Who is Miss Helen Demmittion, anyhow? We ask this question, because we saw a tall gentleman, yesterday, stub his toe against a protruding nail on Court street sidewalk, hop once or twice on his left foot and then call lustily for "Helen Demmittion." Last year Mr. Sandoz had them, when fifty year, that weighed 135 pounds each. MARKET REVIEW.

THURSDAY, AUGUST 20, 1891.

The usual business of the week has been had and the upward tendency of grain has stimulated all classes of trade.

There is quite an inquiry for wheat sacks. The Wasco warehouse is furnishing Calcuttas at 9 cents, and the stores are asking 9 1/2 to 9 3/4.

As there is a disposition on the part of some farmers to hold their wheat for futures, thereby saving storage, there will be less immediate demand for sacks on that account.

The anticipated decline in sugars has not taken place, and with no prospect of change in prices. There is no material change in the lines of staple groceries; coffee remains steady, although New York quotations note a weaker market.

THE WHEAT MARKETS. The week past has been one of intense excitement in the great wheat centers. Chicago and New York, owing to discouraging reports from Europe, went wild last Saturday and Monday on 'change, and the bulls and bears had it rough.

Finally the bears overcome the bulls and the prices dropped from 1.14 to 1.03 1/2 and since the flurry advances are again reported. The great deficiency of 300,000,000 bushels which has been reported has been cut down to about 80,000,000 bushels after the surplus and reserves have been exhausted. The Canadian dominion, the Canadas, the Northwest territories and British Columbia's product for 1891 is 55,160,000 bushels and their consumption is 32,972,000 bushels, leaving a surplus for export of 22,188,000 bushels. This surplus together with the surplus of the United States does not cut any figure in the great deficiency of the world. Rye, which is the breadstuff of the most of Europe, is no longer the cheapest bread, as quotations are as high or higher than wheat. In the Chicago market it is 5 to 8 cents dearer than wheat, and corn is on 'change at 7 1/2 cents per bushel. San Francisco or Oregon quotations of wheat are not dependent on New York or Chicago's market for a criterion on prices, as their markets are in the United Kingdom, and whatever the demand or market tendency is, reflects on our own market here as that is the port for discharging our surplus grain.

There is a doubt as to the United States' great surplus this year. The Pacific coast will fall short of its estimates 10 to 15 per cent, judging from experiences in Eastern Oregon and Washington. Speculations are rife on a bountiful harvest, for instance, Sherman county was estimated to produce 1,000,000 bushels this year, which is a wild calculation; also, Wasco county was put down to 600,000 bushels early in the season, and her product will not be over 350,000 bushels. The same extravagant prediction has prevailed throughout the inland empire to a more or less degree, and when the closing up of the figures are made after harvest, the yield will fall short of estimates from 10 to 20 per cent. This may seem an extravagant opinion, but it will be nearer the truth than otherwise. In our own local market there has not been any new wheat brought in, but our buyers are making figures for 75 cents per bushel for No. 1 and 70 cents for No. 2. The most of the product will class No. 2 this season.

While there has been a slight advance in wheat, flour has maintained the same price, but an advance of 25 cents per barrel is looked for in a few days, for the reason of advances in wheat and the increased demand for flour for export to the Orient.

MISCELLANEOUS. The market is well supplied with all kinds of vegetables and fruits, watermelons sell at \$1.00 per dozen. Canteleupes are brought in in quantities and find rapid sale at 2 cents per pound. Both small and large fruits are in great abundance. Peaches sell from 30 to 50 cents per box of 20 pounds. Good apples sell at 35 to 50 cents per box of 45 lbs. Plums are quoted at 1 1/2 to 2 cents per lb. Grapes are quoted at 3 1/2 cents per lb. Cabbage sells at 2 cents per pound. The egg market is firmer than last week. Butter is scarce in supply and dearer. In smoked meats the market is firmer in tone. Lard is steady at quotations. From San Antonio. Aug. Hornung, a well known manufacturer of boots and shoes at 820 Nolan St., San Antonio, Texas, will not soon forget his experience with an attack of the cramps which he relates as follows: "I was taken with a violent cramp in the stomach, which I believe would have caused my death, had it not been for the prompt use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose did me so much good that I followed it up in twenty minutes with the second dose, and before the doctor could get to where I was, I did not need him. This remedy shall always be one of the main stays of my family." For sale by Snipes & Kinersly, druggists.

Surplus over \$6,500,000.00.

PROV. E. L. SHAW. LINDA HEIGHT, SPRINGFIELD, O., June 15, 1891.

DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 66 years, I took out a Ten-Payment Life Policy in the Equitable upon their Ten-Year Endowment Plan, for \$40,000. My premiums during the period amounted to \$7,761.00. The term of the policy expired early in January of the present year, and the Company then offered me the following terms of settlement:

FIRST—A paid up policy for \$40,000.00 and cash \$7,761.00.

SECOND—A paid up policy for \$40,000.00 and cash \$4,000.00.

THIRD—Surrender my policy, and receive in cash \$2,400.00.

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement; but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipt for the amount, \$2,400.00, to their State manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were \$2,400.00 less than my total investment renders further comment unnecessary.

During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment. In marked contrast with this has been my experience with the Northwestern, in which in 1880 I took a Ten-Year Endowment Policy, Ten-Year Term, for \$10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have the satisfaction of knowing that at maturity it will net me from \$4,000 to \$5,000 more than the face of the policy calls for.

Very truly yours, ROSS MITCHELL.
