THE DALLES, Oct. 27, 1891. RAIN. Weather forecast till 12 m. Tuesday: Cloudy weather, with occasional showers; slightly cooler.

TUESDAY, OCT. 27, 1891.

The Chronicle is the Only Paper in The Dalles that Receives the Associated Press Dispatches.

LOCAL BREVITIES.

Wasco, Sherman county, wants a hardware store.

Crook county script is selling at ninety cents on the dollar.

Brother C. E. Jones of the *Moro Observer* is in the city.

Mr. and Mrs. H. W. Wells of Sherar's Bridge are in the city.

Uncle Jimmy Farris has paid a flying visit to The Dalles. He will return to Wapinitia tomorrow.

Messrs. Louis Paquet and B. F. Smith of the firm of Paquet & Smith of Portland are in the city.

A live pigeon shooting match will be held on the beach Wednesday morning, October 28th, commencing at 10 o'clock.

Billy Cantrel, John McAtee and Frank Swift of Tygh Valley, returned from Portland last night where they had gone with a band of beef cattle for Butler and Spaulding.

Rev. A. C. Spencer, the new M. E. minister of this place, returned last Sunday morning from a trip to Pennsylvania where Mrs. Spencer will probably remain during the winter.

The wheat bought for the Union Pacific company was placed on a scow yesterday and towed over from North Dalles this morning. It was then placed on the cars, to be taken to Portland.

Five dollars and ten cents, more lost to the Union Pacific. Sheriff Leslie of Sherman county caught on to our suggestion and purchasing a ticket on the cars from Grants to The Dalles, went down on the Baker. That means the Union Pacific gave Sheriff Leslie five dollars and ten cents on the round trip for traveling on the Baker.

A private letter from a Wasco county farmer now in Benton county, this state, says: "Things in this part of the country are in a worse condition than in Wasco county. Everybody is laboring under the burden of a mortgage." This is precisely what we insist on. A man leaving Wasco county to better his condition will strike twenty places that are worse for everyone that is better.

Mr. Jacob Craft who is now a resident of The Dalles has just returned from a week's trip to the country. He made it his special business to ascertain the feeling of the farmers with reference to the Regulator and the effort now being made by the Union Pacific to drive her off the river. He reports that he did not find a single one of them who did not express his willingness to contribute of his means, if need be, to sustain the opposition. So far as the country is concerned there is only one sentiment. The Regulator must be sustained at all cost.

The Chronicle man had the pleasure of meeting yesterday an old time acquaintance in the person of James Gray of Wapinitia. Jim has been almost lost to the world for some years but during these years he has been steadily acquiring a fine farm on the Wapinitia flat. Mr. Gray tells us that his wheat went 30 bushels, and his oats over 40 bushels to the acre and it was all spring plowing

too, and that the grain is plump and of an excellent quality.

J. C. Abbott of the Beaver Creek, Grant county hot springs was in the city yesterday with his brother J. P. Abbott of Wapinitia and both gave this office a pleasant call.

About nine years ago when Master Charles Lewis, son of Captain Lewis, of this place was a resident of Grant county and about five years of age he had for a companion a little fellow near his own age who had lived in The Dalles and of course had been brought up piously. The two little fellows had spent the day together and Master Charles came home at night full of such religious instruction as his companion was able to impart.

About the San Jose Scale.

The Dalles, October 26, 1891. In the *Oregonian* under date of the 23rd inst., a statement is made by Mr. S. A. Clarke that "During a recent visit to this place he was informed that some fruit growers confessed that the San Jose scale had a footing there, but did not think it was doing much harm, owing to the presence of lady-bugs there in great numbers, as they devoured all insect pests."

The facts in the case may be stated plainly—that nearly all the gardens in the city, and many of the largest orchards for several miles about it, are overrun with the scale, that many have been cut down and destroyed, and, in our opinion, many more must share the same fate before we shall be rid of the scale. We would be glad to know that our little friends the lady-bugs were "here in great numbers," but such is not the case, and the rapid spread of the scale in this vicinity this season leads to the conclusion that our orchards are doomed to destruction if we rely upon the increase of lady-bugs alone to save them.

Mr. Clarke also states that he "was amused (?) to hear the following story at the expense of Mr. Varney, the horticultural champion, and inspector of fruit pests in Oregon." "Some one found the scale in Mr. Varney's nursery and it became current that the scale was there. Mr. Varney came to one of our pomological meetings and stated that a certain person had industriously circulated such a report to his injury, that he and his men had searched diligently for the scale and found none, and asked that some members of the society might be delegated to go and examine his nursery and offered to pay for the work."

We, the writers of this article, visited Mr. Varney's place, and found no scale in his nursery proper, but did find a very few scales on two bearing orchard trees. Mr. Clarke further says: "The committee was duly appointed and made the inspection, to find the first tree they examined fairly covered with scale. While the scale pests were found by the wholesale, nothing has been heard up to date, of the promised fee of \$10." In justice to Mr. Varney we say that the above statement is false, for he promptly tendered us the promised \$10, at the time, and as promptly exterminated the scale in those trees, as we learned by later inspection.

and several other old time chummies of mine before I became a blacksmith. We had a grand old time I tell you, and champagne to no end, you bet. The fact is I never drank anything but champagne after I crossed the state line. All high railroad functionaries do it and I had to be in the swim you know. Expensive? Of course it was, but we railroad men never think of expense. You never met Chauncey, I suppose? Well, he is one of the jolliest fellows in the world. One night while I occupied a grand suite of rooms at the Fifth avenue hotel, New York, and just as my body servant had dressed me for dinner, Chauncey and Jim and Jay and the Vanderbilt boys and half a dozen others—but I'll tell you about this some other time."

MARRIED.

At Detroit, Michigan, October 20, 1891, Miss A. K. Booth, of this city, and Mr. John T. Wilson, of San Francisco, California.
