RIOTS IN RUSSIA.

The Peasantry Manifest Their Opposition to the Export of Rye.

St. Petersburg, Aug. 28.—Details of the rioting at Vitebruk, capitol of the government of that name, occasioned by the people protesting against the exportation of rye, show a disturbance of a serious nature. The governor reports there is evidence that a general revolt of the peasantry was planned. Peasants attacked the railroad officials, claiming that no more rye should leave Vitebruk, and severely beat a Jewish grain dealer who was blamed for the whole trouble.

The peasantry also plundered the residences of the grain dealers and finally combined in an attack upon the railroad station. The railroad officials sent for the assistance of the militia, and the latter tried to dislodge the rioters from their position in and about the station. The rioters resisted stubbornly and their supporters outside the station made a fierce attack upon the soldiers.

Finally the officer in command of the troops, after repeatedly threatening the crowds, gave the order to fire upon the rioters. The soldiers then fired a volley, killing three peasants and wounding a number of others. The rioters soon dispersed.

Other and somewhat similar disturbances are reported from Dunalberg, Vint, and other places, but no details have yet been made public.

NO FREE PRESS. American Journalists Summarily Suppressed in Mexico.

New York, Aug. 28.—M. T. Magee & Co., of 70 Wall street, were informed yesterday that President Diaz, of Mexico, had ordered a young American writer on the Two Republics to leave the country because he had criticized some act of the president. Efforts were also in progress to learn the identity of another American journalist who recently sent from the Mexican capital an article exposing the methods of the administration.

LIVE CATTLE FOR CANADA. Permission to Be Granted for Import With Certain Stipulations.

Ottawa, Ontario, Aug. 28.—On the final passage of the livestock bill through the senate, Abbott, the premier, referred to the proposed permission to capitalists to import United States live cattle in bond for slaughter in Canada, and assured the senate that the utmost precautions would need to be adopted. If it was found that the admission of United States cattle into Canada endangered the Canadian cattle trade with Great Britain the Canadian government would cancel the privilege at once.

FAST TRAVELING. Greatest Speed Ever Attained on Any Railroad Line.

Philadelphia, Aug. 28.—A mile in thirty-nine and four-fifths seconds, or at the rate of ninety miles per hour, is the fastest run ever made by a railroad train. This unparalleled feat was accomplished today on the Bound Brook road between Neeshaminn Falls and Longhorn by engine No. 206, drawing two ordinary coaches and President McLeon's private car. The fastest ten miles was made at an average of forty-three seconds per mile.

HARDENED WRETCH. Paris, Aug. 28.—A youth named Baillet, who was convicted of committing several murders, was beheaded at Douai, near Lille, in the department of Dunord, this morning. The execution of this young criminal is remarkable, from the fact that he exhibited the calmest demeanor, and seemed to have a most utter disregard for death.

HAPPY GRANGERS. Williams Grove, Pa., Aug. 28.—Yesterday was the banner day of the week at the Patrons of Husbandry assembly. It is estimated that the crowd numbered fully 70,000 persons.

Half a County Burned Out. Faulkton, S. D., Aug. 29.—The northwestern part of Faulk county was burned out last night by a fire twenty miles wide and extending from Faulkton fifty miles northwest. Farmers are ruined for a space of twenty miles, no grass being left for stock. The damage cannot be estimated.

A Loss to the Order. Keokuk, Ia., Aug. 29.—Erie J. Leach, past grand sire of the independent order of Odd Fellows died at his house in this city this morning.

BIG RAILROAD DEAL.

The Vanderbilts Gain Control of the Union Pacific System—Now They Can Dictate to Other Lines.

Three Young Girls Betrayed and Left Destitute—Balmaceda Oyerthrown—Big Fire in Dakota

Chicago, Aug. 29.—The morning papers say: It is generally understood that Jay Gould has virtually relinquished his control of the Union Pacific railway and that the stocks and bonds of the company have been placed in the hands of the banking firm of Drexel, Morgan & Co. The general opinion is that Drexel, Morgan & Co., have acquired control of the Union Pacific in the interest of the Vanderbilts. They are financial agents for Vanderbilts and are also in control of the Chicago, Milwaukee & St. Paul. This indicates a close alliance between the Union Pacific and Northwestern and St. Paul roads is completed. The Vanderbilts have long been anxious to secure a foothold west of the Missouri river and gain an independent outlet for their system of roads to the Pacific coast. It is not likely they will be content with the Union Pacific alone, but they mean to acquire other important railway systems west of the Rocky mountains.

If the Vanderbilts succeed in getting the Rio Grande, it is believed their next move will be to secure control of the Southern Pacific, and there are no serious obstacles in the way of their getting it. With this road in their control the Vanderbilts will be able to dictate terms to all other lines so far as through tariff between the Atlantic and Pacific is concerned. Gould probably is interested in this scheme and has an understanding with Vanderbilts, and Drexel, Morgan & Co., whereby his railroad interests in the west will receive ample protection.

AN AWFUL SIGHT. Three Women and Six Children Found in a Destitute Condition.

Montreal, Aug. 29.—A terrible case was brought to light at a late hour last night. Dr. O'Conor was called into a house kept Mrs Galloway to attend a dying baby. He found three women in a destitute condition and on the bed were six infants, one of them dead while four others were dying. The unfortunate women told a harrowing tale of how they all were employed as servants who had been betrayed and went to the house where they were found for refuge. The woman of the house, who was supposed to look after them, skipped out and the inmates were left in a destitute condition. All were at starvation point. The infants except one, will die.

BALMACEDA'S DEFEAT. Unexpected Turn of Affairs at the Seat of War.

