granddaughter, Mrs. West, and then committed suicide by shooting himself with a revolver. Before shooting himself he took a dose of Parisgreen. He was angered at his granddaughter, because she, who had been keeping house for him, was going away.

The Journeymen Stonecutters.

CLEVELAND, Aug. 13.—The National Association of Journeymen Stonecutters yesterday adopted resolutions emphatically protesting against the competition of convict with free labor. The convention meets next year in Denver.
