THEY CANNOT LAND.

Chinese May Not Re-Enter the Country Unless They are Merchants.

SAN FRANCISCO, Sept. 15.—Judge Beatty rendered a decision in the habeas corpus case of Fan Ow Bow this afternoon in the United States circuit court. The case was a test of the recent decision of Justice Field, of the United States supreme court, declaring that the construction placed on the exclusion act by the latter tribunal was that no Chinese subjects could land in this country unless he had a certificate from his government to the effect that he was a merchant or had been a merchant of good standing in the United States. Judge Beatty held that under the decision the Chinese could not come into this country without a certificate from the government of which he was a subject which must be vided by the American consul at the port of embarkation. The case will be appealed to the United States supreme court.

In the Queen's Name.

CONSTANTINOPLE, Sept. 15.—A detachment of bluejackets and marines from a British ironclad, accompanied by a battery of light field pieces and several galling guns, landed yesterday morning at Sigri, on the island of Mitylene, formally occupying that place in the name of the queen of England. There is a good harbor at Sigri, and it is supposed the British naval officers at Mitylene intend to fortify the island to make it a coaling station and rendezvous for the British Mediterranean fleets. Sigri is on the coast of Mitylene, and is about sixty miles from the mouth of the Dardanelles.

Late this evening another and more startling dispatch comes by telegraph from Athens. It is that the Greek consuls at Mitylene and Smyrna have wired the Greek government that thirteen British men-of-war landed troops and guns at Sigri, Friday, and that they have already strongly fortified the position. Lord Salisbury's chief private secretary has returned unexpectedly to London and is busy at the foreign office.

The Campbell-McKinley Debate.

COLUMBUS, O., Sept. 15.—The chairmen of the republican and democratic committees have agreed upon the time for the joint debate between Governor Campbell and Major McKinley. The details as to the opening and closing of the debate and the time to be occupied have not yet been decided upon, but the time and place of the meeting will be October 30, at Ada.

Only a Picnic Party.

LONDON, Sept. 15.—A Moro dispatch states that the Mitylene scare has arisen from the fact that a party of British naval officers, Saturday last, picniced on a desert island off cape Sigri and that they reembarked the same evening on board their vessel and sailed away Sunday.

GENERAL PERSONAL MENTION.

D. Edward Eggleston, the well-known author, was married in Madison, Ind., yesterday to Miss Fannie Goods of that city.

Mrs. Hannah Eustes and Miss Sarah Barr, of Wakefield, Mass., who were born in Salem on March 31, 1800, are probably the oldest living twins.

Senator Proctor's first step into official life was as a village selectman. And the Vermont villagers were mighty particular about a man being an undeveloped statesman before they would trust him in such an office.

The Hon. William Walter Phelps, United States minister to Germany, will prolong his sojourn at Hamburg, where he has been joined by his wife. He is improving in health and is very happy over the outcome of his fight on the pork question.

Sir William and Lady Gordon Cumming, who have been visiting Lord and Lady Thurlow at Dunhall House, Morayshire, are now the guests of Lord and Lady Middleton at Applecross Forest, Ross-shire, where they will remain during the shooting season.

Mr. Gladstone has a profound respect for royalty, and never wounds the feelings of the royal family if he can help it. His recent letter denouncing gambling as a formidable and growing evil in Great Britain seems to be capable of a royal application, however.

M. Jacques, who has recently begun a fifty days, fast at the London Aquarium, assumes an air of extreme comfort as he sits in his easy chair. Sometimes he reads for an hour or two, but he is not much disposed to talk. He says that that uses up too much vitality.

The duke of Edinburgh is the very picture of an athlete. Over six feet in height, broad shouldered, strong limbed and as active as a cat, it is surprising to find that he takes more pleasure in fiddling than in field sports and is happier in saving a dollar than in having a good time.

Another popular American who will not grow old is Rev. Dr. Edward Everett Hale, who, although 79 years of age, still performs the duties of a pastor, contributes articles to papers and magazines, edits a department in a magazine, and does many other things difficult even for younger men.

FLOWER NOMINATED.

The Democratic Party of New York Nominates a Governor Amid the Wildest Excitement.

Salem has a Small Fire—The Southern Pacific Car Shops Burned—Other News Notes.

SARATOGA, Sept. 16.—Promptly at 10 o'clock this morning the democratic state convention was called to order, after which the decision in regard to the country democracy was presented. The committee on resolutions reported a platform. The platform pronounces against silver coinage of a dollar not of the same intrinsic value of every other dollar of the United States. It also denounces the new Sherman silver dollar bill as of false pretense and hindrance to free bimetallic coinage, and as tending only to produce a change from one kind of non-metalism to another. This bill was declared to be a fit appendix to the subsidy and bounty swindle. The McKinley worse than war tariff, Blaine's reciprocity humbug, the squandered surplus, falsified representation, and revolutionary procedure of the billion dollar congress, were all justly condemned by the people's great uprising last November.

The following resolutions were also passed:

RESOLVED, That this convention views with gratification the growing friendly feeling toward the democratic party, of our colored citizens in this state, and they are welcomed to our ranks with the assurance that within our party discrimination on account of race or color is discontemned.

Then a motion was made to proceed with the nominations and Mayor Porter nominated Roswell P. Flower for governor. The nomination was seconded in behalf of Tammany by Col. Fellow. Bourke Cochrane also seconded the nomination of Flower. Thos. Deevitt, of Kings placed Alfred Chapin in nomination for governor. The first ballot resulted in Flower receiving 334 votes and Chapin 43. The nomination of Flower was made unanimous amid the wildest excitement.

