WEATHER PROBABILITIES. THE DALLES, Sept. 16, 1891. FAIR Weather forecast till 12 M.

WEDNESDAY, SEPT. 16, 1891. The Chronicle is the Only Paper in The Dalles that Receives the Associated Press Dispatches.

LOCAL BREVITIES. Messrs. Hosford & Jones of the Moro Observer are in the city, taking in the circus.

The city is filled with visitors who have come to attend the Forepaugh circus.

They have a character in Long Creek, Grant county, known by the euphonious title of Snappin' Ahdy.

The circus parade today was by long odds the biggest thing of the kind that The Dalles has ever seen.

The John Jack theatrical company should be greeted with a full house tonight. Half of the gross receipts will go to the funds of the relief committee.

Brakeman B. W. Maddox, while coupling cars, in this city, this forenoon, was caught between them and received internal injuries that may go very hard with him.

The other day on the ranch of R. V. Drake of Eight-Mile the J. L. Case agitator threshing machine of Steve Kistner threshed in one hour 345 bushels of oats, and at another place, in the same time, 120 bushels of wheat.

James McClure fed the machine both times.

The contributors to the people's line of boats, between this city and Portland did not go into the business to make money but to give relief to the people and build up the country.

Now that the line will soon be a complete established fact the people must sustain it or go back to the position they were in before.

We call attention to the reward offered by Mrs. T. Baldwin of this city, of \$20, for the return of a lady's gold watch, which she lost on the streets of The Dalles, one day last week.

The reward offered represents the full value of the watch to any one except Mrs. Baldwin, to whom it is valuable only because it was a wedding present given to her by her deceased husband, Mr. Tim Baldwin.

The attention of advertisers is called to the fact that the Weekly CHRONICLE has the largest circulation in the county of any paper published here, while the Daily CHRONICLE has not less than three times the circulation of any daily published in the county.

As an advertising medium, therefore, the facilities of the CHRONICLE are unsurpassed by those of any other paper. If you want to reach the people you must advertise in the CHRONICLE.

The Regulator scooped the entire local freight between The Dalles and the Cascades yesterday, both ways, and the Baker got nothing. The settlers on the river are, almost to a man, in favor of patronizing the Regulator and staying with her.

This is the right spirit. The opposition afforded by the Regulator and her consort on the lower river, the Dalles City, will put thousands of dollars annually in the pockets of the producers of this country.

It depends largely with them whether the people's line shall be sustained and they are not worthy of the benefit if they do not, under all circumstances stay with it.

Necessity—the proverb is musty—is the mother of invention. Graham, the

slumbering echoes of Main street about meal times puzzled him, till by a lucky accident he made the discovery that an old tray which he had procured some-where, lost his dinner bell, as indeed he lost nearly all his worldly goods, in the fire, and how to wake the where would make an excellent imitation of a Chinese gong when an ordinary drumstick was judiciously applied to it, and now, instead of the tin-tin-nabulation of a common dinner bell, Graham calls the hungry wayfarer by the sound of a tray that rises high above the screech of the locomotive or the persistent yells of the hotel runner.

Graham says the first time he beat the tray every Chinaman on Main street ran out doors to see what was the matter.

Council Proceedings. A meeting of the common council was held last night pursuant to the call of the mayor, at which there was a full attendance.

The petition of J. O. Mack and others asking that all business houses be allowed to keep open doors during the twenty-four hours of each day as heretofore was granted.

An ordinance was passed unanimously, providing for the closing of business houses and prohibiting the sale of intoxicating liquors, during the time of a fire.

The petition of MacEachern & MacLeod, asking permission to stretch a canvass sign from the building they now occupy to the one occupied by Snipes & Kinersly was granted.

The communication of the Bowers Rubber Co., (bids for hose) was read and referred to the committee on fire and water. C. E. Haight, chairman of committee on fire and water, reported that temporary quarters for the fire engine and hose carriages had been provided.

The recorder was authorized to allow responsible parties to take street lamps belonging to the city, to be used by them, at their own expense, for lighting the East End, to be returned on demand of the council.

A Train Accident. A lad about fourteen years old, named Geo. Dayton, whose father lives in Portland, came near losing his life last night by jumping off a passenger train a short distance west of the trestle that spans Mill creek.

The boy's story is that he got on the train intending to go to the next station. When the conductor came along he asked him for his ticket, and the boy said, "I've got none." "Then," said the conductor, "you had better get off." The boy did so, and in the fall his arm was broken near the wrist; there is a slight contusion on the forehead and one of his eyes is badly blackened.

He made his way back to the Umatilla house, where Col. Sinnott took care of him and called in Dr. O. D. Doane, the company's physician, to attend to his injuries. Colonel Sinnott telegraphed to the lad's father in Portland and received answer to have him properly cared for till his mother would arrive, if it were found necessary that she come up and see him. The lad worked all day in the CHRONICLE office yesterday, and was expected back this morning.

The Benefit Tonight. When Mr. John Jack, of the John Jack and Annie Firmin Theatrical company, heard of the great fire in The Dalles, being then at Ilwaco, he immediately telegraphed to Astoria, offering a benefit for the relief of the sufferers.

The Astorians were then at work raising a subscription for the same purpose and they did not think the benefit necessary. Mr. Jack, still anxious to do something to add to the funds of the relief committee, has cancelled an assignment which had been fixed for tonight in Goldendale, in order that he might take advantage of the large number of persons attending the circus. Half of the gross receipts will be given to the relief committee and Mr. Jack bears all the expenses.

This will give an opportunity to all who desire it, to contribute to the funds of the Relief committee and to have the enjoyment of an excellent entertainment at the same time.

The Dalles Postage Railroad. At a meeting of the Portland chamber of commerce, held on Tuesday evening, the Postage Railway committee submitted a report to the effect that they had had under consideration the propositions of the two companies that propose building portages on the Washington and Oregon side of The Dalles of the Columbia respectively and that after having gone over both of the routes they are not satisfied that the estimates of cost on which the propositions are based are sufficiently correct for the committee to conscientiously submit a final recommendation of either. The recommendation of the committee to employ a railroad engineer, of established reputation, to go over the routes as staked out and ascertain the grades and prepare an estimate of the cost of construction was approved.

Professor E. S. Goff, of the Wisconsin station, says that by careful germination tests he found that the hulled grains of timothy seed neither germinate so well nor retain their vitality so long as those not hulled; also, that timothy seed, when properly stored is fairly reliable up to five years old.

ALWAYS ON HAND.

The Northwestern Life Insurance Co OF MILWAUKEE, WISCONSIN.

Assets over \$42,000,000.00. Surplus over \$6,500,000.00.

Prof. E. L. Shuey, Dayton, Ohio. LAGONDA HEIGHTS, SPRINGFIELD, O., June 15, 1891.

DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Northwestern Life Insurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 56 years, I took out a Ten-Payment Life Policy in the Northwestern Life Insurance Society, for \$40,000. My premiums during the period amounted to \$27,512.00. The Ten-Payment period expired early in January of the present year, and the Company then offered me the following terms of settlement:

FIRST—A paid up policy for \$40,000 00 And cash 9,751 80 THIRD—Surrender my policy, and receive in cash 36,496 80

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipt for the amount, \$36,496.80, to their state manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the state manager of the Equitable states that he "had not sufficient funds to meet it." This maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were \$1,000.00 less than my total investment renders further comment unnecessary. During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment. I took a Ten-Year Endowment Policy, Ten-Year Term, for \$10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have the satisfaction of knowing that at maturity it will net me from \$4,000 to \$5,000 more than the face of the policy calls for. Very truly yours, ROSS MITCHELL.
