Collections made at all points on favorable terms.

BOYCOTT PRONOUNCED.

Lum Out, of Chicago, in the Future Will Not be Recognized. CHICAGO, Aug. 16.—Lum Out, a Chinese of this city, is in a serious predicament. An order has been promulgated throughout the city that he must be boycotted. All good Chinamen are ordered not to talk, trade or associate with him. Lum is a laundryman, who has embraced the Christian faith, and converted a number of his countrymen. He established in his laundry a Sunday school, where meetings are held every Sunday. The cause of the trouble is that certain Chinese merchants believed Lum furnished information to the treasury agents, which led to the detention at Winnipeg of several Chinamen, who returning from a visit home, they were recently stopped, it will be remembered, at Noche, Manitoba, and although they had passports, it was believed the papers were the property of others, and that they were trying to break into the country for the first time. When the news of their arrest reached Chicago, the colony here began to hunt for the informer and it was finally determined Lum was the guilty man. He had been seen conversing with treasury agents and also paid visits to the government buildings. Despite his protestations of innocence, a boycott has been pronounced against him and some wanted to kill him, but the mandarin would not hear of it. What so greatly incensed the colony leaders was that the information given the treasury agents was false, so they say, the men arrested being bona fide residents of Chicago. From information gathered this evening, it is believed their story is right, and that the Chinamen will be allowed to come to Chicago.

Accidentally Drowned.

FRESNO, Cal., Aug. 16.—News has been received here this evening of the accidental death by drowning of W. J. Simpson, well and favorably known here. Simpson, in company with his brother-in-law, W. J. Perry, left Sanger this afternoon on the way to their homes at Big Dry creek, where Simpson is proprietor of the wayside store. After leaving Sanger they stopped at Church canal to take a bath. The water was running full head, and while bathing Simpson was taken with cramps and disappeared before Perry could render any assistance. A messenger was dispatched to shut off the water at the headgate, as the body has not yet been recovered. Simpson was about 28 years of age and leaves a widow and two children.

More Serious Than Reported.

ST. CLOUD, Minn., Aug. 15.—The storm proves to have been more serious than at first supposed. All corn and standing grain in its path is utterly ruined. Hallstones crushed them to the ground, and the grain in shocks has also suffered severely. Many fields were badly bruised and cut about the head by hail. In some places the hail is fifteen to twenty inches deep on a level. Windows on the exposed side of the houses were smashed. No conservative estimate can be made of the damage accomplished, but it must be heavy.

Canada's Rights.

HALIFAX, Aug. 16.—The secretary of the board of trade today received from Sir Charles Tupper a cablegram stating that the British colonial office authorities are of the opinion that the treaty existing between England and Spain entitles Canada to any reduction extended to the United States by Cuba and Porto Rico till June 1 next, when the treaty expires.

Severe Electric Storm.

HASTINGS, Neb., Aug. 15.—One of the worst electric storms known for years visited this city last night. The wind raged furiously and the rain fell in sheets for two hours. Hundreds of people took refuge in their cellars in anticipation of a cyclone. Fully twenty cottages in different parts of the city were wrecked and immense damage was done to the fruit crops.

Traced to a European Account.

NEW YORK, Aug. 16.—The recent selling of the Northern Pacific bonds and stocks has been traced mostly to a European account, especially to Germans. It is believed they have been influenced to sell by the bearish positions taken by Villard on his return to this country, and the falling of in earnings recently has also been a bearish factor.

The Loss Will be Heavy.

PHILADELPHIA, Aug. 16.—The large paper warehouse of U. G. Elliott & Co., was badly damaged by fire at an early hour this morning. The fire was first discovered in the basement, where an immense amount of paper was stored. Loss is not known but will prove very heavy.

Stickney Makes a Sale.

CHICAGO, Aug. 16.—A. B. Stickney, the well-known St. Paul railroad man, has disposed of his tract of 650 acres of land, to twenty packers of this city, not including Armour, Swift and Morris. They propose to open an immense stockyard on the new location.

Specie Exports and Imports.