FIRE AT SALEM.

The Willamette University Partially Destroyed by Fire.

SALEM, Sept. 16.—At half past nine this morning the Willamette University one of the oldest educational institutions on the coast, was discovered to be on fire and before an alarm was sounded the ceiling of the library room on the fourth floor was wrapped in flames while flames were coursing downward. The dome was burned off and the large bell fell with a crash. By the strenuous efforts of the fire department the fire was checked in its downward course at the fourth floor, which was slightly damaged. The fifth floor was entirely destroyed. The fire started at the roof from a defective flue, just above the chemical room. Many articles in the museum and library were destroyed. The total loss will reach ten thousand dollars fully covered by insurance.

Southern Pacific Shops Burned.

PORTLAND, Sept. 16.—Fire broke out in the Southern Pacific car shops a few miles south of the city today. Particulars are not yet received, but it is thought that the loss will not be large.

A later report intimates the fire is more serious than at first supposed, and that the loss will reach between forty and fifty thousand dollars. The repair shops and all the out-buildings have been destroyed. The machine shops were saved, by a hard fight. Several coaches were also consumed.

To Furnish Charge.

WASHINGTON, Sept. 16.—Owing to numerous inquiries coming from different parts of the country for fractional silver coin, the United States treasurer prepared a circular stating in substance that new halves and dollars will be furnished in sums of \$20.00 or more by express free of charge or by registered mail in sums or multiples of \$50.00, registration charges paid to any point in the United States.

Mexican Congress in Session.

CITY OF MEXICO, Sept. 16.—President Diaz opened congress last night. In his speech he said: "Our foreign relations are excellent. I have named a commission to arrange a treaty of reciprocity with the United States. Chilian Junta asks for recognition but we have demanded time for investigation as we wish to be neutral."

WILL BE BACKED BY FORCE.

The British Navy Prepared to Assert its Rights in the Mediterranean.

LONDON, Sept. 15.—Notwithstanding the qualified denial by government officials, of the reported seizure of a fort on the island of Mitylene, public opinion is almost universally to the effect that the situation at the Dardanelles will be met by England with force. In public places nothing else is talked of, although it is not believed that either Turkey or Russia will approve of any violent resistance to such steps as England may choose to take. The British fleet is now equal, in line of battle ships to the fleets of any other two European powers, and would in the opinion of naval officers, speedily clear the Dardanelles, into the Black sea, of Russian craft, and also give a good account of the French if they should interfere. A dispatch from Portsmouth said that the naval authorities there had not heard officially of any seizure of a Turkish port or island, but one official who was interviewed said he would not be surprised at any time to hear of some critical action. Not that he had heard from his superiors on the subject, but that the whole situation as publicly known was highly threatening. The recent visit of the French fleet to Portsmouth and the fraternal greeting and enthusiasm and great interest to the subject of a possible war. An Englishman intimately connected with the Turkish legation said today: "Should war break out between Russia and England, Turkey would, I think, allow them to fight it out, simply taking care of herself, if attacked. I do not think that Turkey would construe the seizure of Sigri as an act of war against her, while at the same time she would not recognize the right of England to make the seizure, which, however, remains to be confirmed."

At the Russian legation all was diplomatic reserve and silence, though the secretaries looked as though something grave had come to their knowledge.

MRS. LOGAN TALKS.

Republican Success Only Certain if the Party is United.

JOLIET, Sept. 14.—Mrs. John A. Logan was here today. In the course of an interview she said:

Blaine is the popular man within the ranks of the republican party, but it is a question whether he can placate or conciliate all the divisions of the republicans in the various states. He could not do so in the past, and it does not seem probable, with the disintegration now going on, he can do so a year hence. The old leaders, who won a victory for the party, have gone, and in their place stand many whose ambition and avarice overleap their patriotism and loyalty to the party. Do I think the republicans will win in the coming campaign? Certainly, if united, but if they can't unite in Illinois, a single state, how can you expect them to unite in all the states? They seem to be falling to pieces of their own weight, and through their diversity of opinions an efforts I can hardly fail to see the signs of the times. Yes, I regard a democratic success as more possible, unless the republican malcontents put their shoulders to the wheel and work for patriotic motives, as was the case under the old leaders.

THE BONDS ALL SOLD.

Albany Will Now Have a New Bridge and Sewerage System.

ALBANY, Sept. 14.—The remaining \$35,000 of the \$75,000 city bonds, for a wagon bridge across the Willamette from this city and sewerage purposes, were sold today to I. Steinhart, of San Francisco, at par and 6 per cent. interest. The bonds are due twenty years hence.

Benjamin Bros., proprietors of a small store at Lebanon, quarreled yesterday and one drew a revolver and fired at his brother several times, inflicting no wounds. Both were arrested.

Damp, as Usual.

SALEM, Sept. 16.—A large attendance was present at the third day of the state fair. This morning there was a parade of premium cattle. A drizzling rain has set in, which threatens to interfere with the day's races.

Michigan Saw Mill Burned.

SAULT STE. MARIE, Mich., Sept. 15.—Hollister & Jewett's saw mill at Garden river, ten miles below here, was destroyed by fire this afternoon, with the docks, tramways, lumber, etc. The loss is \$200,000.

Russian Troops Moving.

LONDON, Sept. 15.—The Standard's Odessa correspondent says during the coming five weeks 10,000 troops will be conveyed by the Russian volunteer fleet from Batoune to Sebastopol and Odessa.
