Collections made at all points on favorable terms.  
**REMOVAL.**  
H. Glenn has removed his office and the office of the Electric Light Co. to 72 Washington St.

### THE WORLD'S FAIR.

**Propelling Machinery for Light Etc. Will be Furnished by Exhibitors.**  
CHICAGO, Aug. 17.—The board of control of the national world's fair commission passed resolutions today looking to the termination of the little squabble between the department chief and Chief Constructor Burnham, about the installation of engines. Burnham can now go ahead and place the power he arranged for, and the directory saves \$1,000,000, which would be necessary to buy the required propelling machinery. Burnham's plan was, instead of laying up this large sum of money, to have the exhibitors furnish the necessary machinery for light, heat and power, this machinery to be installed and classified as part of the owner's competitive exhibit, subject to the regulations of the national commission. The matter of installation will be settled between Burnham and the chiefs of the electric and machinery departments.

### TO HANDLE WHEAT.

**Quebec to be Used as a Port for Shipments.**  
QUEBEC, Aug. 18.—President Van Horne, of the Canadian Pacific railway, has arrived home. He declines to speak of the result of the European mission. Van Horne states that Quebec is now to be used by the Canadian Pacific as a port of shipment for Canadian grain to England, since the enormous increase in the wheat crop of the Canadian Northwest will much more than exhaust Montreal's terminal facilities.

**Walla Walla's Wheat Quotations.**  
WALLA WALLA, Aug. 19.—The wheat market this morning opened in an undecided tone. The farmers felt confident and raised the selling price to 80 cents as a minimum, while the buyers declined to give quotations till they could hear from the eastern markets. Offers were made on the same basis as Saturday but in nearly all instances were declined. About noon local quotations were lowered 2 cents per bushel on all grades, but afterwards the market regained in tone and sales were made on the basis of 76 cents for club and 78 cents for bluestem per bushel. Some offering were made at 75¢/76 cents per bushel net, for prime bluestem. The aggregate sales today did not exceed 100,000 bushels. The railroads report no shipments as yet, as the farmers are not far enough along with the harvest to deliver wheat at stations. Your correspondent interviewed a number of farmers this afternoon. They united in an expression of faith in the coming prices. Many believe wheat will reach 81¢ before September. More, who are heavily in debt, express an intention to sell only enough to quiet their creditors, and hold the rest for the advance, they feel sure will come.

### Another Sealer Captured.

WASHINGTON, Aug. 18.—Captain Hooper, commanding the Corwin, reports to Captain Shepard, chief of the revenue marine service of the treasury department, under date of Onalaska, July 30, the capture near Seal islands, July 28th of the schooner Ethel from San Diego, Cal. The Ethel was found completely fitted for sealing with boats, guns, ammunition, salt, etc. She had on board when captured, 181 salted fur sealskins, twenty-nine fresh fur sealskins, eleven unborn pup sealskins, two sea otter skins, one hair seal skin and 200 pounds of whalebone. Prior to seizing the Ethel, Captain Hooper had warned the vessel to leave and left copies of the president's proclamation to that effect. Within three hours afterwards firing was heard from the Ethel, and when the Corwin bore down upon her the Ethel was in a school of seals, and with lowered boats was slaughtering them right and left.

### Change in the Mexican Custom-House.

WASHINGTON, Aug. 18.—Information has been received of a very important change made in the Mexican custom-house regulations. Under the old system all goods imported were subject to two examinations, one at the port of entry, and another in the custom-house where the goods were delivered. By the rule just adopted the last inspection is dispensed with, the goods thoroughly examined upon their entrance into the country, sent to their destination with due precautions, and delivered to consignees upon presentation of proper documents.

### Scarce Commenced Coming In.

SALEM, Aug. 18.—The flurry in wheat at Chicago had no visible effect on the market here. About 3000 bushels were received at the mill today. Saturday night the market advanced from 78¢ to 80 cents, at which figure it remains firm. Ten thousand bushels were contracted here at that figure Saturday. Wheat has scarcely commenced coming in, and there are no shipments out. The mills consume all.

