Towns Weed Manual Training and Cook

ing Schools as Well as Cities. Practical education is needed in the country as well as in the city. There has been too much brain culture in the past, with too little sense development and mind training. With all opportunities for objective teaching and manual training, but little of it has come to the country, and yet the boys and girls there need this training as much as children in crowded city tenements. Successful experiments in these directions are being made in many country neighborhoods. Groups of ladies are inaugurating cooking, carpentry, and clay modeling classes and sending to the cities for

In these neighborhoods boys who expected to become clerks, and in consequence to leave their homes for city boarding houses, are becoming impresse with the interest as well as value of tools. Girls are enjoying lessons in hygiene and the chemistry of food, as well as practical demonstrations of cooking. Sewing is also growing more and more interesting, and the young girls appreciate doing with the learning.

Take, for example, two neighbor-

hoods on the Hudson, near New York. In one a library association was started a few years ago by some ladies. There seemed but few people around who could or would utilize a library or reading room, but soon many men and boys thered nightly. A sewing school was started for .Saturdays upon strict busisees principles, and within a month was overcrowded. It was hard to tell where the hundred or more girls came from, but there they were, eager to learn. A boys' class for modeling and carpentry started, then a cooking class for girls, and all were successful. Monthly entertainments were held, when an admission fee of ten cente was charged, and the rooms were crowded.

In the other neighborhood practical classes have also started and are all crowded. In this small settlement are now being held three weekly cooking classes for different groups of girls, two large sewing classes, a dressmaking course and boys' carpentry classes.

Village bands and choruses are valuable. In one place a large group of boys are kept interested by their weekly band practice. A right feeling of pride is aroused when they are called upon to lead local processions, to play at entertainments, etc. Here, also, the teacher of the village school has started a gymnasium, and is training boys and girls alike in the Swedish movements. Country children need to be physically developed by training, and taught graceful movements as well as city children. Village volunteer companies of boys can be organized and made a power by furnishing practical outlets to energies, physical as well as mental.

Interest in surroundings should be roused. The country, with its woods, rocks, trees and plants, should be studied; intimacy with the beautiful variety of animal and insect life should be encouraged. Through such channels homes will be made brighter. Happiness means contentment, and contentment comes from health, occupation and interest. Country contentment will be the result when young people become stronger, keep brain as well as hand busy, and are interested in others,-Grace Dodge in

One Suit for Six.

Writing in Century Dr. C. B. Gillespie relates this incident of a Sunday in Cotoma, Cal., in '49:

A group of half a dozen Indians especially attracted my attention. They were strutting about in all the glory of newly acquired habiliments, but with tinction-that one suit of clothes was sufficient to dress the whole crowd without other apparel walked about as proudly as any city clerk. Another was A third sported nothing but a white shirt with ruffled bosom.

A fourth flaunted a blue swallow tailed coat, bespangled with immense brass buttons. A fifth was decked with a flashy vest, while the sixth had nothing but a red bandana, which was carefully wrapped around his neck. Thus what would scarcely serve one white man just as effectually accommodated six Indians.

The Desks in the Berkeley School. Each pupil in the Berkeley school will have, in the new building, a desk of polished hard wood and a chair uphol stered in leather. Whenever a boy is perfect in al, of his studies for a whole year he is to have his name neatly carved on the lower side of the lid of his desk. This is an old Rugby custom. Some time ago the Marquis of Bute offered \$60,000 for twelve of the old desks in Rugby school because of the historic names carved thereon. Among the names were those of Robert Peel and William E. Gladstone, rudely carved by themselves. Future generations may find same great names carved on the lids of the Berkeley school desks. Dr. White says that he has some good stock among his pupils.—New York Times.

A Valuable Cat.
S. W. Kimball, of Presque Isle, has a
Maltese cat which is valued as much as a horse and buggy. The other day, while Mr. Kimball was away, the cat came in from the barn and went to Mr. Kimball's wife, and after "mewing" started to the barn again. This the feline repeated three times, till at last, to see what the cat wanted, Mrs. Kimball followed it to the barn to where a colt was hitched, and there found the norse tied so securely that it could scarcely move, and where, if it and remained any great length of time it must have been severely hurt. I not killed. -Lewiston Jaurnal.

Migh. Have Been Warded Differently. Young Medicus -Of course it will take me a long time to get started.

Eminent Physician's daughter-Oh. yes; papa says even the eleverest in the profession are years building up a practice. - New York Times

#### MEXICAN DISCIPLINE

HOW A BRAVE YOUNG SOLDIER MET A CRIMINAL'S DEATH.

Water Popular Captain of Cavalry in Mexico-Story of the Execution and the Circumstances .That : Led .Up to the Shooting-A Powerful Picture.

Monterey, in the state of Neuvo Leon, has been the theater of many military tragedies, but the shooting of Savator Estuperron, second lieutenant of the Mexican cavalry, was the saddest that understanding of the case.

A company of the Thirteenth regular flush times. a first lieutenant and the deceased. A only \$10,000,000. So you see the pro-dispute arose between the officers, and digious power that money has in the Lieutenant Estuperron, fearing, as his mere ebb and flow of it. When Mr. drew his pistol, but did not shoot at his though I have no knowledge on the subtenced to death.

There were extenuating circumstances admitted, and the case was carried to in cash. If he resolves to purchase some was shot dead in the portals at Monterey by one of his soldiers, and the soldier, while yet the smoke was curling from

tain of the company.

