### ANOTHER BANK CLOSES

A Systematic Plan of Plundering the Bank Carried on for Twenty Years.

A Number of California Senators to Appear Before his Honor—Gen. Boulanger's Funeral.

Bounty on Beet Sugar—Another Short Treasury Report—Other Short Mention.

KINGSTON, Oct. 3.—The Ulster county savings institution has closed its doors and is in charge of Bank Superintendent Preston. The examiners, who have been at work since Tuesday, have already found that \$463,000 has been stolen by Treasurer Ostrander and Matthew T. Trumbour, assistant treasurer. It is feared the stealings will reach over that amount. At midnight last night Superintendent Preston swore to a complaint charging Trumbour with perjury in swearing to false statements contained in the July report of the bank to the banking department, and Trumbour was arrested as he was just preparing to flee from the town. Ostrander was arrested about two weeks ago for embezzling \$75,000, and was under bonds of \$20,000.

His bondsmen last night turned him over to Sheriff Dill, and he was locked in jail. The system adopted by Ostrander and Trumbour was most ingenious, and for 20 years has baffled the skill of the expert examiners in the employ of the state. Carrying it out, deceit and perjury were frequently and effectually employed. The statement of the bank showed their resources to be \$2,135,000; due depositors, \$1,888,000; surplus, \$247,000. It is impossible to tell or even conjecture the effect the closing of the bank will have on the people of Ulster county. The majority of the depositors are poor people. The Ulster county banking institution was incorporated by an act of the legislature of April 12, 1851.

The people had great confidence in the institution. It is said the number of bonds mentioned in the statement of the trustees were hypothecated in New York by Ostrander and Trumbour. Another method mentioned was that deposits in many cases were entered on the bank register for only a half and a third of the amount received, while the entries in depositors' books were for the full amount, the difference being taken by the thieves. The streets of Kingston are filled with people, and depositors are arriving on every train and by all manner of vehicles. Occasionally some of the excited farmers threaten to break into the bank building and get their money, while others suggest lynching.

Business is virtually suspended. One man who had \$700 on deposit has developed symptoms of insanity and it is feared it will be necessary to take him to the asylum. The city officials, fearing the threats to burn the jail where Ostrander and Trumbour are confined would be carried into execution, summoned the fire department, the members of which are now watching the bank building, court house and jail opposite. The prisoners were arraigned this afternoon. It is stated on the street today that after the affairs are wound up, the bank will pay depositors 75 cents on the dollar.

### WANT TESTIMONY.

A Number of Senators Will Be Examined in the Matter.  
SAN FRANCISCO, Oct. 3.—Attorney General Hait today prepared his petition for a writ of review in the matter of empannelment of the present grand jury in order to enable the supreme court to pass upon the legality of that body. It is understood that Judge Wallace has signed an order for the issuance of a subpoena for Lieutenant-Governor Reddick and for the following state senators, and they are now being served: R. H. Campbell, Salmo; Geo. J. Campbell, Siskiyou; Thos. Frazier, Eldorado; F. S. Sprague, Yolo; J. W. Reggsdale, Sonoma; Eli Dentson, W. E. Dargie and W. E. Simpson, Alameda; G. G. Goncher, Fresno, and W. C. Bailey, Santa Clara. These will be called upon to testify before the grand jury October 9th.

Gen. Boulanger's Funeral.  
BRUSSELS, Oct. 3.—The funeral of Gen. Boulanger took place today. As a large crowd of people was expected, the local authorities had taken the precaution to provide an imposing police force for the emergency. The number of policemen present, however, was unequal to the

task of keeping the excited throng in anything like decent order. Several arrests were made. The coffin of the general was covered with hundreds of floral wreaths tied with tri-colored ribbons, mostly sent from France.

Telegraph Line to Tillamook.  
GLENORA, Or., Oct. 2.—The wire of the Bay City & Tillamook Telegraph company reached this place, thirty-five miles west of Forest Grove, last night. The work has been somewhat retarded on account of the inclemency of the weather. It has rained seven days and nights. This place was formerly known as Roscher's ranch, but a post-office has recently been established here and the name changed. It is proposed to complete the wire to the bay within the next two weeks, thus connecting the cities on the bay with Portland.

Bounty on Beet Sugar.  
WASHINGTON, Oct. 3.—The first payment of a bounty under the law giving a bounty of two cents a pound on all sugar produced in the United States was made at the treasury department today. They were both in favor of the Chino Valley Sugar Co., Chino, Cal., on two claims for the production of 340,000 pounds of beet sugar, which amounted to \$6,800.

Notable Arrivals.  
LONDON, Oct. 3.—Princess Beatrice, ninth and youngest daughter of Queen Victoria, wife of Prince Henry Battenberg, has been delivered of a son today.

New York, Oct. 3.—A daughter was born to Mr. and Mrs. Grover Cleveland this morning. Mother and daughter doing well. Child weighed eight pounds.

The Treasury Report.  
WASHINGTON, D. C., Oct. 3.—A statement which was prepared at the treasury department shows there was a net increase of \$24,551,000 in circulation during September and a net decrease of \$11,506,000 in money and bullion in the treasury during the same time period.

A Test Case.  
KNOXVILLE, Tenn., Oct. 3.—Judge Sneed, of the Knox company criminal court, rendered a decision on a writ of habeas corpus, brought by a convict, to test the law regarding convicts, which if affirmed by the supreme court will cause all convicts in East Tennessee to be removed to the state penitentiary.

