WAR IN GUATEMALA.

The City of Guatemala Under a Reign of Terror. Over Five Hundred People Killed.

The Democrats of Massachusetts Hold a Convention and Nominate Their Governor.

The Pennsylvania Joint Senate Committee Report—Demand the Release of Americans.

St. Louis, Sept. 29.—A dispatch from the City of Mexico says a revolution has been precipitated in the republic of Guatemala which will unquestionably become general. A gentleman who left the city of Guatemala, the morning of the 16th inst., and who has just reached this city on horseback from Acapulco, brings the information of the outbreak which occurred in Guatemala City on the 15th inst. and was still in progress when he left. According to his story the people in that city were celebrating the anniversary of their national holiday. It appears that President Barrilas had personally appointed orators for the day. To this the masses took exception and when the orators took the rostrum it was the signal for a storm of stones which set them in flight. Exciting scenes followed and every known liberal or Barrilas partisan was driven from the plaza. After that the masses elected their orators and most violent and incendiary speeches followed. The news of the riot spread rapidly and soon Barrilas threw a battalion of infantry into the large square for the purpose of dispersing the mob.

They went in with fixed bayonets and attempted to carry the plaza by assault, but were met with a shower of stones and bullets from revolvers. This action of the mob put them to flight, leaving many dead and wounded. Barrilas then ordered artillery into the plaza and infantry and two cannon to guard his residence. When the guns were turned on the mob it dispersed. The people left the plaza but fought inside the streets, in fact they practically, during the night of the 15th, held full control of the city, though at intervals they were attacked by the infantry, who shot many of them. It is thought this will cause a general revolt throughout the entire republic of Guatemala and engender war in all other Central American states. Strict censorship is maintained over all press dispatches and mail has also been trifled with to prevent the leaking out of any information concerning the actual condition of the country.

Private dispatches to prominent merchant of this city from Newton, say fully 500 lives have been sacrificed in four days' fighting in the city of Guatemala, and that shooting is still going on. The dispatch also conveys the information that Barrilas had declared himself dictator. It is stated that Col. Jobon has killed General Sanchez, and a brother of General Sanchez, on learning of his assassination, shot and killed Jobon. General Sanchez's brother was executed. The city is under martial law and a reign of terror prevails, the inhabitants being afraid to leave their houses. The residence of President Barrilas is guarded by soldiers and the president does not stir abroad unless guarded by a large force of cavalry.

THE MASSACHUSETTS DEMOCRATS. They Hold a Convention and Name a Governor.

Worcester, Mass., Sept. 29.—The democratic state convention was called to order this morning and a permanent organization was effected by electing P. A. Collins of Boston as chairman. William Eastis Russel of Cambridge was nominated for governor. The platform adopted renews the demand for the repeal of the McKinley tariff law, and declares in favor of honest money. It declares that all dollars coined by the United States should be of an equal intrinsic value, and that all paper currency issued by the government should be redeemable in either gold or silver, at the petition of the holder, and not at the discretion of the secretary of the treasury. It opposes the free and unlimited coinage of silver and all "dangerous" silver legislation enacted by the last congress.

A Committee Report. HARRISBURG, Pa., Sept. 29.—The joint legislative committee appointed to investigate the offices of the state treasurer, auditing and attorney general, today adopted resolutions recommending that the United States law regulating public funds be adopted and that the in-

quiry be confined to the conduct of the present auditor-general, state treasurer and cashier.

Demand the Release of American Citizens.

CHICAGO, Sept. 29.—A Washington special says instructions were cabled to Egan, minister to Chili, to demand the release of American citizens, who were arrested on suspicion of being spies or sympathizers of the evening of the Junta.

A Newspaper Burned.

PORTLAND, Or., Sept. 29.—A fire this morning destroyed the office of the East Portland Chronicle. Loss about \$5,000. Fully insured.

A Report That Blair Will Succeed Raum as Commissioner of Pensions.

NEW YORK, Sept. 28.—The Sun's Washington special says: "The Harrison administration is said to be on the point of having another pension officer. Among the big appointments soon to be made by the president, there will probably appear the name of a new commissioner of pensions, the third in three years. The report is abroad today that the president will soon accept the resignation of Pension Commissioner Raum and appoint as his successor ex-Senator Blair. This rumor lacks direct verification, but there is little doubt that General Raum is to be removed, whether or not Mr. Blair is the man to take his place. Soon after President Harrison's return from Cape May he had a long talk with Raum, in which it was plainly intimated that the administration would be pleased to get rid of the embarrassment, caused by the retention of the commissioner in office, and that so soon as his successor could be selected, the general might expect to receive a request for his resignation. President Harrison has been inclined to look with suspicion on General Raum ever since the investigation last winter, when so many unpleasant facts were brought to light about the conduct of the pension office.

OTHER CASUALTIES.

Two Burned to Death.

FARGO, N. D., Sept. 28.—This evening an oil car standing on a sidetrack was set in motion by a switching train, and starting down grade, collided with the engine of an incoming train with terrific force. In an instant the oil was ablaze and the engine plowed through the flaming mass. Engineer J. J. Curtis, Fireman Dodge and Brakeman Benton were instantly enveloped in the flames. All jumped and tried to smother the flames. Dodge was literally roasted to death, while Curtis died soon afterwards. Benton is badly burned and will lose both his eyes.

The Rain Makers in Texas.

