There is a very uneasy feeling in Nicaragua at the present time, owing not only to dissensions within the coun-try, but also to the possibility not only to dissensions within the coun-try, but also to the possibility of trouble with Honduras. Both Nicaragua and Honduras have troops stationed on the frontier, and it is the belief that open hostilities may occur at any time.

OUR GENERAL BUDGET Probability That it Will be a Three-Cornered Lawsuit.

> Los ANGELES, Cal., Sept. 3 .- The libel case against the steamer Itata has assumed a new phase, and it is probable that it will now develop into a threecornered fight between the United States, the quondam insurgents and the actual owners of the vessel, and the South American Steamship company, represented by Flint & Co., of New York. United States Commissioner Owens, of this city, is in receipt of a letter from a New York law firm stating that they had been retained to appear letter states that W. W. Goodrich is about to leave New York for this city. Heretofore, it has been supposed that attorneys Page & Dennis, who were re-tained by the insurgents, were the only representatives of the owners of the ves-sel. The attorneys have made answer to the libel against the rifles, and were prepa ing a similar document with regard to the vessel itself, which must be filed before the 14th. It is not known among court officials here whom the New York lawyers represent, but it is supposed they represent the South American Steamship company, who owned the Itata before she was seized.

TO SECURE THE STATE'S FUNDS.

Federal Government System the The Most Perfect Safeguard.

PHILADELPHIA, Sept. 4 .- The legislative committee appointed to investigate the state treasurer's office met here this morning. Governor Pattison appeared before the committee. He was asked if he could suggest any better method than the present system of auditing state accounts. In reply the governor said in his opinion the present system was all wrong. Under it the state treasurer has absolute control of about \$8,000,000, for which the state only has security to the amount of (500,-000. Governor Pattison also said he thought the system of depositing the state money was wrong. Security should be required by the state for money deposited, about \$125,000 for every \$100,000. The most perfect safe-guard for security to the state against loss is the system employed by the federal government federal government.
