Forty Miners Killed by an Explosion—Odd-Fellows Meeting—The Wheat Market.

Not up to the Standard—Chinamen Smuggled Over the Line—Brief News.

GUTHRIE, O. T., Sept. 21.—From early this morning the streets of this town have been blocked with wagons, horses and people. Everything is wide open—liquor is plentiful and gamblers are here with their outfits. Governor Steele will go to the county seat. His intention is to clear the town, and with a signal let the race for town lots commence. Trains continue to arrive, bringing people who are anxious to secure homes. A line of men formed in line before the land office and are still there, determined to make entry. Hotels, printing offices, stores and shops are taxed to their utmost capacity. Some establishments, especially those of newspapers, are seriously crippled, on account of their help leaving to join in the race.

MORE TROUBLE FOR SPAIN.

Two Thousand Cases of Influenza Reported in One City.

MADRID, Sept. 21.—A hurricane yesterday evening has added to the damage done by the recent floods to the town of Consuegra. Many houses which were previously undermined or otherwise weakened by the flood, collapsed last night. A further feeling of gloom has been caused throughout Spain by the announcement that a severe epidemic of influenza has broken out at Badjor, the capital of the province of that name. Already over 2000 severe cases of that disease are reported in the city mentioned, and it is feared that the epidemic will spread all over Spain.

It is estimated that over 50,000 odd fellows and their families are in the city, besides many thousand others who came simply as spectators.

Chicago Wheat Market.

CHICAGO, Sept. 21.—Wheat opened higher on strong and higher cables. Reports of distress in Germany and estimates given by American agriculturalists of the world's supply of rye and wheat, December started at 1.00½@1.00¾ against 98¾. Lieutenant-Governor Jones of New York insisted on being a candidate for governor and when the late democratic convention sat down on Jones he bolted the ticket.

Andrew Wasson of Washington has been appointed collector of customs for Puget sound, vice Bradshaw, removed. The new collector is a business man of Port Townsend, and a member of the state legislature.

An officer sent expressly, by the sultan to Mitylene, brings back word that the British did not occupy the island but that the inhabitants say that a British force landed and remained two days, holding intercourse by boats with the war vessels off shore. It is supposed they may have been examining the island, with a view to possible operations in the future.

The financial condition of the pope is getting to be almost embarrassing and unless the contributions of the faithful come in more freely he will have to cut off some of the expenses to which the papal purse is now subjected.

Balmaceda, the fugitive ex-president of Chili, is reported to have shot himself through the temple, in his room at the Argentine legation in Santiago, at 8 o'clock a. m. last Saturday. He left two letters behind him in one of which he says that when he saw the persecution directed against him by persons who had supported his administration he came to the conclusion that the only way to put an end to it was to take his own life. Intense excitement and rejoicing followed the news of his death in Santiago.

The Russian government views with increasing alarm the aggressive course of China in the direction of the Russian frontiers. The Chinese army numbers nearly a million and a half of men. CLAIM TO BE AMERICAN

The United States Government to be Called Upon to Release the Sealers.

Great Rejoicing over the Death of Balmaceda—Another Case of Heart Failure.

Considerable Excitement over an Old Book—Chicago Molders Called on For Help by the San Francisco Molders.

OTTAWA, Ont., Sept. 20.—It will be remembered that a short time ago word was received that two vessels, commanded respectively by Dan and Alexander McLean, natives of Cape Breton, had been seized and the captains made prisoners off the Copper islands for seal-brothering in the Bering sea. The friends of the two captives appealed to the Dominion government to secure their release, and the minister of marine promised to look into the matter, and through the British authorities draw the attention of the Russian government to a breach of the neutrality laws, should it be found that the McLeans sailed in a Canadian vessel, and had retained allegiance to the British Crown. Tonight a telegram from the collector of customs at Victoria B. C., states the McLeans were sailing American vessels, and it was reported they had become American citizens. There is confirmation given to the latter statement by facts showing that only naturalized citizens of the United States can sail American vessels. The American relatives of the McLeans will now seek the assistance of the United States government to secure their release.

Balmaceda Suicided.

NEW YORK, Sept. 20.—The Herald's Valparaiso cablegram says: There is a mingled feeling of savage rejoicing at the death of Balmaceda and bitter regret that he should have killed himself instead of falling into the clutches of infuriated citizens who would have delighted to rend him limb from limb for the long list of cruelties for which they hold him responsible. Frenzied crowds march through all the streets, shouting songs of triumph over the death of their former ruler. It is the general belief that the death of Balmaceda will hasten the restoration of peace throughout Chili.

NEWPORT, R. I., Sept. 20.—Ex-Congressman W. L. Scott of Erie, Pennsylvania, died Saturday night. The immediate cause of his death was heart failure. He was elected to the forty-ninth and re-elected to the fiftieth congress as a democrat, receiving 14,787 votes, against 13,574 for Mackey, republican.

Musical World Excited.

LONDON, Sept. 20.—The musical world is excited over the discovery by Dowden in an old book shop in Dublin of a copy of the original book of the words of Handel's Messiah, printed for the first performance in Dublin in 1842, of which not a single copy was hitherto known to have survived. It shows the story that the Hallelujah Chorus was written at the end of the work and placed in its present position because Handel found the work was dragging, to be unfounded.