NEW YORK, Aug. 16.—The export of specie from New York for the last week aggregates \$134,751, of which \$1300 was gold. Imports of specie for the same time aggregated \$49,547, of which \$38,968 was gold.

TERRIBLE LOSS OF LIFE

Another Railroad Wreck in Which a Larger Number of Passengers Lose Their Lives.

Trading on the Chicago 'Change Just as Wildly Nervous as it Was Saturday—Big Prices Paid.

Harvesting Well Under-way all Over the Northwest—Lack of Storage Facilities Reported.

BERNE, Aug. 17.—Yesterday another wholesale loss of life by a railroad accident occurred on the Jura Simplan railroad line near the village of Zolofekan not far from this city. A special train carrying a large number of excursionists from the country districts to this city, on the way here was run into by the Paris express while side tracked to allow the latter to pass. The accident resulted in a large number of passengers being killed. The exact number of dead and wounded is not known, but twelve corpses have already been recovered from the ruins and it is known many people have been seriously injured by the collision. No loss of life is reported among the passengers of the Paris express. The majority of the passengers aboard the excursion train belong to towns in the vicinity of this city. It is thought no American travelers are among the killed. The accident is thought to be the result of carelessness of the railroad officials.

CHICAGO ALL EXCITED.

Both Sides Satisfied the Prices Are Too High.

CHICAGO, Aug. 17.—The exciting scenes in wheat and corn which characterized trading the latter part of last week was renewed at the opening of the board of trade this morning. Trading was just as wildly nervous as it was Saturday. The bull fever is still on this morning and trades inflamed with the prospect of higher prices, as a result of excited higher cables, when the bell tapped for the opening of business, at once became a pandemonium from which came these figures for December wheat inside of ten minutes at 1.13. This was the top figure on the early bulge. Then prices began to weaken and at 10 o'clock had declined to 1.07 1/2. A bulge to 1.13 was accompanied by the wildest excitement and some sales are reported as high as 1.14. The succeeding period of weakness was the result of free selling by both longs and shorts. Conservative traders on both sides are satisfied the prices are too high for safety and far above the export basis, and they must be brought together before a benefit on foreign shortage on which the boom was founded can be realized. The consequence of this was that prices reacted until 1.05 was reached, that being the lowest point this morning. It reacted to 1.07, sold off to 1.06. At 11 o'clock it was comparatively quiet at 1.06. Wheat continued weak and at 12:15 December was quoted at 1.03 1/2.

THE WHEAT OUTLOOK.

The Promises of a Big Yield are More Than Fulfilled.

ST. PAUL, Aug. 17.—Harvesting is well under way all over the northwest and the promises of a big yield are more than fulfilled. Wheat averages from twenty-five to thirty bushels to the acre and the increased yield from increased acreages makes 150,000,000 bushels minimum, the product of the two Dakotas and Minnesota. Other grains are close to wheat, oats especially turning out well. Great trouble is experienced in procuring labor to handle the immense crop, and the railroads are hard at work preparing to handle the grain. Lack of storage facilities will compel the great majority of farmers to dispose of their grain soon, and transportation facilities will be taxed to their utmost. The weather for harvesting is all that could be desired.

Lively Time in New York.

NEW YORK, Aug. 17.—When the produce exchange opened this morning there was an anxious crowd of brokers present. Reports from Chicago, London, Liverpool, Paris and Berlin indicated an excited feeling and advance over Saturday's prices. When the gong sounded there was a rush to the wheat pit and pandemonium broke loose. The first bid for December was 1.17. Within five minutes after the offering the excitement began to decrease and prices fell off to about yesterday's closing.

The Storm Was Furious.

WILMAR, Minn., Aug. 16.—The hail storm which passed over the eastern portion of this county cut down standing grain. The storm was furious. It rooted up trees and broke down sheds. The hail broke a number of windows.

FATAL HUNTING ACCIDENT.

A Boy while Shooting Grouse on Lake Washington is Instantly Killed.

