An intelligent lady, now a resident of Portland, but for many years a resident of Wasco county, called at this office today to urge that steps be taken to have a suitable fruit and vegetable exhibit at the coming Portland exhibition. She said, "I have lived in a great many places in the United States, but I never lived in any place where fruit and vegetables could be raised equal to those of Wasco county, They may raise them larger in some other places but the flavor of the Wasco county products excells them all."

Marshal Gibons played a neat trick on the Indian woman Caroline yesterday. Caroline got well filled up, as usual, with the white man's fire water, and in this condition came to the marshal's office to enquire after one of her squaw chums. The marshal told her the chum was locked up in a cell where Caroline would find her, if she wanted to step into the hallway through the open door and just as Caroline stepped inside, the marshal closed the door, and left her to swear and sober off.

For, whatever men may say in their blindness, And in spite of the fancies of youth, There is nothing so kingly as kindness And nothing so royal as truth."

-Alice Cary. Before the regular program was taken up yesterday morning, Professor and Mrs. Wetzell charmed the teachers by rendering a vocal duet, after which they led in the general chorus, followed by repitition of the Lord's Prayer by all the teachers.

The first in the regular program was arithmetic by Prof. Ackerman, who dwelt especially on the subjects of decimals and percentage, as applied mentally and in written work. Following this exercise came reading by Prof. Wetzell. The professor brought out some good ideas in the pronunciation of words. He says that the meaning of our most and others interested in educational expressive words is indicated by their matters, happily blended with wit and Mr. Henry Hudson, who came in is where Prof. Wetzell has found his of Mrs. Wetzell the people of The Dalles from Dufur today says that yesterday, at forte, for, at the close of the exercise he were furnished with a treat which they

THE WAY TO SELL A HORSE.

The Granger Got a Big Price and Didn't Have to Divvy on it Either. Postmaster Sexton tells a story of a well-known horse fancier and a granger who had a couple of fine horses to sell. This rustic, who lives in an adjoining

county in Indiana, came to town with a letter of introduction to this connoiseur, who has an irresistible liking for fine horseflesh and the money to gratify it. The writer of the letter of introduction specially urged the city friend to take more than passing interest in the man from the country.

The farmer drove his horse to the gentleman's residence and gave him the

"Are your horses blooded?"
"Yes, they come of fair stock."
"Can they make a good time?"
"Yes, a pretty fair time."
"What do you ask for them?"

"Oh, I think that \$300 or \$400 will about suit me, because I am deucedly

hard up just now."
"My friend," said the city man, "I've just bought a pair of horses or I would take those off your hands, but let me say to you that you don't know how to sell your team. You ought to ask at least \$1500 as a beginner, blow about their wonderful speed and brag about their bearing and pedigree. I know a man who wants to buy a team but you must not approach him as you did me. He will never take your horses. If you are stiff in your price and do some bragging I think I can find you a customer. Drive past my office on La Salle street at 10 stiff in your price and do some bragging I think I can find you a customer. Drive past my office on La Salle street at 10 o'clock in the morning two or three times and come in when I shake my handkerchief."

the owner, W. L. Ward, Boyd, Wasco county, Oregon.

In the morning the granger did as he was directed, the handkerchief was shaken and he was beckoned to come in. In the office was the man he had seen the night before and his friend.

"That's a fine team you are driving; is it for sale?"

"Well, I dunno!"
"Have they a pedigree?"
"You bet they have. It's as long as the pedigree of Queen Victoria."
"Do they hold their heads high?"
"Why, half the time they are way up in the clouds."
"Can they make good time?"

"Can they make good time?"
"Greased lightning ain't a circum

"What do you ask for them?" "Fifteen hundred dollars and not

"Well," said the friend of the man to whom the letter of introduction was presented the night before. "I'm look-ing for such a team. The price suits me. Come to my office across the way, and I'll give you the check and take the horses." The farmer was almost paralyzed, because he thought that \$600 or \$700 would be the outside figure. And he went home to Lake county satisfied that "those fellows up in Chicago are smarter'n lightning."—Albany Argus.

## A Fine Entertainment.

The entertainment last night at the Congregational church was, taking it altogether, the best of the week. At other times more instructions may have been imparted, as in the excellent lecture of Dr. W. E. Rinehart, but last night profit and pleasure were admirably blended. The speech of Col. Nevious was worthy of himself, containing as it did much solid advice to teachers pronunciation. The instructor fortified humor that thoroughly prevented it himself with numerous examples. Here from becoming tedious. In the singing three o'clock, the thermometer stood at was encored by the teachers.

Drag Sir.—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with ms, I would state that in the early part of 1881, my age being 56 years, I took out a Ten-Payment Life Polley in the Equitable upon their Ten-Year Toutine Plan, for \$40,000. My premizams during the period amounted to \$37,512.00. The Toutine period expired early in January of the present year, and the Company them offered me the following terms of settlement;

FIRST—A paid up policy for \$40,000. My premizams during the period amounted to \$37,512.00. The Toutine period expired early in January of the present year, and the Company them offered me the following terms of settlement;

FIRST—A paid up policy for \$40,000. My premizams during the period amounted to \$37,512.00. The Toutine period expired early in January of the present year, and the Company them offered me the following terms of settlement.

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to sens policy and receipt for the amount, \$35,495.80, to their State manager in Cleveland, and he would remit me the amsunt. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand
