LOCAL BRIEFS.

Mr. J. H. Sherar of Sherar's Bridge is in the city.
Dr. Eshelman went to Centerville, Wash., today. He will return Sunday afternoon.
Mr. and Mrs. Truman Boynton of Price, Crook county, are in attendance at the district fair.
Mr. T. J. Hannah of Scio, Linn county, formerly of Rutledge, Sherman county, is in the city.
Clarence L. Barnett has returned from a three month's trip to Silverton. Mr. Barnett has rented a house here and will reside in The Dalles during the coming winter.
The Regulator had between thirty and forty through passengers this morning, while the Baker had one—we presume a dead head.
There will be union services at the court house tomorrow at 11 o'clock a. m. and 7 p. m. Sunday school directly after the morning service. Christian Endeavor at Mr. Story's at 5:30 p. m.
At a recent meeting of the board of directors of school district No. 12, in this city, it was ordered that all bills for tuition of non-resident pupils must be paid to the Clerk at least once a month in advance, and if not so paid the pupils will be refused admission to the school.
Henry Lorezen bought at auction today the property of a stranger from Boise City who had no further use for them, a span of horses, a light half worn spring wagon and a full set each of double and single harness, in good condition, all for \$69. One of the horses was easily worth \$60.
Governor Penoyer tells a pretty good joke on himself. He and some other state officials were one day visiting the state insane asylum when the superintendent, addressing one of the patients and pointing to his excellency said, "John this is governor Penoyer."
"Who?" said the patient, "Governor Penoyer," was the answer. Then solemnly shaking his head the patient mournfully replied "Poor Governor, Poor Governor."
One more proof that Oregon is the greatest country on earth comes from Grant county where, according to the News, they have a warm spring that only needs a little salt and pepper added to the water with the addition of a "little butter to float on top," to make an excellent quality of chicken soup. The older settlers only needed a couple of feathers in the soup bowl, to make the deception complete, but the modern tender-foot is more fastidious. He must have salt and pepper in his'n.
Everybody hereabouts knows Harry Gilpin and they remember how about two years ago he mysteriously lost every hair on his head and face, leaving him, save for the presence of a little white downy fuzz, as bald as a goose egg. Whether it is the prospect of good times coming, the dry season or the McKinley bill, we know not, but we do know that the hair is coming back, and Harry has quite a nice stubble of hirsute material of the same color that used to adorn his classic head in the days when his excellent wife selected him for a husband

from among the five or six million young men of the United States.

Mr. Will Johnston and family came up from the Cascade Locks yesterday where he has been at work.

There will be a special meeting of Jackson Engine Co., No. 1, held at the council rooms on Monday, September 28 at 7:30 p. m. Matters of great importance will be brought before the company. By order of the president.

WILL S. GRAHAM, Secretary.
There was a fair attendance yesterday to witness the races. The principal interest gathered around the half mile and repeat, running race. The first was won by Hastings with Herald 2nd, Bill Moore 3rd and Hamilton 4th. Time 52.4.

The second heat and the race was won by Hastings with Herald 2nd, Bill Moore 3rd and Hamilton 4th. Time 53.

V. G. Bogue, civil engineer of Portland, who has been commissioned by the Portland chamber of commerce to examine the two proposed lines of railway around The Dalles rapids, finished a second examination of the road on the Oregon side yesterday afternoon and returned to Portland on the evening passenger. Mr. Bogue will report the result of his examination to the chamber of commerce in the near future.

Up to September 24th sixty-four cars of wheat were shipped from Biggs station by McDonald & Ginn since Aug. 25. The average price paid was seventy-three cents per bushel. This being about one-third of all the grain handled in Sherman county. Average sacks per car are 295 and at that rate there have been shipped 57,840 sacks, or about 115,680 bushels from that county, and put in circulation \$84,446.40, ninety-one cars in all have been shipped from Biggs.

Kansas Mortgage Indebtedness.

The census office has issued a bulletin which gives the mortgage indebtedness of the state of Kansas by counties. The total assessed valuation of real and personal property in 1890, not including the value of railroad property, which is placed at \$67,866,233, was \$290,593,711. The estimated true value is between \$800,000,000 and \$900,000,000. It is found that Kansas has a mortgage debt of \$235,485,108, which does not include a state and railroad land contract debt of \$7,661,718. This debt is 27 per cent. of the estimated true value of all taxed real estate. The average amount of debt per mortgaged acre is placed at \$6.65. Of total mortgage debt \$167,145,039 is upon acres and \$68,340,067 upon lots. Thirty-four per cent. of the total debt is in force against acres in real estate in the western half of the state, where it is said values are low, and where settlement was made but a few years ago. It is proposed to prepare a map showing the exact localities in the state of the debt. The counties carrying the heaviest mortgage debt are: Sedgewick, \$18,588,053; Wyandotte, \$12,629,932; Shawnee, \$11,982,090; Cowley, \$7,727,427; Reno, \$7,429,589; Sumner, \$5,556,042 and McPherson, \$5,040,949.

Dun & Co.'s weekly review of the trade for the week ending September 18, in harmony with the prevailing impression, gives a very hopeful prospect for good times all over this broad land in the very near future.