SEATTLE, Wash., Aug. 15.—Leonard Addleman the 16-year-old son of John F. Addleman, a farmer living at Houghton, on the east side of Lake Washington, accidentally shot and killed himself this morning at 6 o'clock. The charge entered the right side two inches below the nipple and ranged upward through the lungs, causing immediate death. The boy, in company with his father and uncle, were out grouse hunting, and while the three were standing on a log, the uncle saw a bird and told Leonard to shoot it. The boy had an old muzzle-loading rifle charged with bird shot, and asked his father to exchange guns for the shot. The father objected, but the boy persisted and he finally advanced towards him with the intention of handing the gun. Leonard proceeded to set the old gun down behind the log, when the hammer caught, the gun went off and the charge entered his body. He fell back, but not before his father was on the spot. Throwing his arms around his parent's neck he said, "Oh, papa," then kissed him twice upon the cheek and expired. When the news was brought to his mother, she became prostrated with grief and is now in a critical condition.

AN EXCURSION INTERRUPTED.

A Canadian Steamer With a Large Crowd Aboard Labeled for Debt.

SEATTLE, Aug. 16.—The steamship Islander was attached this evening on a writ sworn out by the Edison General Electric Company, of Portland, who alleged that the owners of the vessel were indebted to them for \$600 worth of lights put in the steamer. The Islander is a Canadian vessel and this is the first time that she has been in American waters for many months. The steamer had a crowd of 700 excursionists on board and was ready to leave for Victoria, when the attachment was served on Captain Irwin by a deputy sheriff. The steamer was delayed almost two hours, but the agents finally succeeded in depositing a bond and the vessel left for Canadian waters. The Islander's regular run between Victoria and Vancouver, B. C., and she is one of the largest and finest steamers in the Northwest.

RESULT OF BAD COMPANY.

A Double Murder on Board an Illinois Freight Train.

TEXAS CITY, Ill., Aug. 16.—Mike Weitzel, Otis Johnson and a discolored female named Ballentyne, while returning from Eldorado on a freight train this morning, engaged in a fight. Johnson was casting a watermelon and Weitzel struck him with a slung shot. Johnson made a slash at his assailant with a knife disemboweling him. The woman, who had been with Weitzel some time, seized a hatchet and made a rush at Johnson, cutting a gash across the left cheek and cutting the upper lip and upper front teeth from his face. She was only stopped from hacking him to pieces by a stranger, who saw the row, and pulling a revolver told her to desist or he would kill her. Johnson is under surgical care here but will die. Weitzel died this noon at Carmi.

Of an Incendiary Origin.

TERRE HAUTE, Ind., Aug. 16.—A fire early this morning destroyed the machinery of the mine of the new Pittsburgh Coal company at Alum Cove, Sullivan county. The company estimates the loss at \$100,000, with two-thirds insurance. There has been a strike at the mine for a week past, and it is thought the mine was set on fire. It will be several months before work can be resumed.

The Artist and the Poodle.

A certain portrait painter in this city who has acquired quite a reputation as an artist, was complimented on his life-like work. "Yes," he said, "I suppose it is creditable now, but was not always so. I remember the first job I ever had. A wealthy lady came to see me and wanted her full length painted. I did the best I could, but that was nothing to brag of. When the lady came to look at the picture she gave a cry of disappointment. "Why, that's not at all like me," she said; "I shall not take it!" "I assured her it was a perfect likeness, and declared that even her little poodle would recognize it. 'I'm willing to take that risk,' she said. 'I'll bring my dog with me this afternoon, and if he recognizes me I'll take the picture.' Later in the day she brought in the canine, and the sagacious little animal after surveying the portrait for a moment, ran up and licked the painted hand. My lady took the picture without any further objections. "But the likeness must have been striking," I said, "to deceive the dog." "Not necessarily," said the artist; "I took the precaution of rubbing a piece of bologna sausage over the hand before the dog arrived."—Welcome.

The horse market in the cities is dull. The reason is that electricity is taking the place of horses in propelling street cars. Thousands of horses were formerly worn out on horse cars annually. There are not many offices that seek the man, but a good many of them are looking for pretty stenographers.—Elmira Gazette.
