The Chronicle is the Only Paper in The Dalles that Receives the Associated Press Dispatches.

THE SOUNDNESS OF AMERICAN PROGRESS.

The United States is today almost the only great country in the world whose future is brighter than its past, says the Manufacturers' Record. Great Britain has, in many respects, reached the limit of its greatness. It can no longer be the manufacturing center of the world, for we have taken the foremost position in that line. Its vast iron and steel business is yearly increasing in cost of production, while ours is decreasing. It cannot meet the world's ever-growing demand for iron and steel, because it cannot increase its production to any great extent in competition with this country. It produced no more pig-iron in 1890, notwithstanding the high prices prevailing, than in 1882, while we more than doubled our output. Much of its ore it imports from far distant regions. Its cotton is all imported. It spends about \$75,000,000 a year for foreign food-stuffs. On the continent every nation is burdened with debt, and none can ever hope to pay off its obligations. Measured by their natural resources and their possibilities, they are bankrupt. In all of them the cost of production and of living is steadily increasing. In the United States we have scarcely laid the foundation of our future greatness. In natural resources we are richer than all of Europe combined; we are paying our debts faster than they are due; we have barely scratched the ground in the development of our mineral wealth; we were rich enough to stand a decrease last year of 900,000,000 bushels of grain as compared with 1889, on account of bad weather; we are rich enough in addition to this to send \$70,000,000 in gold to Europe within a few months without creating any financial trouble, and that, too, after Europe had unloaded on us millions of dollars of our stocks, because our securities were the only ones, in the world that found a cash market when the Baring and others were trying to save themselves. In ten years, from 1880 to 1890, we have added \$200,000,000 to our capital invested in manufactures, an increase of nearly 75 per cent. In the same time the value of our manufactured products has risen from \$5,300,000,000 to \$8,600,000,000, a gain of \$3,300,000,000; or, in other words, we are now producing manufactured goods at a rate of \$3,300,000,000 a year more than we were ten years ago. The increase in capital invested in manufactures in ten years, from 1880 to 1890 was greater than the entire amount of capital invested in 1870, or only twenty years ago. In these ten years the growth of our manufacturing interests was greater than the growth from the settlement of America up to 1870. In these ten years we have built 75,000 miles of railroad, almost as much as our total mileage in 1880.

GENERAL PERSONAL MENTION.

Colonel Inman's history of the old Santa Fe trail is to be published in 1892, and is to be a graphic tale of the pioneer times in the great desert. Maurice Bernardt, the athletic son of the "divine" Sarah, and his bride are in New York. They will spend their honeymoon in this country. Chief Justice Lucas, of the Virginia supreme court, is but four feet high, but he is so dignified that no factious lawyer has ever dared to dub him a dwarf. The wife of Lieutenant H. D. Borup, of the United States legion, in Paris, is one of the very few ladies who can claim to have made the ascent of Mount Blanc. Terence V. Powderly, general master workmen of the Knights of Labor, has accepted the republican nomination as delegate to the Pennsylvania constitutional convention. General Joe Shelby is a thoroughly reconstructed ex-Confederate. No soldier fought more bravely than he; he knows he was wrong and does not believe in keeping up the memories of the war. General Miles has put himself to unnecessary trouble in denying that he was cruel to Jefferson Davis, when he had that gentleman shut up in Fort Monroe. The general is not built on the petty tyrant plan. A Chinese comprador named Chin Gong has been appointed United States deputy marshal for Amoy. The marshal

is Dr. Edward Bedloe, said to be a descendant of the family after whom Bedloe's island was named in New York harbor. The Edison of France is named Ader. He thinks he has solved the problem of aerial navigation. At the arsenal in Zurich is shown the bow with which William Tell shot the apple from his son's head, though some writers who assume to give the facts aver that there is no historical ground for a belief in the existence of such a person as Tell.

About Tobacco Smoking. Texas Siftings. Berlubbed Brederen and Sistern—I want make a few remarks dis ebering on de growin' ebil ob de terbaiker habit. It hab been said dat terbaiker is de cause ob blindness, but I don't berleave it. Whenebber I hab left de eend of a choice cigar exposed in my vest pocket my friends hab nebber shown dat dey hab lost dar powor ob sight, not by er-er-er mill site.

I have more evidence on dis pint dat smoking don't hurt de eyesight; for a boy with the stump of a cigar in his mouth can see his fodder comin' down de street ten blocks off. Howebber, ef it was true dat smokin' cigrettes causes blindness, hit would not be sad arter all sence de intellectual status ob de young men who indulge in de habit am sich dat bein' blind would not in de least mitigate agin dar usefulness in a world which dey do not eben aborn. Hush, dat's a sockdolger for de flabby dood.

I reads in a paper de udder day dat a brand ob terbaiker had just been discovered what will make a man forgit all erbout de money he owes. Jest been discovered, eh! Hush! dat make me laff. Heah! heah! 'Scuse my riserbilities, brederen and sistern, but de idea dat hit hab jest been disklivered breaks me all up. I hab been a humble pasture in de Lawd's vineyard for de last forty yeas, and befo de male and female members of my congregashum must hab been smoking and chewing dat terbaiker steady, fur dey hab done forgot to pay what dey owed me for my sellery.

