Two common drunks and three hobos were arrested last night and put in the cooler. The drunks and one hobo were fined this morning and two of the hobos were discharged. The two discharged hobos had got into a box car, somewhere up the road, which somebody had afterward carefully sealed. When the car arrived at The Dalles their knocking on the sides of the car attracted the attention of Con Howe and J. H. Jackson to loosen and relieve a severe cold. LAGONDA HRIGHTS, SPRINGFIELD, O., June 15, 1891.

Proj. E. L. Saucy,

Dayton, Ohio.

DEAR Sir.—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 56 years, I took out a Ten-Payment Life Policy in the Equitable upon their Ten-Year Toutine Plan, for \$40,000. My premiums during the period amounted to \$37,512.00. The Toutine period expired early in January of the present year, and the Company then offered me the following terms of settlement;

240,000 00

amounted to \$37.512.00. The Toutine period expired early in January of the present year, and the Company then offered me the following terms of settlement;

FIRST—A paid up policy for.

And eash.

SECOND—A paid up policy for.

THIRD—Surrender my policy, and receive in cash.

\$36.496 80

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the eash, they finally instructed me from the home office to send policy and receipt for the amount, \$36,496.80, to their State manager in Cleveland, and he would remit me the amount, or the instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were \$1.015.20 less than my total investment renders further comment unnecessary.

During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment.

In marked contrast with this has been my experience with the Northwestern, in which in 1892, I took a Ten-Yeur Endowment Policy, Ten-Yeur Toutine, for \$10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have of t
