Collections made at all points on favorable terms.

A ROMANTIC WEDDING.
Successful Termination of a Courtship Commenced by Letter.

WILMINGTON, Del., Aug. 31.—The story of one of the most romantic marriages that has ever occurred in this city leaked out this evening. Mrs. Lena Bennett, of Hillsdale, Mich., aged fifty, and twice a widow, about two weeks ago inserted an advertisement in a western paper for a suitor.

A paper containing the notice reached Charles C. Cleworth, a machinist of this city, and he immediately answered it. A reply soon came to him requesting a photograph of himself. This was sent, and while he was at work, Mrs. Bennett reached this city and went to the mill where Cleworth was employed. He was called from his lathe, and walking outside, he was face to face with the woman whose photograph he had received. They greeted each other, and Mrs. Bennett asked Cleworth to accompany her to the nearest preacher to have the nuptial knot tied. This was postponed until yesterday, however, when the couple went to Camden and were married. Mrs. Cleworth is a beautiful woman and says she has \$1,000,000 in her own name. The bride and groom left for their western home this evening.

GRAIN OF THE WORLD.
Important Opinion as to Surplus and Deficit of Grain.

VIENNA, Aug. 31.—The Hungarian government has issued an estimate of the world's grain harvest, based upon consular reports from all parts of the world. The yield of wheat is estimated at from 725,000,000 to 736,000,000 hectoliters, and rye from 350,000,000 to 360,000,000 hectoliters, being from 44,000,000 to 50,000,000 hectoliters below the average for wheat, and from 90,000,000 to 100,000,000 hectoliters below the average for rye.

Austria requires to import from 10,000,000 to 12,000,000 hectoliters of wheat and 6,000,000 hectoliters of rye, and France 30,000,000 hectoliters of wheat. Hungary has a surplus of 12,000,000 to 13,000,000 hectoliters of wheat, but of rye there is a large deficiency. In Russia the wheat surplus amounts to 16,000,000 hectoliters, and of rye there is a deficit of from 40,000,000 to 45,000,000 hectoliters.

RICH AND POOR.
Acquired and Spent Two Fortunes and now Inherits a Third.

New York, Aug. 31.—Constantine Ashagen, a young man who has been a millionaire twice, and is now clerking for \$10 per week, is in luck again. A number of years ago he inherited \$1,000,000 upon the death of his father, a wealthy manufacturer of Athens, and proceeded to cut a large swath. By the time he was 25 years of age he was penniless. Shortly after, his mother died, leaving him another million. By diligent application, he managed to squander this in eight years, when he came to this country, landing at San Francisco, and beating his way to New York, where he has since resided. Now an uncle in Alexandria has died and left him a third fortune. Constantine says he will take care of this one.

A Family Shave.
Buffalo Express.

A Maine family consists of six brothers so exactly alike that no one but their closest friends can tell which is which. One day they happened to be in a barber's shop and all wanted a shave. "See here!" he cried, "if you're trying to sell me some patent hair-raiser I'll take your whole stock. But if you are an escaped museum freak either you're got to get out or I'll have to close this shop." The fifth and sixth brothers had to pay for their shaves.

The Inquest Commenced.
NEW YORK, Sept. 1.—The inquest into the cause of the death of those who perished in the Park Place disaster commenced today. The testimony of witnesses so far examined, confirm the theory that there was no explosion, that the building collapsed from the great weight of the presses and other machinery on the various floors.

A Collision on Water.
DETROIT, Sept. 1.—The steam barge Jenks, laden with stone, was run into and sunk last night by another barge owned by Hawgood & Avery, of Port Huron, Mich. The wife of Captain Jenks and the engineer and fireman were killed in the collision.

Weather Forecast.
SAN FRANCISCO, Sept. 1.—Forecast for Oregon and Washington, fair weather.

A CALENDAR OF CRIME.

An East Bound Train Held Up Near Canon City, Col., By Seven Masked Men.

