Dr. Briggs Trial to be Held Nov. 4th in the United States Courts.

Eastern Weather.

The Acts of the Jury are Legal—Attacked by Indians—Killed by the Cars.

Their Conduct Denounced.

LONDON, Oct. 6.—Newspapers at St. Petersburg denounce the conduct of merchants and members of the nobility for seeking profit from their stores of corn while poor peasants are starving. They make a strong appeal to the government to revoke the edict prohibiting the export of rye and substitute therefor a heavy tax on the exportation of all cereals. Reports come from Boku districts and elsewhere to the effect that thousands of persons are dying from starvation.

Dr. Briggs' Trial to Begin.

NEW YORK, Oct. 6.—The New York Presbytery resumed its work this morning. After some routine work was disposed of, Rev. A. Schiland of the committee appointed to answer Dr. Briggs' protest of May 11th, rose and read his report and Dr. Birch, chairman of the prosecuting committee, announced that he was about to furnish Dr. Briggs with a copy of the indictment and the arrangement with accused trial set for Wednesday, November 4th. The trial will be public in all probability, although the manner of conducting the trial is yet to be decided upon.

In the United States Court.

WASHINGTON, Oct. 6.—At the October term of the United States court which meets next Monday the first case to come up will be that of Thomas Henry Cooper owner of the schooner Sayward, brought to test on the question of jurisdiction of the United States over the seal fisheries in the Behring sea. The lottery cases are set down for argument after the Sayward case is disposed of. The cases involve the question of the constitutionality of the recent anti-lottery legislation. Following this will be heard a number of cases bearing upon the constitutionality of the McKinley tariff bill.

Snow in Minnesota.

ST. PAUL, Oct. 6.—A dispatch from Luverne in Southern Minnesota says: "It is snowing here today and work in the fields has been suspended."

Snow in Kansas City.

KANSAS CITY, Oct. 6.—Snow began falling here at 9 o'clock this morning and continued for about an hour. This is the first snowfall here of the season.

The Jury's Acts Legal.

SAN FRANCISCO, Oct. 6.—Attorney General Hart filed a lengthy writ of review in the supreme court today touching upon the impeachment of the present grand jury. The court, Justice McFarlane being the only one absent, decided that the case presented no points in the controversy that could be taken up by the supreme court and dismissed the writ. Attorney General Hart in an interview some time later claimed that this course virtually established the legality of the jury's acts.

Attacked by Indians.

WASHINGTON, Oct. 6.—The department of state was informed by the legation of the United States at Lima, that the report of the assassination of four American miners at Cajamaquilla, Peru, is incorrect. An attack was made on them by Indians and one miner was killed. The others escaped with the loss of all their property.

Killed by the Cars.

STAPLETON, S. D., Oct. 6.—A wagon containing four persons, a man, woman and two children was struck by an engine at a railroad crossing in Giffords this morning. The man and woman were killed instantly, and the children were picked up in a dying condition.

An English Statesman Dead.

OTTAWA, Ont., Oct. 6.—It was decided to reinstate all those officials of the department of the interior who were suspended in result of the revelations made before the public account committee.

Affairs in Chili.

NEW YORK, Oct. 5.—Advices to the Herald from Valparaiso, Chili, state that as the date of election day draws near, rumors about candidates for the office of president increase in number. Among those prominently mentioned is Senor Irarrazavel. It is understood, however, that a majority of leaders are in favor of tendering the honor to Admiral Jorge Montt, who, with Waldo Silva and Ramon Barros Luco form the widely-celebrated junta de gobierno. In fact, it is reported that he has already been urged to allow his name to be used as a candidate. No one could be selected who could satisfy all the factions as Admiral Montt would. Word has reached here of the arrival of the flagship San Francisco at Payta, Peru, of her orders from the American government to return to Valparaiso, and of her putting into Callao harbor on her return to this city. The news has not been received pleasantly here. The Chilians regard her return with undisguised disfavor.

Natural Gas for Stockton.

STOCKTON, Cal., Oct. 4.—The Stockton Gas company has bought the gas flow of John Jackson's big natural well, and is running the pipe to the company's works. It is said when the connections are made the old company will stop the manufacture of gas and furnish the natural product to the people at \$1 per 1000 feet. The Jackson gas well has a daily flow of about 1,000,000 feet, which is more than this city consumes. The old gas company has expended \$28,000 in boring a gas well, but met trouble in dropping a big tool in the well. They have been drilling out the lost tool for seven months past, and expect to soon have it removed. The city is pretty well lighted with natural gas.

Trouble Among Dock Laborers.

LONDON, Oct. 5.—There is great noise about warring one of the great shipping districts of this city on account of trouble among the dock laborers. The carmen, sailors, firemen and bullet-heavers' unions have in that locality commenced to block the Caron and Hermining, owing to the employment of men at weekly wages, when under the union's rules the work in dispute must be done by piece work. The consequences is that work on these wharves is almost at a standstill.

