HARRISON'S REMARKS

He Makes a Speech to the Ecumenical Methodist Council at Washington, D. C.

The Railroads of Missouri Have a Hard Time.—Gen. Miles Wants to Exhibit the Militia at Chicago.

Twelve Carloads of Beans for Chicago.—The Eight Hour Law Declared Constitutional.

WASHINGTON, Oct. 17.—President Harrison today attended the ecumenical Methodist council, and in response to repeated calls, the president made a short address in which he said: "I came here this morning to make an expression of my respect and esteem for this great body of delegates assembled from all countries of the world, and much more to give manifestation of my respect and love for that greater body of Christian men and women for whom you stand."

"Every ecumenical conference is a distinct step in the direction not only of unification of church, but unification of humanity. You have today as a theme of discussion the subject 'International Arbitration,' and this being public and an enlarged use of word, perhaps makes my presence here as an officer of the United States especially appropriate. (applause). The subject is one which has long attracted the adherence of the United States as well as that of any other Christian power in the world."

Another Railroad Suit.

ST. LOUIS, Oct. 17.—The morning paper's says the United States Deputy Marshal served a subpoena upon the officials of the Missouri Pacific, Wabash, Alton and other roads to appear before the general grand jury the coming week. The complaints, it is said, are founded upon the allegations of the payment of rebates by commissions, etc., to secure business.

To Exhibit the Militia.

WASHINGTON, Oct. 17.—General Miles in his annual report recommends that the national guard of the country be mobilized or assembled at the World's Columbian Exposition in 1893, and that congress be requested to make an appropriation to pay the cost of transportation.

A Big Snap for Chicago.

SATICOY, Calif., Oct. 17.—The first solid bean train, consisting of twelve cars, leaves Saticoy today, consigned to Porter Bros. company, Chicago. It was shipped by the Farmers Alliance of Ventura county. This train runs through to its destination as a special train.

In Favor of the Eight Hour Law.

AFFAIRS IN CHINA.

Very Threatening Attitude of the Chinese Towards Foreign Residents.

SHANGHAI, Oct. 16.—Many warships have arrived at Shanghai. Rumors are abroad that the insurgents are to set fire

to the European quarter. A British subject named Mason, leagued with Kolahue, will be tried at the assizes next week on a charge of transporting contraband arms and dynamite consigned to and intended for the insurgents. The situation remains serious. Germany has entered into the agreement of the powers against China. Gross deception has been practiced in Pekin in the hope that Germany would again refuse to enter the combination. Recently the German minister, dean of the diplomatic corps at Pekin, compromised the dignity of his colleagues in the matter of an audience for the purpose of securing Chinese favor and concessions for public works and railways inaugurated at Kraiping, near Tientsin. He appeared to act for the agency of the iron-works, conducted by Krupp's concern at Essen, seeking for a monopoly in furnishing rails and guns. It is reported that the old-time official friendship between Germany and China is a thing of the past. Minister Brandt also demands indemnity of the outrages against foreigners, having realized the colossal deception of the Chinese. A Tientsin message says that the French minister, Lemair, has returned to his post at Pekin, and confirms the unanimous agreement of foreign powers.

Effects of the Storm.

LONDON, Oct. 15.—The reports from the storm are more and more appalling. It appears to have raged with as much destructiveness in the western islands as at Dover, and the public are fearful of the news that may be on its way from this humble and thinly inhabited island. The fierceness of the gale at the Isle of Man is said to have been without example in the history of that little home-ruled island, and nearly the whole population turned out either to succor the ship wrecks or witness the magnificent spectacle of the gale. Along the southern and eastern English coast the storm seems to have done its worst.

All Quiet in Brazil.

WASHINGTON, Oct. 16.—The charge d'affaires of the Brazilian embassy has received official cablegrams, dated Rio Janeiro, declaring that all alarming rumors against Brazil without foundation, and are the invention of speculators.

A German Vessel Condemned.

BERLIN, Oct. 16.—The cruiser corvette Bismarck has been stricken from the German warship list on the ground of being unfit for naval use, as shown by recent maneuvers. The emperor sanctions the dismissal of the Bismarck from the navy.

Balfour is Well Received.

LONDON, Oct. 16.—Newspapers commenting on Balfour's appointment as first lord of the treasury, the position held by the late William Henry Smith, say the choice is a good.

Declared a Dividend.

BOSTON, Oct. 17.—The regular monthly dividend of two cents per share, was declared by the Cour d'Alene Silver Lead Mining company, payable November 10th.

