LOCAL BREVITIES.

H. M. Pitman of Dufur, honored the Chronicle office with a visit today.

Mr. J. W. Cox of Kingsley was in the city yesterday and left for his home this morning.

Tom Foley, for a long time employed at the company's shops in this city, has gone to Albina.

It is estimated that the wheat crop of Morrow county for the season will be double the value of the wool crop.

General reports from the beef markets are encouraging for cattle growers. They well deserve an advance in prices.

Mr. H. F. Dietzel who has been sojourning for the past six months in Portland came up today on a short visit to his relatives.

Major Ingalls received today from Sheriff Leslie of Sherman county a beautiful specimen of petrified wood for "Oregon on wheels."

Married, today at Hood River, Mr. Laurence N. Blowers to Miss Bertha E. Milfin. The Chronicle wishes the young couple many happy days.

A private communication from Stock Inspector Rice informs us that he expects to be in The Dalles sometime between the first and tenth of September.

The Baker City papers are protesting against the indecencies of the demi monde of that city and demand that the city officers do their duty in suppressing them.

Frank Wilkinson, of Eugene, a lad of fifteen, had the three fingers of his right hand mashed the other day in the cogs of a cider mill. They had to be amputated near the knuckle.

The Chronicle is indebted to Professors Snyder and Gilbert, of Hood River, for valuable services rendered during the meeting of the teacher's institute.

From Mr. George Rice of Boyd, we learn that his grain crop just threshed, yielded 50 bushels per acre of oats, 48 of barley and 20 of wheat. The ground on which the grain was grown was summer fallow.

We regret to learn that the Hon. E. O. McCoy of Grant, lost his infant child, of about seven months old, this morning. The cause of its death was cholera infantum. Dr. Logan was called in but the child died before his arrival.

Yesterday, the waiters of the Umatilla house went on a strike for an advance of wages. The colonel could not see it in the light and the strikers were fired. Men were easily procured to fill their place, and in a day or two everything will be going along as before.

A private communication to a gentleman in this city gives the information that George Gant, well known around here and Prineville and also in Corvallis, as an importer of Clydesdale horses was instantly killed by lightning at Pratt, Kansas, on Tuesday the 18th inst.

We are very reliably informed that in about thirty days Eastern Oregon and Washington will experience about such another wheat blockade as the Palouse section had last year. The Gazette hopes, however, that this will prove to be nothing but idle rumor.—Heppner Gazette.

Mr. Truman Butler, the new pursuer of the Regulator, returned from a ten day's trip to Portland where he had

THE CLOSING ENTERTAINMENT.

Some Brilliant Speaking and Singing by Members of the Institute.

The Congregational church was crowded again last evening to witness the closing exercises of the Normal Institute. The opening was a vocal quartette "Merrily, Merrily goes the Bark," by the Glee club, well rendered as were all their exercises during the week.

Following came a very excellent paper by Aaron Frasier entitled "The Two Great Lessons." The two great lessons finally learned from the great Teacher are Life and Immortality.

The next was a vocal duet by Mr. Ernst and Mr. W. S. Graham which was very good.

Following this was a paper by M. W. Smith entitled "The Sanitary condition of our school-rooms," which contained some telling hits with reference to foul air breathed by the pupils of our public schools, and the faulty construction of school-houses.

A duet followed by Miss Rowland and Mr. Mason, mandolin and guitar. This received a hearty encore.

Next came the report of the committee on resolutions, in substance as follows: A vote of thanks was given, to those who entertained the teachers, to the trustees and pastor of the Congregational church, to the musicians of The Dalles, and Mrs. Wetzel, to W. H. Wilson, Dr. W. E. Rinehart and Col. E. W. Nevius for lectures given, to Mrs. Sampson, Miss Meyer, and Mr. Ernst committee on music and program, to Misses Tena Rentoul, Melissa Hill, and Louisa Rentoul and Rev. E. P. Roberts, committee on entertainment, to The Dalles, and to Supt. Shelly for efficient management of the institute. A resolution of sympathy was also offered to the family of the late Etta McKay, one of Wasco county's teachers who was recently removed by death.

"Farewell to the mountains" by the Alki club was next rendered by a class of young ladies.

Next followed a few earnest words of counsel from Superintendent Shelly in which he emphasized the necessity of educating the entire nature of the pupil—moral, physical and mental. Mrs. Wetzel followed with a musical selection which was rendered in her own charming style and was warmly encored. The program was wound up by recitation and tableau by Miss Jennie Long of Portland. She was warmly encored and called out a second time. Miss Long is undoubtedly an elocutionist of marked ability and her selections were ably rendered. She is a lady of fine presence and has excellent control of voice and gesture and if her selections had been better adapted to the audience and to the occasion her success, we have no doubt, would have been more marked.

This ended the last meeting, in connection with an institute that all agree in characterizing as having been profitable, interesting and successful.

The Tin Plate Tariff.

A London dispatch to the San Francisco, Chronicle states that commercial circles are agitated by the announcement that the large firm of Leyson & Sons have abandoned their old-time location at Tipton and Triviale, and are about to erect tin works in the United States.

The construction of the American plant is said to have already been begun under the personal supervision of Mr. Leyson, Sr., who has succeeded in obtaining American rights in valuable patents for tinning sheets. This is regarded by many as the beginning of a general movement of tin plate and allied industries from Great Britain to America, a result of the new American tariff on tin plate.

One Cent Per Bushel.

Wheat is carried from Chicago to Buffalo, New York, 800 miles by water, or 500 miles by an air line, for one cent per bushel, less than thirty-five cents per ton. Prof. E. L. Shuey, Dayton, Ohio.

DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 56 years, I took out a Ten-Payment Life Policy in the Equitable upon their Ten-Year Tontine Plan, for \$40,000. My premiums during the period amounted to \$37,512.00. The Tontine period expired early in January of the present year, and the Company then offered me the following terms of settlement:

FIRST—A paid up policy for \$40,000 00 And cash 9,751 50 SECOND—A paid up policy for 54,600 00 THIRD—Surrender my policy, and receive in cash 36,496 80

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipts for the amount, \$36,496.80, to their State manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were \$1,915.20 less than my total investment renders further comment unnecessary.

During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment.

In marked contrast with this has been my experience with the Northwestern, in which in 1882, I took a Ten-Year Endowment Policy, Ten-Year Tontine, for \$10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have the satisfaction of knowing that at maturity it will net me from \$4,000 to \$5,000 more than the face of the policy calls for. Very truly yours, ROSS MITCHELL