Carter Harrison Wants an Organ.

CHICAGO, Oct. 5.—The Chicago Daily Press company has completed its organization. Robert Laidblom is president of the company, and Max Polacheck general manager and treasurer. The entire capital stock, \$100,000 has been subscribed and allotted. The first issue will appear on October 18, and thereafter every evening and Sunday morning. It is understood the new paper will boom Carter Harrison for the mayoralty and will oppose Cleveland's re-nomination.

Attempt to Blow up the Palace.

TRISTE, Oct. 5.—A commotion occurred here today when it became known that an attempt was made to blow up the Episcopal palace. A porter in the palace found a large petard or bomb in one of the hallways. Attached to the petard was a burning fuse. The porter immediately pulled the fuse from the petard and extinguished it. The matter is being thoroughly investigated.

RUDA-PEST, Oct. 5.—Pester-Lloyd today publishes a sensational article declaring that the Russian government is making an enormous concentration of troops on the banks of the Pruth. SUSPECTED OF MURDER

To Secure \$1,000 in Gold a Tramp Murders a Mother and Son and Burns Their Home.

Rumors That ex-Governor Chiny of New Hampshire Will be the Next Secretary of War.

A Defaulting Cashier Wanted in a Pennsylvania Court—Other Brief News Notes.

PARKERSBURG, W. Va., Oct. 5.—A tramp named William Downey was arrested last night for the murder of Mrs. Henry Cosert and her son Jopling, the burning of the bodies and of the victims' home, and the robbery of \$1000 in gold. The scene of the tragedy was in Raleigh county. The family was a thrifty one and lived in a solitary place. Mrs. Cosert had a great liking for gold, and turned all she saved into it. For years she had been hoarding all her savings at her home, and had accumulated about \$1000. The charred remains of herself and son were found by a passer-by, who on Saturday morning, saw the smoking timbers of what was once their home. The community is much excited and would lynch the tramp if the evidence against him were stronger.

SECRETARY OF WAR.

A Possibility of the Selection of ex-Governor Chiny, of New Hampshire.

NEW YORK, Oct. 5.—The Herald's Washington correspondent telegraphs as follows: If ex-Governor Chiny, of New Hampshire, is not selected to succeed Secretary Proctor, there will be a great surprise among a number of officials at the war department. Just where these gentlemen got their information from is not known, but several of them having close relationship with Mr. Proctor express themselves as very certain of Governor Chiny's appointment. A noteworthy circumstance is the persistence with which they adhere to this belief. Since Mr. Proctor's return to Washington, Governor Chiny was one of the first possibilities spoken of among the army people, but as General Lew Wallace and others loomed up the gossip about the former subsided. Within the last few days, however, his name has come to the front again, and, as previously intimated, the army people have practically accepted his appointment as a foregone conclusion.

THE MISSING CASHIER.

An Effort Will Be Made to Bring Back a Pennsylvania Defaulter.

HARRISBURG, Pa., Oct. 5.—The story that William Livsey, the missing cashier of the state treasury, whose evidence is wanted by the legislative investigating committee, is in Canada, is generally credited here. Mr. Livsey's father lives in Canada, and it is thought he went there when he was discovered in Milwaukee. It is understood that the state authorities want him badly, and, as a consequence, little surprise was expressed when it became known that Pattison and other state officials are arranging to secure his extradition. Governor Pattison was asked on what charge Livsey would be arrested in Canada in order to secure his extradition, but declined to say anything on the subject and said he preferred not to be quoted. The governor remarked casually that Livsey was wanted, and his manner betokened that at the proper time there would be brought out evidence strong enough to secure his extradition. It is said that the matter is in the hands of the attorney-general.

The French Pilgrim Episode.

ROME, Oct. 5.—The streets were filled today by people shouting for the king, mingled with cries against the pilgrims and the pope. The day passed off, however, without any violence. In Milan the people threatened violence to some foreigners who refused to join in the expression of loyalty, and in Florence the French residents thought it prudent to remain indoors. Everywhere the greatest devotion was expressed for the royal family and the cause of Italian unity. The incident in the Pantheon rained a flame that shot like wild fire from one end of the peninsula to the other.

Low Water in Eastern Rivers.

CINCINNATI, O., Oct. 5.—Eighteen steamboats, loaded with freight and carrying passengers, are aground between this city and Point Pleasant, W. Va., where there is but one foot eight inches of water. Trains are crossing the Ohio river at dozens of points. It is estimated low water is causing a daily loss of \$10,000.

Four Tramps Drowned.

MEMPHIS, Tenn., Oct. 5.—Two freight trains ran off the transfer yesterday, and four tramps were drowned in the river in them.