### The Weather.

SAN FRANCISCO, Aug. 19.—Forecast light rains in Oregon except at Portland, and light rains in Eastern Washington.  
SAN FRANCISCO Wheat Market.  
SAN FRANCISCO, Aug. 19.—Wheat buyer '91, 1.70; season, 1.76%.  
Portland Wheat Market.  
PORTLAND, Aug. 19.—Wheat—Valley, 1.55; Walla Walla, 1.45@1.47% per cental.

## BENNINGTON'S BIG DAY

Thousands of People Witness the Dedication of the Bennington Monument at Bennington.

The Republican State Convention at Harrisburg Endorse James G. Blaine for Candidate in 1892.

Female Counterfeiters Captured at Memphis, Tenn., After Flooding That Section With Spurious Coin.

BENNINGTON, Vt., Aug. 19.—Immense crowds are here to witness the dedication of the Bennington monument. President Harrison reviewed the procession. General Veasy, president of the day, made the introductory address. After prayer Governor Hoge made an address of welcome in eloquent terms. Governor Prescott, of New Hampshire, president of the monument association, presented the monument to the governor of Vermont. Governor Page accepted in a brief address. Music followed and then Hon. Edward J. Phelps the orator of the day, was introduced. His eloquent and somewhat lengthy oration was received with great applause. Following him President Harrison's appearance was a sign for great applause. He expressed pleasure and gratification at being present. It was late in the afternoon when he finished and the exercises were brought to a close. A banquet was then partaken of by 3000 people.

### FEMALE COUNTERFEITERS.

They Flood Memphis, Tenn., With Counterfeit Dollars.

MEMPHIS, Tenn., Aug. 18.—This city is flooded with counterfeit dollars. They are of a perfect mold. Every bank in the city has had them offered with other money on deposit. Some tellers of long experience has allowed them to pass unnoticed. They bear the date of 1889. The coins have a sticky feeling, like soapstone very different from silver. Many people have been deceived by them. The perpetrators are supposed to be two women, modestly attired, who have made trifling purchases at several places and, after paying for them in silver, have asked that the dealers give them bills for \$10 or \$15 in silver to relieve the weight in their pockets. The United States authorities are making a thorough search for the offenders.

### The Convention Called to Order.

HARRISBURG, Pa., Aug. 19.—The republican state convention was called to order at 10:40 this morning. A portion of the speech of Temporary Chairman Hall referring to James G. Blaine as "that republican of republicans, that leader of leaders," was vociferously cheered. After selecting committees, the convention at 12 o'clock took a recess until 2 o'clock. Bimetallism is so regulated as to allow the free coinage of all gold and silver produced from American mines and so guarded by tariff duties as to protect the country and its currency from debasements. The platform denounces the unscrupulous partisanship of Governor Pattison in vetoing the compulsory education bill.

### TO QUIET THE INDIANS

Cavalry to be Sent to the Tongue River Indian Agency.

WASHINGTON, Aug. 18.—Governor Toole, of Montana, has informed the acting secretary of war that in compliance with a petition of the citizens of Custer county the cavalry detachment at Tongue river is ordered from its camp there to the Indian agency on that river. In the opinion of military commanders this force will be sufficient to guard the interests of both Indians and settlers.

### Little Wheat in the Market.

LA GRANDE, Aug. 18.—Harvesting has not yet commenced in the Grand Ronde valley, consequently the Eastern wheat boom has not affected this market to any extent. Wheat is quoted at from 75 to 80 cents a bushel, an advance of about 10 cents, but there is very little, if any, of last year's crop in the country, and this year's crop will not be ready for the market in much less than thirty days.

### Shipbuilding Will be Delayed.

EUREKA, Calif., Aug. 19.—A fire at Benlixsen's ship yard early this morning destroyed the mill used for sawing ship timbers, the only mill of its kind on Humboldt Bay. The loss will reach \$25,000 or \$40,000 and ship building both at Benlixsen's and Mathew's yards will be seriously delayed.

### A Point Well Taken.

Judge—Uncle Rastus, I am very sorry to see you brought before me on a charge of attempted manslaughter.  
Uncle Rastus—Do de indictment say manslaughter, Your Honor? Den I objec dat it am defective. It was a woman I tried ter kill, sah. I 'ppear to de habious corpus, and take advantage of de technicalities ob de law.

