ONE RASCAL THE LESS.

Desperado Shot by a Man He Had Wronged.

BARBOURSVILLE, W. Va., Aug. 24.—John Phelps, a wealthy farmer near here, shot and killed William Hance yesterday under remarkable circumstances. Hance was a notorious desperado, who took part in the Bromfield-Runyon feud and had the reputation of having killed five men. In some unaccountable manner he won Mrs. Phelps' affections, and on August 10 the two eloped. They went to Ironton, O., and lived there as man and wife. Finally Hance's money gave out, and then he ordered her to return to her husband and steal money that she knew he possessed. The woman refused and Hance returned to Barbourville with her yesterday. The couple marched boldly up to Phelps' house and called him out and Hance demanded money that he said belonged to Mrs. Phelps. The farmer declined and Hance made a motion to draw his revolver. Phelps was too quick for him, however, and drew a bead on him and shot Hance through the abdomen. The desperado tried to run but fell dead at a second shot from Phelps' pistol. Mrs. Phelps, who had watched the affair, drove to the home of her father, a respectable farmer and two hours later made a futile attempt to commit suicide. Hance had terrorized the community for months, and no one could be found to molest him. Phelps will not be arrested, as public opinion approves his action.

A GIRL ABDUCTED.

An Old Man Wins the Affections of a Young Girl.

HACKENSACK, N. J., Aug. 20.—Justice Cummings of this place has issued a warrant for the arrest of David H. Jaccard, a wealthy ranch owner of Hillsdale, on the charge of abducting Clara Mary Rawson, a daughter of Professor L. Rawson, of New York city. The girl is said to be a granddaughter of Laura Keen, the famous actress. Jaccard, who is 50 years of age, is said to own several ranches in the West.

He first met the girl while on a visit to Hillsdale. She is a handsome blonde. This was in November last, and the couple went away from Hillsdale and were supposed to have been married. Professor Rawson succeeded in getting his daughter away from Jaccard and took her to his home in New York.

The girl recently disappeared and Jaccard is accused of having abducted her. When Jaccard was taken before Justice Haring he gave bonds to await trial. The girl is aged 15.

THE PRESIDENTIAL PARTY.

President Harrison Received With Loud Cheers Everywhere.

WHITE HALL, N. Y., Aug. 25.—President Harrison and party left Saratoga this morning in a special train. At Fort Edward and Dresden, short stops were made and the president addressed the people at each place. At White Hall was assembled a company of union veterans who had stopped while on their way to reunion at Dresden. The president stood on the platform of the rear car and made them a speech which was received with much enthusiasm. The journey was then continued and when the state line was reached General Peck welcomed the president on behalf of Governor Page.

QUESTIONABLE SUICIDE.

He May Have Been Murdered by His Former Mistress.

SARACUSE, N. Y., Aug. 24.—Charles Buck, the son of a well-to-do farmer, died here last night from the effects of a dose of morphine. He had been living with a woman named Ella Risley who says that Buck committed suicide because of jealousy. Buck had been on a spree for a week and both he and his mistress were drunk last evening. The woman has been arrested. Her statements are contradictory and it is suspected that it was she who administered the drug. There is another woman in the case of whom Mrs. Risley is believed to have been jealous.

Has Changed Hands.

WALLA WALLA, Aug. 24.—The wheat market is steady. Buyers and sellers are gracefully meeting, and about 20,000 bushels changed hands today, the price being 74½ cents for club, with occasionally 75 for a choice lot, and 76½ for bluestem. A prominent grain dealer has estimated that 75 per cent of the wheat crop has passed from the hands of the farmers. Dusenberry & Stencil shipped from Eureka Flat alone 85,000 bushels last week. A prominent wheat buyer, who is well informed on the situation, in the course of a conversation today said he could see no reason for a decline in prices now. Buyers report the quality of wheat to be excellent.

Appointed to Fill a Vacancy.

MONTPELIER, Vt., Aug. 25.—Honorable Redfield Proctor received a letter from Governor Page, informing him he has been appointed to the vacancy in the senate caused by the resignation of Edmunds.