A Heavy Fire.

KINGSTON, N. Y., Oct. 17.—The building of the Lawrence Cement company at Bonewater was totally burned last night. The loss is \$300,000. Insurance \$100,000.

A Royal Marriage Arranged.

ST. PETERSBURG, Oct. 16.—It is reported a marriage has been arranged between the Czarowitch and the Duchess Elsea of Wutttemberg.

Will Prohibit Wheat Exportation.

LONDON, Oct. 17.—Special to the Times from Miplovitz, in Prussian Silesia, says the Russian authorities will prohibit the exportation of wheat at the end of the month.

DON'T WANT FARMS.

The Russian Jews do Not Want to Farm, They Had Rather Live in Town.

Taking Their Property by Force.—A Row Between the Doctors.—A Political Scheme.

The Appearance of the Socialists Improving.—An Electrical Freak.—Railroad to Mexico.

MIDDLETOWN, Conn., Oct. 16.—Two Farms at East Haddam, bought a year ago by Russian Hebrews with money supplied from the Baron Hirsch fund, have been abandoned by their purchasers who have gone back to New York, and the houses are unoccupied. A Russian Hebrew was supplied with money from the fund to buy the Ladd farm in Salem, and also to purchase the stock. He left the cattle on the farm running loose, and they are now being cared for by Mr. Ladd. Hebrews who have come here and have been supplied with farms do not seem to like farming life, and in a large number of cases, as soon as they pick up a small knowledge of English, they go to some of the large cities.

Taking Their Property by Force.

BALTIMORE, Oct. 16.—United States deputy marshals today, with a writ of replevin, went to the Washington City & Point Lookout railroad and seized a locomotive. They also took possession of the engineer and fireman, ordered them to get up steam, and started down the road toward Washington to seize all the rolling stock they could find, and, making up a train with a locomotive at each end, went back to Baltimore. The rolling stock of the road was leased from Post, Martin & Co. in New York. The lease money is in arrears about \$10,000, and they were determined thus to get back their rolling stock.

A Row Between The Doctors.

ST. LOUIS, Mo., Oct. 16.—The affairs of the Pan-American congress have developed another medical sensation. It appears the American Medical Association appointed Dr. A. L. Gipon to represent the medical department of the United States navy, but Dr. Gipon being extremely busy Secretary Tracy sent Dr. Howard E. Ames in his stead. The officers of the congress declined to receive Dr. Ames, except as a proxy. This Ames would not consent to, and he was therefore entirely ignored in the proceedings of the committee.

The Schemes of a Politician.

LONDON, Oct. 16.—The Right Hon. Joseph Chamberlin evidently does not mean that the liberal unionists shall return to the liberal fold. He is devoting considerable study to the question of labor in politics both in England and America, and he is said to intend, like Sir John Gorst, to introduce legislation that will satisfy the legitimate aspirations of labor without alienating the more moderate supporters of the unionist cause.

The Socialists Are Progressing.

BERLIN, Oct. 16.—The attendance at the opening of the Erfurt congress included visitors, as delegates and private individuals, from France, Holland, Spain, Switzerland, Italy and Roumania. The congress presented a surprise to those who had expected a repetition of the scenes witnessed last year at Halle. The deputies are almost without exception respectable dressed, and their behaviour would be creditable in the reichstag.

A Curious Electrical Fact.

LONDON, Oct. 16.—A curious fact is reported in connection with the visitation of lightning to the central tower of the Lichfield cathedral yesterday. When the lightning struck the tower, the valuable chimes were saved by the iron railings surrounding them, which acted as a conductor for the electric fluid. Lord Grimthorpe, who was in the tower at the time and was severely shocked, is recovering.

Railroad From Texas To Mexico.

SAN ANTONIO, Tex., Oct. 16.—Frank Brittain, in from the Mexican border, says the last of the bonds of \$150,000 for the Pan-American railway is raised, and the party of Boston capitalists accepting it have put surveyors on the route with a promise of beginning construction from Pectoria, Tex., southward within twenty days.

Chinese Crowding Over the Border.

ST. VINCENT, Minn., Oct. 16.—On account of the strict enforcement of the anti-Chinese regulations elsewhere, the Celestials are beginning to swarm over the Minnesota and North Dakota borders, which are guarded only by six customs officers.

Lady MacDonald a Baroness.

OTTAWA, Ont., Oct. 16.—Lady MacDonald, relict of the premier, has received a royal patent creating her a baroness.
