The Chronicle is the Only Paper in The Dalles that Receives the Associated Press Dispatches.

The State Board of Commerce has started in earnest to raise the sum of \$25,000 for a suitable display at the world's fair. Charles H. Dodd, president of the board has addressed an open letter to the people, appealing to their patriotism and state pride to make this movement a success. The letter states that something can be done with \$25,000 but at least \$100,000 ought to be expended in preparing for a creditable exhibit and in caring for it during the six months' continuance of the exposition. Our neighboring state on the south has appropriated \$300,000 and our infant neighbor on the north \$100,000 of public money for the purpose. 'A vigorous canvass of the state will be made by W. H. H. Grant, the accredited agent of the law. board and unless \$25,000 can be raised within a reasonable time the effort will be abandoned. Less than that sum, it is thought, would not produce results which would be otherwise than mortifyting to the pride of every Oregonian. Notes of hand will be received payable in six months after date, conditioned

This is another il-Instration of the old adage that one has got to go away from home to get 'the news. The directors of the Navigation company at this place know nothing of is pitiful. The whole thing is a canard, invented most likely by some prophet of evil who would not subscribe a dollar to the new company or help to open the river to navigation for fear that any of river to navigation for fear that any of the river traffic should be diverted from paying toll to Portland. CALAMITY HOWLERS.

of the prophets are invoked against them. The National Reformer says:

Interest is our great national sin, the curse of the land as it was in the days of curse of the land as it was in the days of Nehemiah, and, as in those days, the people are in sore distress. They have mortgaged their farms and their sons and daughters are bound in industrial slavery. The wail of the poor is heard throughout the land. The hand of oppression is upon the people. Aged men are bowing in prayer and asking God's interposition in behalf of the impoverished people. Women with tears in their eyes behold their children growing up in ignorance and clothed in rags are imploring divine aid. The people are loaded with debt and interest is eating up the profits of industry.

Surely the man who could pretend that such a picture is applicable to any part of the Pacific Northwest, let alone Oregon, is a fit subject for a lunatico inquirendo. In the name of our great and prosperous state we protest against such calamity howlers.

A Prairie Fire Raging.

MUSKOGEE, I. T., Oct. 24 .- A disastrous prairie fire is raging south of here. The corn and orchards are being destroyed. The damage is incalculable.

As a matter of fact, the people of Oregon, especially those in the first conthat all subscriptions are contingent on gressional district, need the services of the aggregate amount so raised, being at Hon. Unless upon his part, to make any pledges as this movement shall meet with success to his retirement from the services of it is more than probable that all efforts to have our state represented at the world's fair will be abandoned and Oregonians visiting the great show will have the mortification of finding that owing the mortification of finding that owing the people, so long as they desired those services. It is not the first time that an opposition line of boats has been running between this city and Portland and every time the result has been of great benefit to The Dalles. Already the effects of the could's line are markedly felt in a

Training for Modern Life. Every man ought to know what kind of a universe he is in, what his relations to it are, what and where invariable ideals he may consistently cherish that his work may not be in vain. It hardly needs to be said, that neither literature nor art nor history nor theology can acquaint a man with these. Only science