Whether these deaths affected the pardoning power or not will never be known, but the finding of the court was approved, and powerful personal appeals by persons intimately associated with death warrant was signed and carried his temporary necessity, but said to Mr. into execution. That the officer was ad- Gould. or rather wrote to him, that his regiment was well known by the would be satisfactory. GOULD'S READY MONEY

He 'Can Creste a Panic Any Time by Withdrawing \$12,000,000

How much is Jay Gould worth? His contemporaries, associates and critics put him down at about \$150,000,000. I suppose it is not much exaggerated. We know, who are brokers and in the banking business here, the influence of his ready money He has got the best money in the country; it is all liquid money.

What do you mean by liquid money? Money which flows like a liquid—like quicksilver, according to the inclination, up or down. The Astors, for example, do not have liquid money; their has ever darkened the annals of the state. money is in real estate, upon which they A brief history of the event which led could not realize in tight times as well to this execution is necessary to a proper as in easy times But Gould's money is here in time of panic as readily as in

cavalry was ordered to do special duty Almost any time he can withdraw at Cadereyta, a small town on the Gulf from the market \$12,000,000, or can keep road. The company was in command of it loaned. Now, the bank surplus is friends say, that his life was in danger, Gould withdraws it, as he is said to do. superior. It is claimed that he snapped ject, the times are terribly tight here. the pistol, but it missed fire. For this Up goes the rate of interest. To talk of guarding against cold in summer seems absurd, and yet it is as necessary as in winter. Where the climate is changeable a hot day is often followed by a cool evening, or a sudden rain storm chills the air, or a cold wind springs up, grateful after the heat, but dangerous to those who are thinly clad unless they are protected from it by proper covering. Cotton is a good conductor of heat and allows it to escape rapidly from the surface of the body As soon as the surrounding air becomes cooler than the skin it steals the heat which the body requires for its own needs. A fresh supply of heat must be produced, and thus the system is overtaxed to supply the demands of the robber. Flannel is a bad conductor and guards the tender body more faithfully, retaining the heat.—Elizabeth R. Scovil in Ladies' Home Journal.

Finished His Story.

On Jan. 15 two laborers were at work on a railroad running into Indianapolis. One was telling a story, and while bending over he was accidentally struck on the head with a hammer by his compan-ion and his skull was fractured. He was rendered unconscious, and remained in a comatose condition until last Friday night, when Dr. G. D. Sturtevant, of Indianapolis, trepanned the skull, and immediately upon removing the pieces of skull from against the brain the man continued the story which was started five months before and had lain latent in his brain during all this time.-Cor. St. Louis Globe-Democrat.

Hair Turned by Lightning. A curious instance of the blanching of the hair was recently reported by the Philadelphia Times. At Petersburg, in the course of a thunder storm, a laundress named Ellen Barnes stood watching the storm from the door of her house, when she was struck by the lightning to speak for hours after being resuscitated by the shock, except that a part of her hair was turned a dazzling white. The line of demarkation separating the black inch and a quarter to one side of the middle of her head.

Furniture, 50 Cents; Dogs, \$11. One of the assessors relates an odd experience in Bucktown, near Indianapolis, He called at the house of an old woman whose furniture was valued at fifty cents. Under the law he had to place the value at one dollar, which would make her tax a fraction over one cent. As he was about to leave the house he discovered that the old woman was the happy owner of six dogs, on which she was as \$11.-Chicago Mail.

### Dimples.

eruptions were due to a "blood humor." for which they gave potash. Thus all the old Sarsaparillas contain potash, a most objectionable and drastic mineral, that instead of decreasing, actually creates more cruptions. You have no-ticed this when taking other Earsaparillas than Joy's. It is however now known that the stomach, the blood creating power, is the seat of all vitiating or cleansing operations. A stomach clogged by indigestion or constipation, vitister the blood, result pimples. A clean stomach and healthful digestion purifies it and they disappear. Thus Joy's Vegetable Sarsaparilla is compo after the modern idea to regulate the bowels and stimulate the digestion. The effect is immediate and most satisfactory. A short testimonial to contrast the action of the potash Sarsaparillas and Joy's modern vegetable preparation. Mrs. C. D. Stuart, of 400 Hayen St., S. F., writes: "I It is now 4:45. From out the gate of enthusiasm, and more than once were bave for years had belignation, I tried a popula issued a company of the Thirteenth, at we roused from our first sleep by the Sarsaparilla but it actually caused more pimples to break out on my face. Hearing that Joy's was it and the plantles immediately disappeared."

#### A Necessity.

of tea largely increases every year in England, Russia, and the principal European tea-drinking countries. But it does not grow in alone that, but thouwho leave Europe ardent lovers of tea, upon arriving in the United States graduuse, and finally cease it

This state of things is due to the fact that the Americans think so much of business and so little of their palates that they permit China and Japan to ship them their cheapest and most worthless teas. Between the wealthy classes of China and Japan and the exacting and cultivated tea-drinkers of Europe, the finer teas find a ready market. The balance of the crop comes to America. Is there any wonder, then, that our taste for tea does not appreciate?

In view of these facts, is there not an im-

mediate demand for the importation of a brand of tea that is guaranteed to be un-colored, unmanipulated, and of absolute purity? We think there is, and present Beech's Tea. Its purity is guaranteed in every respect. It has, therefore, more in-herent strength than the cheap teas you have been drinking, fully one third less being required for an infusion. This you will discover the first time you make it. Likewise, the flavor is delightful, being the natural fis-vor of an unadulterated article. It is a revela-tion to tea-drinkers.
