A PANIC PREDICTED.

England is Making Large Shipments of Gold to The United States in Exchange for Our Grain.

Want Mrs. Maybrick Pardoned--The Washington Democratic Clubs Meet at Spokane.

Reciprocity in Part Only--The Coast to Be Recognized at Last--All Quiet at Oklahoma.

LONDON, Sept. 23.—Representatives of the associated press had an interview with Rothschilds, Speyers, Lozard Bros. and other bankers, and they all agreed in their statements that further large shipments of gold was going to America. Rothschild despatched an additional hundred thousand pounds today. In an interview with Robert Giffen, head of the commercial department and comptroller of the coin returns of the British board of trade, he was asked what truth there was in calculation that England and the continent would be forced to part with gold amounting to sixty million pounds to pay for imports of American grain. Giffen ridiculed the estimate. He said before ten million pounds in bullion was sent to America, both the bank of England and the bank of France would raise their rates of discount and check the drain. According to Giffen, not bullion but securities, and export, will go to America to pay for grain. An important factor in the financial situation was the silver question. American houses, he declared, were making preparations to face the silver crisis which is now inevitable, by making gold purchases in Europe. When asked if such a crisis was inevitable, Giffen replied: "In my opinion it is impossible to avert it. The United States has become overladen with paper currency. The issue of silver certificates to the amount of 12,000,000 pounds sterling, annually, was a gross legislative mistake and is bound to bring a crash speedily. Next February will probably realize the worst of the position."

Want Mrs. Maybrick Pardoned.
BAR HARBOR, Maine, Sept. 23.—The case of Mrs. Maybrick, accused of poisoning her husband in England and sentenced to penal servitude for life, was some time ago brought to the attention of Mrs. Blaine. She, together with Secretary Blaine, became deeply interested in it. About two weeks ago a petition for Mrs. Maybrick's pardon, signed by Mrs. Harrison and the wives of the members of the cabinet was sent to Minister Lincoln for presentation to the queen.

Democrats at Spokane.
SPOKANE, Sept. 23.—This city is filled with delegates to the state convention of democratic clubs. Leading democrats of the state are here. Senator Faulkner of West Virginia, Congressman Bynum of Indiana, and C. F. Black, president of the National association, arrived this morning. At one o'clock the convention met at the auditorium. The address of welcome was delivered by Senator Drum. Ex-President Cleveland this morning sent a telegram of congratulations and hope.

Reciprocity in Part Only.
CITY OF MEXICO, Sept. 23.—Well informed persons say the reciprocity treaty between Mexico and the United States will not be discussed, the only subject for discussion being what compensation Mexico shall give to the United States for free admission of hides, sugar and coffee.

The Coast to Be Recognized at Last.
WASHINGTON, Sept. 23.—The Post today says President Harrison practically decided to give California a place in his cabinet. The gentleman to whom this honor will fall will probably be M. M. Estee of San Francisco.

No Trouble at Oklahoma.
WASHINGTON, Sept. 23.—Secretary Noble received a telegram from Special Land Inspector Davis of Oklahoma saying the opening of the new lands was completed without trouble.

A Wisconsin Village Burned.
WEST SUPERIOR, Wis., Sept. 23.—Destructive fires are raging south and east of this place. The village of Comstock is nearly destroyed and Cumberland is in danger.

Sir John Gorst's Bombshell.
LONDON, Sept. 23.—Sir John Gorst has cast a bombshell into the conservative camp by his utterance on the necessity of making popular the ownership of the

land. The favorite tory remedy for overcrowding is emigration. While the liberals have never come out boldly in favor of the division of the soil among the people and the multiplication of small owners, they have claimed that emigration was not the proper remedy and that there was room enough in England for Englishmen. Now Sir John dares to say what the liberals have hinted at, that the private parks and reserves must be cut up as homes for the people, and the people must be given a chance to become owners. If Sir John remains in the service of the tory cabinet, it is only because they are afraid to drop him out.

The Celebration at Chicago.
CHICAGO, Sept. 22.—The colored people celebrated Emancipation day with a mass meeting and picnic at Osgood's grove. Congressman Miller, of Beaufort county, South Carolina, was the orator of the day. He eulogized Abraham Lincoln and speaking of the South, said:
The New South is a frail child and is ill formed. Its blood is tainted. It is strong, but lacks endurance. It is as much your duty today to assist in training and developing this partly-spoiled youth as it was late in the fifties to educate, through your patron saint, the nation up to the point of emancipation of slaves and the preservation of the Union. Omit the work will have to be done over again in the same way as it was finished in Appomattox.

A THRESHING ACCIDENT.
Two Stacks of Wheat and the Machine Destroyed by Fire.
UNION, Or., Sept. 22.—While the steam threshing machine belonging to Fred Nodine was at work for the Hall Bros., on the Drake farm north of Union, this afternoon, the grain stacks were accidentally fired by sparks from the engine and two large stacks of wheat, together with the machine, were consumed. There was no insurance.