### WILL REMAIN NEUTRAL.

Switzerland Refuses to Join a Commercial League.  
LONDON, Aug. 18.—The failure of negotiations with Switzerland for a commercial league with Austria and Germany has produced much disappointment in Berlin, where it is felt that the failure is due to the evident determination of the majority of the Swiss to maintain a neutral position in the existing differences and difficulties and coming wars of Europe. The proposition from the first impressed the people of Switzerland unfavorably. They have a traditional repugnance to a close alliance of any kind with Austria, and they fear the power of Germany. France, too, has many friends among the Swiss, and all the stood out against a commercial union with the two great German powers.

The Swiss federal government has got out of the matter as easily as possible, conscious that a referendum would result in the defeat of the proposition, and in the discredit of the government support. It is expected that Austria and Germany will now confine themselves to confirming and arranging the details of their mutual agreement. Hungary has an abundant harvest and will be able to spare large quantities of grain for use in Germany as soon as the treaty between the two countries comes into operation.

### ARRESTED AT LAST.

An Absconding Cashier Captured After a Year's Delay.

MARY'S LANDING, N. J., Aug. 18.—About a year ago the Merchant's bank of Atlantic City, N. J., which had branches in Elmira, Pleasantville and Egg Harbor City, failed for nearly \$100,000. At that time the cashier, C. R. Dunkle, was accused of wrecking the bank by embezzling its funds, but he escaped before he could be arrested. He was found at a small village in Alabama, where he was cashier of a bank. Owing to the legal obstructions, he has never been arrested. Last evening, after months of legal proceedings, extradition papers arrived here for his arrest, and Sheriff Charles R. Lacy will start tomorrow morning to arrest him. When he was cashier of the Merchant's he was one of the most prominent citizens, and his arrest caused a sensation.

### Another Farmers' Alliance Convention.

ST. LOUIS, Aug. 19.—The executive committee appointed by the Fort Worth farmers' alliance convention has issued a circular to "members of the farmers' alliance and industrial union and to farmers and laborers of the United States," calling a convention in St. Louis September 15. The next convention is called in accordance with a resolution passed at the Fort Worth meeting in opposition to the sub-treasury plan. This is an effort on the part of conservative members and real farmers to emancipate the farmers alliance from the control of scheming politicians.

### A Bloody Family Quarrel.

PURVIS, Miss., Aug. 18.—A family feud which is likely to prove a bloody one opened here today. Jesse Lee and William Boon, well-known citizens of Purvis, met at a neighbor's house, and, without wasting any time in words, began firing at each other. Boon was shot twice through the heart, but before he died and while lying on the ground, he succeeded in wounding Lee, who escaped, but is thought to be fatally shot. Family troubles caused the duel, and, as each man has many connections with fighting blood in their veins, it is not thought that the trouble will end here.

### Few Sales at Pendleton.

PENDLETON, Aug. 18.—Wheat changed hands here today at eighty cents. Although the price is exceptional, little wheat, as a rule, is being sold. The farmers seem to think the end is not yet. Probably a stampede to sell will begin this week. The yield is much larger than expected in all parts of the county. There will be shipped out of this county this season, fully 2,000,000 bushels of grain. Many mortgages will be paid off this year, and the big returns for wheat will have their effect.

### An Important Railroad.

OTTAWA, Ont., Aug. 18.—Advices from British Columbia state that the proposed Pacific, Peace River, and Hudson's Bay railway is to be gone on with. The road is planned to run from Port Simpson, on the Pacific, to Hudson bay, connecting there with a line of steamers. This plan, it is claimed, will make a route between Europe and Asia shorter by 1954 miles than the Canadian Pacific and 2676 miles shorter than the Central Pacific or San Francisco routes.

### Farmers Still Holding Back.

EUGENE, Aug. 18.—Inquiry among the wheat dealers and farmers does not reveal any material change in the wheat market as a result of the Chicago boom. Prices are somewhat stimulated and probably two or three cents more would be offered than last week, but no sales are being made. Those who have wheat to sell are holding for a still further rise. No shipping is being done from this station. Threshing is now under way and some grain is being delivered, but the bulk is still in the field. Good yields are reported.

Rev. Gilbert Elliott, D. D., the well-known English churchman, is dead. He was born in 1800, and was appointed dean of Bristol in 1850 and had held the office ever since.