They Compelled the Messenger to Open the Safe and Helped Themselves to Its Contents.

Judge Lynch Plays a Prominent Part in the Capture of a Missouri Bank Robber.

CANON CITY, Colo., Sept. 1.—Seven men held up the east-bound train last night near Cotopaxi. The fireman was relieved of a fine gold watch and then forced to pick the lock and break in the door of the baggage car under the fire from the express messenger. Express Messenger Angel, made a determined resistance and used his revolver to good advantage, but whether any one was killed is not definitely known. The fight was a fierce one though it lasted only a few moments. The masked men then, under threat of killing him, compelled the messenger to open the safe from which the robbers took \$3000. Horses were in readiness, and as soon as the robbery was accomplished, the desperadoes fled to Wet Mountain valley. They did not disturb the passengers. A posse was summoned and are now in pursuit.

Judge Lynch took a Hand.

KANSAS CITY, Sept. 1.—One of the desperadoes who robbed the Corder, Mo., bank yesterday afternoon was captured late last night, and while being taken to Lexington a mob of enraged citizens took the prisoner from the officers and lynched him. The robber gave his name as Andrew Murrell. About half the stolen money was found in his possession. The other robber is being closely pursued.

SHOT IN THE BACK.

A Discharged Employee Tries to Murder His Former Employer.

St. Louis, Sept. 1.—While George C. Anderson, superintendent of the Madison, Ill., car works, was walking along the approach to the Merchants' Bridge this morning, on his way to Madison, Warren Colbott, an ex-employee of the car works, shot and painfully wounded him in the back. The would-be murderer then put a bullet in his own head, expiring soon afterwards. Colbott was discharged a short time ago and that is supposed to be the cause of the attempted murder.

THE WORK OF THE STILETTO.

Three Women Badly Wounded by Murderous Italians.

HAZLETON, Pa., Aug. 31.—Several Italians got into a fight in a notorious den run by William a Geist, on Walnut street, shortly after 6 o'clock last evening, and as a result one American woman is dying, and two others are suffering from dangerous wounds. The entire reserve force of police, directed by Lieutenant Ferry, have raided a dozen Italian houses and are now searching the surrounding country for the criminals. Two men are under arrest and the police know who the rest are. The Geist den has been a source of terror to the neighborhood for years, and was frequented by desperate Hungarians and Italians. Several of the latter were in the place and got into a dispute with a woman named Craig. It is not known how the quarrel started, but the girl was cut with a knife. The men made a break for the door. On the way they met Jamie Baker; as the Italians dashed by he one of them gashed her right ear half with a razor, and with a second stroke nearly severed her left wrist. At the outer door the men met Mrs. Geist, she was knocked down and her left side was cut open from the collar bone to the over rib. A surgeon was sent for and at midnight the woman was in a critical condition. The others will recover.

Minister Egan Not Heard From.

WASHINGTON, Sept. 1.—Not a word of news has been received regarding the state of affairs in Chili at the state department from Minister Egan. Officials of the department are at a loss to explain this reticence on the part of the minister except upon the theory that telegraphic communication between Valparaiso, the cable terminus, and Santiago the capitol, where Minister Egan resides, is not yet fully restored.

Bad Business Did It.

NEW YORK, Sept. 1.—An Atlantic City special says: A failure is announced of three of the largest hotels here, the United States, Congress Hall, and the Cambridge. Very few particulars can be obtained but a backward season is supposed to be the cause of the failures.

Chicago Wheat Market.
CHICAGO, Sept. 1.—Close, wheat firm, cash 99¢; September 9; December 101¼¢.

San Francisco Wheat Market.
SAN FRANCISCO, Sept. 1.—Wheat buyer 91, 173¼, season 82¼.

THEY DON'T LIKE THE LAW.

The Prohibition Movement Obnoxious to German Citizens.