Weather Forecast.

SAN FRANCISCO, Aug. 25.—Forecast for Oregon and Washington, fair weather.

San Francisco Wheat Market.

SAN FRANCISCO, Aug. 25.—Wheat buyer '91, 1.76½; season, 1.82½.

TO LINK THE REPUBLICS

An Inter-Continental Railway Which will Connect South, Central America With the United States.

The Crews of two Whalers Massacred Near the Mouth of the Mackenzie River—Other News Notes.

LONDON, Aug. 25.—The Times today publishes a three-column article upon the projected inter-continental railway which when completed will link South and Central American republics with each other and with the United States. In discussing these plans the Times expresses the opinion of James G. Blaine, United States secretary of state, as "A man of grand idea, and if, as it seems quite possible, he is the next president, there will be some chance of realizing the scheme." Continuing the Times says: "It is obvious that the scheme has political as well commercial ends in view to joining the North and South American republics, even though the first outward sign, the union, will be nothing. Iron rail with the supreme center of republican government at Washington is a conception of captivating magnitude."

Whalers Massacred.

CHICAGO, Aug. 25.—A Washington special says: A catastrophe is reported by the treasury department from the arctic regions. It is said the crews of two small steam whalers wintering near the mouth of the Mackenzie about 500 miles east of Point Barrow have been massacred by the natives of that region. The steamers were the property of the Pacific Whaling Company and carried sixty men as crews. They were well armed, equipped and provisioned.

FROM ARCTIC SEAS.

Safe Return of the Government Steamer Kite.—Many Exciting Episodes.

St. JOHN, N. F., Aug. 24.—The Arctic steamer Kite has arrived with reports of interesting experiences in Greenland which include a struggle of three weeks with icebergs in Melville bay, during which period she made only one hundred miles.

Lieutenant Perry, his wife and five associates were landed in McCormick bay Muchison sound. Whale sound, his original destination was frozen over and inaccessible. While in Melville bay Perry broke his leg, but Dr. Cook decided that the occurrence need not interfere with the expedition as he would probably be as well as ever in three months' time.

On July 18th the Kite was nearly lost. She got ripped between two floes. All hands were put to work, and by digging and blasting the vessel was saved from destruction. A number of interesting trophies were secured by the explorers.

A Light Sentence.

NEW YORK, Aug. 25.—Two bodies were recovered from the ruins at Park Place this morning. They were identified as Tom H. Ellis of Ellis & McDonald, and Frederick W. Trippie, proprietor of the drug store in the ill-fated building. The Italian who was caught robbing the bodies yesterday, was sentenced to the penitentiary for six months today.

Five more bodies were disclosed but they could not be reached because of the heavy load of machinery on top of them. The police think there were fifty corpses in the cellars. That would make a total of ninety killed.

A Firebug Tracked.

SEATTLE, Wash., Aug. 24.—An attempt was made early this morning to burn the Chinese laundry of Soon Lee, on Jackson street, near Sixth, but prompt action prevented a serious blaze in a long frame row adjoining. The police, who have been working on the case all day say tonight they are on the track of the incendiary, as they have located a man who was carrying a sack saturated with coal oil shortly before the fire occurred. When last seen he was going back of the laundry. This is the third attempt to burn this row.

A Suggestion for a new Dish.

Only the silly prejudices of people have kept them from appreciating the excellent nourishment to be obtained from grasshopper soup. John the Baptist seems to have preferred them with honey, probably because he could get his honey wild out of the crevices and small caves in the rocks in the wilderness to which he resorted. Prof. Riley, with a band of teachers in 1873 thoroughly tested the qualities of these creatures during their invasion of Missouri. The report was altogether favorable. An oyster is just as objectionable as a grasshopper or a locust, but we have overcome our qualms against the eater of seaweed; why not against the eater of grain.

Crops Washed Away.

LONDON, Aug. 25.—Heavy rains in West Moreland county caused the streams to overflow, flooding the surrounding country. Standing crops were washed away and cattle drowned.

AWAITING THE PROCLAMATION.

All Classes of Indians Anxious to Locate on Indian Lands.

