LOCAL BREVITIES.

Hon. F. P. Mays is in the city. The pigeon shooting match is in full blast on the beach as we go to press.

W. M. Davey of Sherar's Bridge and D. Taylor of Antelope are registered at the Umatilla house.

Isaac Joles brought in a canvass back duck and brandt goose this afternoon which he shot in the slough opposite the city.

Mrs. J. Smith, of Salem, daughter of Dr. L. L. Rowland and niece of George Rowland of this city came up last night on the Regulator to visit her uncle.

The Dalles Lumbering company's flume got choked with lumber this morning near the garrison and considerable property was flooded in consequence.

A resident of twenty years in this city remarked to the CHRONICLE man to-day that he never saw so many toughs in this town at one time as there is here at present.

If it is rather a singular thing that of all the city maps in this town not one is correct and no two are alike. This is a great inconvenience and will have to be remedied sometime.

Report has it that George Smith has stopped buying wheat at North Dalles and left the field to M. A. Moody.

The wife and child of Mr. William Butler the lumber dealer came up last night on the Regulator and intend to make this city their future home.

The fine rain we had last night will be worth thousands of dollars to this country. It will put summer fallow in excellent condition for seeding and possibly for plowing.

The Regulator had a fine load of freight and passengers both coming up Monday night and going below Tuesday morning.

A new shed 24x40 feet has been erected at the landing for protecting freight from the interior that ordinarily has to lie over twenty-four to forty-eight hours.

Piles are being driven rapidly for the new wharf which, when finished, will make an excellent and convenient landing.

Moody's Wheat Ferried Free.

Union Pacific men report that their Dalles boats are doing a largely increased business on account of their recent cut in passenger rates.

All indebted to the firm of Fish & Bardon will please call at the store of Mays & Crowe and pay up all bills immediately to Fish & Bardon.

I hereby give notice that I will not be responsible for any debts contracted by my wife, Mrs. Jennie Willig, after this day.

for publication, but admit that their consignments of grain from there have fallen off of late, their agents reporting that Moody was paying more than the market price, including the freight would justify.

The company's boats are still said to be running at a loss. The D. S. Baker, which runs above the Cascades, is said to have been maintained at a loss of \$200 to \$300 a month.

H. W. Wells of Sherar's Bridge brought to this office yesterday six head of cabbage which he raised on his stock ranch amid the dry hills east of the Des Chutes, nearly opposite the Mutton mountains and some fifteen hundred feet above the level of the sea.

Very few have any idea of the amount of business done at the United States land office at this place. The following statement kindly placed at our disposal by Captain Lewis gives the number of entries, the number of final proofs and the amount of cash receipts for the quarter ending September 30, 1891:

Table with columns: Acres, Final Proofs, Cash Receipts, Total number acres, Cash receipts.

Language of Elephants.

The language of the elephant is as well understood by the East Indians and those who have to do with the large animals as if the communication was made in their own tongue.

A sportsman engaged in hunting elephants had approached a large tusker when he found, to his chagrin, that he had dropped his ammunition.

The tusker was feeding and moved slowly around until he suddenly came below the concealed sportsman.