Pushing the Road.  
ST. PAUL, Oct. 3.—It is announced that the Canadian and the "800" line is hurrying to completion, the Pacific branch of the "Soo" from Hankinson, N. D., northwest to Regina, on the main of the Canadian Pacific. This is done, it is said, in anticipation of the completion of the great northern to the coast.

A Very Poor Specimen.  
LICK OBSERVATORY, Oct. 3.—A new comet was discovered by Prof. E. Barnard at the Lick observatory. It is not very bright and has not a tail or nucleus. It is moving rapidly toward the southeast.

The Inter-Continental Railway.  
WASHINGTON, Oct. 1.—The commissioners appointed to represent the United States on the inter-continental railway commission, have submitted a report to Secretary Blaine of the progress made by the surveying parties in South and Central America on the line proposed. Up to August 1, 1891, \$74,500 was spent, there being a balance of \$64,000 for carrying on the work. Chili and Columbia have paid their quota to the common fund. In Ecuador the survey indicates the cost for the road of about \$32,000 per mile.

Tried to Kill His Wife.  
TREMONT, O., Oct. 2.—Joseph Hob, a German from Toledo, made an attempt last night to murder his wife, who had left him and is living in this city. He then shot himself through the head with a revolver and died almost instantly. Mrs. Hob is not seriously injured, the bullet cutting through the forefinger of her right hand.

British Columbia Will Exhibit.  
VANCOUVER, B. C., Oct. 2.—A movement is now on foot which will be backed by the government and cities of the province to make a display at the Columbian exposition at Chicago.

### THE GERMAN ARMY.

Recent Army Maneuvers Said to Have Been Successfully Carried Out By That Country.

The Victorious Chilians do Not Like the American People--To Visit the Colorado Desert.

Not Afraid of Russia's Threats--The Report on the Inter-Continental Railway.

LONDON, Oct. 2.—The German artillery maneuvers, which have been in progress in Juterberg, about twenty miles south of Berlin, have been attended by Count Schlieffer, chief of the general staff, and 240 staff officers, three regiments of artillery guards and four other regiments. A fort built on the shooting range eight years ago was made use of, and other works were erected for a test of the guns. A large number of heavy fortress guns were tried for the first time, the results being so satisfactory as to surprise the most experienced artillery officers. A feature of the occasion was the use of strong farm horses to draw cannon about the field instead of the transport horses used last year, and which were found too weak even for the lighter guns then employed. The artillery maneuvers are considered by the kaiser as hardly less important than those of the cavalry, and an elaborate report of the proceedings is being prepared for imperial information.

The proposition to reduce the term of full military service to two years has been received with favor by a portion of the German press, and is known to be favorably regarded by the kaiser. The very vastness and expense of the German military system, however, makes it difficult, if not impossible, to effect the change, which would be a great relief to the people. Some high military authorities say that it would impair the military vigor of the empire, while others have a contrary opinion.

### HATRED OF AMERICANS.

The Victorious Chilians Do Not Like the American People.

SAN DIEGO, Cal., Oct. 2.—The British steamer West India, from Iquique and Valparaiso for San Francisco, has stopped in the harbor for mail and provisions. Her captain confirms the reports of ill-feeling and abuse of Americans since the defeat of Balmaceda. His vessel was at Iquique when the news of the fall of the dictator was received, and he says that a terrific celebration immediately began. Carousing, dancing and all manner of excesses were indulged in, night and day, for a week. The feeling against Americans is especially bitter and outspoken at Valparaiso and Iquique, where one of the first moves made was to oust all Americans from the social and political clubs. In Valparaiso the congressionalists formed a great procession with the Chilean flag in the van and the British flag in the rear, amid cries of "God save the queen" and "Hurrah for England." England is on top as far as commercial interests are concerned, says the captain, and will remain so for a great many years to come, but the trade of the country is greatly overdone just now and no one will make any great profit out of it.

### Distinguished Geologists on a Visit to the Colorado Desert.

FLAGSTAFF, A. T., Oct. 2.—Thirty-five members of the fifth international congress of geologists returned from the Grand canyon of the Colorado desert last night, and today will visit the cave and cliff-dwellers. The party left Washington September 2, being composed of ninety-one members at the time. Major Powell, of the United States geological survey, took charge of the distinguished visitors here, and conducted them to the canyon. Some of the most notable foreign scientists who have visited this country are with the party, and are greatly pleased with the result of their labor. Several of the party will continue their tour into California, among whom is Professor Weather, who has written several valuable works on deserts.

### Not Afraid of Russia's Threats.

LONDON, Oct. 2.—No importance is attached by the British foreign office to Russia's threat of hostility in Asia, unless England consents to come to terms with Russia in Europe. A retired official of the foreign office said today that substantially the same menace was held out by Emperor Nicholas before the Crimean war to induce England to wink at an onslaught by Russia on Turkey, but the British government refused either to be coerced or cajoled, and Russia was beaten in the war that followed. The ex-official said he believed Russia's object in making the threat was to clear the deck for a descent on Constantinople by way of the Balkans, and with the cooperation of the Russian Black sea fleet.

### To Protect Foreigners in China.

BERLIN, Oct. 2.—The brisk exchange of telegrams between the European capitals continues, with a view of reinforcing the European squadrons in Chinese waters and affording better protection to European colonists.