The Farmers' Alliance in California.
SAN FRANCISCO, Sept. 22.—Marion Cannon, state representative of the farmers' alliance of California, has issued a proclamation to the members, announcing that arrangements have been made with President Polk to deliver a series of lectures in this state, commencing at Sacramento, on the evening of October 10th. If possible a grand mass meeting will be held at Colusa on October 9th.

Falling Off in Imports of Raisins.
NEW YORK, Sept. 22.—The Commercial Bulletin says: "The exports of raisins from Denia thus far have been only 50,000 boxes for America, whereas for a corresponding period last year 468,000 boxes were in transit. It is evident from this that the competition of California is feared, and importers hesitate to send forward any considerable quantity."

Will be Ceded to England.
BERLIN, Sept. 22.—Frelinnigo Zietung says Herr Richter proposes a cession of the southern portion of German East-Africa to England, on condition that the latter refunds the indemnity Germany paid Zanzibar.

ST. PETERSBURG, Sept. 22.—Almost all the government officials have voluntarily contributed a portion of their salaries to the famine fund. There is public talk of bringing wheat from America and Egypt.

TROUBLE FOR TURKEY.

The Capture of Sana by the Rebels is a Serious Blow to Turkish Rule in Arabia.

De Briggs Has Returned and Will Take Charge of His Own Case--A Wonderful Escape.

More War Talk, by a Grand Duke--The Farmers' Alliance's Meetings in California.

LONDON, Sept. 22.—The news of the capture of Sana by the rebels in Yemen, says a Constantinople dispatch, is almost a stunning blow to the Sultan, who for weeks past has been plunged in anxiety over the situation in Arabia. Western Europeans are hardly capable of appreciating the Sultan's feelings on this subject, but to him the fate of Arabia is of more importance even than that of Constantinople. Should he lose control of the holy cities of the Mohammedan faith, he would be divested of all prestige and become an object of contempt and abhorrence to his subjects. His anxiety regarding this matter is so strong that it has nearly driven him insane. Sana is the key to Yemen and the loss of this is a most overwhelming blow to Turkish supremacy in that rich and fertile province, and may lead to the loss of all Arabia. That country now contains several emirs who ignore the authority of the porte, and if these should unite against Turkey, the Sultan would have a difficult war on his hands. The Turkish troops in Yemen went there without provisions or money, with orders to live on the country. They won some success at first, but probably disheartened by their own condition, they appear to have lost ground. Should Arabia be separated from the porte, the religious passions such an event would excite, in the opinion of Europeans at Constantinople, would imperil the life as well as the throne of the Sultan.

DR. BRIGGS RETURNS.
He Will Take Charge of the Case Himself and Conduct His Own Defense.

NEW YORK, Sept. 22.—Dr. Charles Augustus Briggs returned today on the steamship Servia from his summer vacation in England. Dr. Briggs went abroad last May with his daughter, immediately after his trial for heresy was ordered in the presbytery. He said today:
"I have been greatly benefited by rest and the change of air. I went to Oxford expecting to do some work on a Hebrew lexicon in which I am interested, but for two months I could do nothing but rest. I am not informed of the events in America in connection with my case, nor do I know what my friends have done in preparation for the trial. I shall take charge of the case myself, and shall conduct my defense in my own behalf. I am glad of the opportunity offered to me by this trial to explain my views to the presbytery. I never had this opportunity, and when the committee have given their construction of what I have written I shall give mine. Of course, this will give my views wider publicity than they have had heretofore. They are at present known to the scholars, but the general public has not had my side yet."
The trial of Dr. Briggs will begin Monday, October 5.

A WONDERFUL ESCAPE.
A Man and Woman Who Drifted to Sea Are Safe in Florida.

JACKSONVILLE, Fla., Sept. 22.—Samuel W. Thornton and Eva Jewel, his wife's sister, of Brooklyn, N. Y., are in this city, alive and well. They are the couple who, on the evening of August 27, last, mysteriously disappeared from Coney island. They had gone in bathing, and caught by the outgoing tide were swept out to sea. Both of them being good swimmers they managed to keep afloat till picked up by a sailing vessel bound to this port, so they say. Be as it may, both man and woman are here and in good health. A message was at once sent to their brother in Brooklyn, for money to purchase clothing and bring them back home. The story is one of the strange-est ever heard of, and the marvelous escape of the couple is the sole topic of conversation here.

MORE WAR TALK.
A Grand Duke's Speech Made at the Keenest Moments.

PARIS, Sept. 22.—The Siecle publishes a dispatch from its correspondent in Baden giving the substance of a speech said to have been made by the grand duke at the close of the recent maneuvers of the southwest army. According to the dispatch he said in part:
"We must regard the future with energy and resolution. The time is again near when Germany must unshush her sword in defense of her independence against an enemy who has not learned prudence by defeat. It will be the duty of the valiant corps of Baden to support the first onset, to fire the first shot and carry the palm of victory."
He referred to the culpable proceedings of our neighbors, who are only awaiting a propitious occasion to again open the era of bloody conspiracy.