BERLIN, Aug. 31.—The liquor dealers of the capital are combining in opposition to the proposed law restricting the sale of liquor, and especially the clause requiring them to sell food when they sell liquor. This would compel all of them to go into the restaurant business, which is already overdone in Berlin, as the Germans here refuse to eat at home. The clauses as to age and selling to drunkards are also considered obnoxious on the ground that the dealer cannot readily tell the age of a customer, or whether he is a drunkard or not. The whole measure is considered in the line of teetotalism, and as imposing restrictions obnoxious to the German ideas of personal liberty. The advocates of the bill claim that drunkenness is increasing in Berlin; that increasing increases of indulgence in intoxicants have been observed, and that some restrictive action is necessary to abate and restrain the evil.

TWO LARGE FIRES.

Hotel in Rhode Island and Oil Works in Cleveland.

NARRAGANSETT PIER, R. I., Aug. 31.—At 2 o'clock this morning the night watchman in the Rockingham house discovered that the hotel was on fire. The 150 guests in the house were all gotten out safely. Eleven of them will lose heavily, as trunks thrown from the windows split on the walks, and a hard rain falling wet the contents. The fire began from an open furnace, and spread to the roof by the elevator. The local fire company did good work and saved the building with a loss of \$20,000 only, which was fully covered by insurance. The guests must have lost as much more. A light wind prevailed and the escape of the Casino, the Gladstone and Clark's hall is miraculous.

Destructive Fire.

CLEVELAND, Aug. 31.—An alarm of fire has just called a large number of engines and fireboats to the refineries of the standard Oil works. The extent of the fire cannot be learned at present, though it is reported there has been an explosion and burning oil is running into the river.

FALLEN FROM GRACE.

A Preacher Becomes Addicted to Morphine and Turns Criminal.

MEMPHIS, Tenn., Aug. 31.—The Rev. S. C. Stone, and ex-preacher, who has had charges in a half-dozen places in Tennessee, Mississippi and Arkansas, and who was at one time presiding elder in the Greenville district of Mississippi, has been arrested on a charge of arson. Mr. Stone came to Memphis six months ago and started a storage warehouse which was destroyed by fire a month ago. He again started in business on Jefferson street and a fire was discovered in this place last night, which the department suppressed with trifling damage. Stone was seen leaving the storage house a few minutes before his place of business was destroyed. This aroused suspicion which led to his arrest. He makes no denial of the charge and says he is a victim of the morphine habit and started both fires while under its influence. Martin Anthony, a negro employed by Stone, was also arrested. He says Stone has asked him several times to fire the place but he refused.

"No Gold, No Silver."

Last week there appeared in the pages of our contemporary the Sun a column article describing a rich gold discovery on Salmon river, ten or fifteen miles south-west of Mount Hood. The Chronicle was aware of the alleged discovery from the first but refused to write it up till there was assurance that it was a real find. It is said that fully 80 to 100 persons from Eight Mile and Dufur left everything and rushed to Salmon river only to find, as they assuredly did, that if there is any gold in that section it has yet to be discovered. A gentleman in this city, who did not visit the alleged mines procured some of the rock and sent it to assayer J. H. Fish of Portland and we are permitted to copy the result which reads as follows:

"No Gold, No Silver, This sample possesses no value. Respectfully,
J. H. Fisk."

British ship owners receive \$150,000,000 a year from the people of the United States for doing 65 per cent. of their foreign carrying trade, and \$50,000,000 more are paid to the ship owners of other nations for similar service. This \$200,000,000 is a large factor in the balance of trade between England and this nation. If only one-half of this could be kept at home what an addition it would be to the wealth and business of this country. The United States needs more ships, and every effort should be bent to the work of reclaiming the vast commerce from the hands of foreigners. —Spokane Review.

Mrs. Lease says that all men who want to join her party will be received with open arms. She failed to state whether they would be received in her open arms or Mr. Lease's. Let the lady make this point clear, as a great deal depends upon it. —East Oregonian

Portland Wheat Market.
PORTLAND, Sept. 1.—Wheat, Valley 155; Walla Walla 147¼.