The hot weather at the west is worth to the country many millions every day. Each clear and cloudless day places millions of bushels of corn beyond the possibility of harm from frost, and a great part of the anticipated crop is already safe. The large crops mean that the farmers will be enabled to buy more freely of the products of the other industries and will pay this fall a vast amount of indebtedness. In four months, ending September 1st, about 20% per cent. of the mortgaged debts on farms in Kansas, or about \$10,000,000 had been paid. Several hundred millions will thus be returned to lenders, who will powerfully affect all markets by their efforts to find new use for their money. Meanwhile gold is also coming from Europe and though foreign banking institutions are doing what they can in self-defense to resist the movement they fail to prevent active buying of American securities by foreign investors. With money coming for foreign stocks and bonds, as well as for wheat and cotton, and with liquidation of farming indebtedness the prospects for business this fall are unusually bright.

Over a Century ago.

A few days ago some children, while playing around the church at South Paris, Me., discovered a can of powder under the old edifice. From its appearance the can is supposed to have been under the church since 1774, when it was the custom of the colonial patriots to secrete their powder in the near meeting houses. In the year mentioned John Sullivan of Berwick raised a company of men, and going to Fort William and Mary, at Portsmouth, N. H., captured 100 barrels of powder, part of which was concealed in the old church at Durham, Androscoggin county, and used next year by the minute men at Lexington and Bunker Hill. It is thought that the can found at South Paris is part of the same lot that Captain Sullivan seized from the king's men 117 years ago.

The Bay City Tribune says there is now under contract and being surveyed ten townships of government land in this county. This will be thrown open to settlement this winter or in the early spring. It is covered with the finest and tallest trees that ever grew under the blue canopy above, and is bound to give us lively times here next spring, as the talking of it will bring a large increase of settlers to this favored portion of God's great kingdom.

MAKRIED.

BRIEF STATE NEWS.

Fishing in the North Umpqua is very good at present. The banks of that river are lined with fishermen every day trying to catch the speckled beauties.

A telephone line will shortly be established between Rufus and Biggs, Sherman county, and make connection with the present line between Wasco and Grants.

The citizens of Milton are becoming tired of being called mossbacks, and have petitioned the council to call another election to vote for water-works and electric lights.

Yamhill county has a population of 10,000 and has seven newspapers to furnish local news to them. The latest candidate for public favor is the North Yamhill Leader.

There are thousands of tons of straw going to waste in Benton county just now that might be baled and sold at a fair profit. It finds ready sale at from \$3 to \$5 per ton at the paper mills.

The celebrated Foley Springs, lying east of Eugene, near the headwaters of the McKenzie river, have been sold to an Eastern syndicate, which it is said will make a number of improvements.

There are a few unruly and unprincipled Indians and half-breeds who leave the reservation and visit Corvallis without permission. They make an effort to obtain whiskey and are fast becoming a nuisance.

The relief committee at The Dalles still finds plenty to do and the wants of no inconsiderable number of people are being supplied. About forty families have been furnished aid. Contributions are still arriving from outside sources.

The Elk Head quicksilver mines at Lewis are on a stand still owing to the arch of one of the furnaces falling in. It will require about three weeks time yet to make good the break. Mr. Willis is no longer superintendent of the mines.

Reports from Eastern Oregon are that the roads are literally lined with immigrants, from as far East as Dakota and Kansas, coming to Western Oregon. It is said that more covered wagons may be seen now than during the days before the advent of the railroad.

A big enterprise is nearing completion near Central Point, Jackson county, whereby the Rogue river will be turned into a new channel for a distance of several miles and the bed mined. The ground has been thoroughly prospected and shows up in good shape.

On his recent postal trip through Clatsop county, Postmaster Hare found some singular conditions. Two places nine miles apart—Hopkins and Jewell—take four days for mail communication. The mail has to go from Jewell to Astoria, from Astoria to Mist, from Mist to Hopkins.

An Old Adage.

There is an old adage: "What every body says must be true." Henry Cook, of New Knoxville, Ohio, in a recent letter says: "Chamberlain's Cough Remedy has taken well here. Everybody likes it on account of the immediate relief it gives." There is nothing like it to loosen and relieve a severe cold. For sale by Snipes & Kinerly, druggists. 4w

They Speak From Experience.

"We know from experience in the use of Chamberlain's Cough Remedy that it will prevent croup," says Messrs. Gadberr & Worley, Percy, Iowa. They also add that the remedy has given great satisfaction in this vicinity, and that they believe it to be the best in the market for throat and lung diseases. For sale by Snipes & Kinerly druggists.

LAGONDA HEIGHTS, SPRINGFIELD, O., June 15, 1891.

Prof. E. L. Shuey, Dayton, Ohio.

DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 56 years, I took out a Ten-Payment Life Policy in the Equitable upon their Ten-Year Tontine Plan, for \$40,000. My premiums during the period amounted to \$67,520.00. The Tontine period expired early in January of the present year, and the Company then offered me the following terms of settlement:

FIRST—A paid up policy for.....\$40,000 00
And cash.....9,751 60
SECOND—A paid up policy for.....54,000 00
And cash.....35,486 50
THIRD—Surrender my policy, and receive in cash.....

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipts for the amount, \$36,486.50, to their State manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipts through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were \$1,015.50 less than my total investment renders further comment unnecessary.

During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment.

In marked contrast with this has been my experience with the Northwestern, in which in 1882, I took a Ten-Year Endowment Policy, Ten-Year Tontine, for \$10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of the satisfaction of knowing that at maturity it will net me from \$4,000 to \$5,000 more than the face of the policy calls for. Very truly yours,

ROSS MITCHELL.