CORPUS CHRISTI, Tex., Sept. 28.—Yesterday the rain makers made their first experiment here. It was a complete success. Several bombs were discharged and after each volley a sharp shower fell over a limited area and continued half an hour. Final experiments will be made next week, after which the party will go to points on the Mexican Central railroad.

The Indiana Trainmen.

INDIANAPOLIS, Ind., Sept. 28.—Eight hundred delegates, representing six organizations of railroad trainmen, held secret session here today. The main object of the meeting was to discuss measures for making an organized fight against the members of the last legislature who worked to defeat certain bills of interest to trainmen.

Weather Forecast.

SAN FRANCISCO, Sept. 29.—Forecast for Oregon and Washington: Light rains followed by fair weather in the western portion.

Chicago Wheat Market.

CHICAGO, Sept. 29.—Close, wheat steady, cash 95½; December 97½.

Portland Wheat Market.

PORTLAND, Sept. 29.—Wheat, valley, 1.52½; Walla Walla, 1.42½@1.45.

San Francisco Wheat Market.

SAN FRANCISCO, Sept. 29.—Wheat buyer '91, 1.73½.

Pension commissioner Raum will report a surplus of \$8,000,000 to the next congress instead of asking for a deficiency appropriation as is usually to be expected. This is accounted for by the last congressional appropriation having been based on over-estimates of the cost of the general dependent pension law.

The salary attached to the office of master of hawks, which is really a perpetual pension of \$965 a year, drawn by the Duke of St. Albans, has been commuted for £18,835, payable in the form of a ten years' annuity, £2176 per annum.

Secretary Charles Foster has taken possession of his new home in Washington, No. 1122 Vermont avenue. He has the house formerly occupied by Senator Payne of Ohio. It is a beautiful stone front—an Ohio production throughout.

A COAL MINE CAVES IN.

A Pennsylvania Mine Caves in and Sixteen Men Were Imprisoned for Eight Hours.

Rumors That the Irish Land League Will be Reorganized on a Strictly American Plan.

A Small Party of Burlington & Missouri Railroad Surveyor Lost in the Big Horn Canyon.

SHAMONIN, Pa., Sept. 27.—For eight hours today sixteen men were imprisoned in an old chamber in the Hickory Ridge coal mine, not knowing what second they would be crushed to death. They entered the mine at 7 o'clock this morning and were directed to rob the pillars. This is considered the most dangerous of inside work. A pillar divides one breast, or chamber from another, and after all the coal is taken from the chamber the pillar is usually removed. A chain pillar divided the levels. At the Ridge the men were working on the first level, and 100 feet of rock and coal lay between it and the second lift, which had been well worked out. An hour after the first pick had been sunk into the coal the miners discovered that the bottom of the gangway was cracking in hundreds of places.

"There is danger," shrieked one, "the chain filler must be running, and if we don't get out of here it means death." A rush was made for the closed chamber which all reached just as the bottom of the place dropped and revealed a yawning chasm 100 feet deep and ninety feet wide. The imprisoned men were surrounded on all sides by falling coal. They had a conference and found there was no possible way of exit other than by the way they had entered, and there was an impassable chasm between them. Suddenly they heard voices. "Are you alive?" cried Foreman Rheinhardt, who with two others had gained an entrance to the gangway as soon as the rush occurred. The rescuing party was overjoyed on learning that the men were safe. A rope was procured and for four hours Rheinhardt and his men tried to cast it across and at last the prayed-for rope fell at their feet. "Fasten your end of that rope to the timber," they heard a voice cry, "and we will do the same." Once securely tied about the post the men consulted as to who should make the attempt to cross. It did not take long for Carson Delong to bid his companions goodby and fling himself into space. Several times he thought he would fall, but with strained muscles and a stout heart Delong went over, and at last was safe. The others followed, and when the last had crossed, they first wept like children and then cheered loud and long. When they were hoisted to the surface 2000 persons cheered and danced with joy.

THE IRISH LAND LEAGUE.

Another Organization May Be Effected on a Strictly American Basis.

CHICAGO, Sept. 27.—J. P. Sutton, secretary of the Irish land league, has arrived in Chicago, and says that he and Mr. Fitzgerald will absolutely sever their connection with the organization. He thinks the result of the convention will be a declaration of neutrality as between the two factions in Ireland, and that another organization may be effected on a strictly American basis. But what the aim and purposes of such an organization would be he could not say. The main feature of the coming gathering will be to close up the records and career of the land league, and the entire correspondence between Parnell and the other leaders of Ireland and Fitzgerald will be submitted to show why no convention has been held since 1886. Mr. Sutton thinks the convention will also take some action looking towards the liberation of the large sum of money held in Paris, and which neither the Parnellites nor the McCarthys can agree to release so that it could be used for the people. It is thought that the appointment of an envoy by the convention to proceed to Ireland might effect that result.

A Surveying Party Lost in the Big Horn Canon.

SALT LAKE, Sept. 27.—Information has been received that several members of the Burlington & Missouri river surveying corps, who have been running lines through the Stinking Water country, in the Big Horn basin, between Buffalo and the Yellowstone Park, separated from the main body and undertook the perilous enterprise of running a line through Big Horn canon. This was nearly two months ago. Nothing has been heard from them since, and the other members of the party have almost abandoned all hope of ever seeing them again, except in winter when the river freezes over. There is not an instance on record of any one traveling through the terrible rent in the mountains and coming out alive.