Washington, Aug. 29.—The unexpected turn of affairs in Chili is a subject of paramount interest at the state and naval departments today. No details of the capture of Valparaiso are yet received. It is not believed that Balmaceda has been completely defeated. As long as Balmaceda remains in possession of Santiago, the capital of Chili, and until the congressional party shall have set up a defacto government, the department of state must continue to recognize Balmaceda as president and Senator Los Cano as minister of Chili.

Did not Damage the Crops. Minneapolis, Aug. 29.—Reports from fifty-eight points in Dakota and Minnesota indicate in some places no damage, while in other places the damage done will not run over 10 per cent. from the recent frost. All reports speak most enthusiastically about the yield, no estimate being below eighteen and some run as high as thirty-five bushels to the acre, the average about twenty-five.

Nothing Definite Known. Washington, Aug. 29.—Up to noon today, nothing regarding yesterday's battle at Valparaiso was received at headquarters of the congressional party in this city. Envoys hardly expect any details of the fight by telegram today. The insurgent leaders, it is thought, will immediately remove their head quarters from Iquique to Valparaiso.

An Official Announcement. Paris, Aug. 29.—An official estimate of the damage by the recent cyclone on the Island of Martinique places the amount at \$10,000,000. It is estimated that 378 people lost their lives.

Portland Wheat Market. Portland, Aug. 29.—Wheat, Valley, 152 1/2 @ 155; Walla Walla, 147 1/2 @ 150.

San Francisco Wheat Market. San Francisco, Aug. 29.—Wheat buyer 91, 172.

Chicago Wheat Market. Chicago, Aug. 28.—Close, wheat easy. Cash 58 @ 59; September 57 1/2; December 59 1/2.

UNITED IN DEATH.

Lived Happily, and in Death They Were Not Divided.

Grayling, Mich., Aug. 28.—James Burns has been living on a farm near Red Oak for four years. He was 45 years old, apparently of considerable means and culture, and lived quietly with a handsome girl 28 years old, whom he said was his daughter Alice. Burns had not been seen for several days, but the neighbors paid no attention to the matter, as he was reserved and seemed to care only for his daughter. Yesterday Herman Grosby went to the house, but could not get in. He found a famishing horse in the barn and then broke in the rear door of the house. A horrible stench nearly drove him back, but on going into a back room, he discovered Burns' body on a bed with the girl's body lying across it. A tight cord around the girl's neck showed that she had died of strangulation. There were no signs of a struggle, and everything in the house was in order. The supposition is that Burns died a natural death or committed suicide by poison, and that the girl, on discovering his death, strangled herself. Papers in the house showed that the girl was not Burns' daughter.

CRUISE OF THE MERMAID. Captain Andrews Found it Much Rougher Than Was Agreed.

Antwerp, Aug. 28.—Captain Andrews, of the dory Mermaid, says he had good weather until thirty-five days out from Boston, when a terrible storm came up. August 16 a huge wave filled the Mermaid with seven inches of water. Next a tremendous wave capsized the boat and Andrews thought he was lost. He was in the cabin, but managed to open the hatch and, climbing upon the keel-tightened boat prayed to God, for the sake of his family, to give him another chance; he would stop this business. He then closed himself in the cabin again and passed two days and nights in the same way. The wind all this time blew with such force that when he opened the hatch the little wind he required caused a sound like a big whistle. His lamp oil was exhausted, and he being to exhausted to keep watch, he lay on the bottom of the boat for four days until picked up by the steamer Exbruz. Andrews declares that he will never attempt such a voyage again.

THE LABORING CAUSE. The Striking Stevedores at San Francisco Meet With but Slight Success.

San Francisco, Aug. 27.—The arbitration committee of the water front federation called upon Goodall, Perkins & Co., this morning to arrange for a settlement of the difficulty with the striking stevedores. According to the members of the committee, the firm refused to concede the advance in wages asked, but agreed to take the strikers back at the old rates of 30 cents per hour and 40 cents overtime. This is said to have been acceded to by Mr. Center, of the Pacific Mail company also. The Stevedores' union will meet to consider the proposition. The employers, however, assert that they have not agreed to discharge the non-union men whom they have employed on the dock, and will give the strikers employment only as there may be opening for them.

A FRATRICIDE. A Delaware Man Kills His Brother With a Shovel.

Georgetown, Del., Aug. 28.—George and William Walker, two brothers residing at Reynold's mill, a few miles from here, became involved in a quarrel over some horse feed, when George Walker picked up a shovel which was near by and struck his brother a terrible blow over the head, which felled him to the ground. His skull was fractured and he died this morning. The assailant is still at large, and the Milton authorities say they will not touch the case until the family bring a charge against the assailant, which they are slow to do.

An Authority. The Encyclopedia Britannica says: The manipulation of poor teas, to give them a finer appearance, is not only carried on where the teas are grown, but also in England and America.

Glazing poor tea with Prussian blue, plumbago, or black lead, to give it a smooth, glossy appearance, is so very common that little genuine uncolored tea is offered for sale. Beech's Tea is guaranteed "pure as childhood." For sale by Leslie Butler, The Dalles.

Switchmen are Victorious. Lima, O., Aug. 27.—The Lake Erie & Western trainmen this morning resumed work. At Tuesday night's conference the company conceded the demand of the strikers, but asked till September 1 to put the new arrangements in force. Should the overtime demanded by the men then not be forthcoming, there will be another strike.

Senator Peffer's latest demand for money is that it "ought to be issued just like postage stamps to any one who might call for it." Bless his whiskers, he can get all the money he wants in just that way now, but he must pay for it just as he pays for his postage stamps. He can't get postage stamps or money for nothing. Money isn't air or water. It represents something—has intrinsic value.—Washington Independent.