Dars Sam Johnsing in de amen corner. How dat nigga howls and prays at de camp meeting. Jest keep yer seat, Brudder Johnsing. As I was sayin', ter hear Brudder Johnsing pray you would swear dat de wings was beginnin' already ter sprout on him. I berlieves he means well; dat he intends ter pay his pen rent and my back sellery, but de trouble is he smokes dat new brand ob terbaiker what makes him forget.

Jest keep yer shirt on, Brudder Johnsing, for ef yer makes any demonstrations de Lawd will delegate me ter form myself into an executive committee ob one for de purposes ob castin' out debbles. I was told dat de grand jury am considerin' de feasibility ob indictin' seberal ladies ob dis congregrshur for not bringin' back de close dey got from de white folks ter wash. I suppos dey, too, hab been monkeyin' wid dis new brand ob terbaiker. Hopin' dat you will all swear off in de future from usin' dis new brand ob terbaiker, I pronounce de benedickshun.

British ship owners receive \$150,000,000 a year from the people of the United States for doing 65 per cent. of their foreign carrying trade, and \$50,000,000 more are paid to the ship owners of other nations for similar service. This \$200,000,000 is a large factor in the balance of trade between England and this nation. If only one-half of this could be kept at home what an addition it would be to the wealth and business of this country. The United States needs more ships, and every effort should be bent to the work of reclaiming the vast commerce from the hands of foreigners. —Spokane Review.

Unnecessary Sufferings. There is little doubt but that many persons suffer for years with ailments that could easily be cured by the use of some simple remedy. The following incident is an illustration of this fact. My wife was troubled with a pain in her side the greater part of the time for three years, until cured by Chamberlain's Pain Balm. It has, I think, permanently cured her. We also have used Chamberlain's Cough Remedy whenever needed and believe it to be the best in the world. P. M. Boston, Pennville, Sullivan Co., Missouri. For sale by Snipes & Kinersly druggists.

Railroad EMBLINGS. Wasco News: The right of way between Biggs and Wasco has been secured, or a sufficient amount at least to satisfy the company interested in the matter, that we are in earnest, and the surveyors will be in the field the latter part of this week or the first of next. They have been ordered to make this survey and will do so at once. The matter now simply hinges on the practicability of the route. But a short time longer will elapse before we will know whether Sherman county will get a railroad this fall or not.

They Speak From Experience. "We know from experience in the use of Chamberlain's Cough Remedy that it will prevent croup," says Messrs. Gadberrry & Worley, Percy, Iowa. They also add that the remedy has given great satisfaction in this vicinity, and that they believe it to be the best in the market for throat and lung diseases. For sale by Snipes & Kinersly druggists.

Will Paddle His Own Canoe. New York, Aug. 31.—The correspondent of the Herald at Paris sends the following interview: I mean to paddle my canoe to the end of the chapter. I have not joined the trust nor will I do so, and any Wall street speculator who allows himself to be gulled by the reports that I have does not know me.

Mrs. Lease says that all men who want to join her party will be received with open arms. She failed to state whether they would be received in her open arms or Mr. Lease's. Let the lady make this point clear, as a great deal depends upon it. —East Oregonian.

SHE GOT HER LETTER.

But it was a Close Shave for Thomas Hearing Something. M. Quad in New York. When the letter collector whose route takes in the box at the bridge entrance got around here yesterday morning, he found a girl waiting to say to him: "I dropped a letter in here last night addressed to Thomas Davy, in Boston." "Wasn't it stamped?" "Oh, yes, sir." "Properly directed?" "Very properly." "Then what's wrong?" "Well, sir, I suppose I'll have to tell you," she blushing replied. "You see, we are engaged." "Yes." "I got a letter from him which made me mad." "I see. And so you sat down and wrote him that all was over; you could never—no, never—be his'n; farewell! Isn't that the way of it?" "That's exactly the way of it." "Harried up and posted the letter; went home and had a cry; woke up this morning to wish you hadn't given Thomas the bounce?" "That's it." "Well here's the letter, and you come over to the postmaster and arrange matters, and then go ahead and marry Thomas and be happy." "I will, sir, and I'm a thousand times obliged to you," she said, as she wiped the tears from her big blue eyes and followed after.

Fast Mail Carrying. MONTREAL, Aug. 31.—A dispatch from Winnipeg says that a special train carrying the mails of the Canadian Pacific railway steamship Empress of Japan passed there this morning, covering the distance from Vancouver in two days. The mails left Japan only eleven days before and are expected to arrive in England within twenty-one days. This greatly beats all previous records.

SOCIETIES.

- ASSEMBLY NO. 487, K. O. F. L.—Meets in K. of P. hall on first and third Sundays at 8 o'clock p. m.
- WASCO LODGE, NO. 15, A. F. & A. M.—Meets first and third Monday of each month at 7 p. m.