GUTHRIE, Oklahoma, Aug. 24.—The recent information concerning the opening of the Indian lands has caused an influx of people here that is surprising. The boomers are arriving with wagons of every description headed for the Iowa and Fox reservations. When the president's proclamation is issued throwing the lands open for settlement there will be a scramble almost equal to that which took place on the opening of Oklahoma. Every conceivable specimen of humanity has put in an appearance. The gambler and the missionary elbow each other equally anxious to be among the first when the order for the invasion is proclaimed. Some have gone so far as to build flat boats with which to cross the streams, others have houses on wheels stocked with provisions ready to move at a moment's notice. On a line which extends from the Cimmaron to the South Canadian, a distance of sixty miles or more, are camped a thousand homeless persons anxiously awaiting the president's proclamation. The southern negro, the northern white, and the red Indian mix under the United States marshal's surveillance unconcernedly, but when the order to move is given, there will undoubtedly be trouble.

THE SULTAN'S GIFT.

A Portland Lad is Honored by His Majesty.

Sis Sichel has received a letter from his cousin, Sanford Hirsch, son of Hon. Sol Hirsch, minister to Turkey, in which he mentioned a signal honor bestowed upon him by his serene highness the sultan. As his friends know: Young Hirsch is a great admirer of fine horses, and he obtained permission to be shown through the sultan's stables, which contained an array of thoroughbred animals hard to equal.

While going through the stables Mr. Hirsch admired greatly the fine collection of riding whips used by the sultan, one in particular striking his fancy. The next day an aid de camp of the sultan drove up to the American embassy in a coach of state, and presented to young Hirsch, in the name of the sultan, a superb riding whip elegantly mounted in silver inlaid in a red silk case and tied with a golden tassel.

It is scarcely necessary to say that our young Portland boy is exceedingly proud of the gift, and will take much pleasure in showing it to his weepfoot friends when he returns from the land of the harem and their odalisks.

A PLUCKY WOMAN.

She Fires at a Burglar, Who, Though Wounded, Makes His Escape.

CHICAGO, Aug. 24.—One of the leaders of the demi-monde of this city, Zoe Owens, was robbed of \$6000 worth of jewelry at an early hour this morning. She was aroused from sleep and saw a man by the bed. He had a knife and threatened to kill her unless she gave him her jewelry. She handed it from under her pillow, and he backed out of the room. She immediately jumped up, secured a revolver and fired three shots at him before he got out of the house, but he managed to escape, leaving a trail of blood on the steps. The woman thinks the burglar is a colored man, who formerly worked in her house.

A Fatal Accident.

We copy the following from the *Prineville News* of Aug. 22nd. Mr. Borstel was from this county and was well known in the Kent and Bake Oven neighborhoods.

Theodore Bostel, a sheep herder, accidentally shot himself near Sisters, this county, on the afternoon of Monday, the 17th inst., and died from the effects of the wound at 11 o'clock the same night. He had a revolver in his hip pocket, and sitting down on a log to rest, the weapon fell from the pocket and was discharged, the bullet entering the unfortunate man's hip and coming out at or near his neck. It is said that he walked about three hundred yards after being wounded but finally became exhausted and lay down, where he was found some time afterward and cared for by the camp tender, who remained with him until he died at the hour stated. Deceased was a brother-in-law of John Nectar. The county coroner went over on Wednesday to hold an inquest on the remains, and up to the time of going to press had not returned.

Not True.

Prineville News. "Diphtheria is raging at Prineville, seven of one family dying last week from the effects of the malady." Not one word of the paragraph is true. Diphtheria is not now, and never has been, raging in Prineville. There is not a case of diphtheria in Crook county today, and but two families in the county have been afflicted with the disease this summer. One of the families so afflicted lost four children; all the children in the other afflicted family are alive and well. One family of diphtheria sufferers lives forty miles from Prineville, and the other, the one that lost the children, lives three miles from Prineville. Both papers here have related the facts regarding the diphtheria. They have kept nothing back but have faithfully recorded all there was to be recorded concerning the malady and its fatality.
